# Agenda 21 - In one easy lesson

## *What is Sustainable Development?*

According to its authors, the objective of sustainable development is to integrate economic, social and environmental policies in order to achieve reduced consumption, social equity, and the preservation and restoration of biodiversity. Sustainablits insist that every societal decision be based on environmental impact, focusing on three components; global land use, global education, and global population control and reduction.

**Social Equity (Social Justice)** Social justice is described as the right and opportunity of all people *“to benefit equally from the resources afforded us by society and the environment.”*

**Redistribution of wealth. Private property is a social injustice since not everyone can build wealth from it. National sovereignty is a social injustice. Universal health care is a social justice.** All part of Agenda 21 policy.

## ***Economic Prosperity?***

**Public Private Partnerships (PPP).** Special dealings between government and certain, chosen corporations which get tax breaks, grants and the government's power of Eminent Domain to implement sustainable policy. Government-sanctioned monopolies.

**Local Sustainable Development policies Smart Growth, Wildlands Project, Resilient Cities, Regional Visioning Projects, STAR Sustainable Communities, Green jobs, Green Building Codes, "Going Green," Alternative Energy, Local Visioning, facilitators, regional planning, historic preservation, conservation easements, development rights, sustainable farming, comprehensive planning, growth management, consensus.**

### ***Who is behind it?***

**ICLEI – Local Governments for Sustainability (formally, International Council for Local Environmental Initiatives). Communities pay ICLEI dues to provide “local” community plans, software, training, etc.**

**Addition groups include American Planning Council, The Renaissance Planning Group, International City/ County Management Group, aided by US Mayors Conference, National Governors Association, National League of Cities, National Association of County Administrators and many more private organizations and official government agencies.**

**Foundation and government grants drive the process.**

## *Where did it originate?*

The term Sustainable Development was first introduced to the world in the pages a 1987 report (Our Common Future) produced by the United Nations World Commission on Environmental and Development, authored by Gro Harlem Brundtland, VP of the World Socialist Party. The term was first offered as official UN policy in 1992, in a document called UN Sustainable Development Agenda 21, issued at the UN's Earth Summit, today referred to simply as Agenda 21.

Gro Harlem Brundtland is a Norwegian politician, who served three terms as Prime Minister of Norway and as Director-General of the World Health Organization from 1998 to 2003

## ***What gives Agenda 21 Ruling Authority?***

More than 178 nations adopted Agenda 21 as official policy during a signing ceremony at the Earth Summit. ***US president George H.W. Bush*** signed the document for the US. In signing, each nation pledge to adopt the goals of Agenda 21. In 1995, President Bill Clinton, in compliance with Agenda 21, signed Executive Order #12858 to create the President's Council on Sustainable Development in order to ***"harmonize"*** US environmental policy with UN directives as outlined in Agenda 21. The EO directed all agencies of the Federal Government to work with state and local community governments in a joint effort ***"reinvent"*** government using the guidelines outlined in Agenda 21. As a result, with the assistance of groups like ICLEI, Sustainable Development is now emerging as government policy in every town, county and state in the nation.

### **Revealing Quotes From the Planners**

***"Agenda 21 proposes an array of actions which are intended to be implemented by EVERY person on Earth...it calls for specific changes in the activities of ALL people... Effective execution of Agenda 21 will REQUIRE a profound reorientation of ALL humans, unlike anything the world has ever experienced "* Agenda 21: The Earth Summit Strategy to Save Our Planet (Earthpress, 1993).**

## *Agenda 21 and Private Property:*

*“Land...cannot be treated as an ordinary asset, controlled by individuals and subject to the pressures and inefficiencies of the market. Private land ownership is also a principle instrument of accumulation and concentration of wealth, therefore contributes to social injustice.”* From the report from the 1976 UN's Habitat I Conference.

**Queen Elizabeth II, head of state of the United Kingdom and of 31 other states and territories, is the legal owner of about 6,600 million acres of land, one sixth of the earth's non ocean surface. She is the only person on earth who owns whole countries, and who owns countries that are not her own domestic territory.**

### ***Largest five personal landowners on Earth***

|                               |                     |
|-------------------------------|---------------------|
| Queen Elizabeth II            | 6,600 million acres |
| King Abdullah of Saudi Arabia | 553 million acres   |
| King Bhumibol of Thailand     | 126 million acres   |
| King Mohammed IV of Morocco   | 113 million acres   |
| Sultan Quaboos of Oman        | 76 million acres    |

## Ted Turner

**Land:** Acreage totaling over 2 million. In The United States, he owns thousands of square miles of hunting grounds in Georgia and Montana. He also has roughly 11,000 acres of land in the Patagonia region of Argentina.

**Sheik Hamad Bin Khalifa of Qatar**

**Land:** Basically... Qatar. The King owns the country and all 4,415 miles of it.

**Background:** Bin Khalifa has been a modernizing voice and Western-friendly face in the Middle East since taking the throne in 1995.

**James, Arthur and John Irving**

**Land:** The approximately 3.6 million acres of land held in Maine, New Brunswick and Nova Scotia make the Irvings the largest landowners in those states and provinces.

**Background:** As heirs to the J.D. Irving Group of Companies fortune, the three Canadian brothers also inherited thousands of square miles of forest land that the company uses as paper and pulp materials in one part of their very diversified business portfolio.

**King Mswati of Swaziland**

**Land:** All 6,704 square miles of Swaziland.

**Background:** One of the last "Absolute Monarchs" in the world, King Mswati quite literally owns *all* of his Southern African nation. There are no land titles or deeds as the national law dictates that the throne is the sole landowner.

## Emir of Kuwait

**Land:** 4.4 million of the roughly 7 million of acres that make up the nation of Kuwait.

**Background:** The Emir is an inheritor to the throne of Kuwait and has managed to hold onto the country, and his own land with periodic help from U.S. intervention. Part of the land that the Emir does not control is American military property that serves as the largest American base in the region.

## King Letsie 111 of Lesotho

**Land:** All 11,718 square miles of Lesotho, including the country's diamond mines.

**Background:** King Letsie is his second stint as Lesotho's monarch after being replaced by his exiled father and then being deposed upon his return, then taking the throne again after his old man's death less than a year later. And while the monarchy in Lesotho is mostly ceremonial, Letsie retains legal title over the nation's lands.

**Land:** All 15,000 agriculturally lush and unique square miles of his Kingdom of Bhutan.

**Background:** The former student of Philips Andover Academy was coronated in 2008 and has been the force behind Bhutan nascent democratization.

**King Jigme Khesar Namgyel Wangchuck of Bhutan**

## **King Abdullah II of Jordan**

**Land:** All 35,637 square miles of The Hashemite Kingdom of Jordan, one of the very few members of both The Arab League and The World Trade Organization.

**Background:** The heir to his father, the wildly popular King Hussein, and onetime extra on Star Trek: The Next Generation, is one of The United States' most loyal allies in the region and is currently facing his own realities of the upheavals throughout the Middle East.

## **King Gyanendra of Nepal**

**Land:** The 57,000 miles that make up Nepal, meaning that he also, technically owns Mount Everest.

**Background:** Despite the country's move to a Maoist Republic political structure in the 1990's, the royal family retains nominal ownership of all Nepal. Gyandera is a titular head of state but antithetically friendly with the socialist government.

## Sultan Qaboos of Oman

**Land:** The mostly desert nation of Oman, which also includes the ports along the Coast of Sur, a major point of entry for trade in the region.

**Background:** Qaboos is the ruler of Oman and the head of its military. He is a fairly Westernized leader in the context of his neighbors, even allowing women to serve in his cabinet, referred to as the "Diwan."

**Land:** All, approximately, 128 million acres of Thailand including its tourist-friendly coast line and economically strong cities.

## King Bhumibhol of Thailand

**Background:** Bhumibhol has been King since 1950, 11 years after the country changed its name from Siam to Thailand.

He is the longest serving monarch in Asia and so popular is he in Thailand that a rumor of decline to his health caused a shock to the nation's financial markets in 2009.

**King Mohammed VI of Morocco**

**Land:** The 175.6 million acres of Morocco, the historically key point of trading between Europe and Africa, which has retained a rather healthy economy throughout the turbulent 20th and early 21st Centuries.

**Background:** Mohammed is the first major proponent of democracy in the the history of a monarchy that dates back to the year 1036. His ownership of Morocco's lands and his inherited fortune have led to estimates of his entire wealth being estimated at around \$2 billion.

## Pope Francis

**Land:** The 110 acres of The Holy See that constitute Vatican City. Also, roughly 177 million more acreage of various lands owned by the Catholic Church throughout the globe, including the hundreds of Vatican embassies that are legally titled to The Holy See as an independent nation.

**King Abdullah of Saudi Arabia**

**Land:** Absolute royal control over the oil-rich 830,000 square miles of The Kingdom of Saudi Arabia and a total GDP that was estimated at roughly \$618 billion for last year.

**Background:** The heir to the throne of his father, King Fahd, Abdullah has continued his father's dance of diplomacy with the U.S. over rights to Saudi oil. His recent dealings with a popular uprising at home have thrown oil prices into turmoil.

**Land:** 6.6 billion acres of land worldwide including Great Britain, Northern Ireland, Canada, Australia and a few other spots here and there. Also, the all-important Falkland Islands.

**Background:** England's third (and most likely soon to be second) longest serving monarch, Elizabeth II retains royal title over The British Commonwealth and as such manages to keep her face on money throughout the globe.

With her 6.6 billion acres, Elizabeth II is far and away the world's largest landowner, with the closest runner-up (King Abdullah) holding control over a mere 547 million, or about 12% of the lands owned by Her Majesty, The Queen.

## *Agenda 21 and Private Property:*

*“Private land use decisions are often driven by strong economic incentives that result in several ecological and aesthetic consequences...The key to overcoming it is through public policy...”*Report from the President’s Council on Sustainable Development, page 112.

*“Current lifestyles and consumption patterns of the affluent middle class – involving high meat intake, use of fossil fuels, appliances, home and work air conditioning, and suburban housing are not sustainable.”* **Maurice Strong, Secretary General of the UN’s Earth Summit, 1992.**

**His name was Maurice Strong (pictured on the right), Canadian billionaire, diplomat and UN apparatchik, and though you may not have heard of him, he probably did more to make your world a more expensive, inconvenient, overregulated, hectored, bullied, lied-to, sclerotic, undemocratic place than anyone post Hitler, Stalin and (his personal friend) Mao**

**Paris, COP21 Climate Summit – One of the most dangerous men of the Twentieth Century has just died: and the weird thing is, hardly anyone noticed.**  
<http://www.breitbart.com/big-government/2015/12/01/ding-dong-godfather-global-warming-dead/>

**He was the main instigator of the blueprint for arguably the most sinister and insidious assault on liberty and free markets: Agenda 21.**

**“Our concept of ballot box democracy may need to be modified to produce strong governments capable of making difficult decisions, particularly in terms of safeguarding the global environment.”**

**Current lifestyle and consumption patterns of the affluent middle class – involving high meat intake, use of fossil fuels, appliances, home and workplace air-conditioning and suburban housing – are not sustainable. A shift is necessary which will require a vast strengthening of the multilateral system, including the United Nations.**

Strong had his start as a petroleum entrepreneur and became president of Power Corporation until 1966. **In the early 1970s he was Secretary-General of the United Nations Conference on the Human Environment and then became the first Executive Director of the United Nations Environment Programme.** He returned to Canada to become Chief Executive Officer of Petro-Canada from 1976 to 1978. He headed Ontario Hydro, one of North America's largest power utilities, was national President and Chairman of the Extension Committee of the World Alliance of YMCAs, and headed American Water Development Incorporated. Molten Metals Technology and Cordex Petroleum were two failed business ventures that went bankrupt and dissolved.

***“We must make this place an insecure and inhospitable place for Capitalists and their projects – we must reclaim the roads and plowed lands, halt dam construction, tear down existing dams, free shackled rivers and return to wilderness millions of tens of millions of acres or presently settled land.”*** Dave Foreman, Earth First.

*“Individual rights will have to take a back seat to the collective.” -Harvey Ruvin, Vice Chairman, ICLEI. The Wildlands Project*

Perhaps you're more familiar with the name "George Soros" than with "ICLEI." Well, guess who funds parts of ICLEI? In 1997, Soros's Open Society gave ICLEI \$2,137,415 to support its Local Agenda programs. This same Soros group – Open Society – has destabilized and overturned several nations... Yugoslavia in 2000, Georgia in 2003, and Ukraine in 2004. Bringing a mere American city or county to his way of socialist thinking points out how well Soros has schooled himself in the communist philosophies of Antonio Gramsci who said to seek out the emotionally ill and socially abused to achieve global government objectives. Even Mussolini feared the power of Gramsci's philosophies and had him imprisoned.

ICLEI-Local Governments for Sustainability USA is devoted to cities and counties engaged in sustainability, climate protection, and clean energy initiatives. They represent, among others, the Greenies of the world – those wanting to eliminate any job having to do with fossil fuels (it doesn't bother them that international economies still rely on fossil fuels; "People will adjust," is their mantra – "Many people will die while they are adjusting" is my mantra). ICLEI followers recently met and decided that rocks and weeds should have equal rights with humans. It takes the word "anthropomorphic" to a new level.

## *What is not sustainable?*

Ski runs, grazing of livestock, plowing of soil, building fences, industry, single family homes, paves and tarred roads, logging activities, dams and reservoirs, power line construction, and economic systems that fail to set proper value on the environment.” UN’s Biodiversity Assessment Report.

***Hide Agenda 21's UN roots from the people!***

***"Participating in a UN advocated planning process would very likely bring out many of the conspiracy- fixated groups and individuals in our society... This segment of our society who fear 'one-world government' and a UN invasion of the United States through which our individual freedom would be stripped away would actively work to defeat any elected official who joined 'the conspiracy' by undertaking LA21. So we call our process something else, such as comprehensive planning, growth management or smart growth." J. Gary Lawrence, advisor to President Clinton's Council on Sustainable Development.***

The Soros plan uses operatives to infiltrate countries. They talk about things that sound SO humanitarian – clean air, good schools, saving the forests, making our water clean ... everything any sane person responds to positively. He insists on an “independent media” (meaning one that broadcasts news and views that supports his communist philosophy), and works to destabilize the nation by manipulating business and finance – his destruction of the Bank of England serves as a good example (and he’s working overtime on our banking system).

One of the things ICLEI supports is sustainable management of “open spaces.” They don’t bother to tell you that *as of this moment the “open spaces” they want is private property belonging to people who live there.* The plan is to herd the current residents on that land into major metropolitan centers – your state’s biggest cities – and off of the land those people own. Monsanto can do a much better job of farming their genetically altered fruits and vegetables than family farmers can, after all.

<http://www.newswithviews.com/Barnewall/marilyn166.htm>

**ICLEI helps communities plan how to use the newly vacated/stolen land – they figure out who will use it, and how. They want no human footprints in rural areas. They achieve this objective through highly-regulated land use.**

**The ICLEI open spaces plan merges nicely with what Barrack Obama and Joe Biden call “high-speed rail” programs. For over two years, I have questioned why they call what are obviously rapid transit programs “high-speed rail.” The more I understand about the Agenda 21 plan to remove people from the land and move them into buildings – pack ‘em and stack ‘em condos, as they’re called -- the more I understand about Obama’s “high-speed rail” boondoggle. There will be no cars on the streets – there will be no room for them (and the “Green” version of cars is so costly, those who work for a living can’t afford them, anyway).**

**There will be the ideal “Green” environment where rocks and trees enjoy the same rights human beings do. You can walk, ride a bicycle or take mass transit to work... from your multi-story condominium.**

The document, entitled *FM 3-39.40 Internment and Resettlement Operations* was originally released on a restricted basis to the DoD in February 2010, but has now been leaked online.

The manual outlines policies for processing detainees into internment camps both globally and inside the United States. International agencies like the UN and the Red Cross are named as partners in addition to domestic federal agencies including the Department of Homeland Security and FEMA.

The document makes it clear that the policies apply “within U.S. territory” and involve, “DOD support to U.S. civil authorities for domestic emergencies, and for designated law enforcement and other activities,” including “man-made disasters, accidents, terrorist attacks and incidents in the U.S. and its territories.”

Also during this time frame, 49 American landmarks have been given over to the United Nations in what are called Biospheres. Across this great land, our national parks, wildlands, forests, and lakes are being turned over to UN control. Joseph Urso, Jr., a friend of the ministry who hails from Knoxville, Tennessee, recently sent me a photograph of the entrance sign of the Great Smoky Mountains National Park. Notice the telling phrase on the sign: "AN INTERNATIONAL BIOSPHERE RESERVE."

A wooden boardwalk with railings leads through a lush green forest over a rocky stream. The boardwalk is made of wooden planks and has dark wooden railings. It winds through a dense forest with vibrant green foliage. Below the boardwalk, a stream flows over large, light-colored rocks, creating white water rapids. The scene is captured from a low angle, looking down the length of the boardwalk towards the forest's interior.

# FOR SUSTAINABLE DEVELOPMENT

# UNITED NATIONS SUMMIT TO ADOPT THE POST-2015 DEVELOPMENT AGENDA

25 - 27 SEP 2015  
NEW YORK

**If you didn't like "Agenda 21", then you really are not going to like "The 2030 Agenda". Next month, the United Nations is going to launch "The 2030 Agenda" at a major conference that will be held from September 25th to September 27th in New York City**

**The Pope is actually traveling to New York to deliver an address which will kick off this conference.**

# United Nations

**DEMOCRACY**

**SOCIALISM**

**ONE WORLD UNITED**

Unlike Agenda 21, which primarily focused on the environment, the 2030 Agenda is truly a template for governing the entire planet. In addition to addressing climate change, it also sets ambitious goals for areas such as economics, health, energy, education, agriculture, gender equality and a whole host of other issues.

**TYRANNY**

**SLAVERY**

**ONE GLOBAL DICTATORSHIP**

The United Nations is now in the process of defining Sustainable Development Goals as part **a new sustainable development agenda** that must finish the job and leave no one behind. **This agenda, to be launched at the Sustainable Development Summit in September 2015,** is currently being discussed at the UN General Assembly, where Member States and civil society are making contributions to the agenda.

**We are told that individual liberty and freedom are “dangerous” because when everyone just runs around doing whatever they want it is “bad for the planet”.**

**For example, one of the goals of the sustainable development crowd is to push the human population into giant “megacities” and to allow nature to recapture much of what has already been settled by humanity.**

**This Agenda is a plan of action for people, planet and prosperity.** It also seeks to strengthen universal peace in larger freedom. We recognize that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development.

**All countries and all stakeholders, acting in collaborative partnership, will implement this plan.** We are resolved to free the human race from the tyranny of poverty and want and to heal and secure our planet. We are determined to take the bold and transformative steps which are urgently needed to shift the world onto a sustainable and resilient path. As we embark on this collective journey, we pledge that no one will be left behind.

**The 17 Sustainable Development Goals and 169 targets which we are announcing today demonstrate the scale and ambition of this new universal Agenda. They seek to build on the Millennium Development Goals and complete what these did not achieve. They seek to realize the human rights of all and to achieve gender equality and the empowerment of all women and girls. They are integrated and indivisible and balance the three dimensions of sustainable development: the economic, social and environmental.**

**Goal 1** End poverty in all its forms everywhere

**Goal 2** End hunger, achieve food security and improved nutrition and promote sustainable agriculture

**Goal 3** Ensure healthy lives and promote well-being for all at all ages

**Goal 4** Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

**Goal 5** Achieve gender equality and empower all women and girls

**Goal 6** Ensure availability and sustainable management of water and sanitation for all

**Goal 7** Ensure access to affordable, reliable, sustainable and modern energy for all

**Goal 8** Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

**Goal 9** Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

**Goal 10** Reduce inequality within and among countries

**Goal 11** Make cities and human settlements inclusive, safe, resilient and sustainable

**Goal 12** Ensure sustainable consumption and production patterns

**Goal 13** Take urgent action to combat climate change and its impacts\*

**Goal 14** Conserve and sustainably use the oceans, seas and marine resources for sustainable development

**Goal 15** Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

**Goal 16** Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

**Goal 17** Strengthen the means of implementation and revitalize the global partnership for sustainable development

A wolf is silhouetted against a misty, blue-toned forest background. The wolf is standing on a dark, rocky outcrop in the lower-left foreground, howling with its head tilted back and mouth open. The forest consists of tall, thin trees with dense foliage, shrouded in a thick mist or fog. The overall color palette is dominated by cool blues and greys, creating a somber and mysterious atmosphere.

**Eventually, the globalists want to fundamentally transform virtually everything about our society. This includes our economy, our government, our entertainment, our social interactions, our families and even our religious beliefs.**

**This “new universal Agenda” is far, far more dangerous than Agenda 21 ever was, and it is a giant step forward into a one world system governed by bureaucratic control freaks.**

## **AMPLIFIED PSALMS 91:1-2**

**The ones who settle in and remain, establishing a home and returning often with the sense of a faithful married relationship, will endure.**

**In the secret hiding place that offers protection and shelter from danger. It is a covering, carefully hiding those. It is an act of cleverness that conceals Yah's children- an end purpose from those who are dangerous. This place belongs to The Most High-Yahuah. He is Supreme and is clearly Superior to all. As He hovers over those, there is complete protection, as His being casts a shadow of protection an submerges us into safety.**

**Always, with those in this transitory journey, He offers refreshment and His shadow blocks any attempt of all who would harm those who dwell there. He alone is the most powerful! Only He can complete this promise of blessing and safety.**

**His protective barrier is impregnable. In this act of protection  
He will not hesitate to be burly and lay waste and utterly  
destroy intruders, to keep His Children safe. They are  
spending the nights in this lodging and finding rest. They will  
stay permanently. Knowing I will not change my mind, I  
declare out and in my heart and promise with certainty I  
declare! Shepherd Yahuah, my shelter from the weather.**

**And danger and the lies that are told to deceive, like a cave that provides my complete safety as my refuge, you are whom I trust. Indeed my mountain stronghold. Those that would prey are caught in nets and never reach me. You have reserved this mountain of rock fortress for hiding as well as for a defensive position. Where ever it may be, it is a position that is so high that it is inaccessible except to those who dwell there.**

A beautiful landscape photograph of a waterfall. The water is captured in a long-exposure shot, creating a soft, white, and silky appearance as it falls over several tiers of dark, moss-covered rocks. The surrounding environment is a dense forest with vibrant green foliage. Sunlight filters through the canopy, creating a warm, golden glow and visible rays of light. In the foreground, there are more mossy rocks and some small green plants. The overall mood is peaceful and natural.

**My Almighty Everlasting Shepherd Yahuah,  
because of what You do, it is only You And  
Your plan that I can be confident in, trust  
and rely. You inspire confidence! Your  
plans fill my being with complete safety  
and security. I alone, and without You, I  
am vulnerable and would be easy prey.  
You give me assurance!**
