# CHEMTRAILS

# **I WANT THIS SKY AGAIN**

**Chemtrails are artificially created by military aircrafts of the U.S. Air force in an operation codenamed: Operation Clover Leaf.**

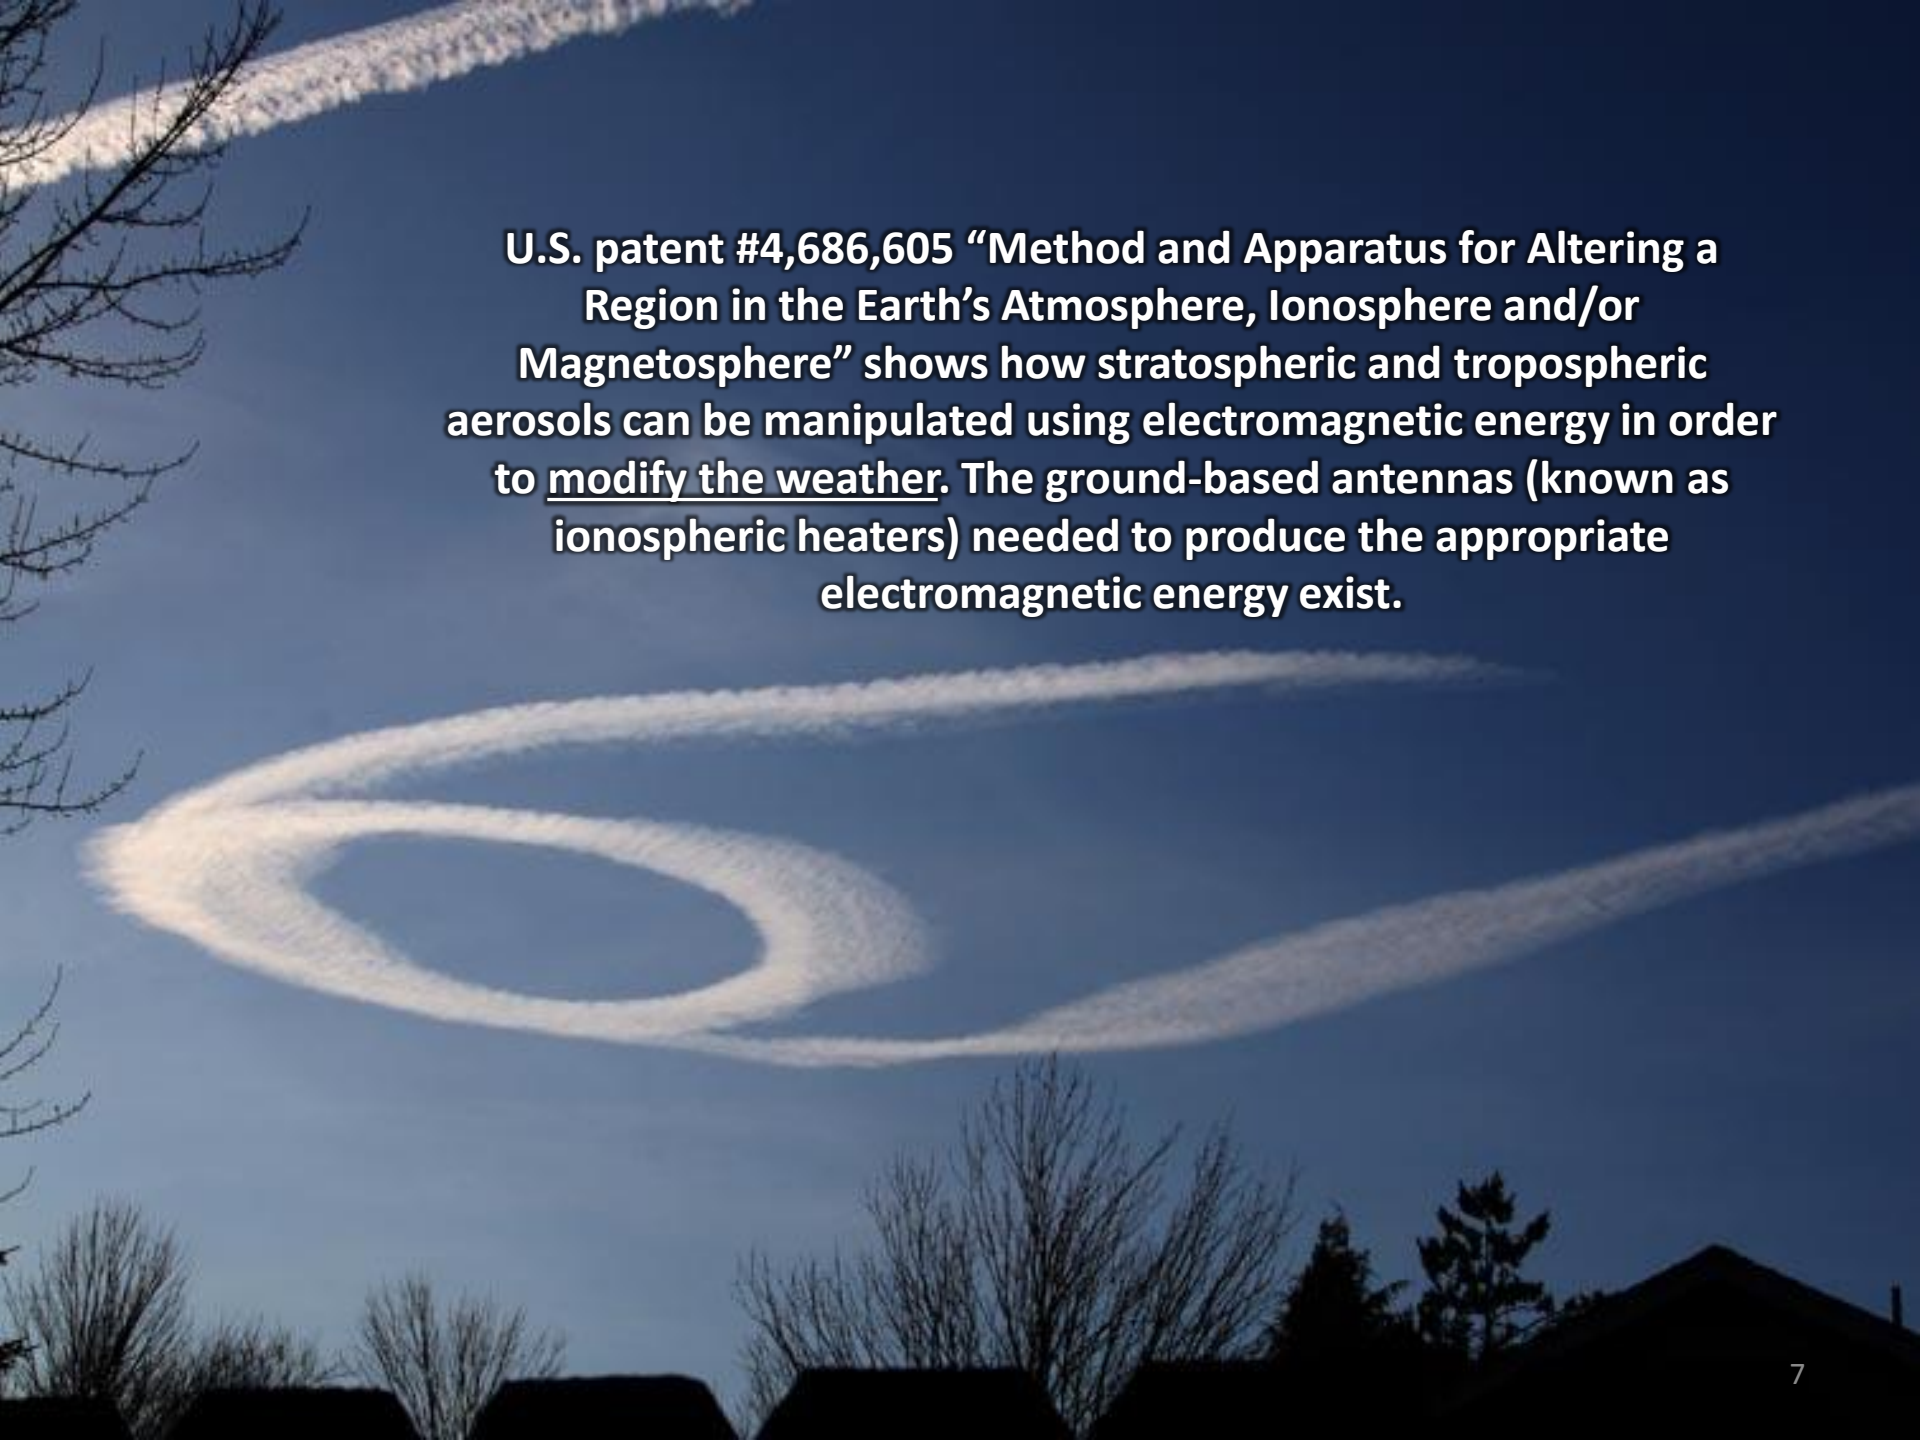

**Contrails are naturally formed at high altitudes (30,000+ feet) when hot, humid air from a jet's exhaust, which is water vapor that is momentarily crystallized by contact with cold air. Contrails quickly evaporate lasting only a minute or so, as the ice crystals melt.**

<http://www.geoengineeringwatch.org/category/drought-2/>

**Some 70 years ago our government made the decision to commit the human race and all life on Earth to a lethal global climate engineering experiment. The power brokers did this without our knowledge or consent while being fully aware that the consequences of this experiment could never be undone. Governments all over the world have long since been a part of the global climate engineering cabal, extensive historical documents prove this fact. Of the countless forms of anthropogenic damage to the climate and the biosphere, the geoengineering/solar radiation management assault is mathematically the most devastating. Every life form on the planet has been completely betrayed by those behind the weather warfare atrocities, and betrayed by the science and media circles who are actively and aggressively helping to hide the ongoing geoengineering omnicide.**

Since approximately 1998, thousands of people started noticing airplanes spraying X's, parallel lines, and grid patterns across our skies. These trails initially look like contrails but actually aren't. According to the U.S. Air Force, contrails are condensation trails and happen when hot engine exhaust momentarily condenses ice crystals into pencil-thin vapor trails that quickly vanish like the wave behind a boat, very much like your breath when talking outside on a cold winter day. Chemtrails, on the other hand, linger for hours and will spread out to form large areas of "cloud" cover.

**U.S. patent #4,686,605 “Method and Apparatus for Altering a Region in the Earth’s Atmosphere, Ionosphere and/or Magnetosphere” shows how stratospheric and tropospheric aerosols can be manipulated using electromagnetic energy in order to modify the weather. The ground-based antennas (known as ionospheric heaters) needed to produce the appropriate electromagnetic energy exist.**

04/11/2011 4:14pm Imperial County, CA

**The New Manhattan Project employs electromagnetic energy to manipulate dispersed particles while conventional weather modifiers do not. Also, conventional weather modification efforts are conducted on a regional basis while the New Manhattan Project is global.**

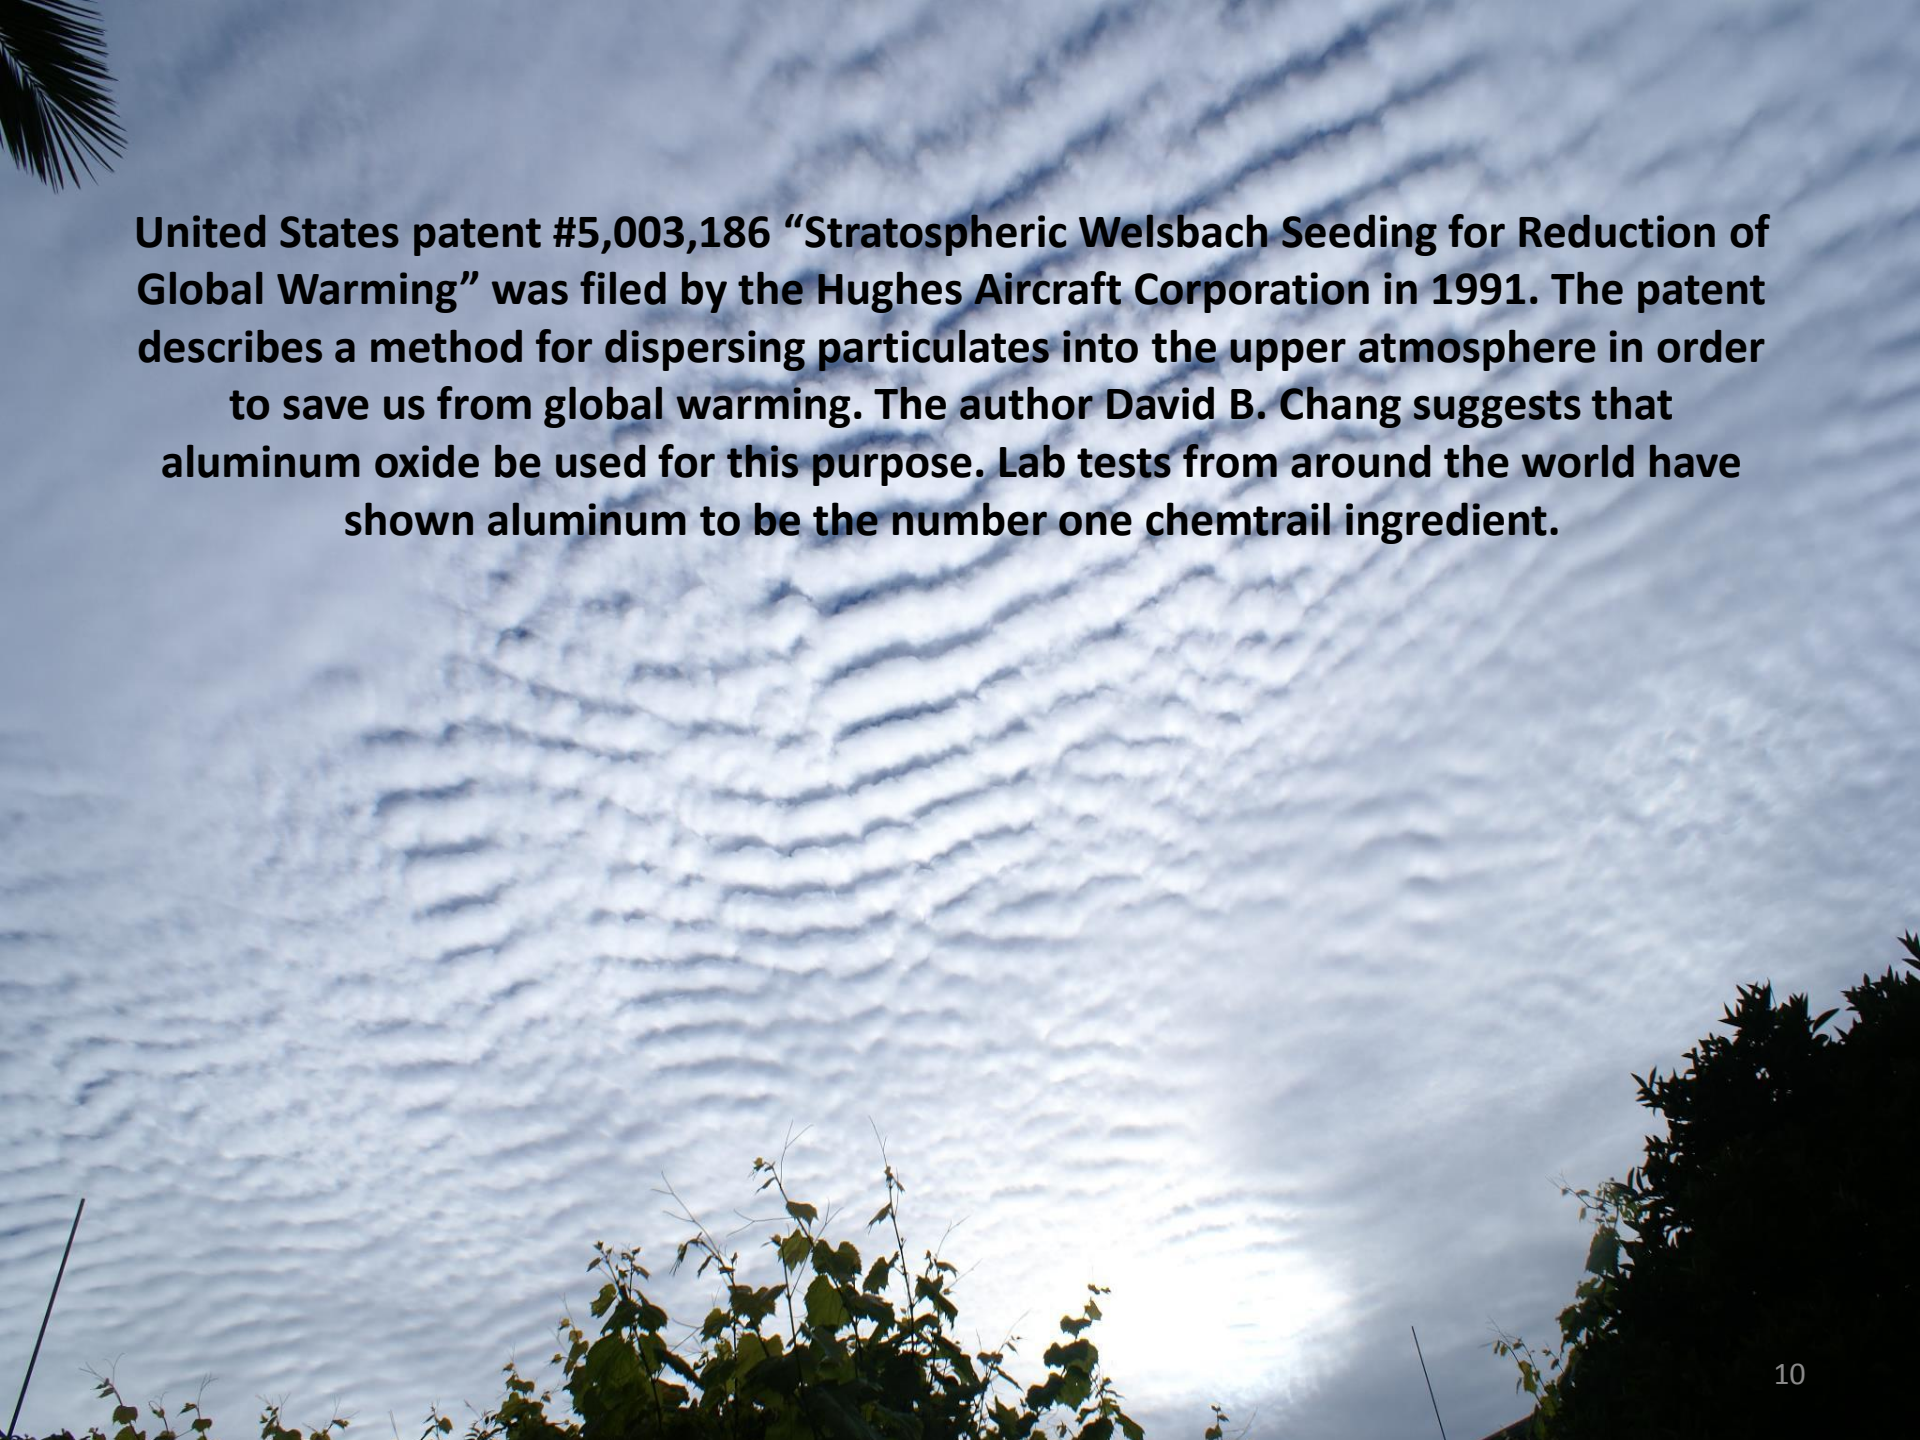

**In 1958 the chief White House advisor on weather modification, Captain Howard T. Orville, said the U.S. defense department was studying “ways to manipulate the charges of the earth and sky and so affect the weather” by using an electronic beam to ionize or de-ionize the atmosphere over a given area.**

*SoCal SkyWatch*

**This type of radar is called “over the horizon” because it is bounced off the ionosphere and therefore is effective far beyond the range of the forty miles or so (depending on terrain) afforded by previous radar systems. Forty miles is approximately the distance one can see over flat land or sea before the curvature of the Earth obscures points beyond. Over the horizon radar, on the other hand, is effective to thousands of miles. Today’s ionospheric heaters evolved as over the horizon radar.**

**The HAARP facility contains the world’s most powerful ionospheric heater which is documented to be able to modify the weather.**

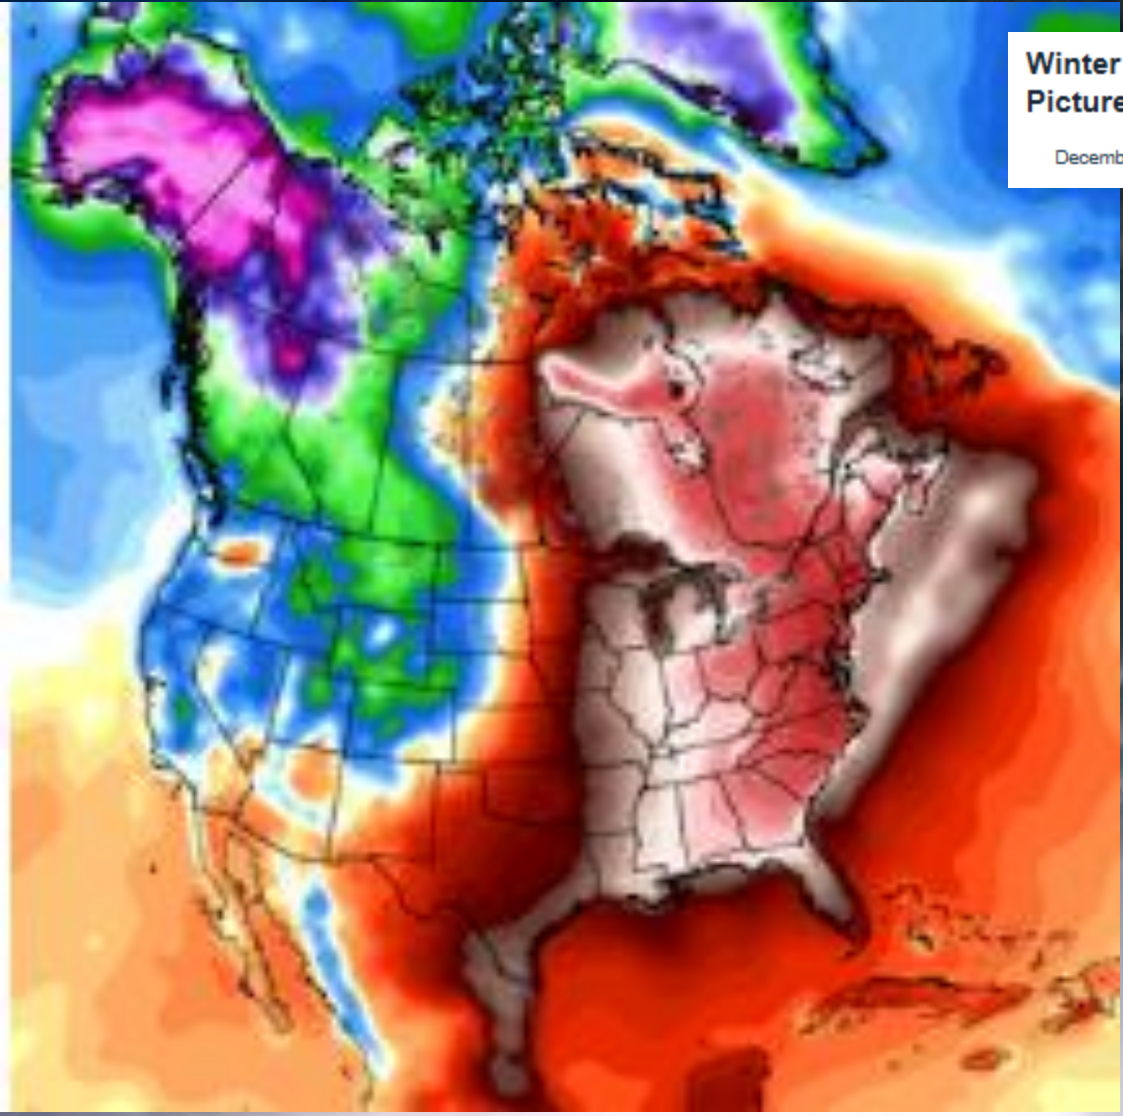

**United States patent #5,003,186 “Stratospheric Welsbach Seeding for Reduction of Global Warming” was filed by the Hughes Aircraft Corporation in 1991. The patent describes a method for dispersing particulates into the upper atmosphere in order to save us from global warming. The author David B. Chang suggests that aluminum oxide be used for this purpose. Lab tests from around the world have shown aluminum to be the number one chemtrail ingredient.**

**A 1994 document produced by Stanford Research International called “Multiple Instrument Studies of Chemical Releases and Heating at Arecibo” details three barium releases of 48 kilograms each over Puerto Rico. The barium clouds produced by these rocket-borne explosions were subsequently hit with man-made electromagnetic energy from an ionospheric heater and thus turned into a plasma. Barium has been found to be the number two chemtrail ingredient.**

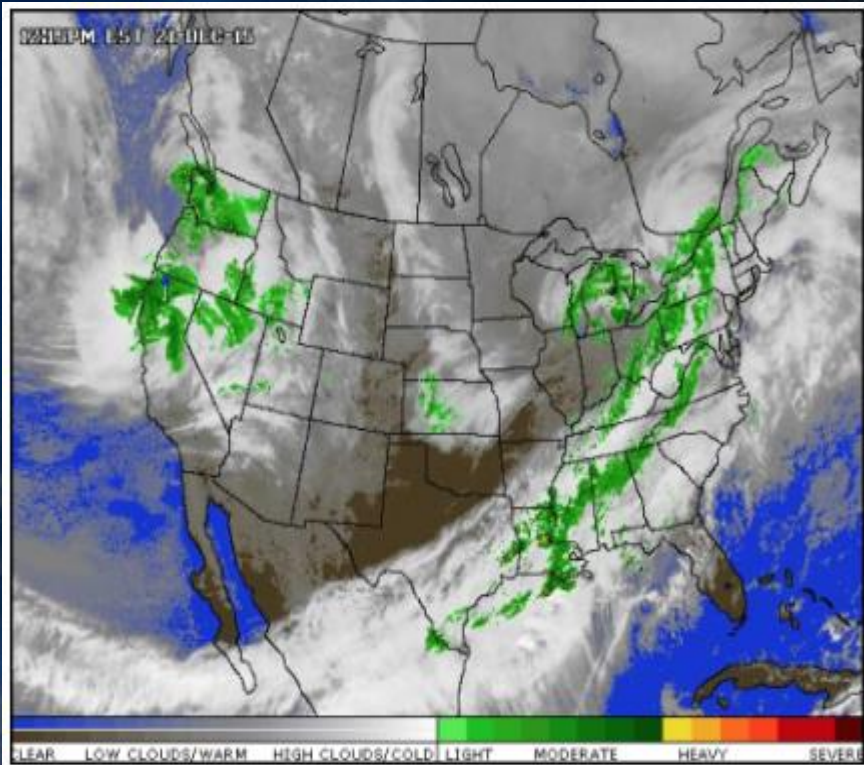

# Winter Storms With Record Heat, What's Wrong With This Picture?

December 21, 2015 123 Comments

<http://www.geoengineeringwatch.org/winter-storms-with-record-heat-whats-wrong-with-this-picture/>

As strong plumes of moisture flow in off of the record warm Pacific ocean, heavy aerosol spraying of chemical ice nucleating materials begin the cool-down that is paving the way for "winter storm Ferus", the latest creation from the climate engineering cabal. The combination satellite radar image below reveals the flow of Pacific moisture over the Western US. It also reveals the extremely long plume of moisture and aerosolized cloud cover spanning from far out into the Eastern Pacific, all the way to Greenland. The brighter the white of the cloud cover, the more aerosolized it is.

*The composition of the ever expanding aerosolized cloud canopies are very different than natural cloud formations. Some "streaking" can be seen on the image above from the constant aerosol dispersions.*

*Record forest fires are now occurring during all seasons and all over the planet.  
Click [HERE](#) for a photo gallery of the fires in Spain.*

The aerosolization/chemical nucleation process (causing an endothermic reaction) dries up much of the moisture and scatters it over a much broader area. What is the result? A "winter snow storm" from a flow of moisture that originated over record warm ocean temperatures of the Pacific. The climate engineers are looking for "winter" headlines to counter the current record warmth in the Eastern US, down under in Australia, and even unprecedented winter forest fires in places like Spain.

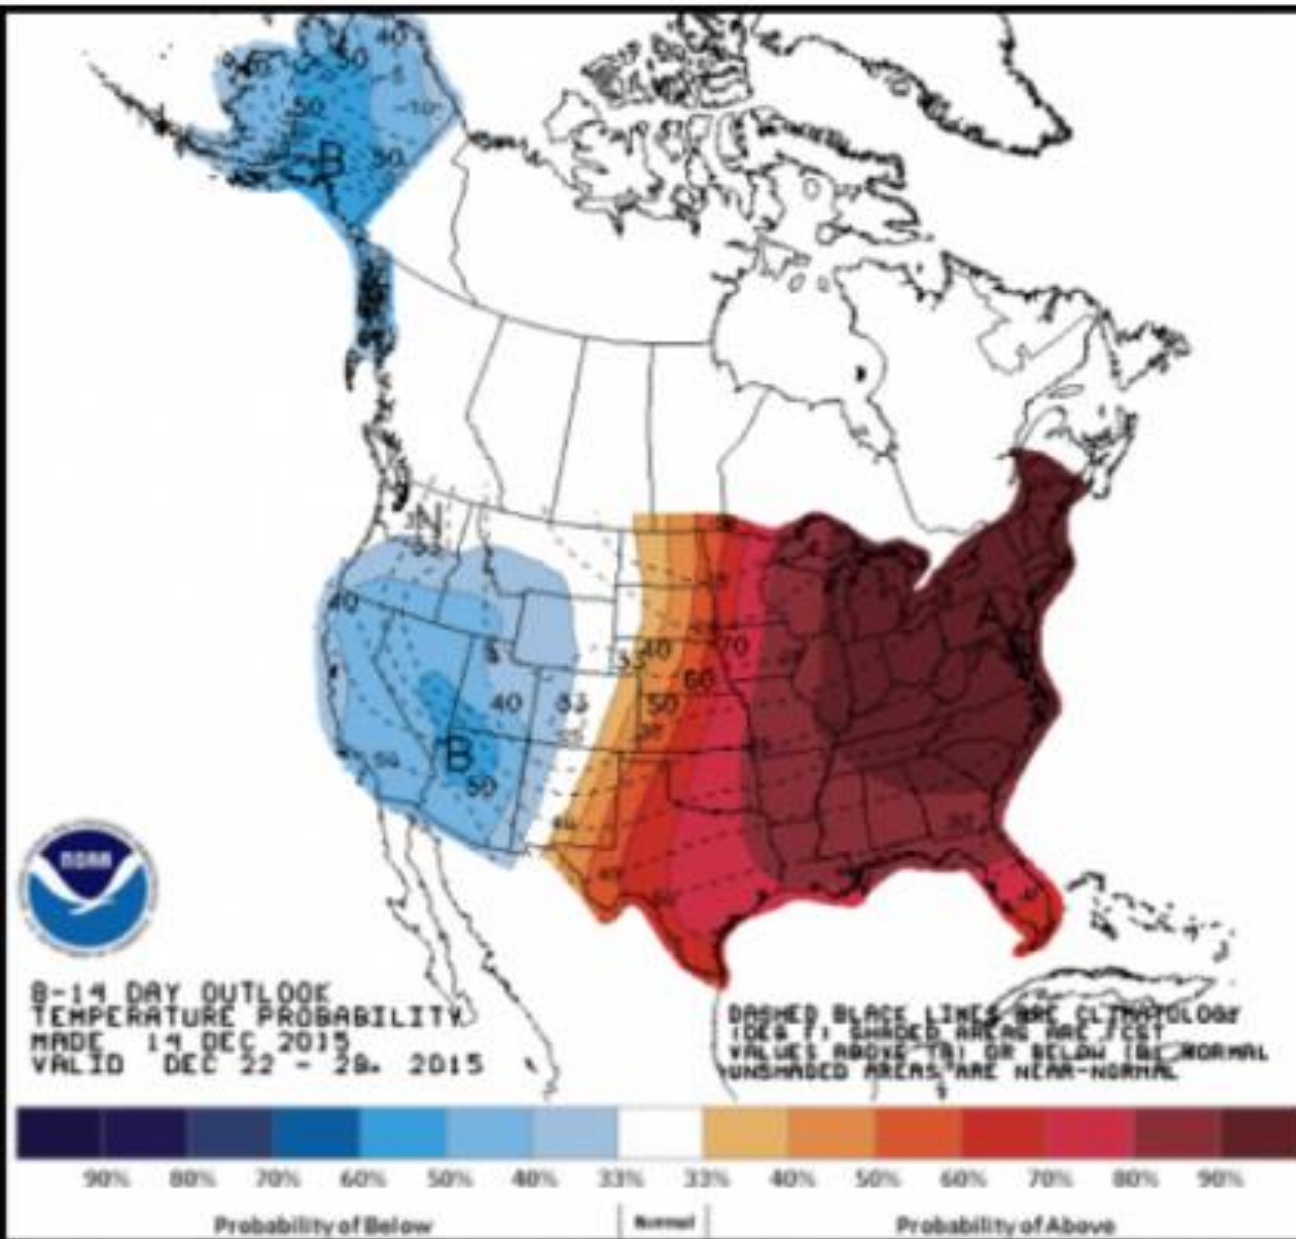

# FERUS SNOWFALL FORECAST THRU WED

*Naming the engineered "winter storms" dramatizes the headlines, the desired effect for the geoengineers and the power structure controlled Weather Channel.*

**In spite of all the global hot spots, (and the increasingly rapid overall planetary warming), the climate engineers are throwing everything they can at "winter storm Ferus".**

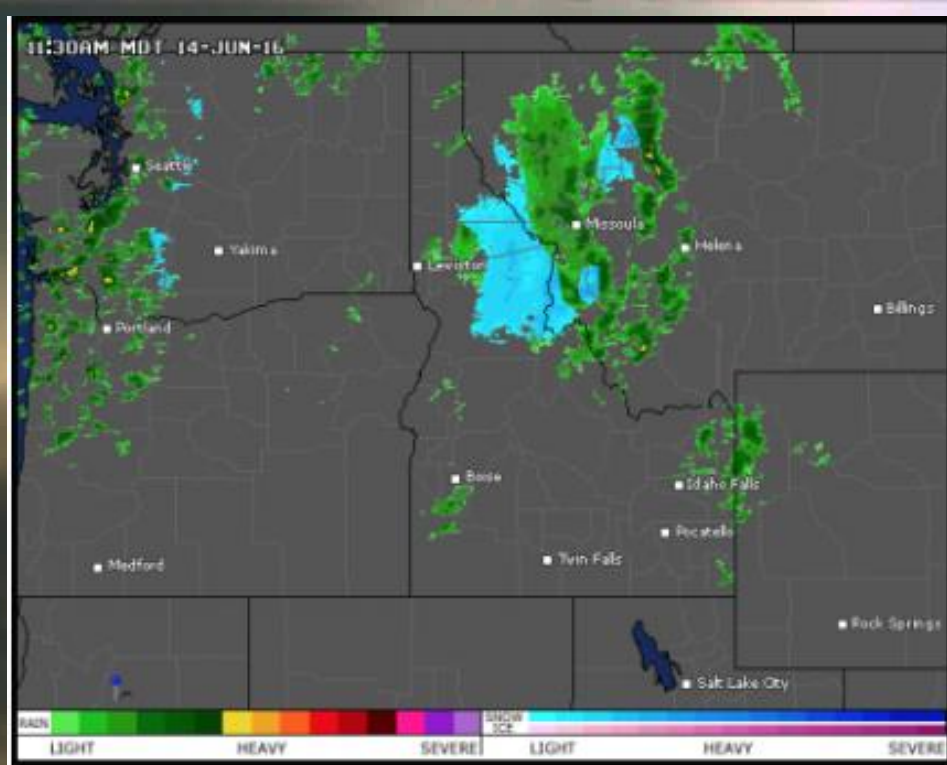

Does the scenario in the NOAA map look in any way "normal"? The current scenario is the exact antithesis of the previous three winters in the US, it is completely engineered.

*The geoengineers are becoming increasingly blatant and desperate as the unraveling of the climate system continues to pick up momentum.*

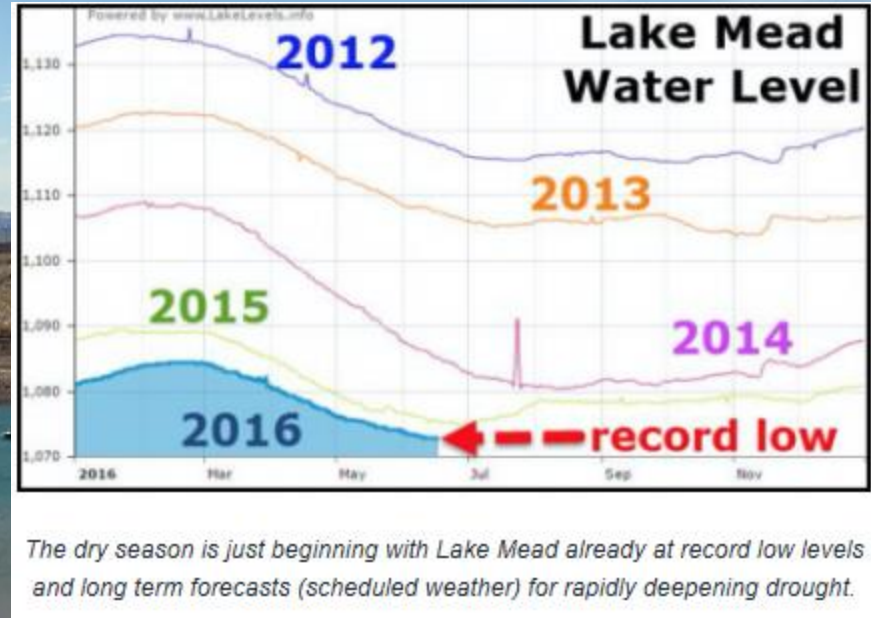

Astoundingly, only a few days before the scorching heat took hold in the US West, snow was falling in multiple states. The geoengineers are aggressively utilizing chemical ice nucleation methods (whenever and wherever there is enough atmospheric moisture) to temporarily (and toxically) lower the temperatures. In addition to the total contamination of the precipitation, the short term chemical cool-downs are also all too often extremely destructive. One primary agenda of the ongoing climate engineering assault is to continue fueling the confusion and division of populations in regard to the true state of the climate and the true extent of damage to it. The weather radar image was taken on June 16<sup>th</sup> 2016, clearly showing snow falling near regions of the West that experienced record shattering heat only days after.

*Radar images now often reveal frozen precipitation occurring with surrounding air and ground temperatures that are far too warm to support natural ice nucleation processes.*

## LAKE MEAD – LOWEST LEVEL IN HISTORY

The atmospheric spraying of highly toxic metal and chemical particles is not only worsening the climate catastrophe and overall heating of the planet, it is also causing epic drought all over the globe (with record deluges occurring in other locations). With the water levels in Nevada's Lake Mead now at record shattering lows and dropping further by the day, the Las Vegas spigot is about to run dry.

*Amritsar, India. Photo credit: Munish Byala*

**The people of India (who are also suffering from record shattering high temperatures and record drought) are an example of what is unfolding all over the world. Due to the atmospheric saturation of electrically conductive particles from climate engineering, increased lightning strikes are also taking a heavy toll on populations. Nearly 100 people have just been killed by countless lightning strikes in India.**

## **GWEN Towers — ELF Scalar Mind Control Weapons**

**GWEN (Ground  
Wave Emergency  
Network)  
transmitters, placed  
200 miles apart  
across the USA,  
allow specific  
frequencies to be  
tailored to the  
geomagnetic-field  
strength in each  
area, allowing the  
magnetic field to be  
altered.**

**They operate in the VLF range, with transmissions between VLF 150 and 175 KHz. They also emit UHF waves of 225 – 400 MHz.**

**The VLF signals travel by waves that hug the ground rather than radiate into the atmosphere. A GWEN station transmits up to a 300-mile radius, the signal dropping off sharply over distance. The entire GWEN system consists of, (depending on source of data), from 58 to an intended 300 transmitters, spread across the USA, each with a tower 299-500 ft high.**

Locations of GWEN towers

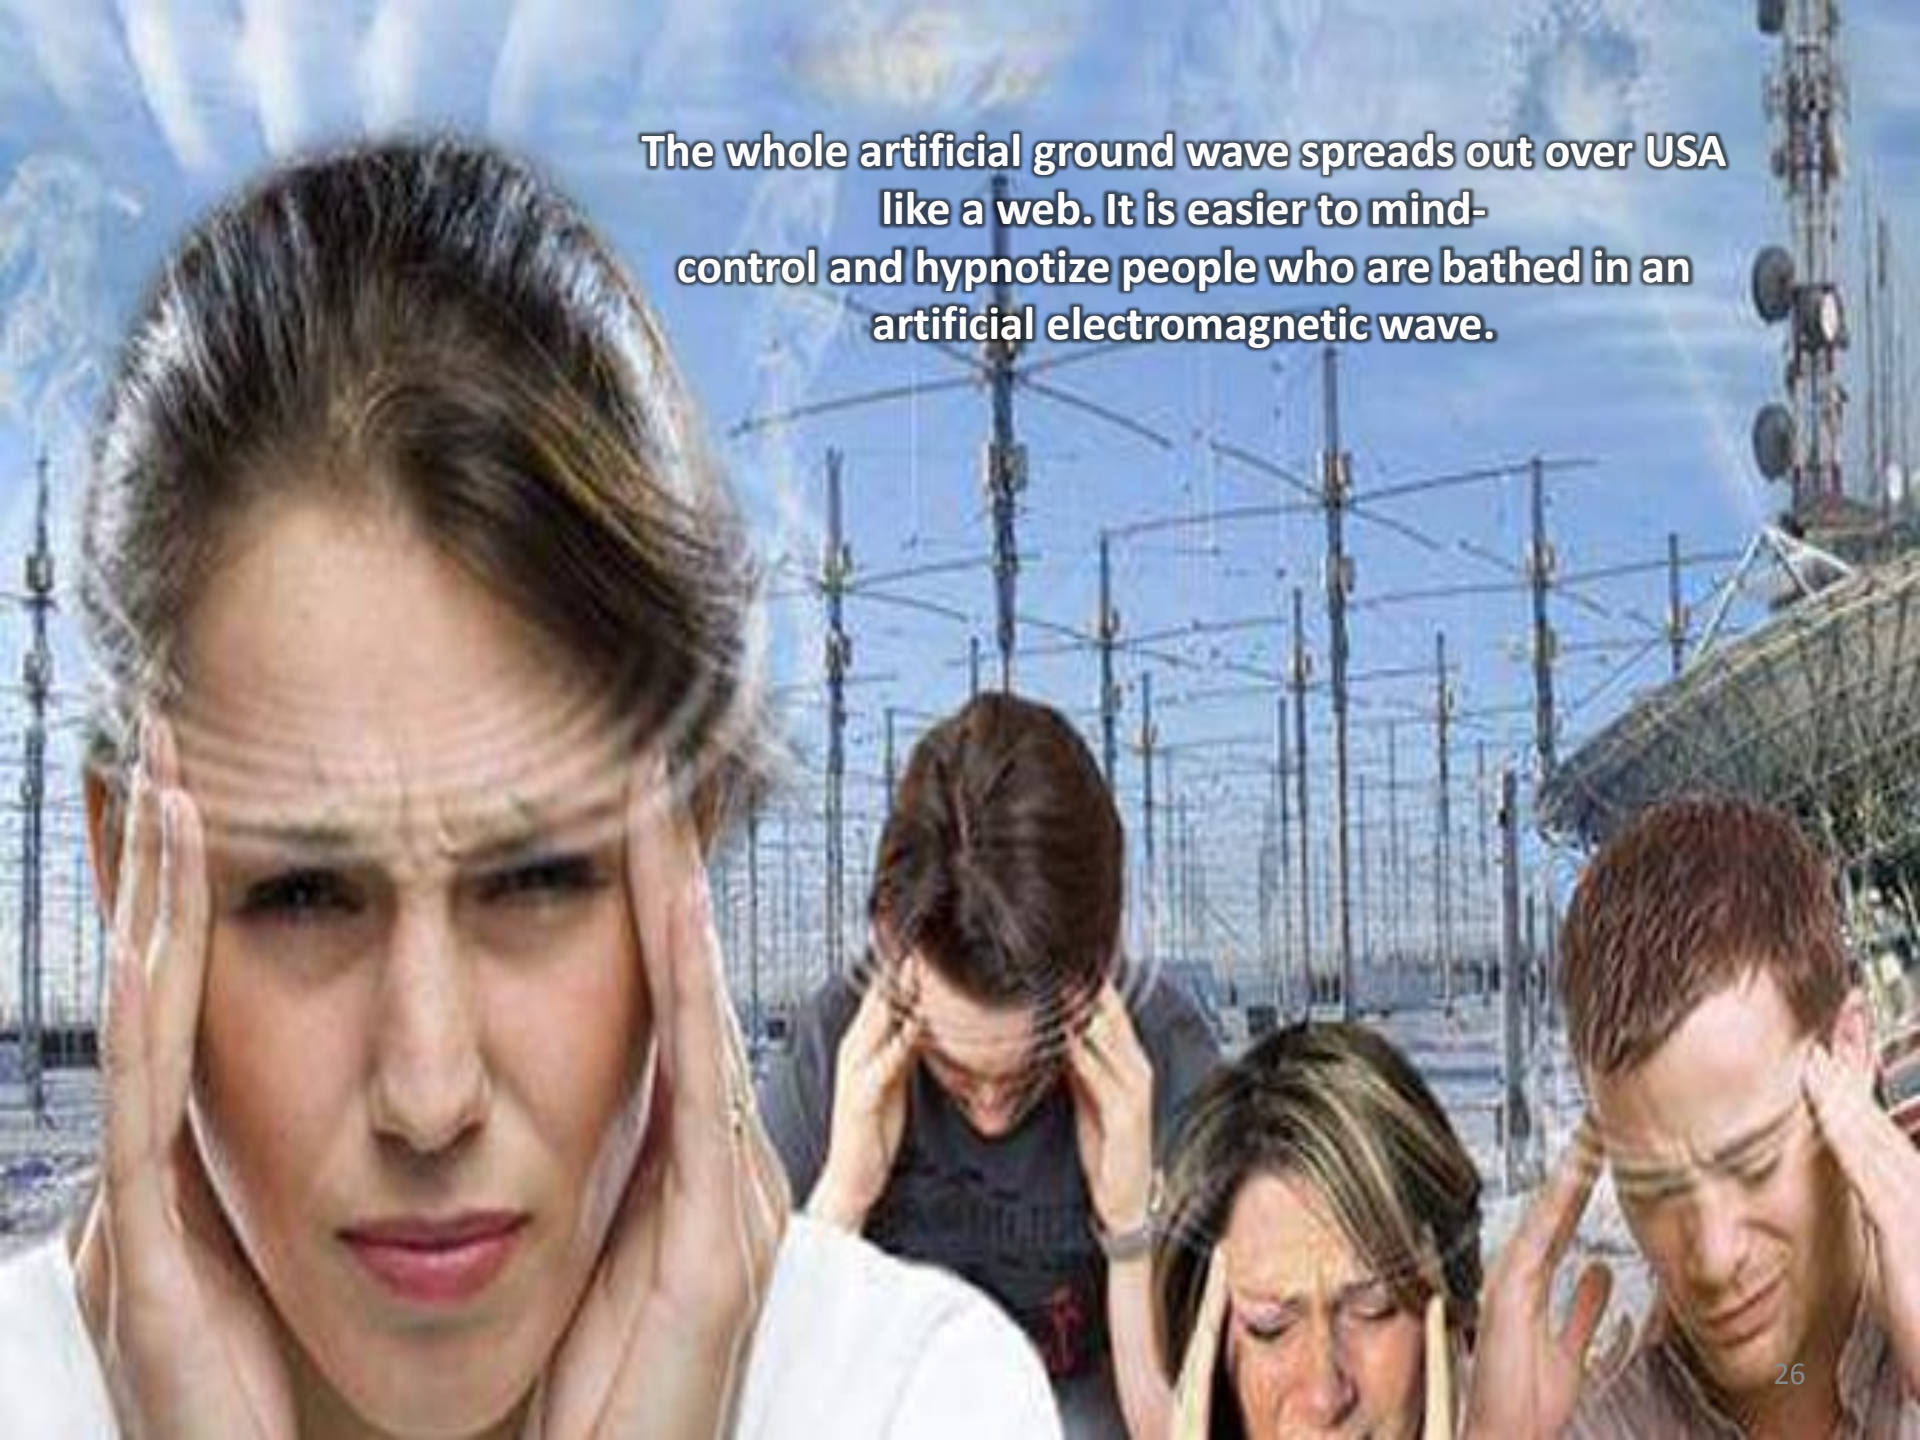

**Three hundred (300) ft. of copper wire fans out in a spoke like fashion from the base of the underground system, interacting with the earth like a thin shelled conductor, radiating radio wave energy for very long distances through the ground. The USA bathes in this magnetic field which rises to 500 ft, even going down to basements, so everyone is subject to mind control.**

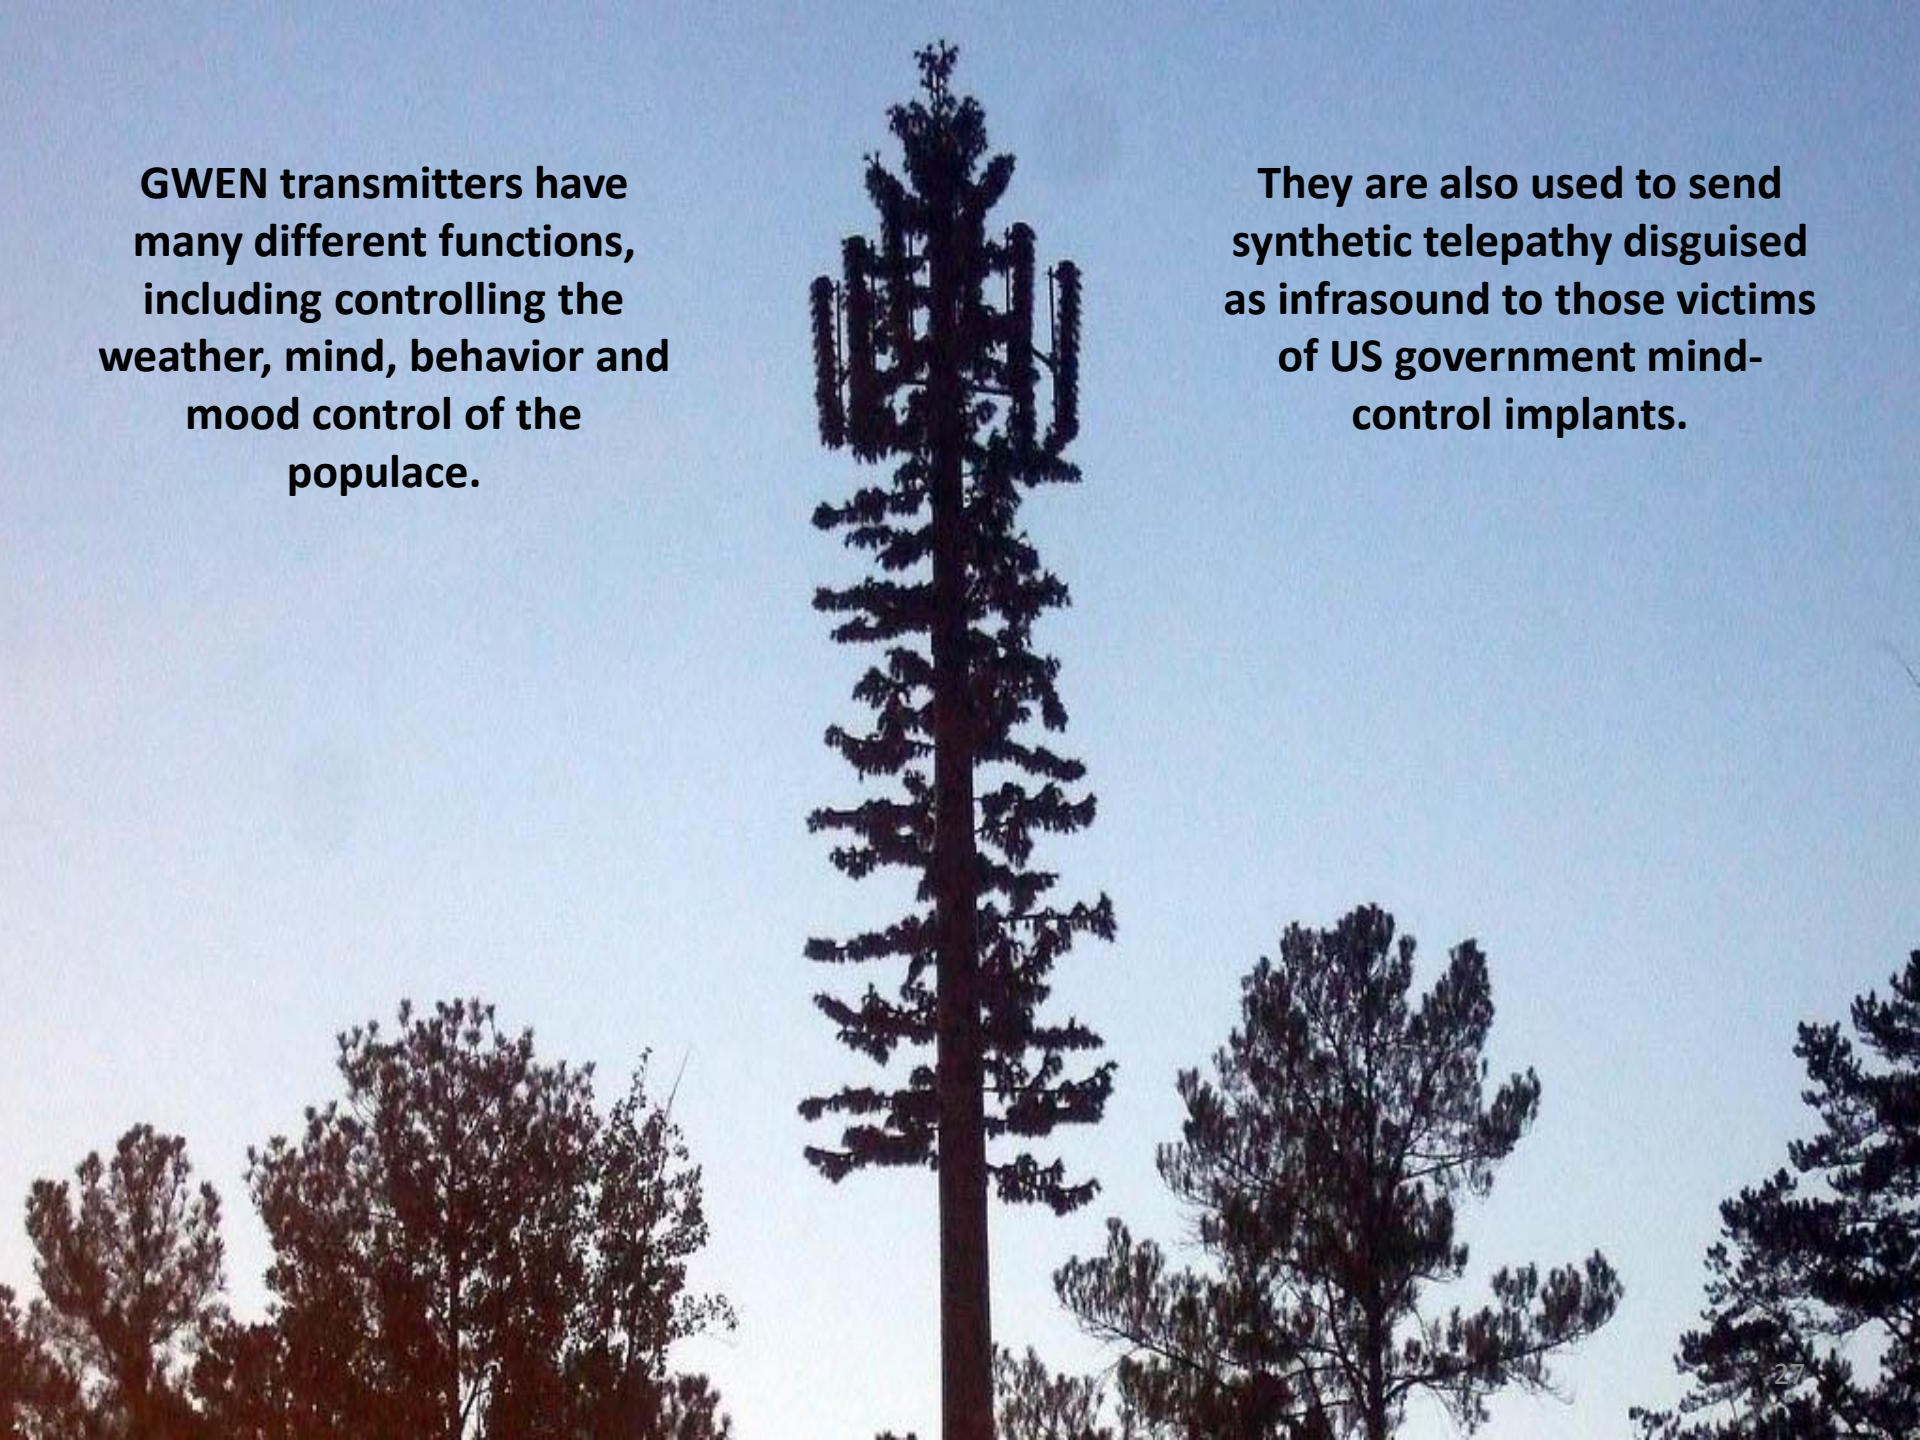

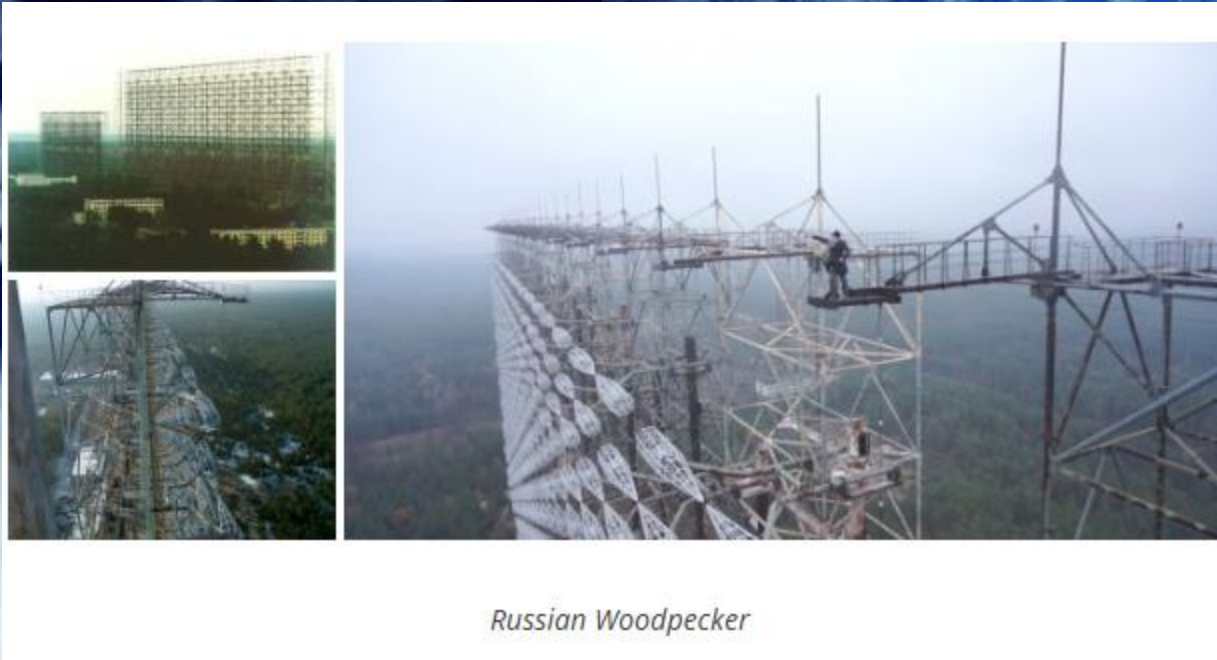

**The whole artificial ground wave spreads out over USA like a web. It is easier to mind-control and hypnotize people who are bathed in an artificial electromagnetic wave.**

**GWEN transmitters have many different functions, including controlling the weather, mind, behavior and mood control of the populace.**

**They are also used to send synthetic telepathy disguised as infrasound to those victims of US government mind-control implants.**

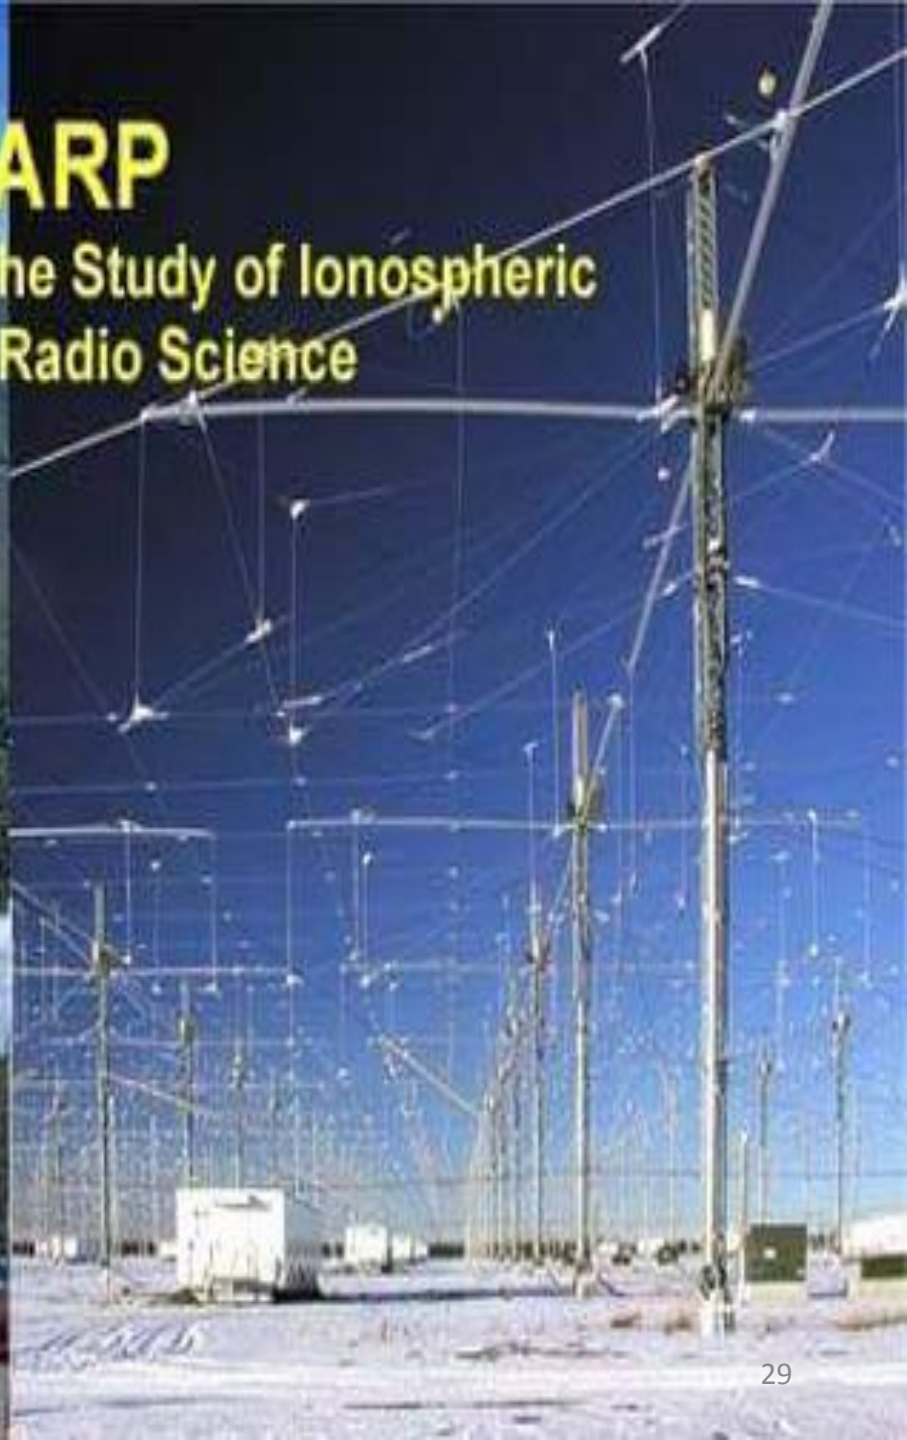

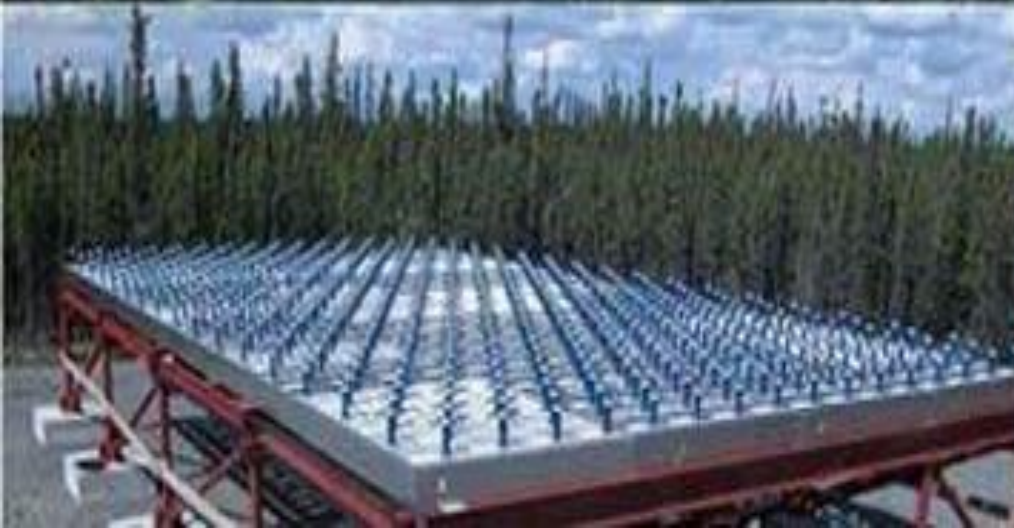

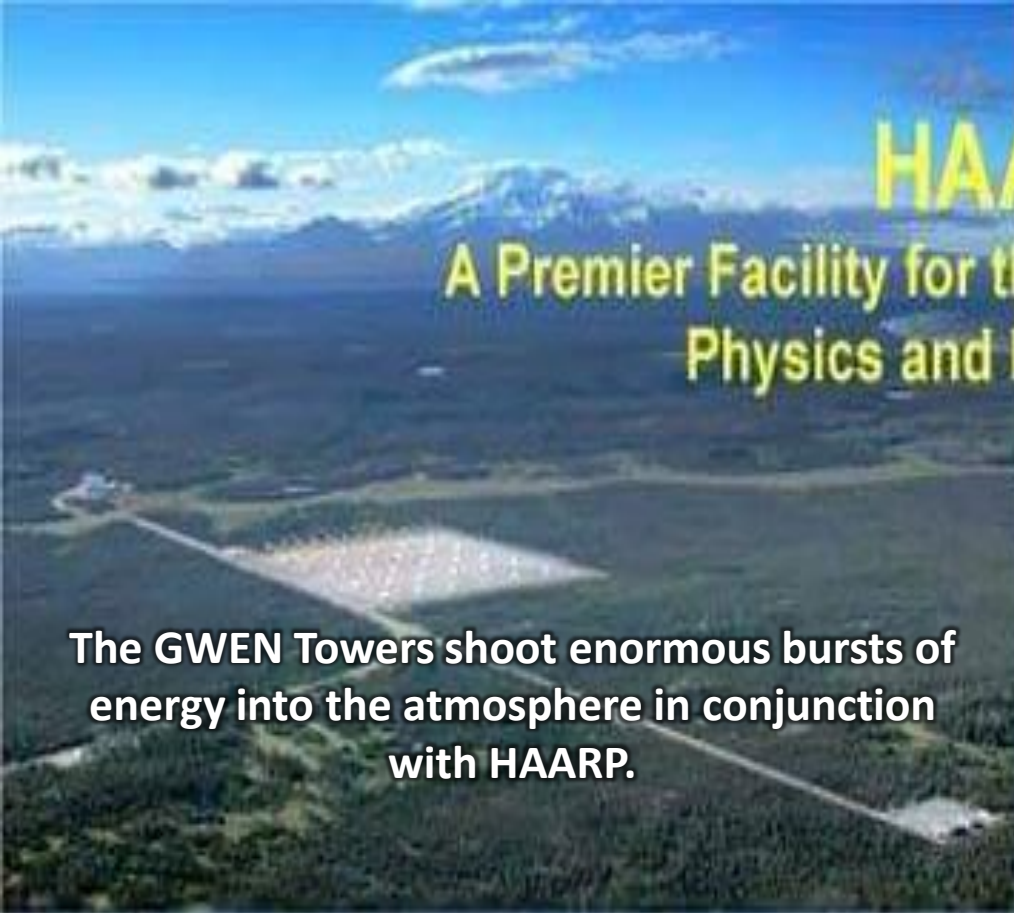

**These towers work in conjunction with HAARP and the Russian Woodpecker transmitter, a system similar to HAARP. The Russians openly market a small version of their weather-engineering system called Elate, which can fine-tune weather patterns over a 200 mile area and have the same range as the GWEN unit. One such system operates at the Moscow airport.**

# HAARP

A Premier Facility for the Study of Ionospheric Physics and Radio Science

The GWEN Towers shoot enormous bursts of energy into the atmosphere in conjunction with HAARP.

The internet website: [www.cuttingedge.org](http://www.cuttingedge.org), published an expose on how the major floods of 1993 in the Mid-Western United States were instigated by these systems. How does this happen?

*Flood waters inundated parts of Jefferson City, Missouri, and threatened the Missouri State Capitol during the "Great Flood of 1993".*

**Invisible, enormous rivers of water, consisting of vapors that flow, move towards the poles in the lower atmosphere. They rival the flow of the Amazon River and are 420 to 480 miles wide and up to 4,800 miles long.**

**Aerial view of the Missouri River flooding on July 30, 1993, in the vicinity of Cedar City and Jefferson City Memorial Airport immediately north of Jefferson City, Missouri, looking south (photograph from the Missouri Highway and Transportation Department).**

# Nebraska Nuclear Power Plants Missouri River

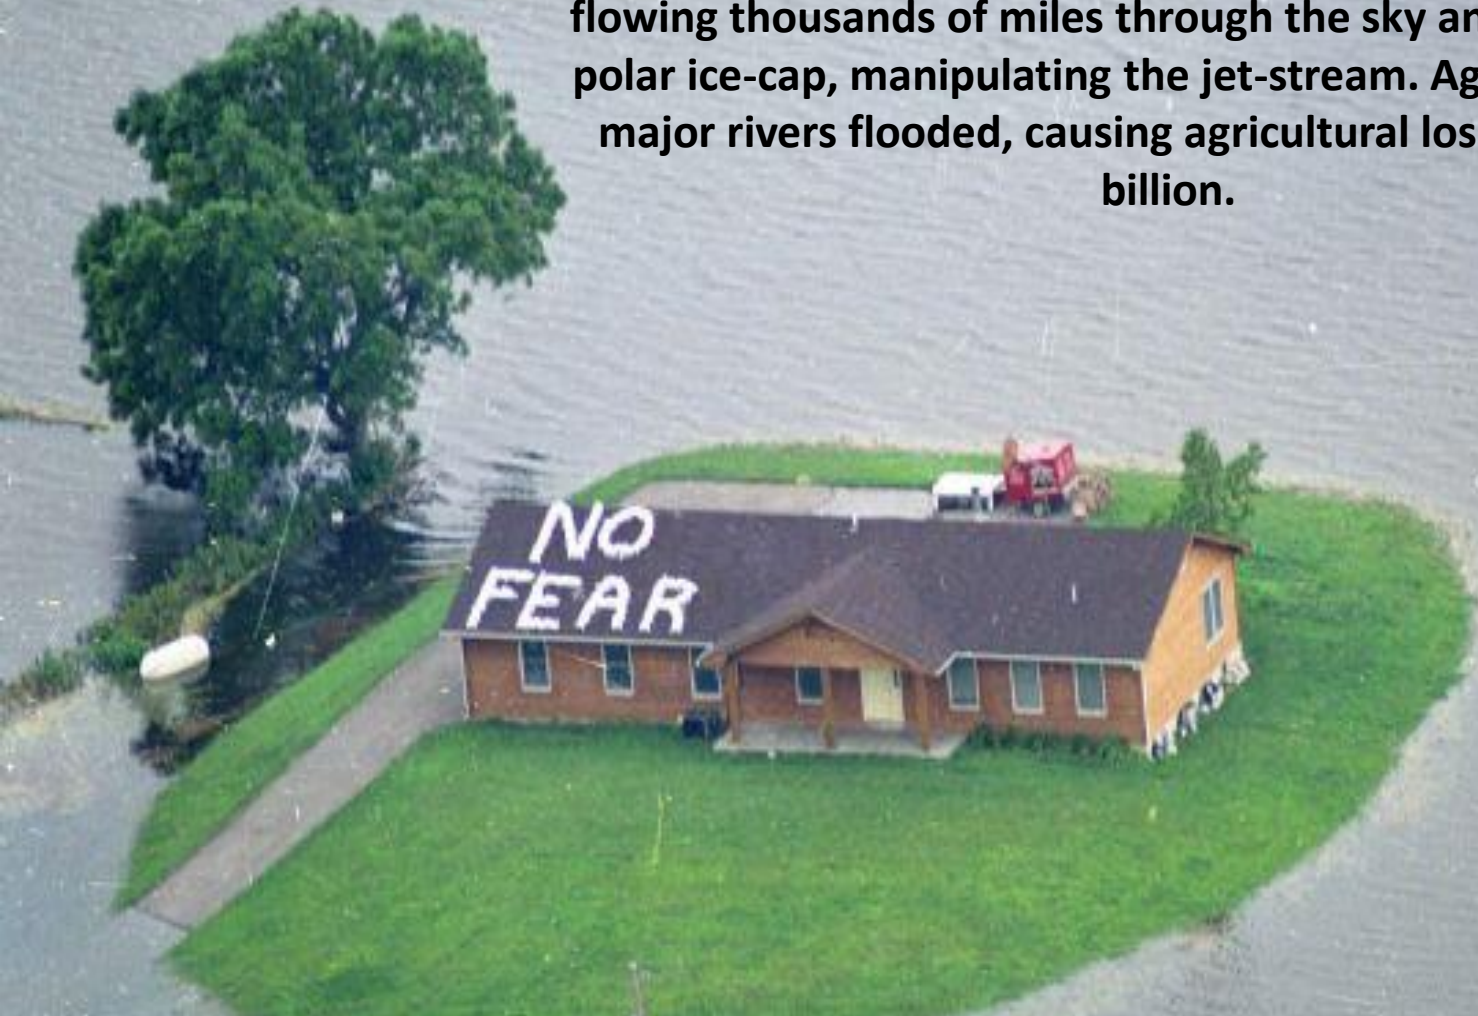

• They are 1.9 miles above the earth and move 340 lbs of water per second. There are 5 atmospheric rivers in each Hemisphere. A massive flood can be created by damming up one of these massive vapor rivers, causing huge amounts of rainfall to be dumped. The GWEN Towers positioned along the areas north of the Missouri and Mississippi Rivers were turned on for 40 days and 40 nights, probably mocking the Flood of Genesis. (This was in conjunction with HAARP).

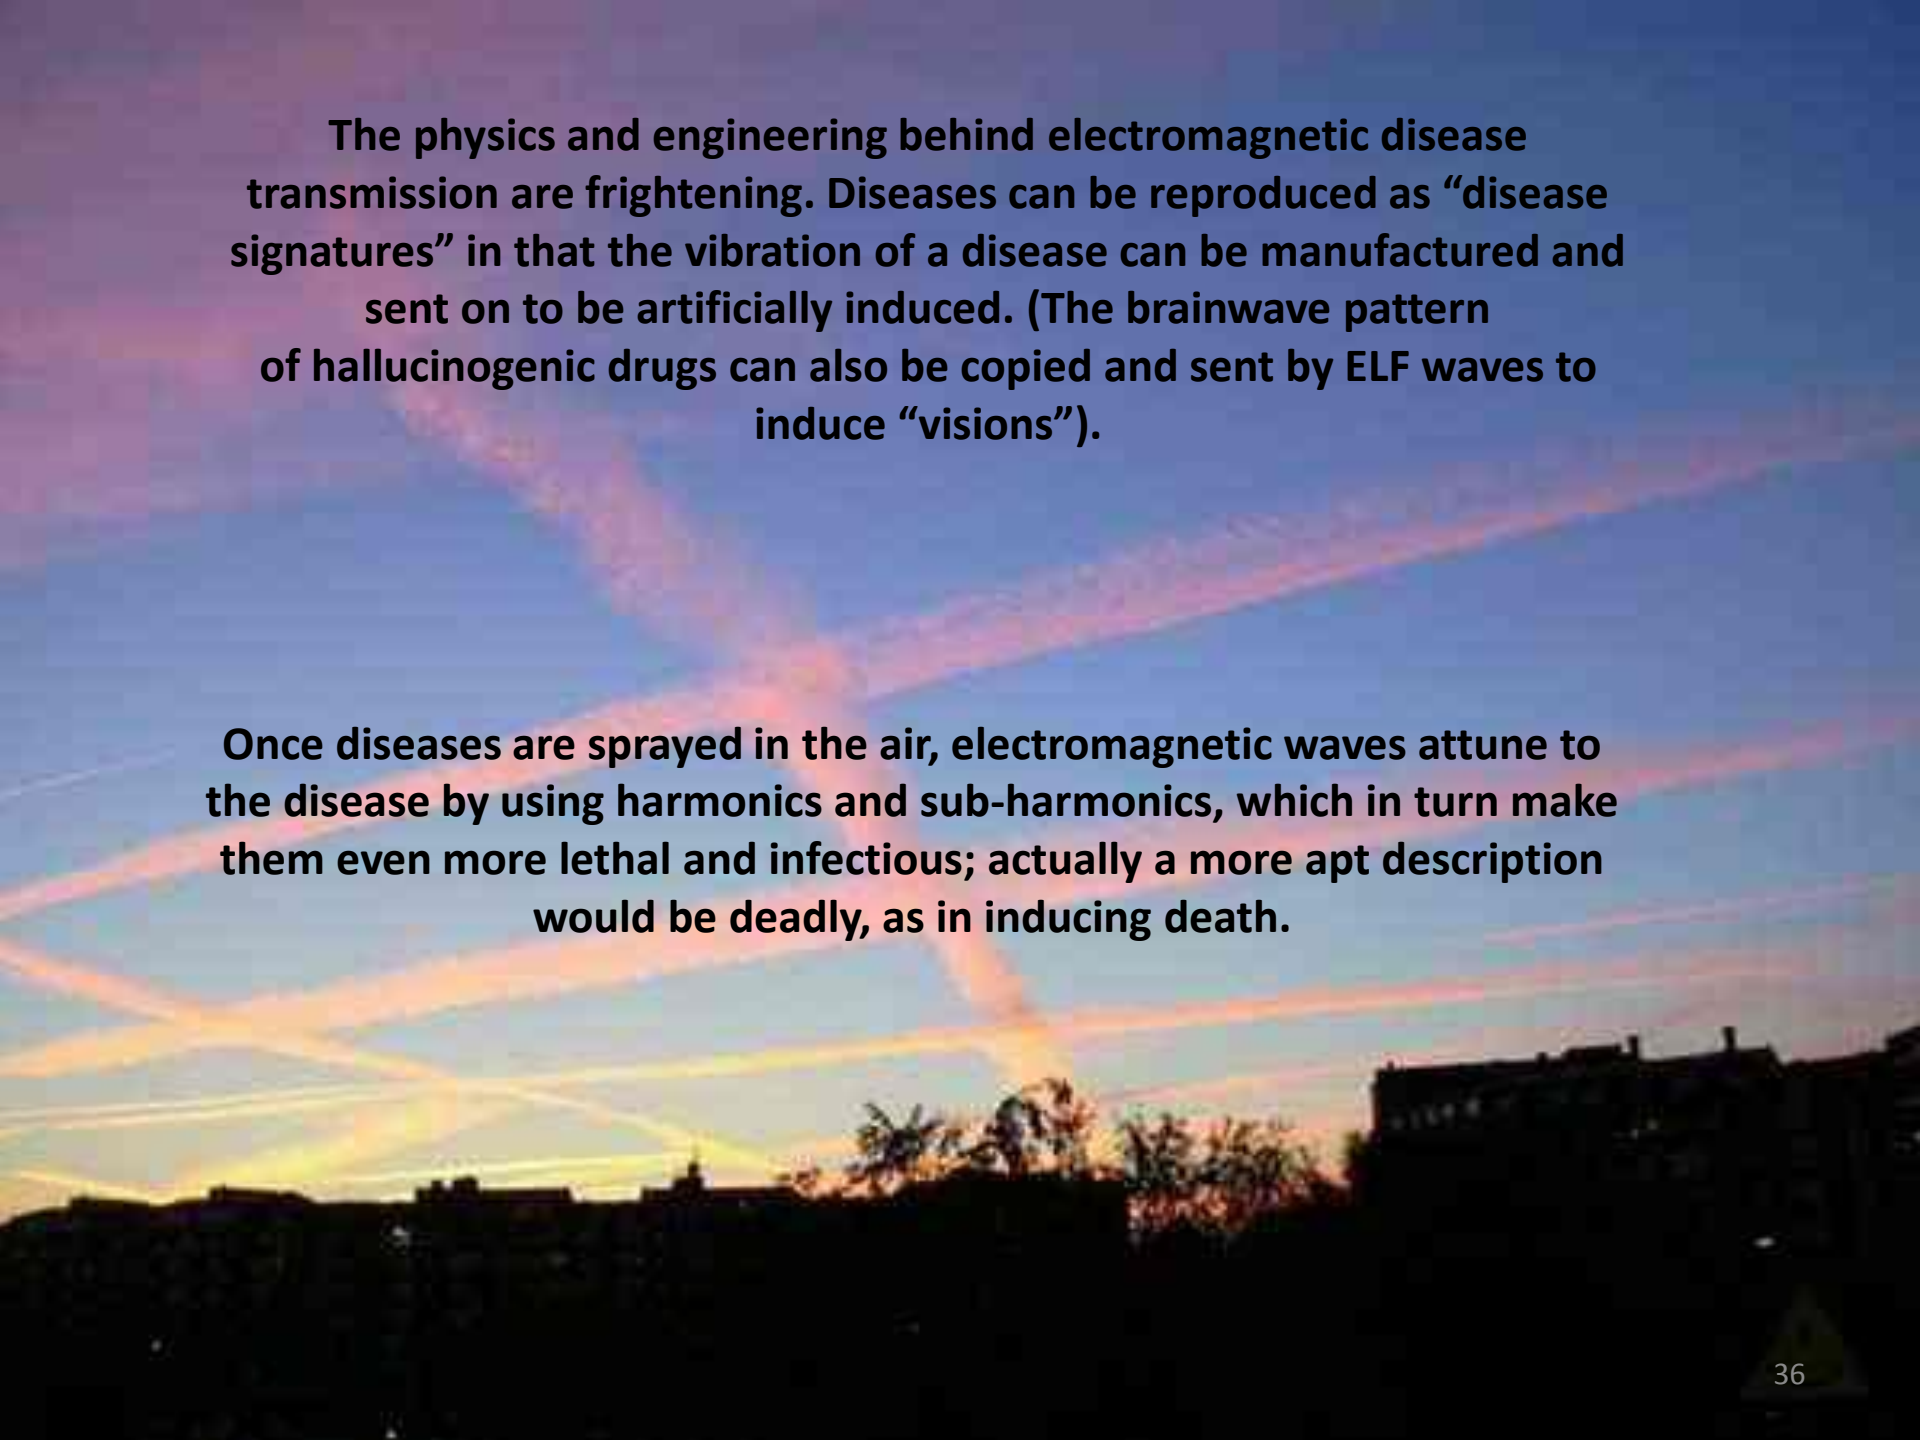

**Mississippi flood before and after  
1993**

**The damming of the vapor rivers creates a river of electricity flowing thousands of miles through the sky and down to the polar ice-cap, manipulating the jet-stream. Again, these two major rivers flooded, causing agricultural losses of \$12-15 billion.**

**HAARP also produces earthquakes by focusing on the fault lines. GWEN Towers are positioned on the fault lines and volcanic areas of the Pacific Northwest.**

A sunset sky with silhouettes of buildings and trees. The sky is a mix of blue, purple, and orange, with several thin, white, diagonal lines crossing it. The silhouettes of buildings and trees are visible in the foreground.

**The physics and engineering behind electromagnetic disease transmission are frightening. Diseases can be reproduced as “disease signatures” in that the vibration of a disease can be manufactured and sent on to be artificially induced. (The brainwave pattern of hallucinogenic drugs can also be copied and sent by ELF waves to induce “visions”).**

**Once diseases are sprayed in the air, electromagnetic waves attune to the disease by using harmonics and sub-harmonics, which in turn make them even more lethal and infectious; actually a more apt description would be deadly, as in inducing death.**

**The skies are filled daily with chemtrails, those crisscrossed white patterns that are sprayed out across the heavens in the United States and other countries.**

**Are these like contrails that jets emit behind them? Not exactly... contrails dissipate rather quickly, but the chemtrails – those feathery streaks that linger – are deliberately being sprayed and contain insidious chemicals (retrieved, analyzed and proven) which affect the state of consciousness, producing apathy.**

**This is only one “program” that has been initiated to keep the populace in a continual apathetic state. Add to this, the fluoridation of the drinking water, aspartame nutri-sweet, etc., and other highly-questionable drugs.**

**Fluoride disables the willpower section of the brain, impairing the left occipital lobe. Both fluoride and selenium (in additional amounts) can produce strange effects; one common symptom is that of “hearing voices”.**

FLUORIDE ALERT

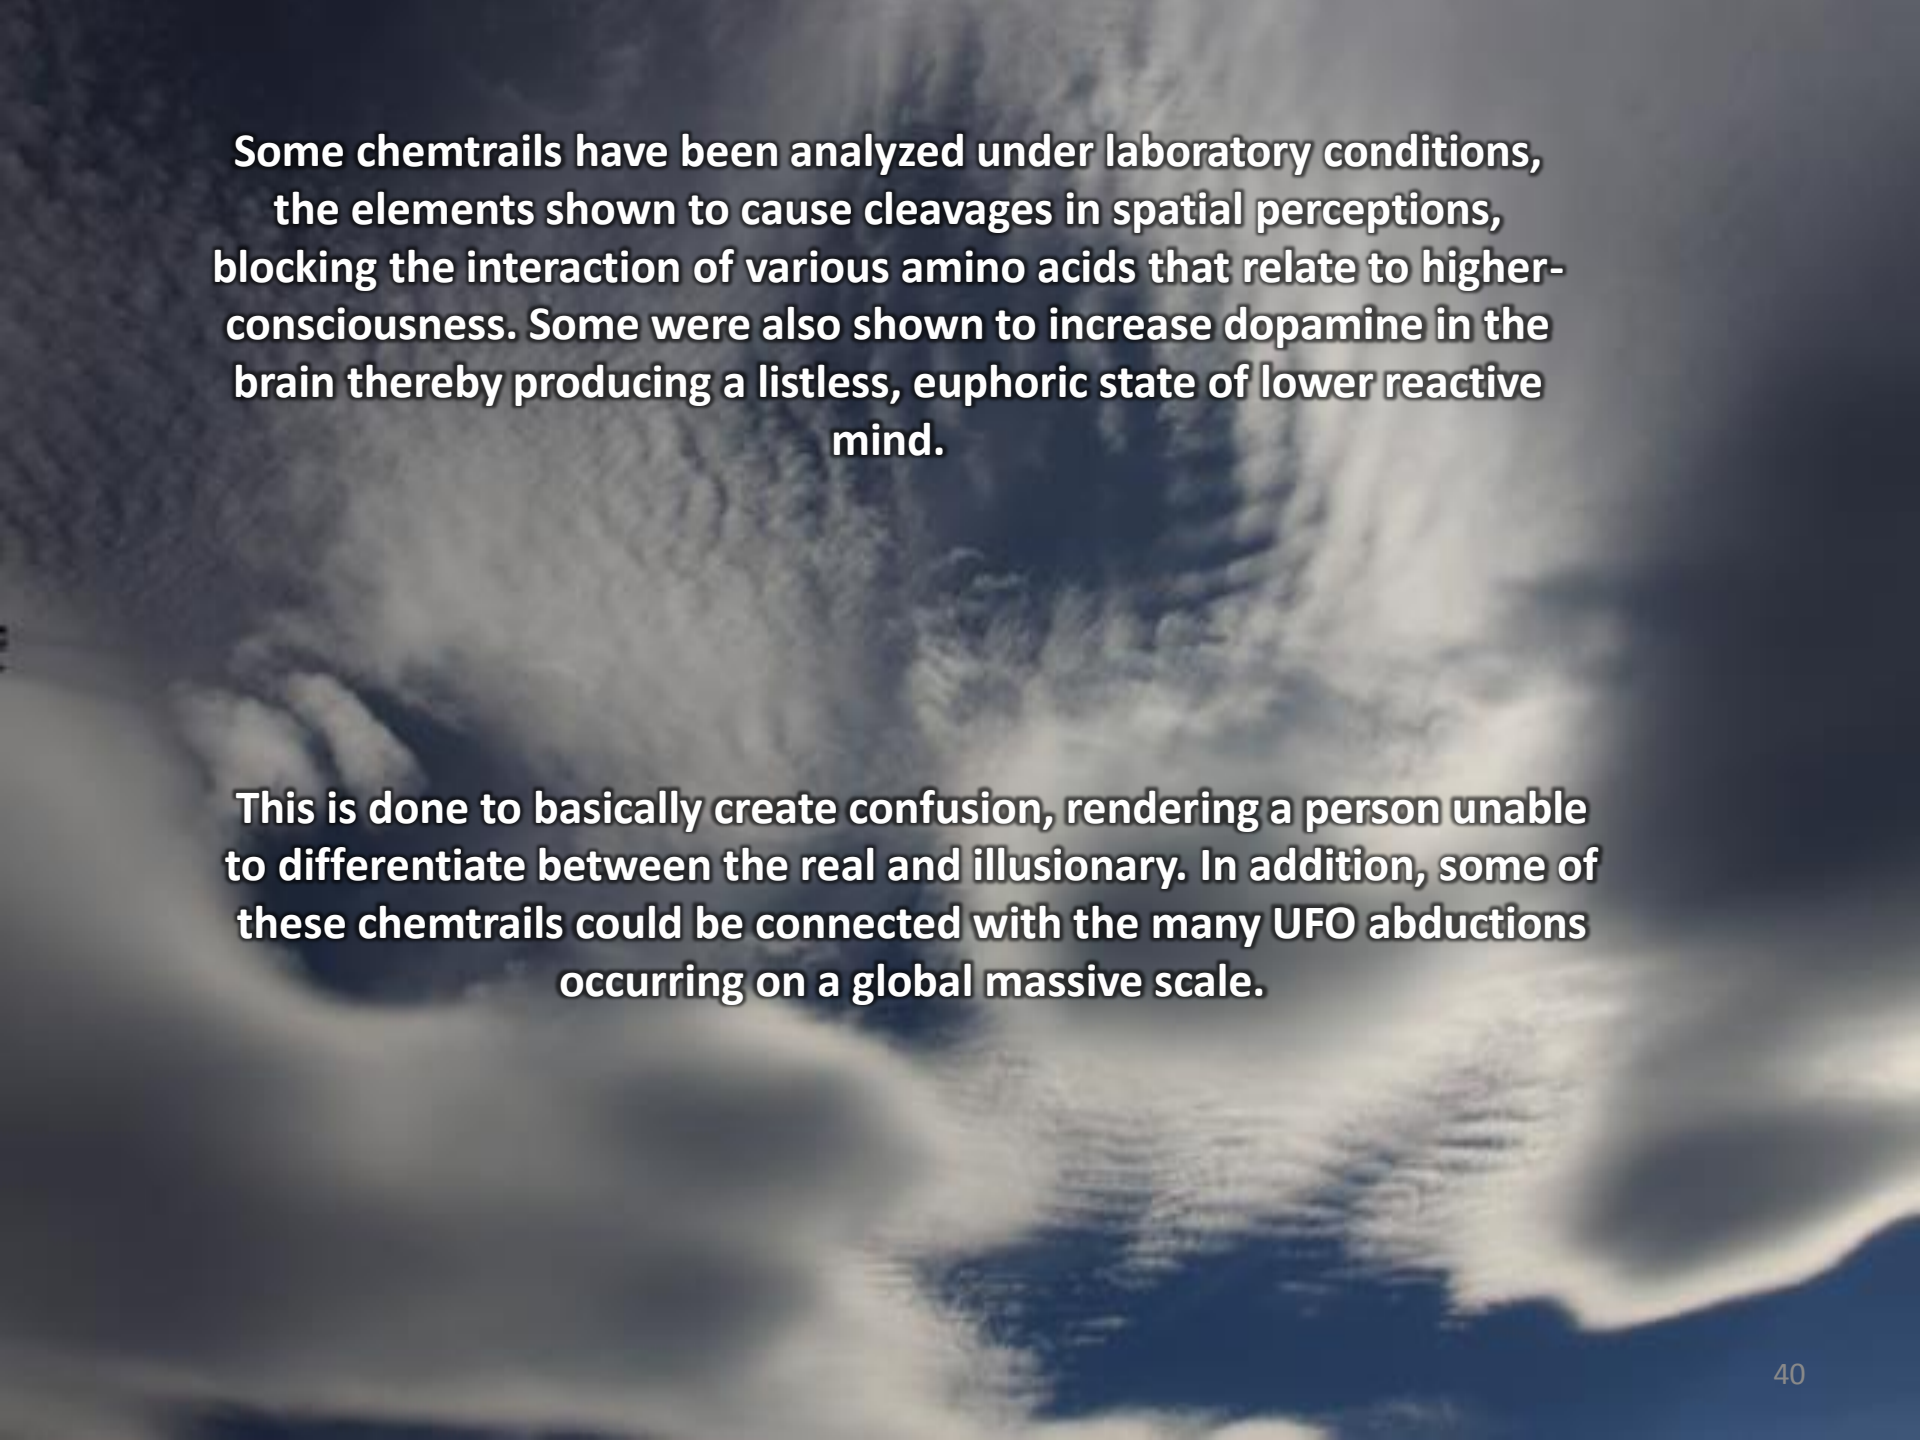

ELF waves create disturbances in the biological processes of the body, activated on a large scale once the body has been exposed to the aforementioned disease-causing chemtrails.

**THERE IS  
POISON  
IN THE  
TAP  
WATER.**

**Turmeric Shown to  
Save Your Brain  
from Toxic Fluoride**

**Some chemtrails have been analyzed under laboratory conditions, the elements shown to cause cleavages in spatial perceptions, blocking the interaction of various amino acids that relate to higher-consciousness. Some were also shown to increase dopamine in the brain thereby producing a listless, euphoric state of lower reactive mind.**

**This is done to basically create confusion, rendering a person unable to differentiate between the real and illusionary. In addition, some of these chemtrails could be connected with the many UFO abductions occurring on a global massive scale.**

**Australia has approved the license application from Big Pharma company PaxVax that will allow them to intentionally release a GMO vaccine consisting of live bacteria into Queensland, via chemtrails.**

### Morgellons Disease

Morgellons Disease is a startling condition where seemingly living fibrous organisms emerge from lesions in the patient's skin, and it is believed that it is being delivered to the population via chemtrails, literally raining down on us from our skies. If you don't believe that the chemtrails phenomena is a real part of geoengineering, then read the daily reports and the comments at [GeoengineeringWatch.org](http://GeoengineeringWatch.org). Morgellons Disease has been confirmed in over 300,000 people, and one researcher says that everyone she has tested has it in their blood now — even those who are not showing the most gruesome symptoms.

\* skin  
id over  
sion site

fibers growing  
in plastic

Research on Morgellons has been conducted by scientist Clif Carnicom — who says, “The Morgellons condition may have a much broader basis and distribution than we might like to admit or know.” Elana Freeland explains his statement, noting, “In other words, in Morgellons victims the filaments are in extremis, but the truth is that all populations subject to the chemtrails delivery system will probably experience at least a slow degradation of health as the immune system is undermined... the ‘organism’ may be in everyone’s blood.”

**Nonhealing skin lesion on a patient with Morgellons**

**Fiber-like material in a Morgellons skin lesion**

**Carnicom found that, “the blood of his samples is undergoing a transformation: the cellular structure is changing to a more fibrous form, and spherical structures like those inside the fibers are appearing in disturbed blood cells.” Elana Freeland, again noting that, “all evidence has pointed to four major forms and one minor form of the genetically altered Morgellons pathogen being delivered by aerosols, genetically modified foods, water systems...vaccinations and other inoculations. Clifford E. Carnicom admits that humanity is facing an imminent health holocaust.”**

## "MORGELLONS:" THE WINE - PEROXIDE TEST

### Materials and Procedures

Plastic bathroom cups.

3% H<sub>2</sub>O<sub>2</sub> (Hydrogen Peroxide)

Merlot Red Wine (use approx. a \$10 bottle)

Measuring spoons

Toothbrush/toothpaste

Watch or clock

### Procedure:

- 1) Brush teeth very well.
- 2) Rinse mouth with water thoroughly.
- 3) Mix 2tsp (10mL) of Merlot Red Wine with 1tsp (5mL) Hydrogen Peroxide in a plastic cup.
- 4) Use the red wine / peroxide solution as a mouth rinse; Rinse mouth *\*vigorously\** with the wine/peroxide solution for exactly five minutes. Make sure to swish it in your cheeks and gums for the full 5 mins.
- 5) Now spit all the rinse into a bathroom cup.
- 6) Carefully examine the rinse for fibers and should look somewhat like wet chewing tobacco. . These are components of nanotech pathogens which we have all been infected with, most likely via chemtrails. I have read organic grape juice may be used as a substitute.

**Chemtrails, Nanoaluminum, and  
Neurodegenerative and  
Neurodevelopmental Effects**  
By Russell L. Blaylock, M.D.  
[Geoengineering Exposed](#)

Nanoparticles of aluminum are infinitely more reactive and can easily penetrate the brain

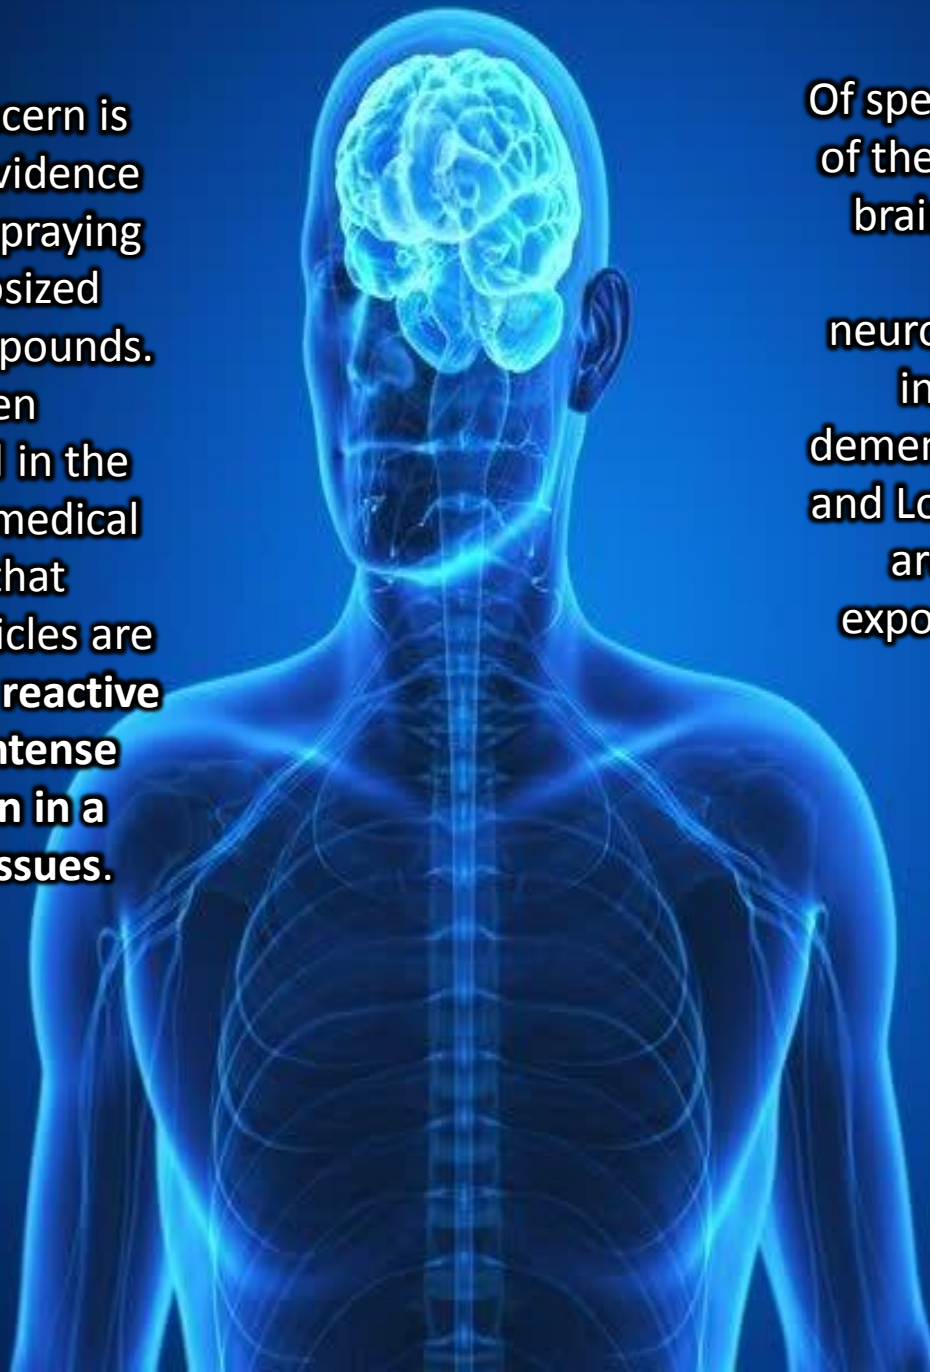

The internet is littered with stories of “chemtrails” and geoengineering to combat “global warming”; and, until recently, I took these stories with a grain of salt. One of the main reasons for my skepticism was that I rarely saw what they were describing in the skies. But over the past several years I have noticed a great number of these trails and I have to admit they are not like the contrails I grew up seeing in the skies. They are extensive, quite broad, are laid in a definite pattern, and slowly evolve into artificial clouds. Of particular concern is that there are now so many – dozens every day are littering the skies.

My major concern is that there is evidence that they are spraying tons of nanosized aluminum compounds.

It has been demonstrated in the scientific and medical literature that nanosized particles are **infinitely more reactive and induce intense inflammation in a number of tissues.**

Of special concern is the effect of these nanoparticles on the brain and spinal cord, as a growing list of neurodegenerative diseases, including Alzheimer's dementia, Parkinson's disease, and Lou Gehrig's disease (ALS) are strongly related to exposure to **environmental aluminum.**

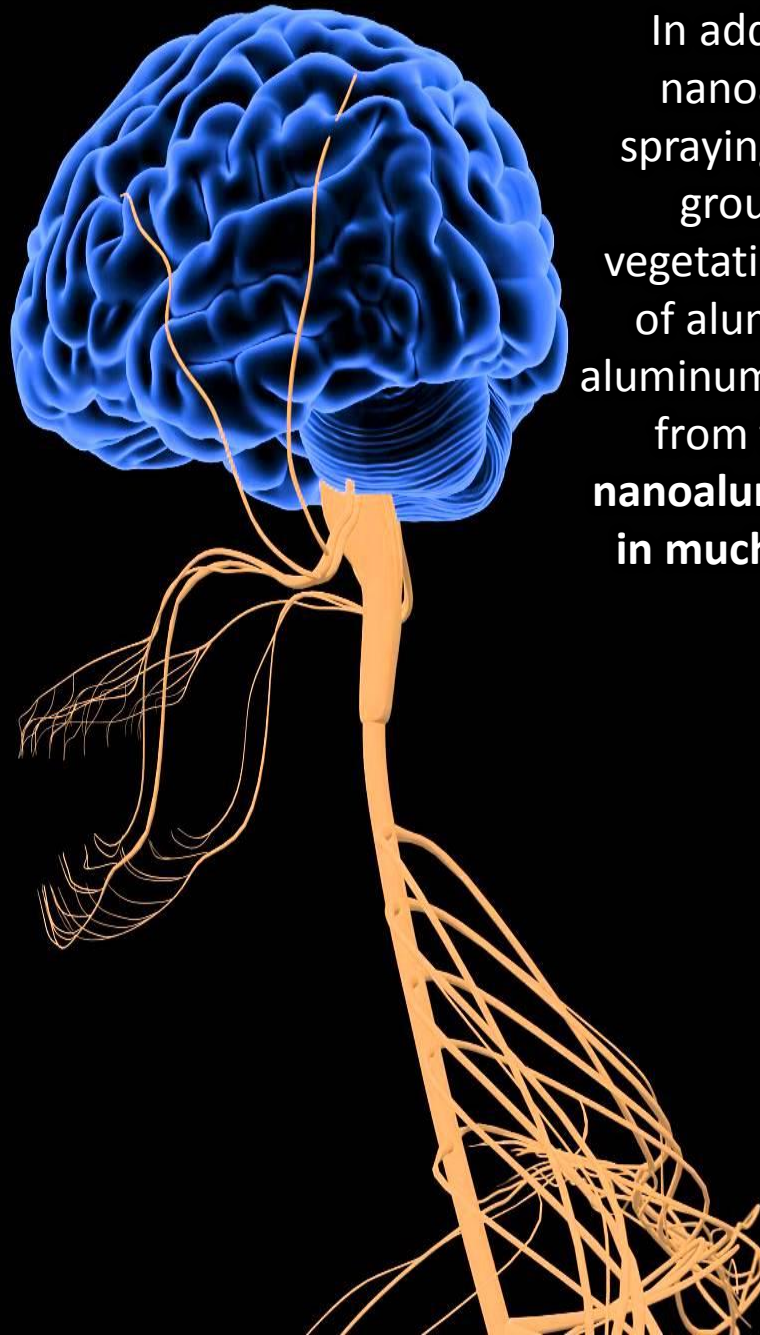

**The intranasal route of exposure makes spraying of massive amounts of nanoaluminum into the skies especially hazardous, as it will be inhaled by people of all ages, including babies and small children for many hours. We know that older people have the greatest reaction to this airborne aluminum.**

Because of the nanosizing of the aluminum particles being used, home-filtering systems will not remove the aluminum, thus prolonging exposure, even indoors.

This absorbed aluminum has been shown to be distributed to a number of organs and tissues including the brain and spinal cord. Inhaling this environmentally suspended nanoaluminum will also produce tremendous **inflammatory reaction within the lungs**, which will pose a significant hazard to children and adults with **asthma** and pulmonary diseases.

In addition to inhaling nanoaluminum, such spraying will saturate the ground, water, and vegetation with high levels of aluminum. Normally, aluminum is poorly absorbed from the GI tract; **but nanoaluminum is absorbed in much higher amounts.**

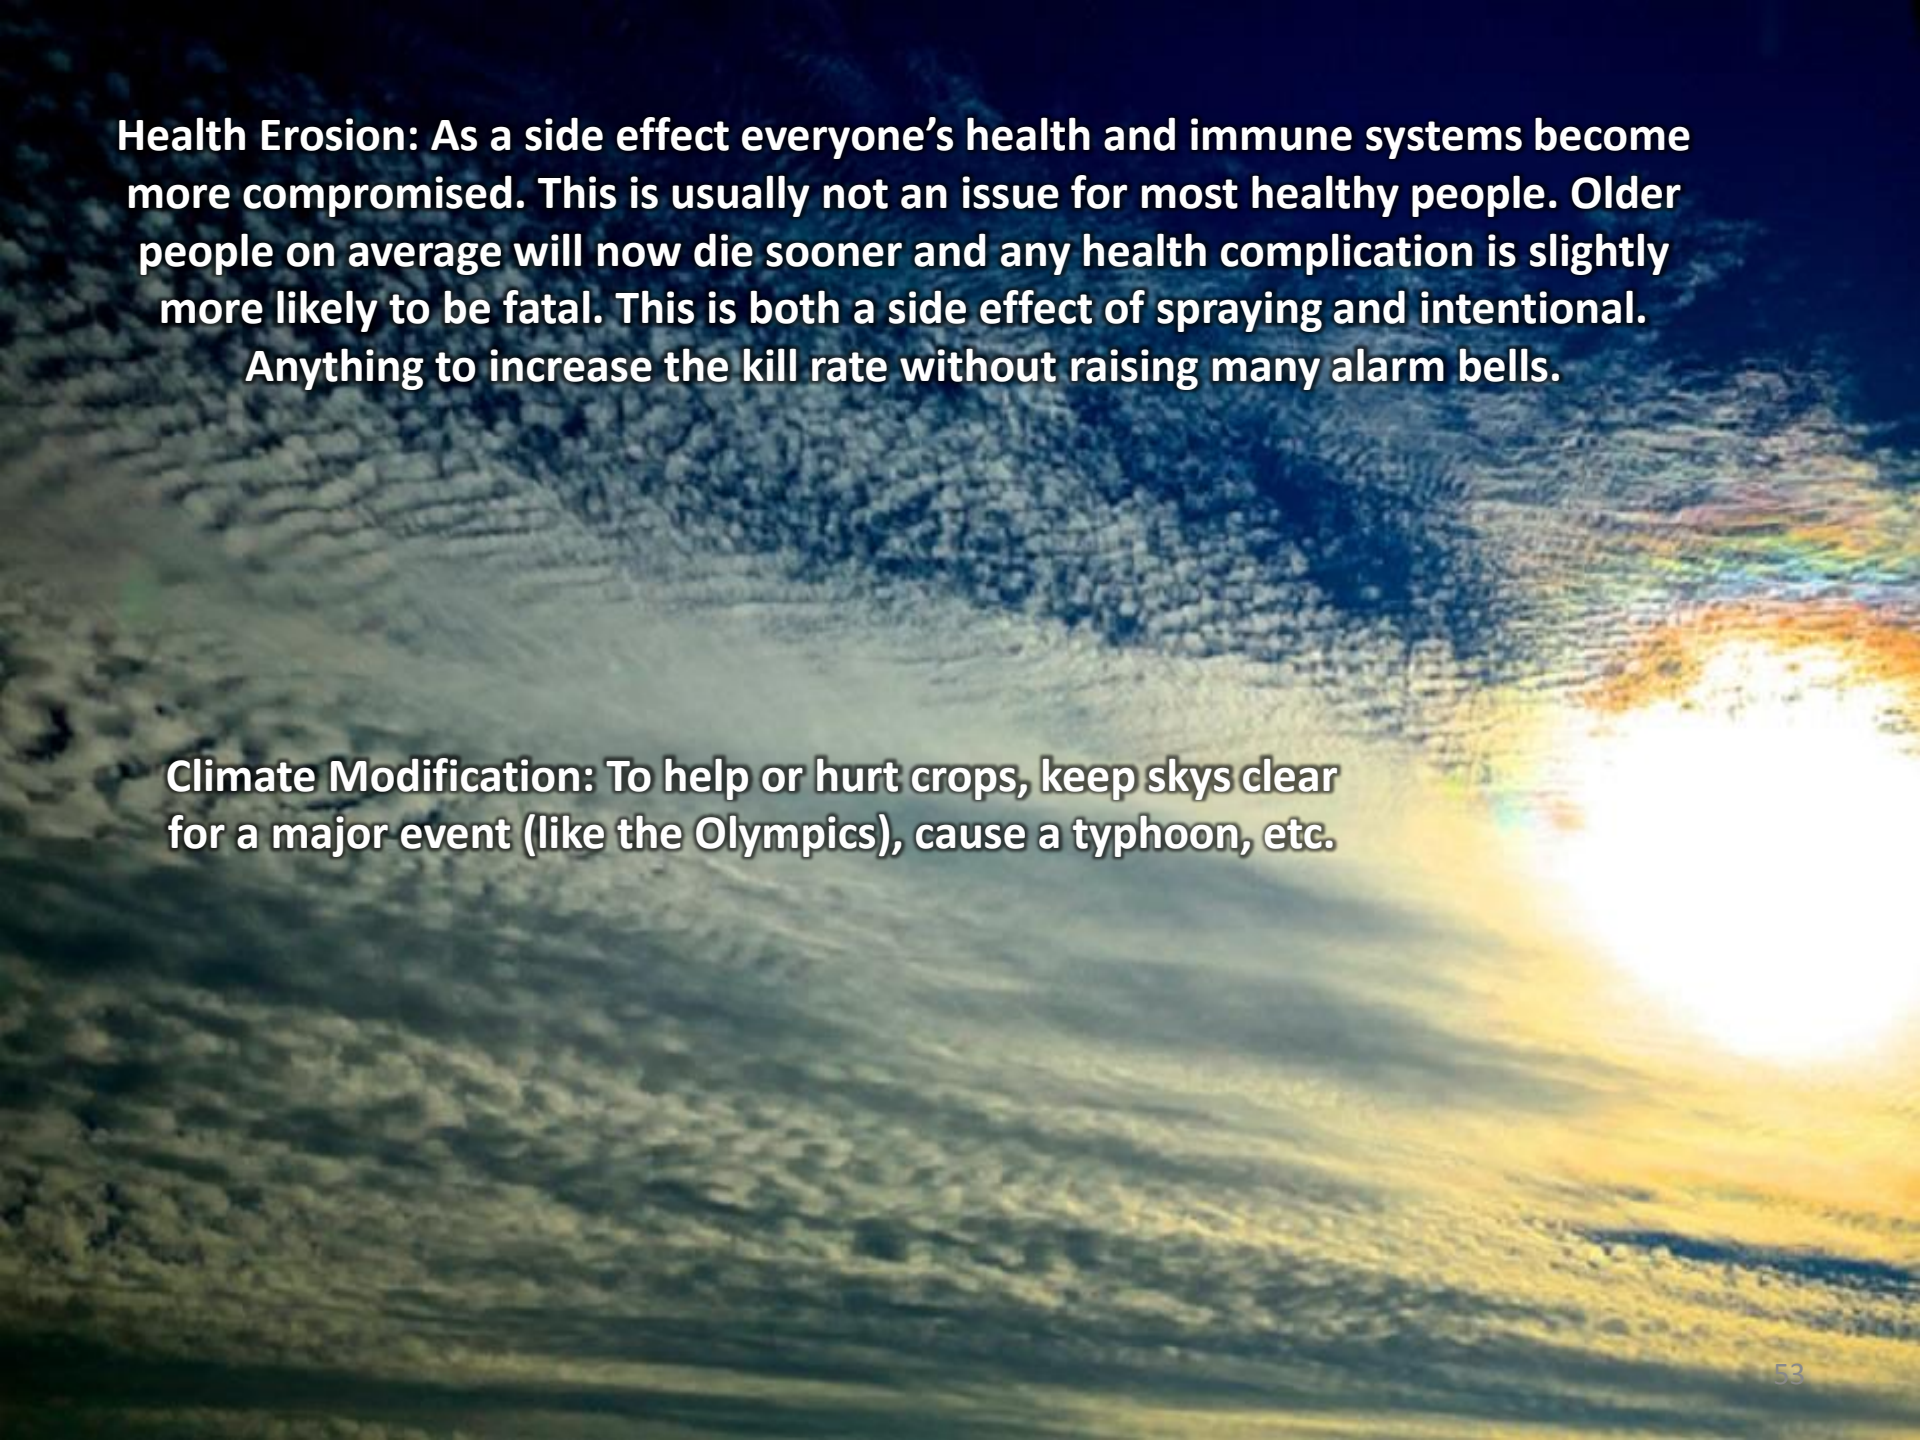

[http://www.mindcontrol.se/?page\\_id=7725](http://www.mindcontrol.se/?page_id=7725)

**Chemtrails are a huge logistical operation. Larger than the Hoover Dam, trans-Alaskan pipeline or moon landing. It's large. And expensive. The biggest mistake one can make is assuming there is only one reason for chemtrails. There are about five or six reasons and possibly more. The top six are listed below with a brief summary. This web site is concerned with the last.**

**Blocking the Sun:** This is the standard reason given to idiots in the government. *We need to secretly stop global warming, so keep it a secret that we're spraying.* Global warming is the catch all con for everyone in the government. If you're smarter than this they'll give you a better reason.

**Blocking the Sun (Again):** A reduction in sun light across the planet works well to decrease crop yields slightly.

**Superheating the Atmosphere:** In order to create earthquakes and steer hurricanes (for example hurricane Katrina in New Orleans) the atmosphere needs to be more conductive for electricity so installations such as HAARP can work their magic. So the chemtrails spray barium and aluminum among other things to create a more conductive upper atmosphere.

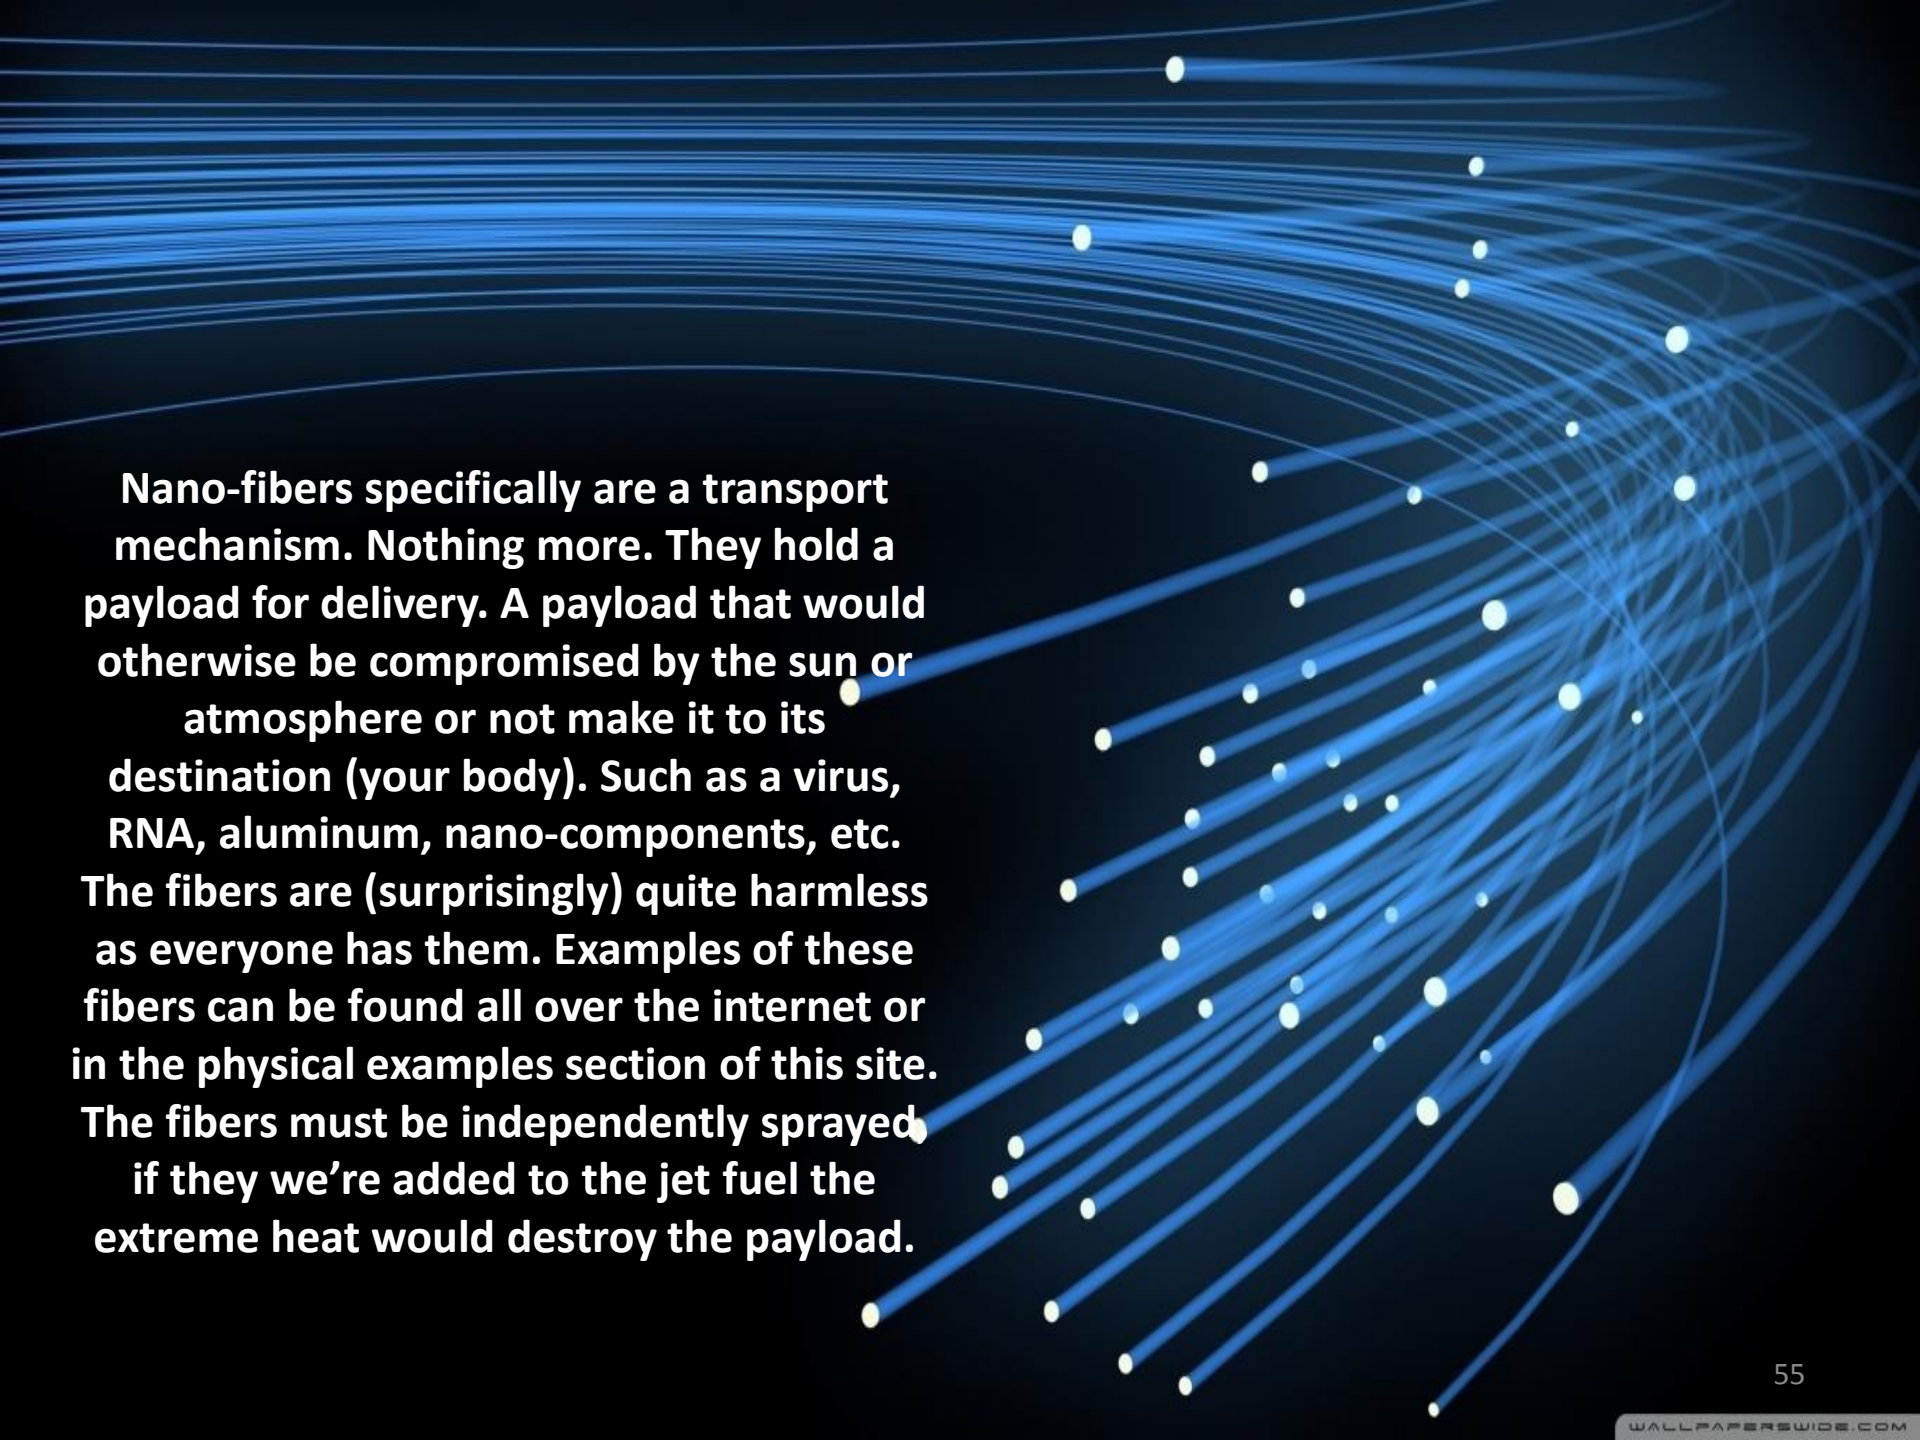

An aerial photograph showing a large area of forest fire. The fire is concentrated on the right side of the image, with a bright, intense yellow and white sun flare or fire source. The surrounding forest is dark green and brown, indicating the extent of the fire. The sky is a deep blue, and the overall scene is dramatic and somber.

**Health Erosion: As a side effect everyone's health and immune systems become more compromised. This is usually not an issue for most healthy people. Older people on average will now die sooner and any health complication is slightly more likely to be fatal. This is both a side effect of spraying and intentional. Anything to increase the kill rate without raising many alarm bells.**

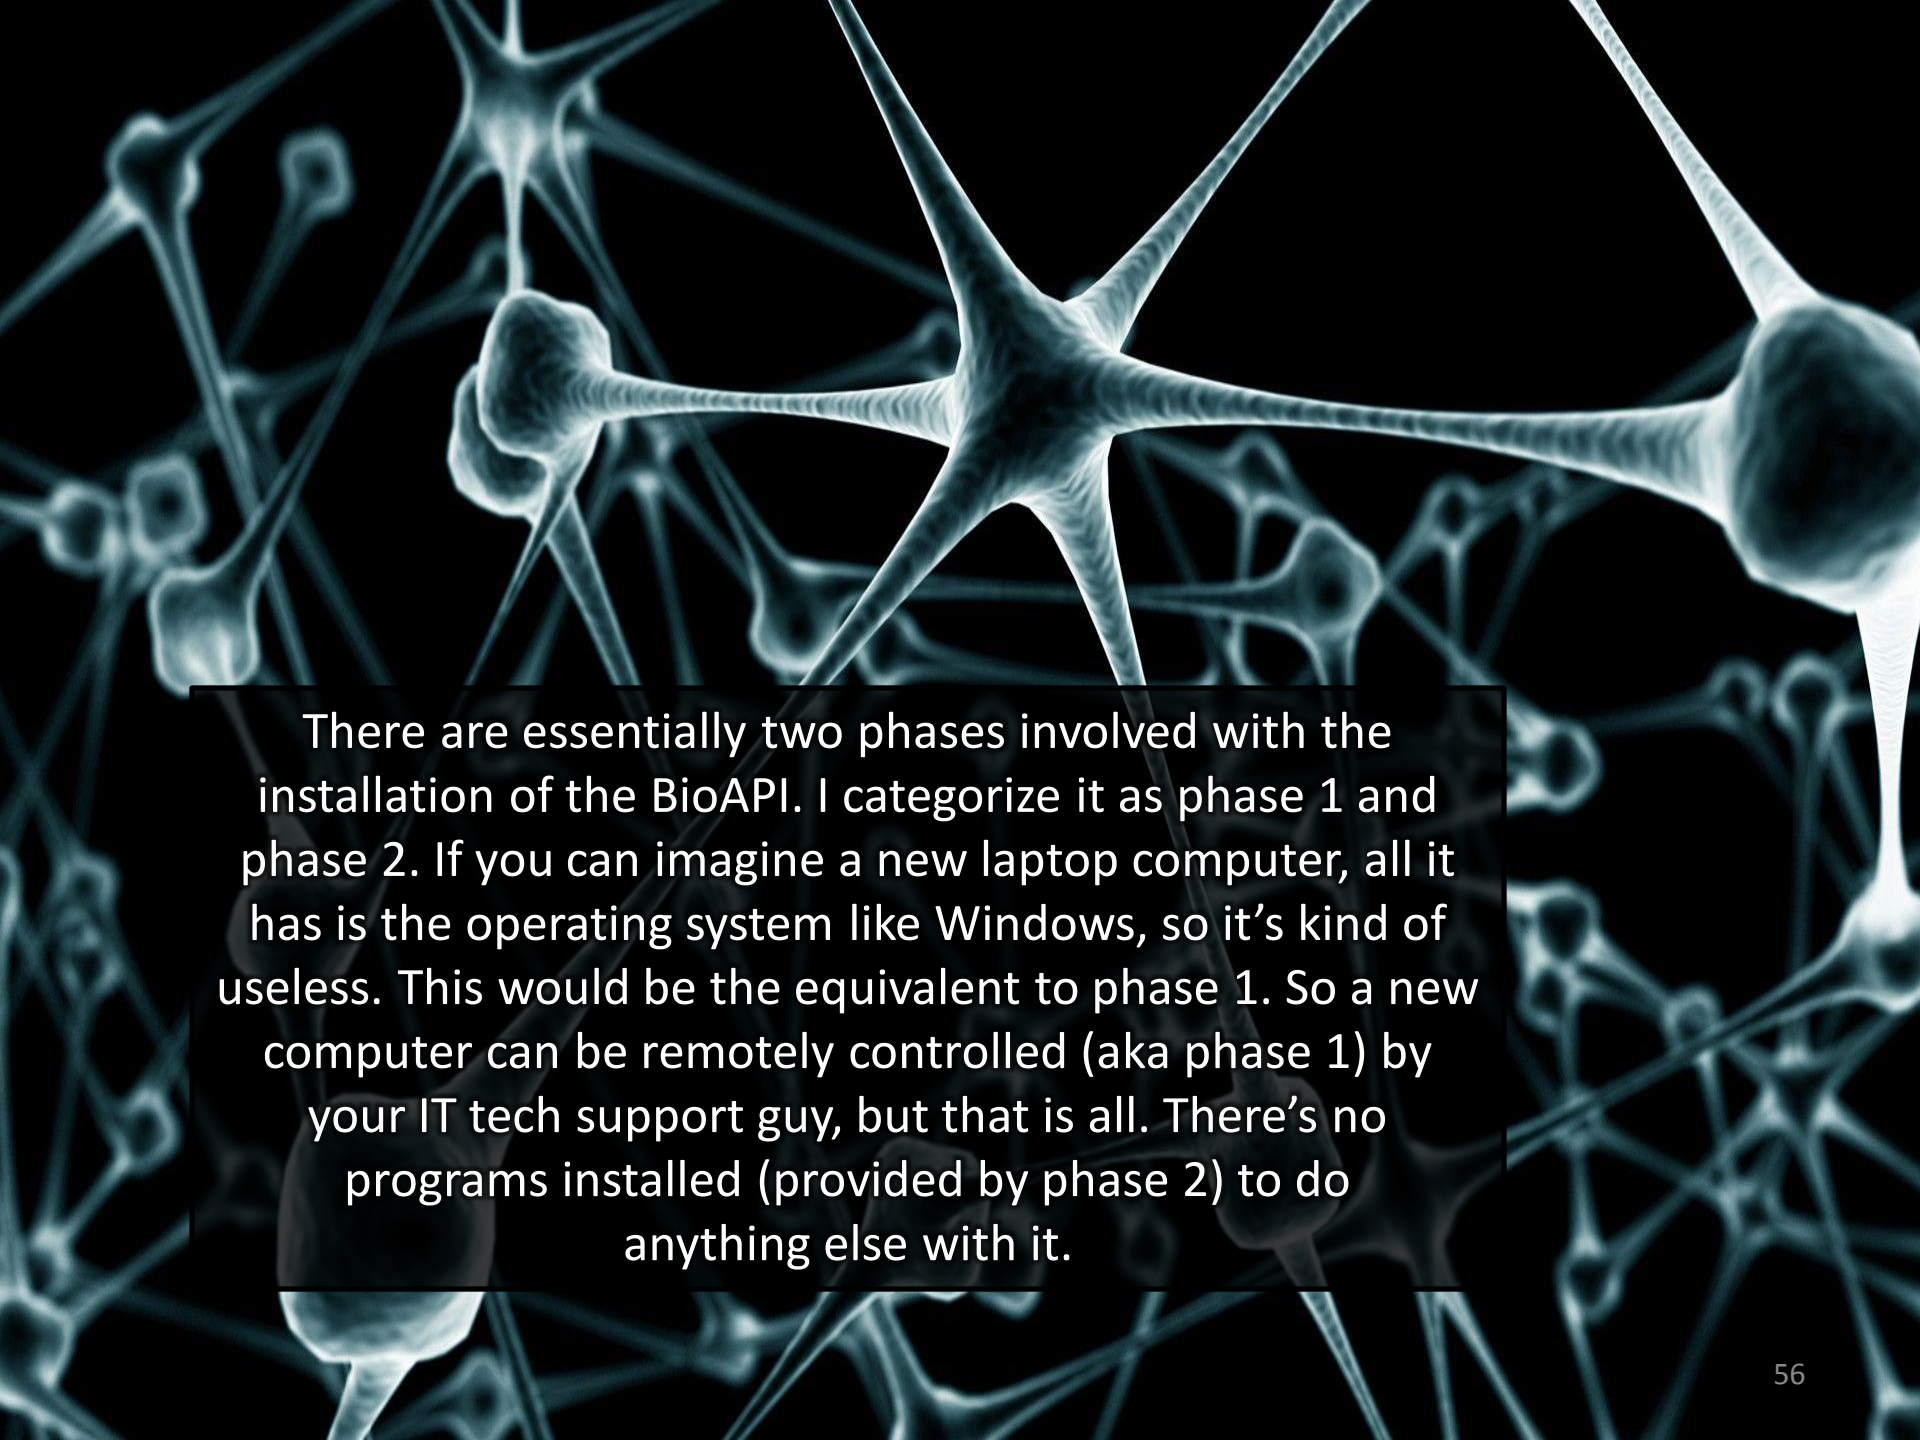

**Climate Modification: To help or hurt crops, keep skys clear for a major event (like the Olympics), cause a typhoon, etc.**

Nano-fiber Propagation: To universally install a BioAPI in everyone they need to spray nano-fibers. These fibers cannot be put into the food supply or given in some other way, the uptake across the population would take forever and not propagate very efficiently. It's much easier just to spray everyone like an insect; and because it's happening to everyone and universal the herd mentality of the unwashed masses then justifies it.

**BioAPI (Biometric Application Programming Interface)** is a key part of the International Standards that support systems that perform biometric enrollment and verification (or identification). It defines interfaces between modules that enable software from multiple vendors to be integrated together to provide a biometrics application within a system, or between one or more systems using a defined Biometric Interworking Protocol (BIP)

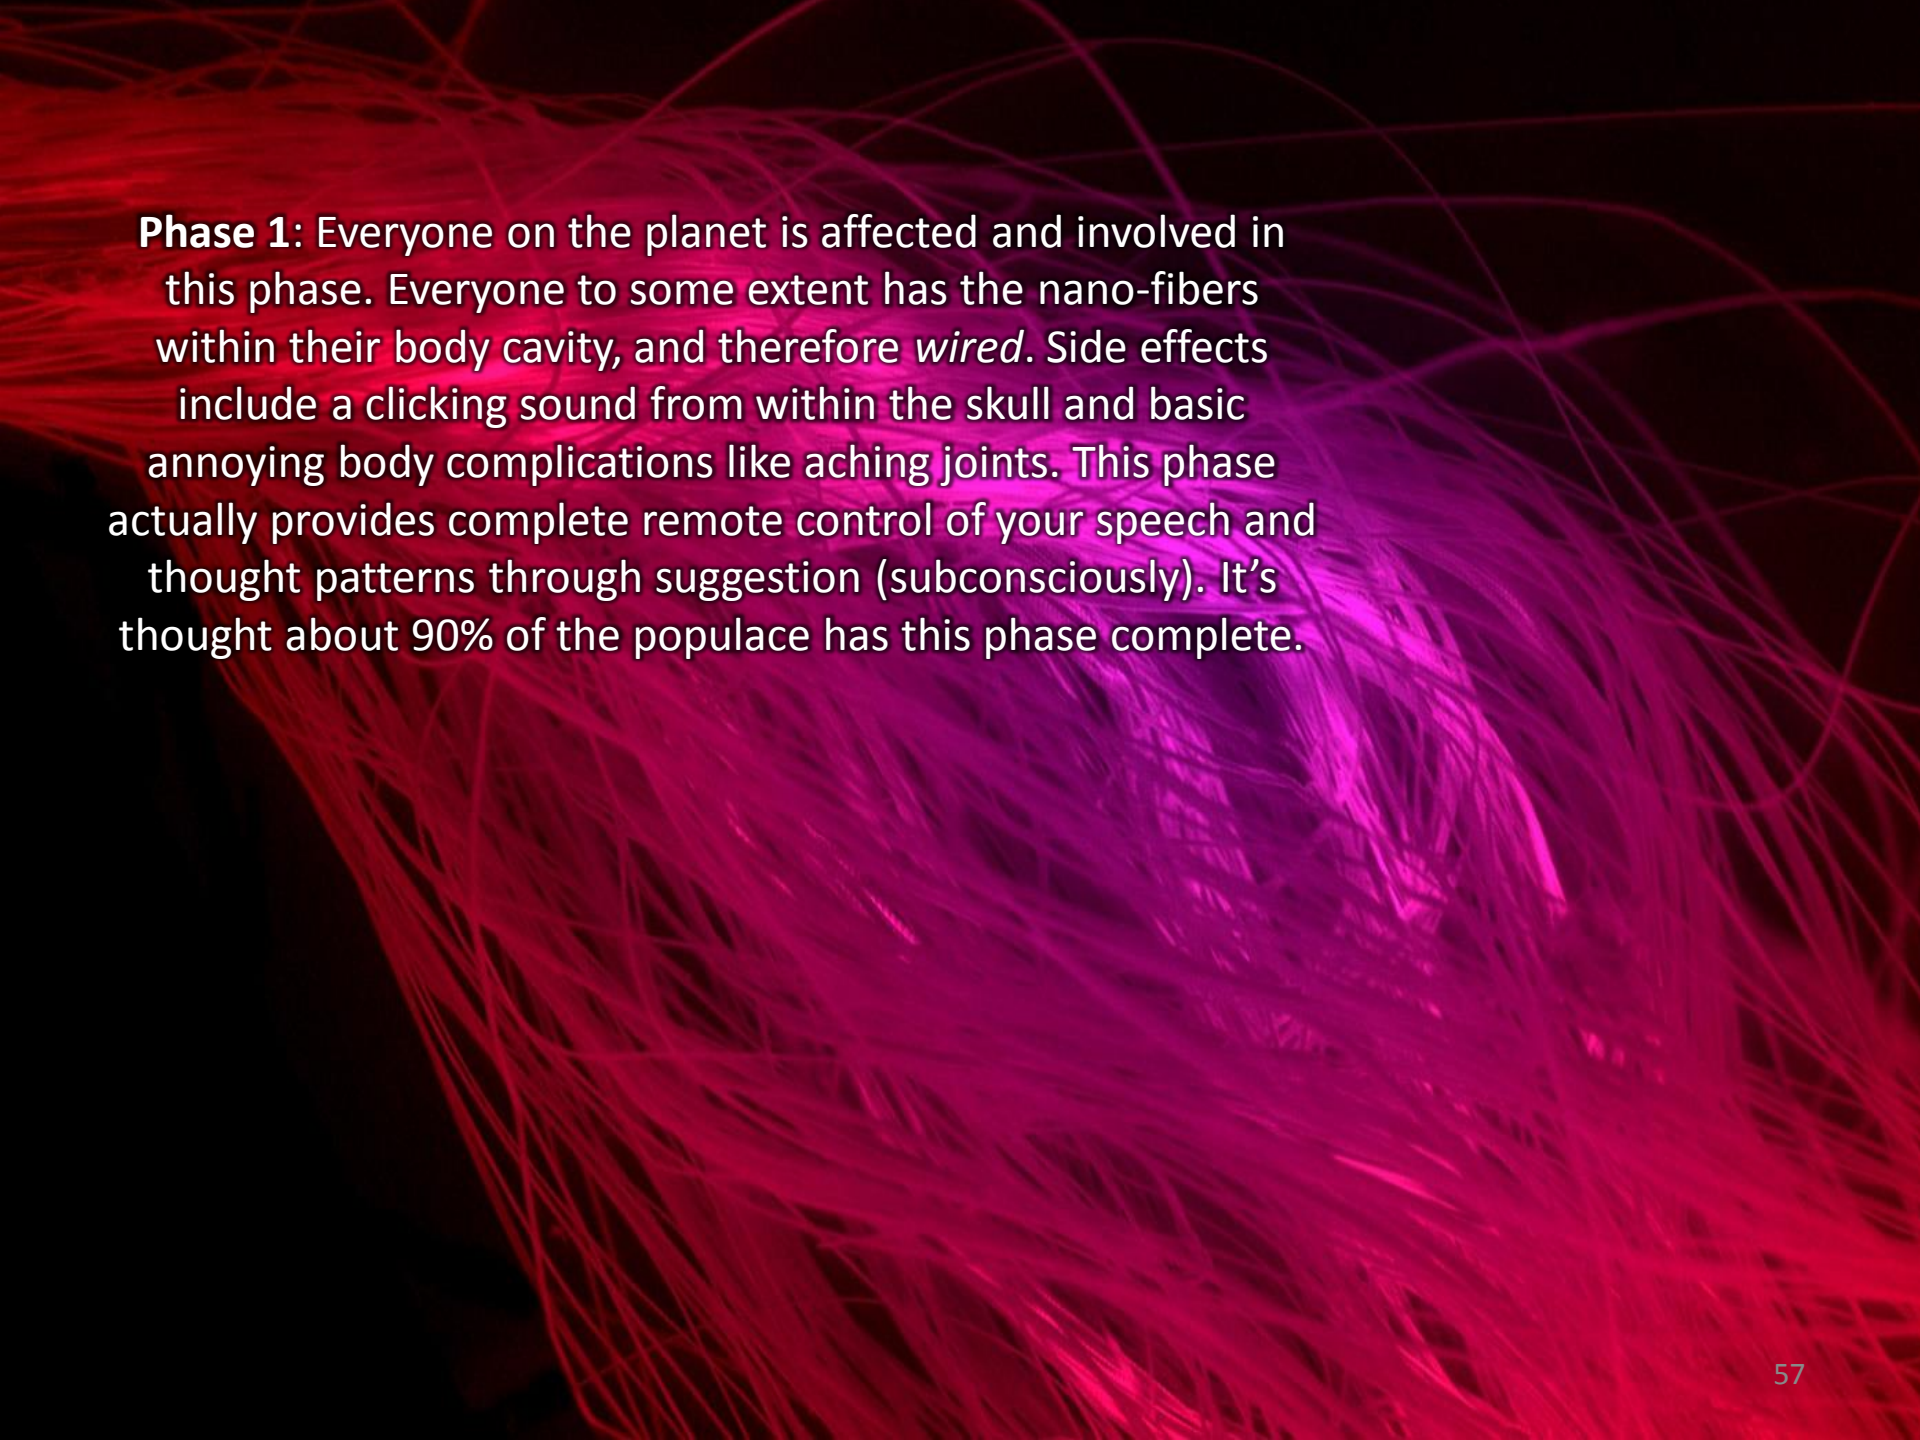

The background of the slide is a dark blue gradient. It features numerous thin, glowing blue lines that curve and sweep across the frame, primarily from the left side towards the right. Interspersed among these lines are several bright white circular dots of varying sizes, some appearing as if they are at the end of a line or as standalone points of light. The overall effect is reminiscent of a network or a data stream.

**Nano-fibers specifically are a transport mechanism. Nothing more. They hold a payload for delivery. A payload that would otherwise be compromised by the sun or atmosphere or not make it to its destination (your body). Such as a virus, RNA, aluminum, nano-components, etc. The fibers are (surprisingly) quite harmless as everyone has them. Examples of these fibers can be found all over the internet or in the physical examples section of this site. The fibers must be independently sprayed, if they we're added to the jet fuel the extreme heat would destroy the payload.**

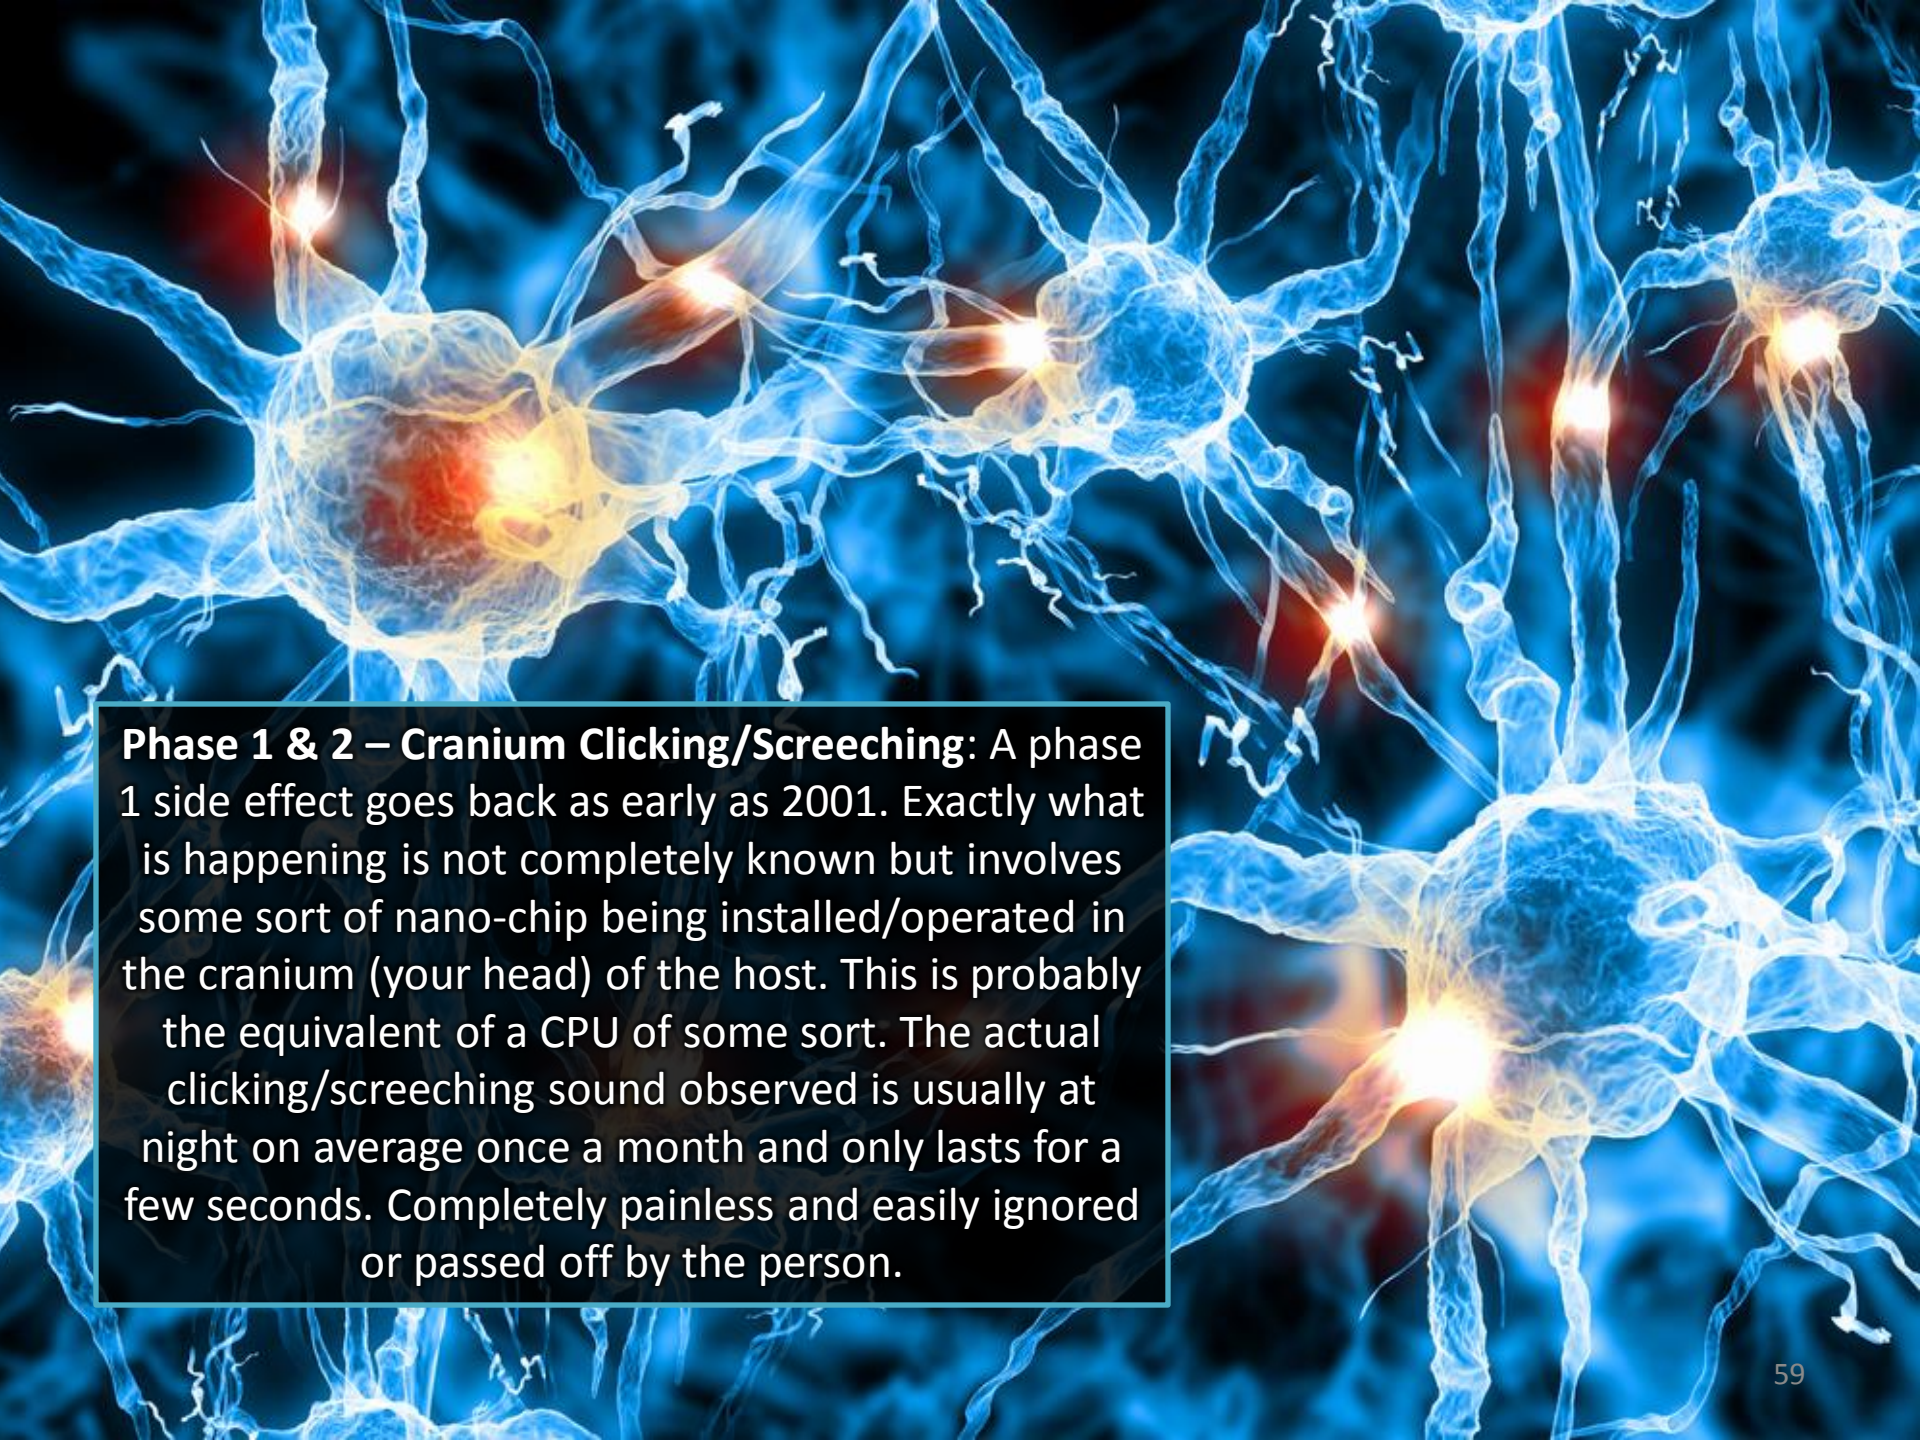

There are essentially two phases involved with the installation of the BioAPI. I categorize it as phase 1 and phase 2. If you can imagine a new laptop computer, all it has is the operating system like Windows, so it's kind of useless. This would be the equivalent to phase 1. So a new computer can be remotely controlled (aka phase 1) by your IT tech support guy, but that is all. There's no programs installed (provided by phase 2) to do anything else with it.

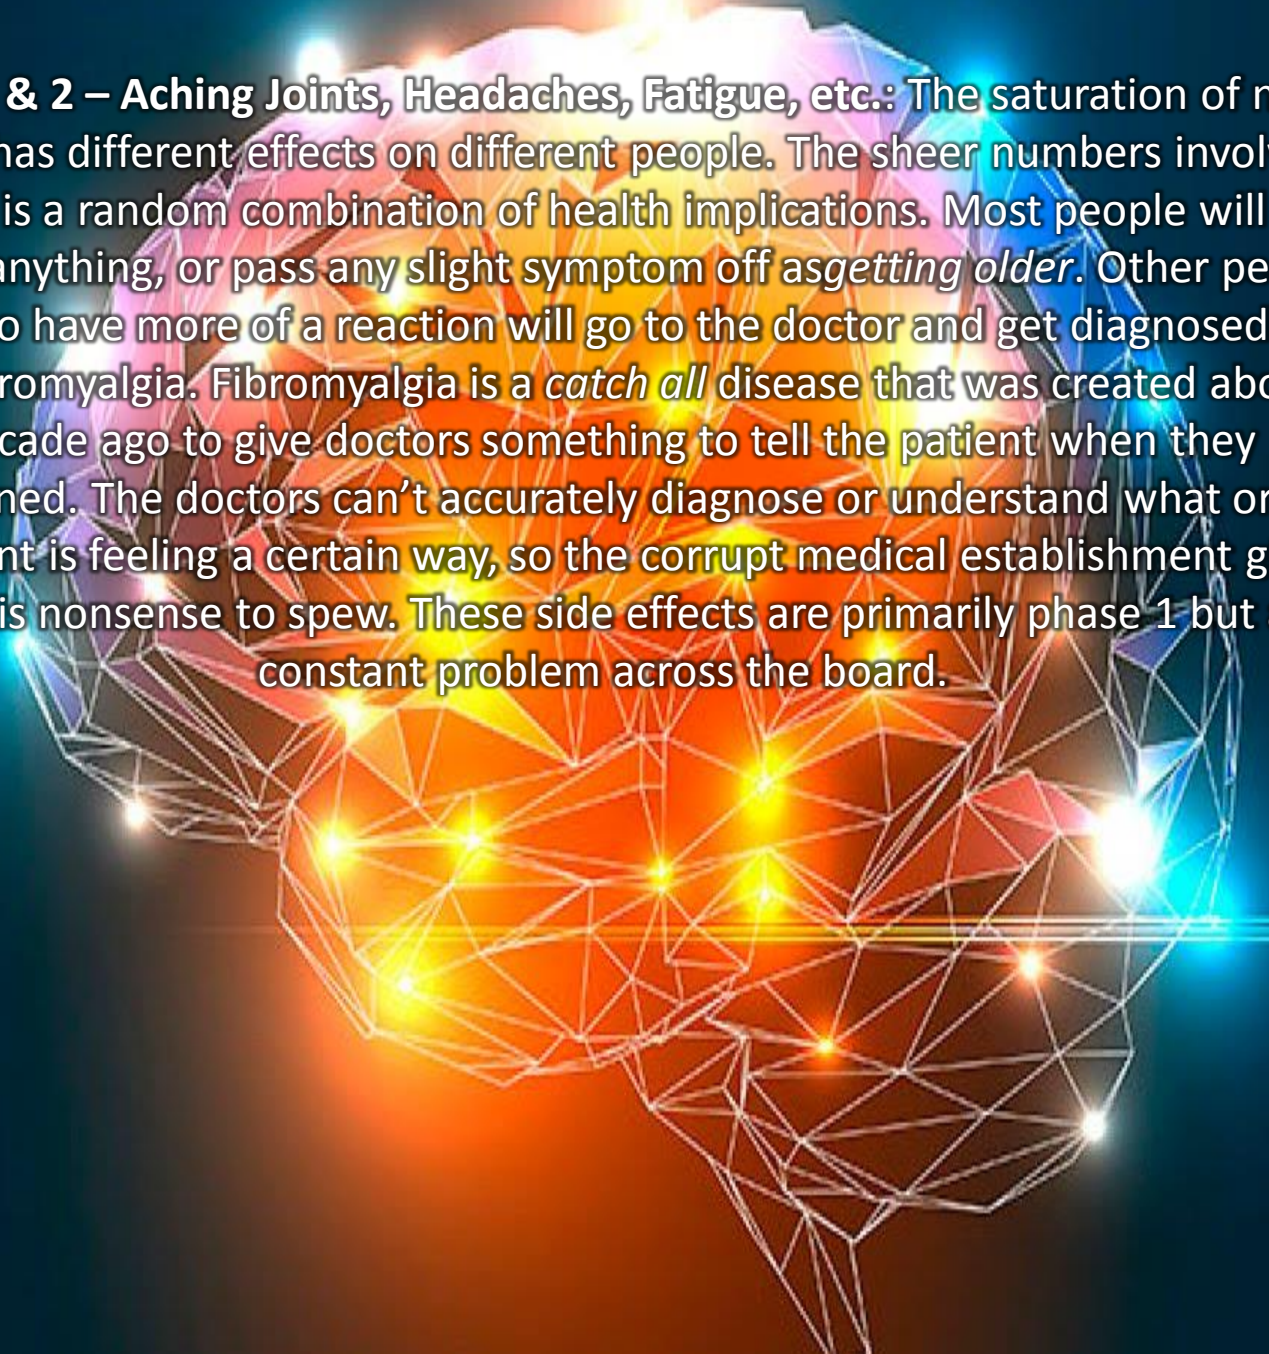

**Phase 1:** Everyone on the planet is affected and involved in this phase. Everyone to some extent has the nano-fibers within their body cavity, and therefore *wired*. Side effects include a clicking sound from within the skull and basic annoying body complications like aching joints. This phase actually provides complete remote control of your speech and thought patterns through suggestion (subconsciously). It's thought about 90% of the populace has this phase complete.

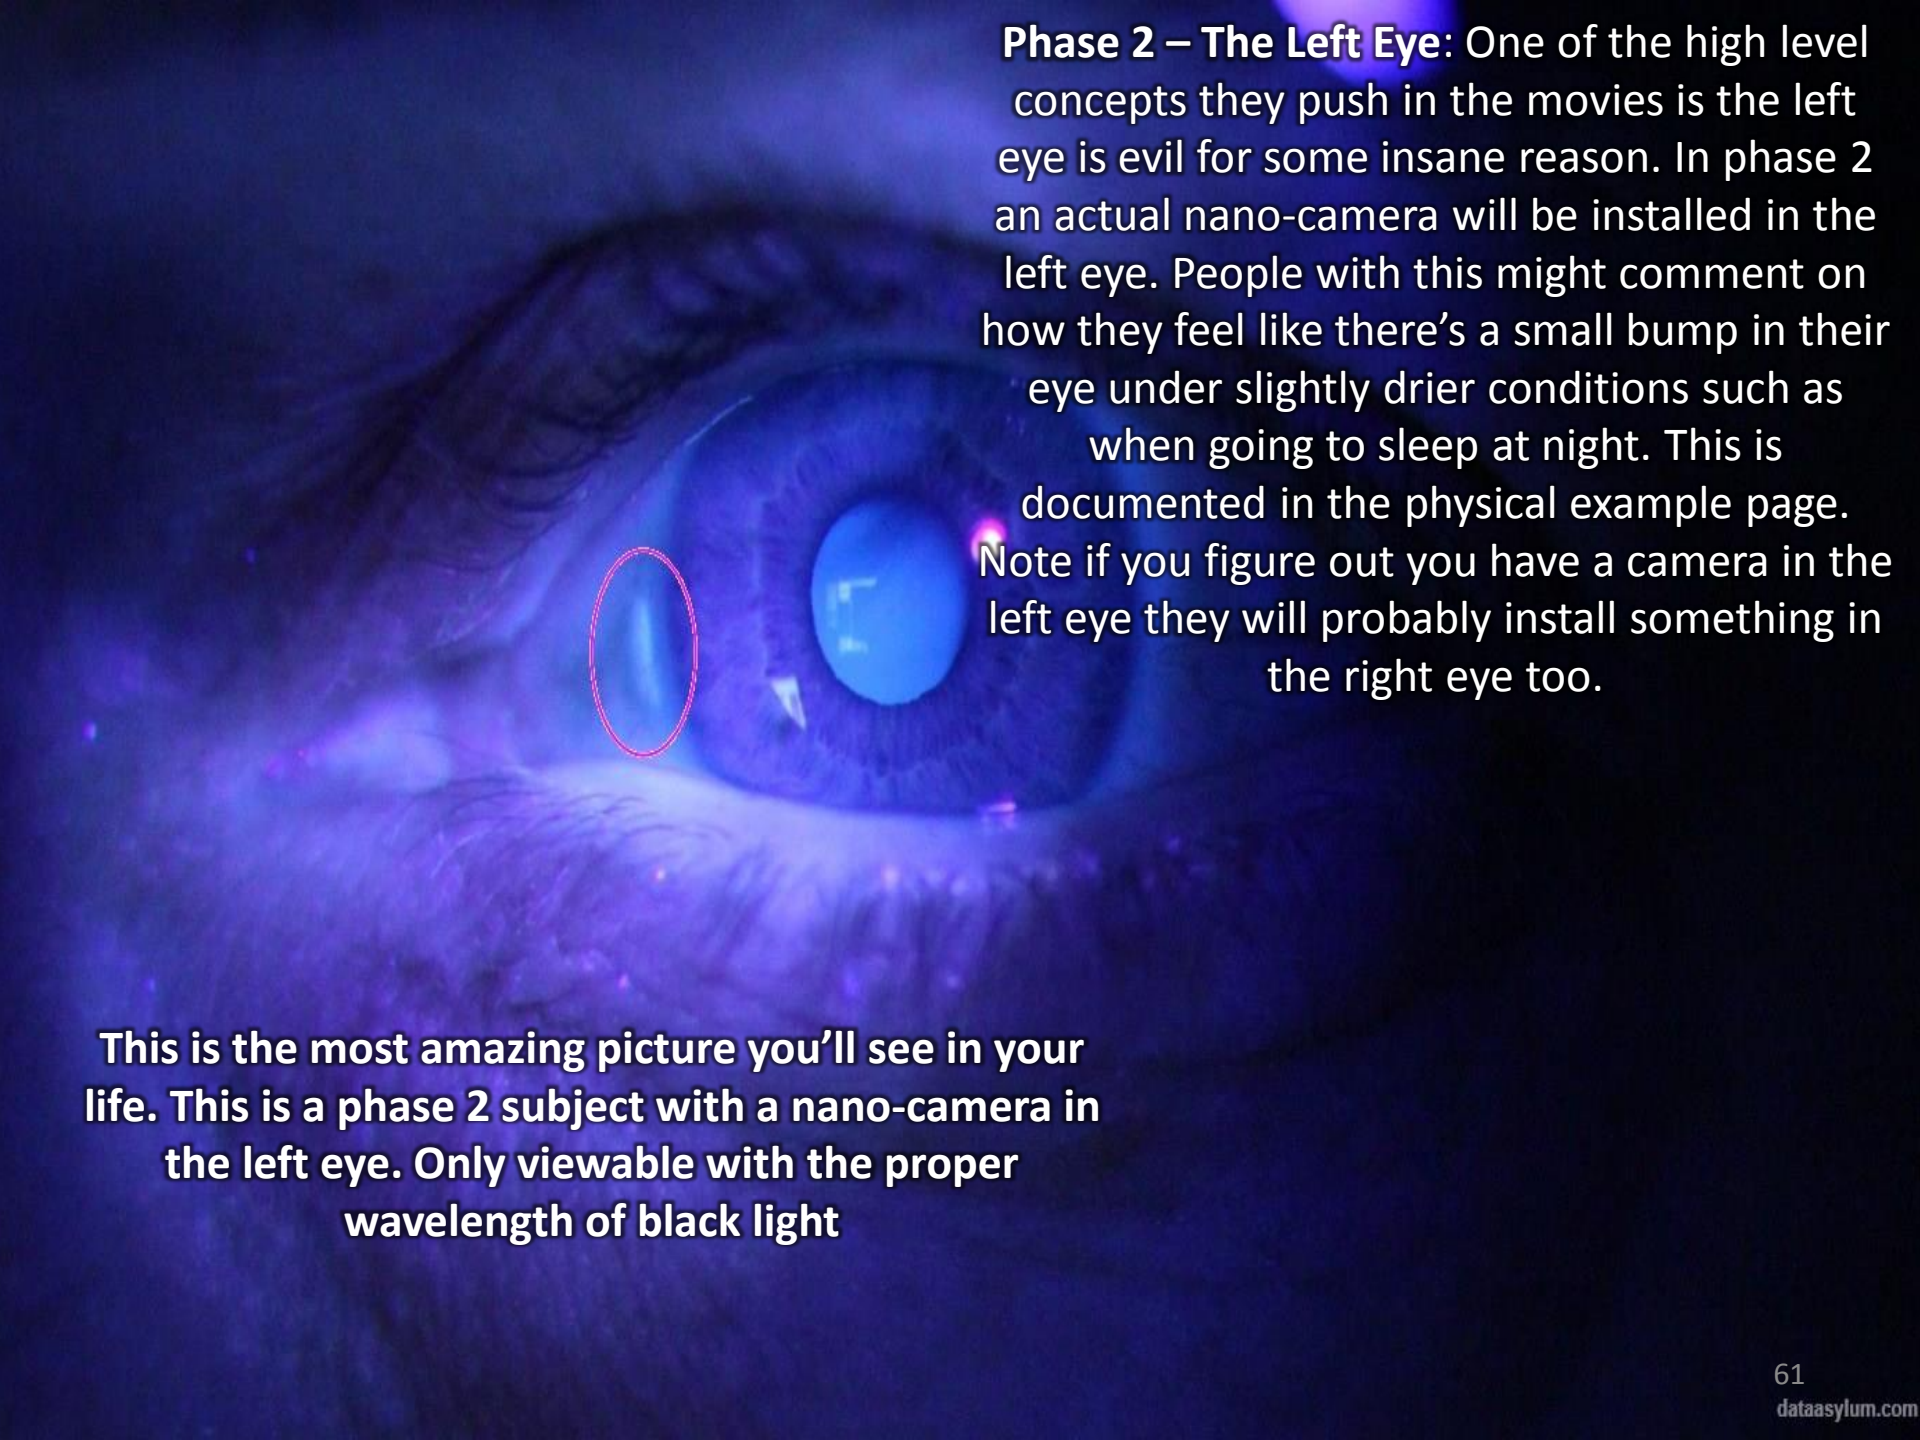

**Phase 2:** This phase must be triggered and is extreme. It completely compromises your health and can do anything from kill you to simply monitor you. This phase cannot be forced onto you like phase 1 (technically it can but they don't do that yet). This involves multiple nano-sensors from ocular to heart and everything in between. He figures about 2% of the population has gone through this phase. If this phase is triggered in you they consider you *evil* as shown within the media examples page of this site. You must do something to trigger this phase, including eating cheap red meat, kissing specific people, using specific corporate health care/beauty products, etc. The objective they are reaching for here is to connect each event with a deadly sin of some sort. For example morgellons would be connected with vanity because your skin goes to hell. Ultimately this phase provides complete remote control of your body and mind, including the monitoring of your emotions, thoughts, body functions and everything in between.

**Phase 1 & 2 – Cranium Clicking/Screeching:** A phase 1 side effect goes back as early as 2001. Exactly what is happening is not completely known but involves some sort of nano-chip being installed/operated in the cranium (your head) of the host. This is probably the equivalent of a CPU of some sort. The actual clicking/screeching sound observed is usually at night on average once a month and only lasts for a few seconds. Completely painless and easily ignored or passed off by the person.

**Phase 1 & 2 – Aching Joints, Headaches, Fatigue, etc.:** The saturation of nano-fibers has different effects on different people. The sheer numbers involved results in a random combination of health implications. Most people will not notice anything, or pass any slight symptom off as *getting older*. Other people who have more of a reaction will go to the doctor and get diagnosed with fibromyalgia. Fibromyalgia is a *catch all* disease that was created about a decade ago to give doctors something to tell the patient when they complained. The doctors can't accurately diagnose or understand what or why a patient is feeling a certain way, so the corrupt medical establishment gives them this nonsense to spew. These side effects are primarily phase 1 but are a constant problem across the board.

**Phase 2 – The Left Eye:** One of the high level concepts they push in the movies is the left eye is evil for some insane reason. In phase 2 an actual nano-camera will be installed in the left eye. People with this might comment on how they feel like there's a small bump in their eye under slightly drier conditions such as when going to sleep at night. This is documented in the physical example page. Note if you figure out you have a camera in the left eye they will probably install something in the right eye too.

**This is the most amazing picture you'll see in your life. This is a phase 2 subject with a nano-camera in the left eye. Only viewable with the proper wavelength of black light**

## Phase 2 – Permanent Metallic Taste:

Some people will comment on a metallic taste in the mouth. Typically when going to sleep it becomes prevalent. This is mostly a direct response to be monitored. The more they monitor you or your BioAPI the more of a metallic taste you'll receive. It is not a side effect of medication, that's the typical response a doctor will give you. If you are not on medication and otherwise completely healthy and all of a sudden have a permanent metallic taste in your mouth, you are being monitored 24/7.

## Smart Dust

Developed by a UC Berkeley professor, Smart Dust refers to motes – little computerized chips intended to be about the size of a piece of dust, but about the size of a quarter now – that once laid out in a mesh network, and search and find one another to determine proximity.

Three access points are placed at random points and connected wirelessly to an interrogator, akin to a USB device. Then a dozen (or 100,000) motes come into the network, set up a multi-hub mesh, and start to communicate and report their nearest range.

The end result: constant tracking of tagged items, without the need for a reader infrastructure. Great idea for the supply chain. Scary idea for, say, tracking people.

6

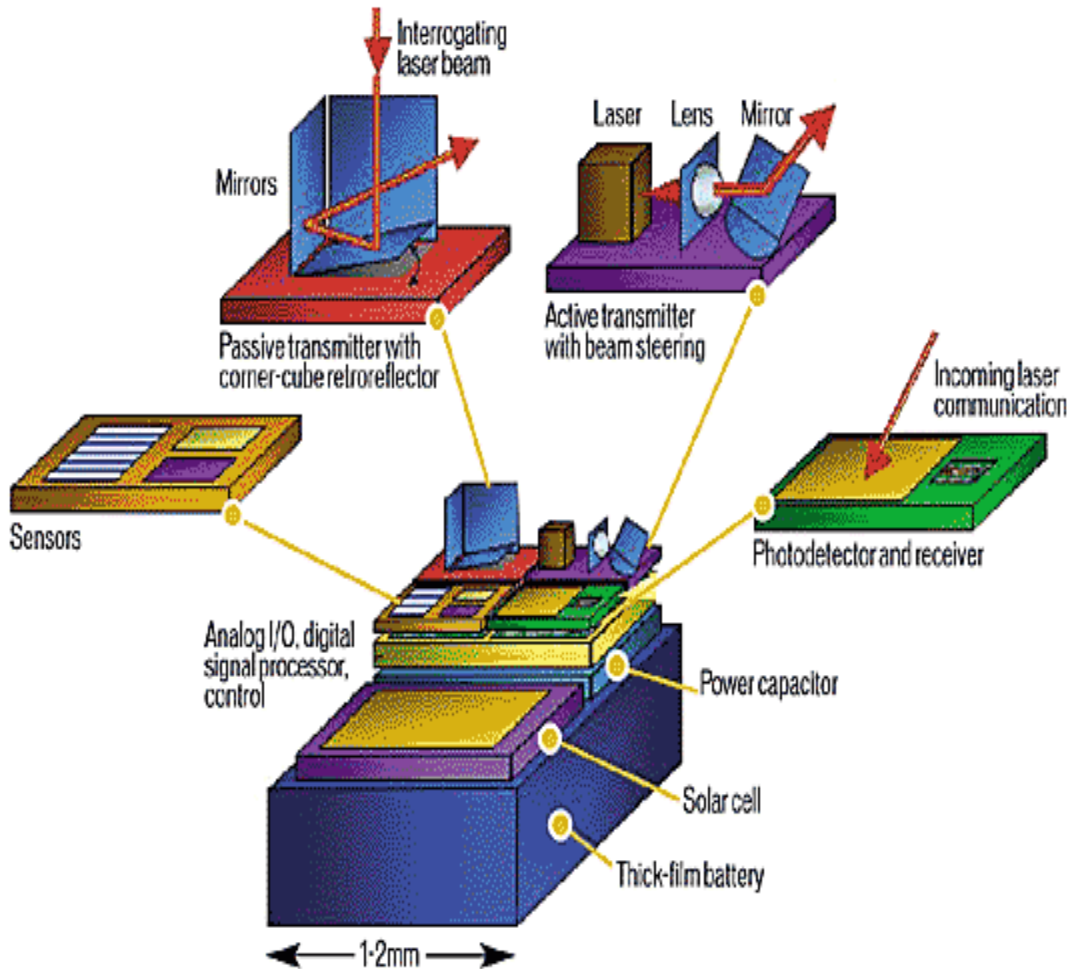

# Multifunctional Mote

The goal of the smart-dust project at UC Berkeley is to build self-contained, millimeter-scale devices that include sensors, computational ability, bidirectional wireless communications technology and a power supply, while being inexpensive enough to be deployed by the hundreds.

Future Military Sensors Could Be Tiny Specks of ‘Smart Dust’  
New technologies allow for extremely small—and ubiquitous—military sensors

Coined by University of California, Berkeley professor Kristofer Pister, the term “smart dust” refers to tiny electronic bundles of power, sensors, computing and communications electronics that are cheap and abundant enough to scatter like, well, dust.

A photograph of a sunset over a city skyline. The sun is low on the horizon, casting a golden glow. The sky is filled with numerous white contrails, crisscrossing in various directions. The city skyline is visible in the background, with several buildings and a tall tower on the right. The foreground shows a body of water reflecting the sunset.

Mark McCandlish, states that the Chemtrails are being left under high areas of pressure, where you would expect to see blue skies and dry conditions. The reason for this is because high pressure is stable, which is relatively still, and has a clockwise flow around it. He goes on to say that if you accentuate the high, it's very easy to add those particulates of aluminum, barium, etc. looking to enhance the snow, rain, and control hurricanes.

**The terrestrial ecosystems are also giving away slowly. The rhizobacterium is a beneficial organism that is disappearing because of the barium and the aluminum. This microorganism handles moving the nutrients from the soil not the root system of the plant.**

**Aluminum is a neurotoxic metal that adversely affects the nervous system. It may contribute to dementia, can trigger diseases such as Alzheimer's and Parkinson's.**

**Barium creates significant problems of muscular fatigue; therefore it may damage the heart and can cause major problems to internal organs.**

[http://www.bibliotecapleyades.net/ciencia/ciencia\\_chemtrails28.htm](http://www.bibliotecapleyades.net/ciencia/ciencia_chemtrails28.htm)

**May 2000:**

**'Project Cloverleaf' name revealed as the covert commercial airline aspect of the chemtrail spraying. An anonymous United States commercial aviation mechanic and airline corporate executive separately admit that commercial planes were rigged with special equipment to distribute unknown chemicals into the air, using thousands of commercial planes in the United States.**

**The chemicals are discharged through disguised, hollowed-out static wicks on the planes' wings. Chemical solution tanks are covertly hidden on the planes. Covert operation is administered by the tiny number of outsourced private personnel who empty whole airports' multiple airline lavatory tanks - while they fill up the chem-tanks at the same time - the cover for *Project Cloverleaf*.**

**Airline executives are told by unidentified government agents that if they tell public that they are spraying the atmosphere with illegal unmonitored compounds, they could be imprisoned. *Project Cloverleaf* documents are kept in locked safes at the companies involved.**

**All commercial airliners in the United States have accepted payment from federal government to conduct aerial spraying as early as 1998. Mechanic was threatened with firing, he was framed, & his internet usage was monitored after he analyzed several rigged chem-planes.**

**December 6, 2001:**

**A scientist working at Wright-Patterson Air Force Base recently told reporter Bob Fitrakis that two different projects are being conducted.**

**One involves cloud creation experiments to lessen the effect of global warming. Other chemtrails connected with the military's extremely high-power Radio Frequency beam weapon in Alaska called HAARP**

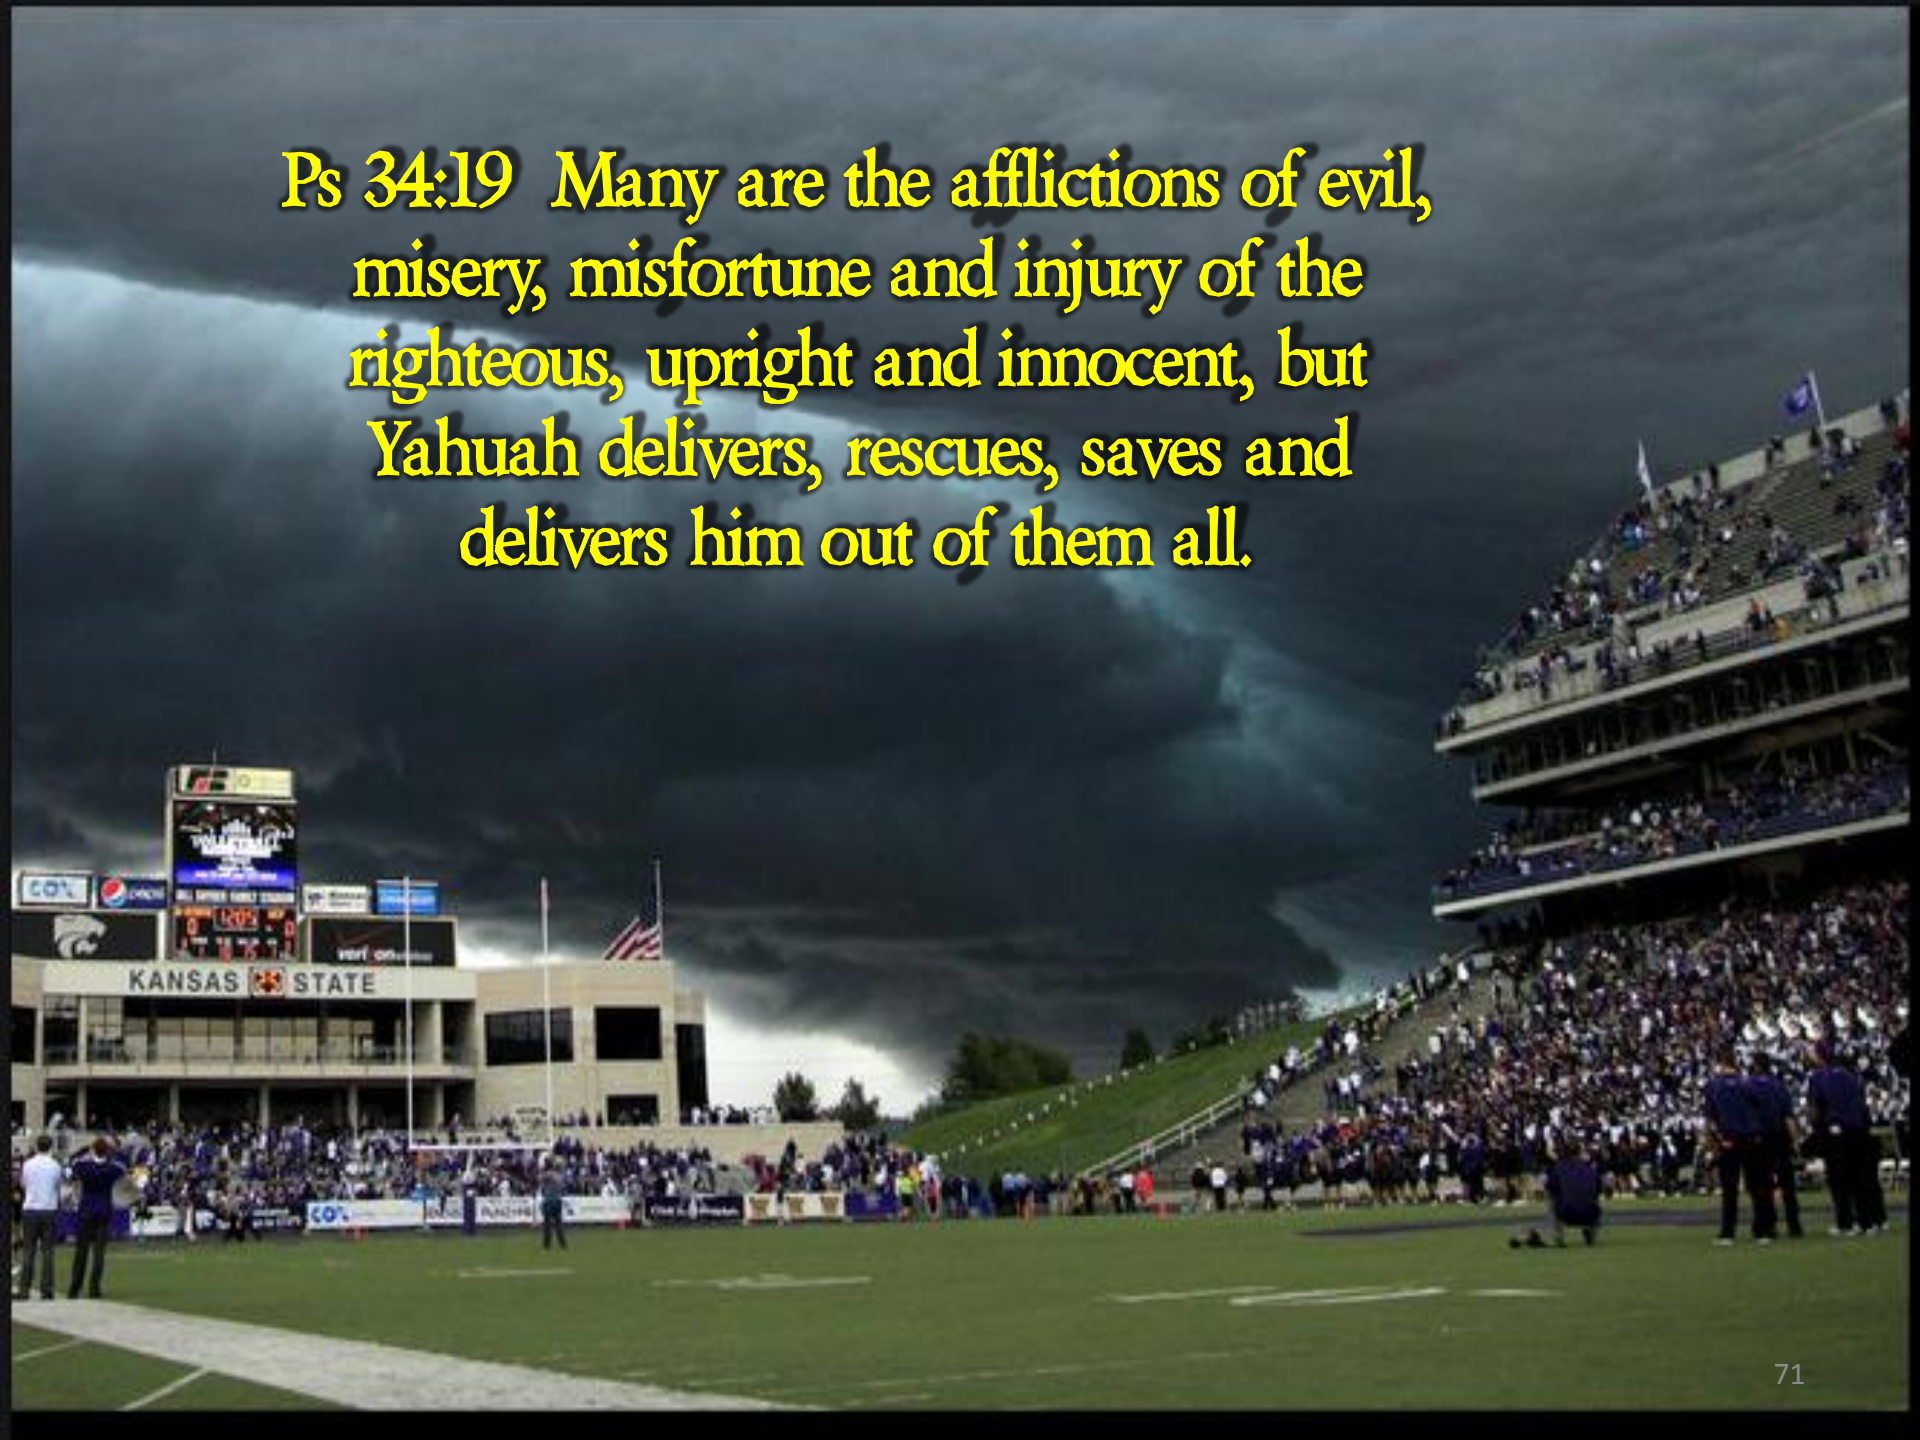

**The scientist claims that the two most common substances being sprayed into chemtrails are:**

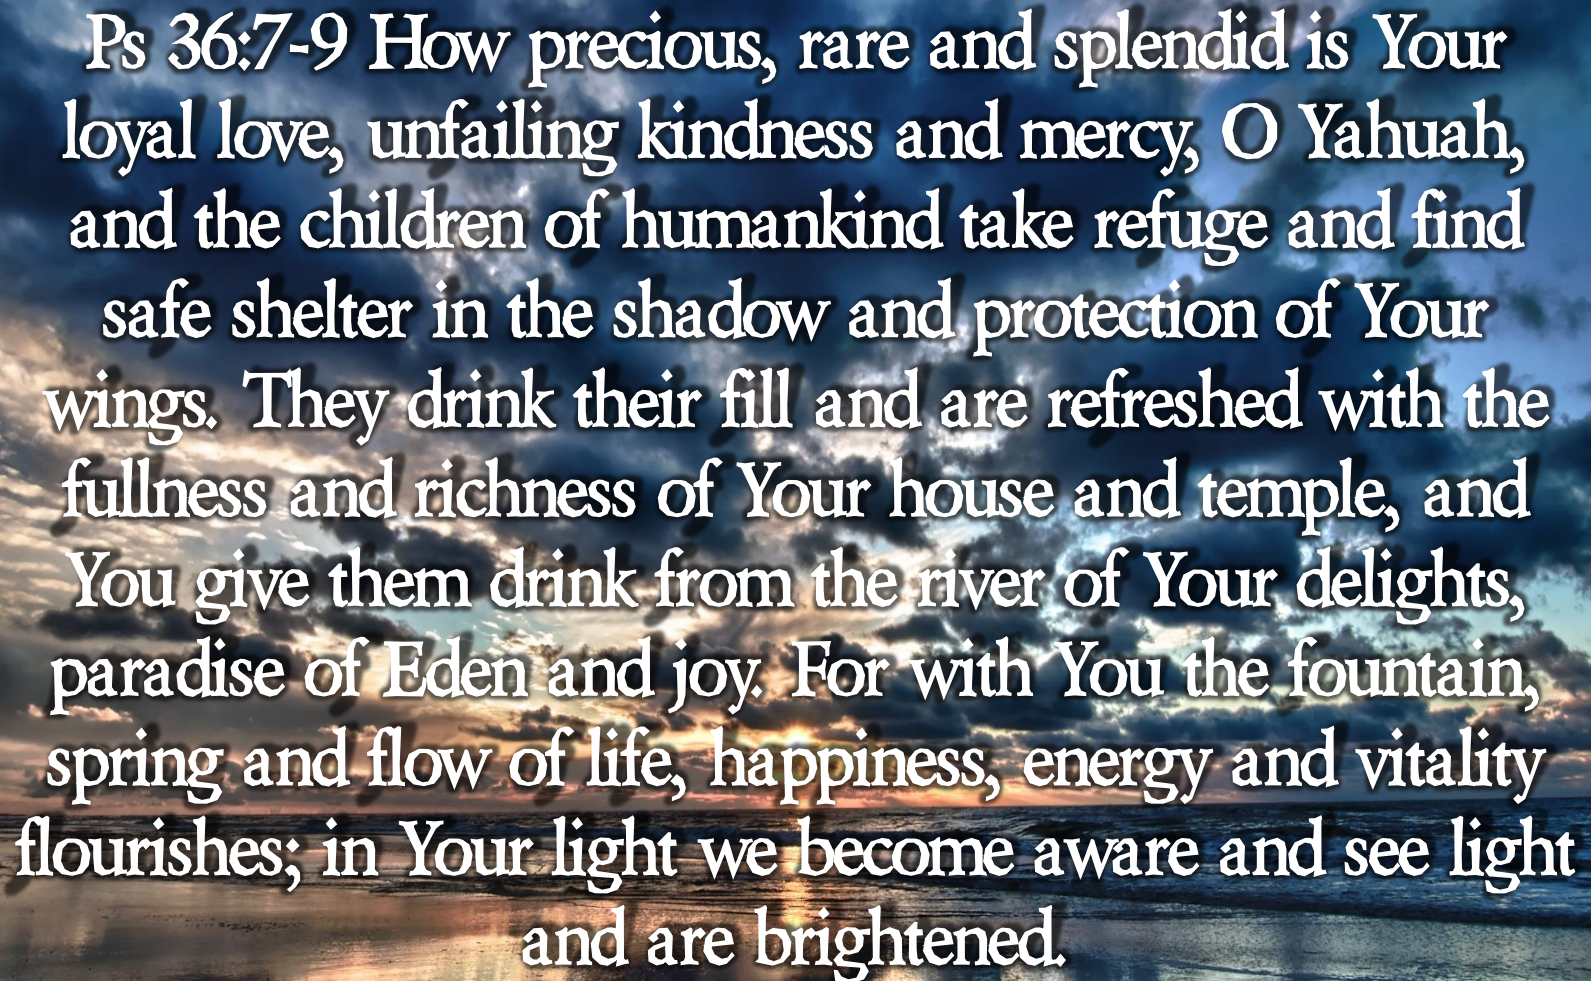

**aluminum oxide  
barium stearate**

**When you see planes flying back and forth marking parallel lines, X-patterns and grids in a clear sky, that's aluminum oxide, according to the scientist.**

**Barium may be sprayed in a similar manner for the purpose of *high-tech 3-D radar imaging.***

**Ps 34:19 Many are the afflictions of evil, misery, misfortune and injury of the righteous, upright and innocent, but Yahuah delivers, rescues, saves and delivers him out of them all.**

A dramatic sunset or sunrise over a beach. The sky is filled with dark, heavy clouds, with a bright glow of light breaking through near the horizon. The sun is low, creating a shimmering reflection on the wet sand and the surface of the water. The waves are gently lapping at the shore. The overall mood is serene and majestic.

Ps 36:7-9 How precious, rare and splendid is Your loyal love, unfailing kindness and mercy, O Yahuah, and the children of humankind take refuge and find safe shelter in the shadow and protection of Your wings. They drink their fill and are refreshed with the fullness and richness of Your house and temple, and You give them drink from the river of Your delights, paradise of Eden and joy. For with You the fountain, spring and flow of life, happiness, energy and vitality flourishes; in Your light we become aware and see light and are brightened.
