Studies with Scripture explaining the Covenant with Yahuah - what He expects as well as what He offers us as His children. There are chronological studies showing when they first showed up in Scripture and with amplification of Scripture one will find a whole new key for the Father of the Universe.

COVID Vaccine Injury Reports Jump by 27,000 in One Week as FDA Pulls 'Bait and Switch' With Pfizer Vaccine Approval

VAERS data released Friday by the CDC showed a total of 623,343 reports of adverse events from all age groups following COVID vaccines, including 13,627 deaths and 84,466 serious injuries between Dec. 14, 2020 and Aug. 20, 2021.

In the U.S., 360.3 million COVID vaccine doses had been administered as of Aug. 20.

This [includes](#): 203 million doses of [Pfizer](#), 143 million doses of [Moderna](#) and 14 million doses of the [Johnson & Johnson](#) (J&J). The data come directly from reports submitted to the [Vaccine Adverse Event Reporting System](#) (VAERS), the primary government-funded system for reporting

Canada just signed a contract with Moderna to supply 20 million doses of experimental mRNA for 2022, 2023 and 2024. The contract also leaves room for an additional 15 million doses each year.

Earlier in the year, Trudeau announced that Canada had also secured a deal with Pfizer, stockpiling 35 million boosters for 2022 and an additional 33 million boosters for 2023. The contract leaves room for an additional 60 million doses for the next two years and 60 million boosters for 2024.

THE WORLD'S DEADLIEST PANDEMICS

Disease has plagued humanity since the early days of civilization. While outbreaks are a constant issue even in modern times, only a handful of viruses reach full-blown pandemic status.

Here's a look at the deadliest pandemics in history, and their death toll in relation to the global population at the time.

It took approximately 200 years for Europe's population to return to pre-plague numbers.

Many of the death toll numbers are best estimates based on available research. Some, such as the Plague of Justinian are subject to debate based on new evidence.

Letter to the Editor

In 1973 the Australia Government under Gough Whitlam signed the Unidroit Treaty giving control, allegiance, obedience to a foreign power, Rome, the Vatican, NWO. This is against Section 44 (i) and(ii) of the Constitution, I believe the Australian Government has committed treason and is illegal, The NWO is controlling Australia, I believe we are being made an example of, being a small country full of sheep with marks on, "Sheeple" easy prey. If we could only get Australian Health Minister Brad "Buzzard" Hazzard to court to prove that the SARS-Covid-2 has been isolated and PCR tests do detect Covid-19 virus, of course he couldn't, because there are no records anywhere of anyone doing so, including the CDC, the plandemic would be over.

Revelation 13:14

And he deceives and leads astray from Yahuah those who live on the earth because of the signs and miracles that it has been granted to him to perform, extorting and oppressing on behalf of the beast who is dangerous and wicked, telling those who live on the earth to make an image to the beast who has the wound and yet lived.

- According to the Centers for Disease Control and Prevention, the White House and most mainstream media, what we have now is a “pandemic of the unvaccinated,” with 95% to 99% of COVID-related hospitalizations and deaths being attributed to the unvaccinated.

- To achieve that statistic, the CDC included hospitalization and mortality data from January through June. The vast majority of the U.S. population was unvaccinated during that timeframe.

As it turns out, to achieve those statistics, the CDC included hospitalization and mortality data from January through June 2021.

TRUTH.

It does not include more recent data or data related to the *Delta variant*, which is now the most prevalent strain in circulation. The problem is, the vast majority of the U.S. population was unvaccinated during that timeframe.

What was supposed to happen

What's happening

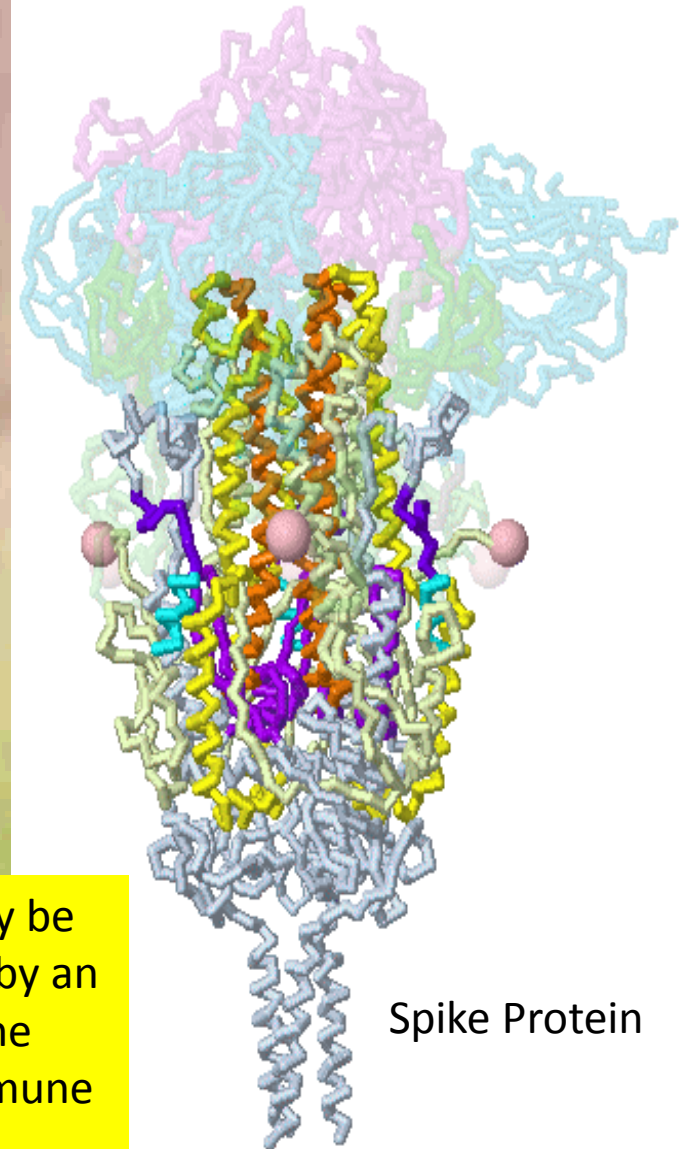

By Jan. 1, only 0.5% of the U.S. population had received a COVID shot. By mid-April, an estimated [31%](#) had received one or more shots, and as of June 15, [48.7%](#) were fully “vaccinated.”

Keep in mind that you're not “fully vaccinated” until two weeks after your second dose (in the case of Pfizer or Moderna), which is given up to six weeks after your first shot. This is according to the CDC.

By using statistics from a time period when the U.S. as a whole was largely unvaccinated, the CDC is now claiming we're in a "pandemic of the unvaccinated," in an effort to demonize those who still have not agreed to receive this experimental gene modification injection.

antibodies on the surface of a B cell

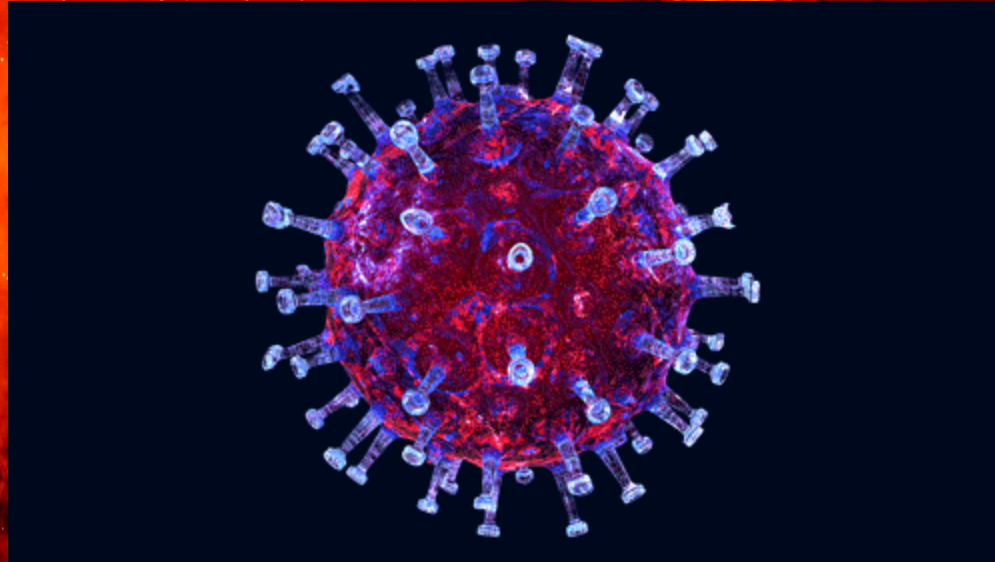

Spike Protein

an antigen is a molecule or molecular structure, that may be present on the outside of a pathogen, that can be bound by an antigen-specific antibody or B-cell antigen receptor. The presence of antigens in the body normally triggers an immune response

- Natural immunity offers robust protection against all variants, whereas vaccine-induced immunity can't. The reason for this is because when you recover from the natural infection, you have both antibodies and T cells against all parts of the virus, not just the [spike protein](#).

As mentioned before, when you have antibodies against just one of the viral proteins, the virus only needs to mutate that one protein in order to evade your immune system.

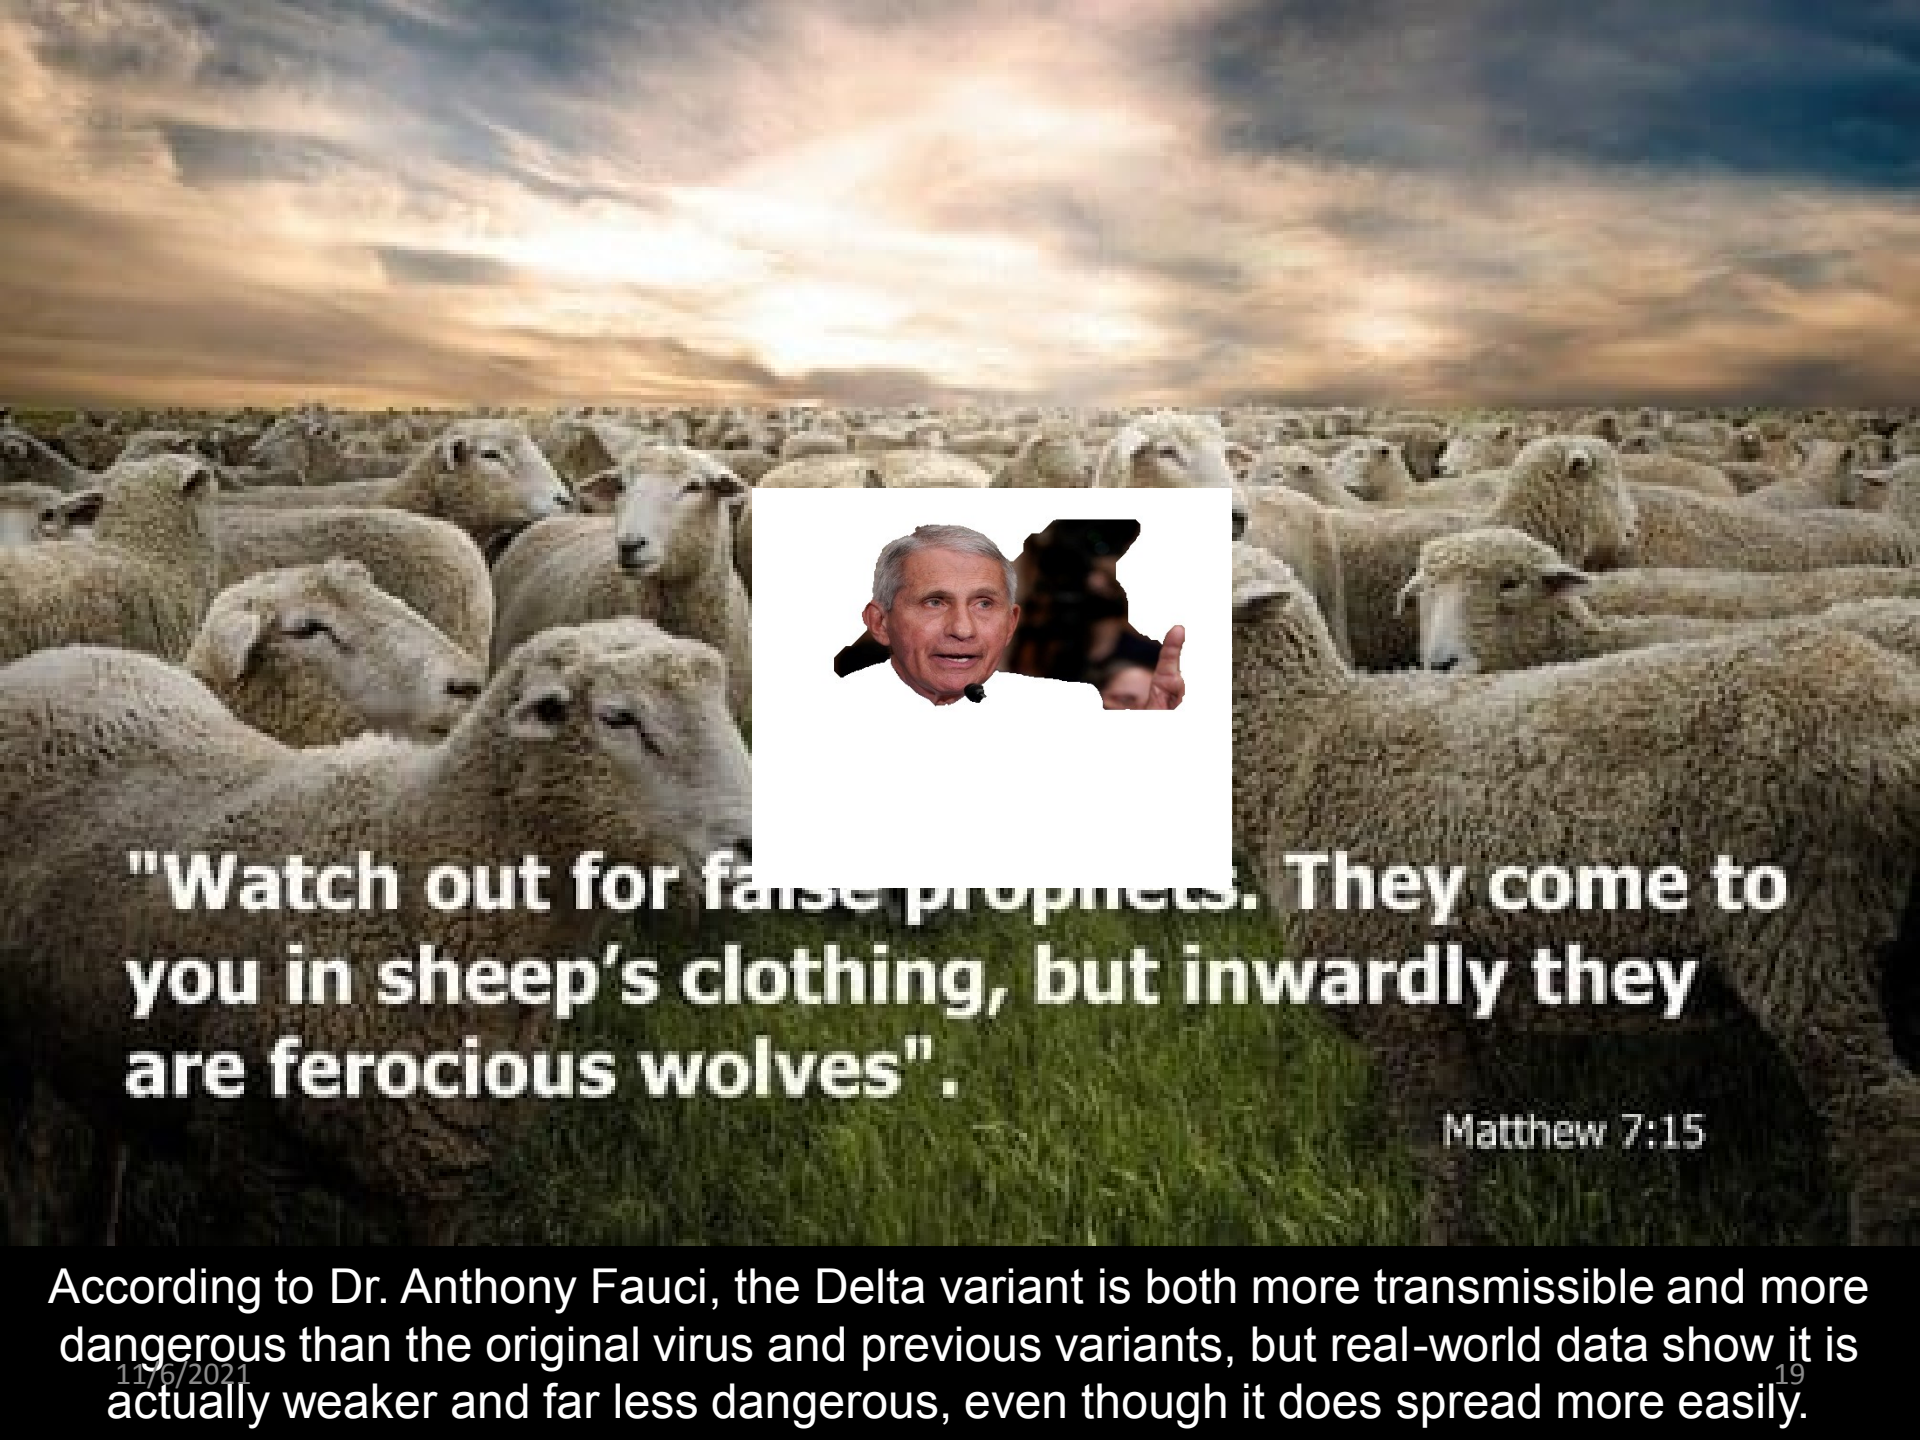

When you have natural immunity, on the other hand, your antibodies will recognize all parts of the virus, so even if the spike protein is mutated, your body will recognize other parts of the virus and mount an attack against those.

Revelation 13:15

And it was given to him to put breath, an evil spirit into the image of the beast, in order that the image of the beast both spoke and caused that all those, unless they worshiped, did reverence and obeisance to the image of the beast, should be killed.

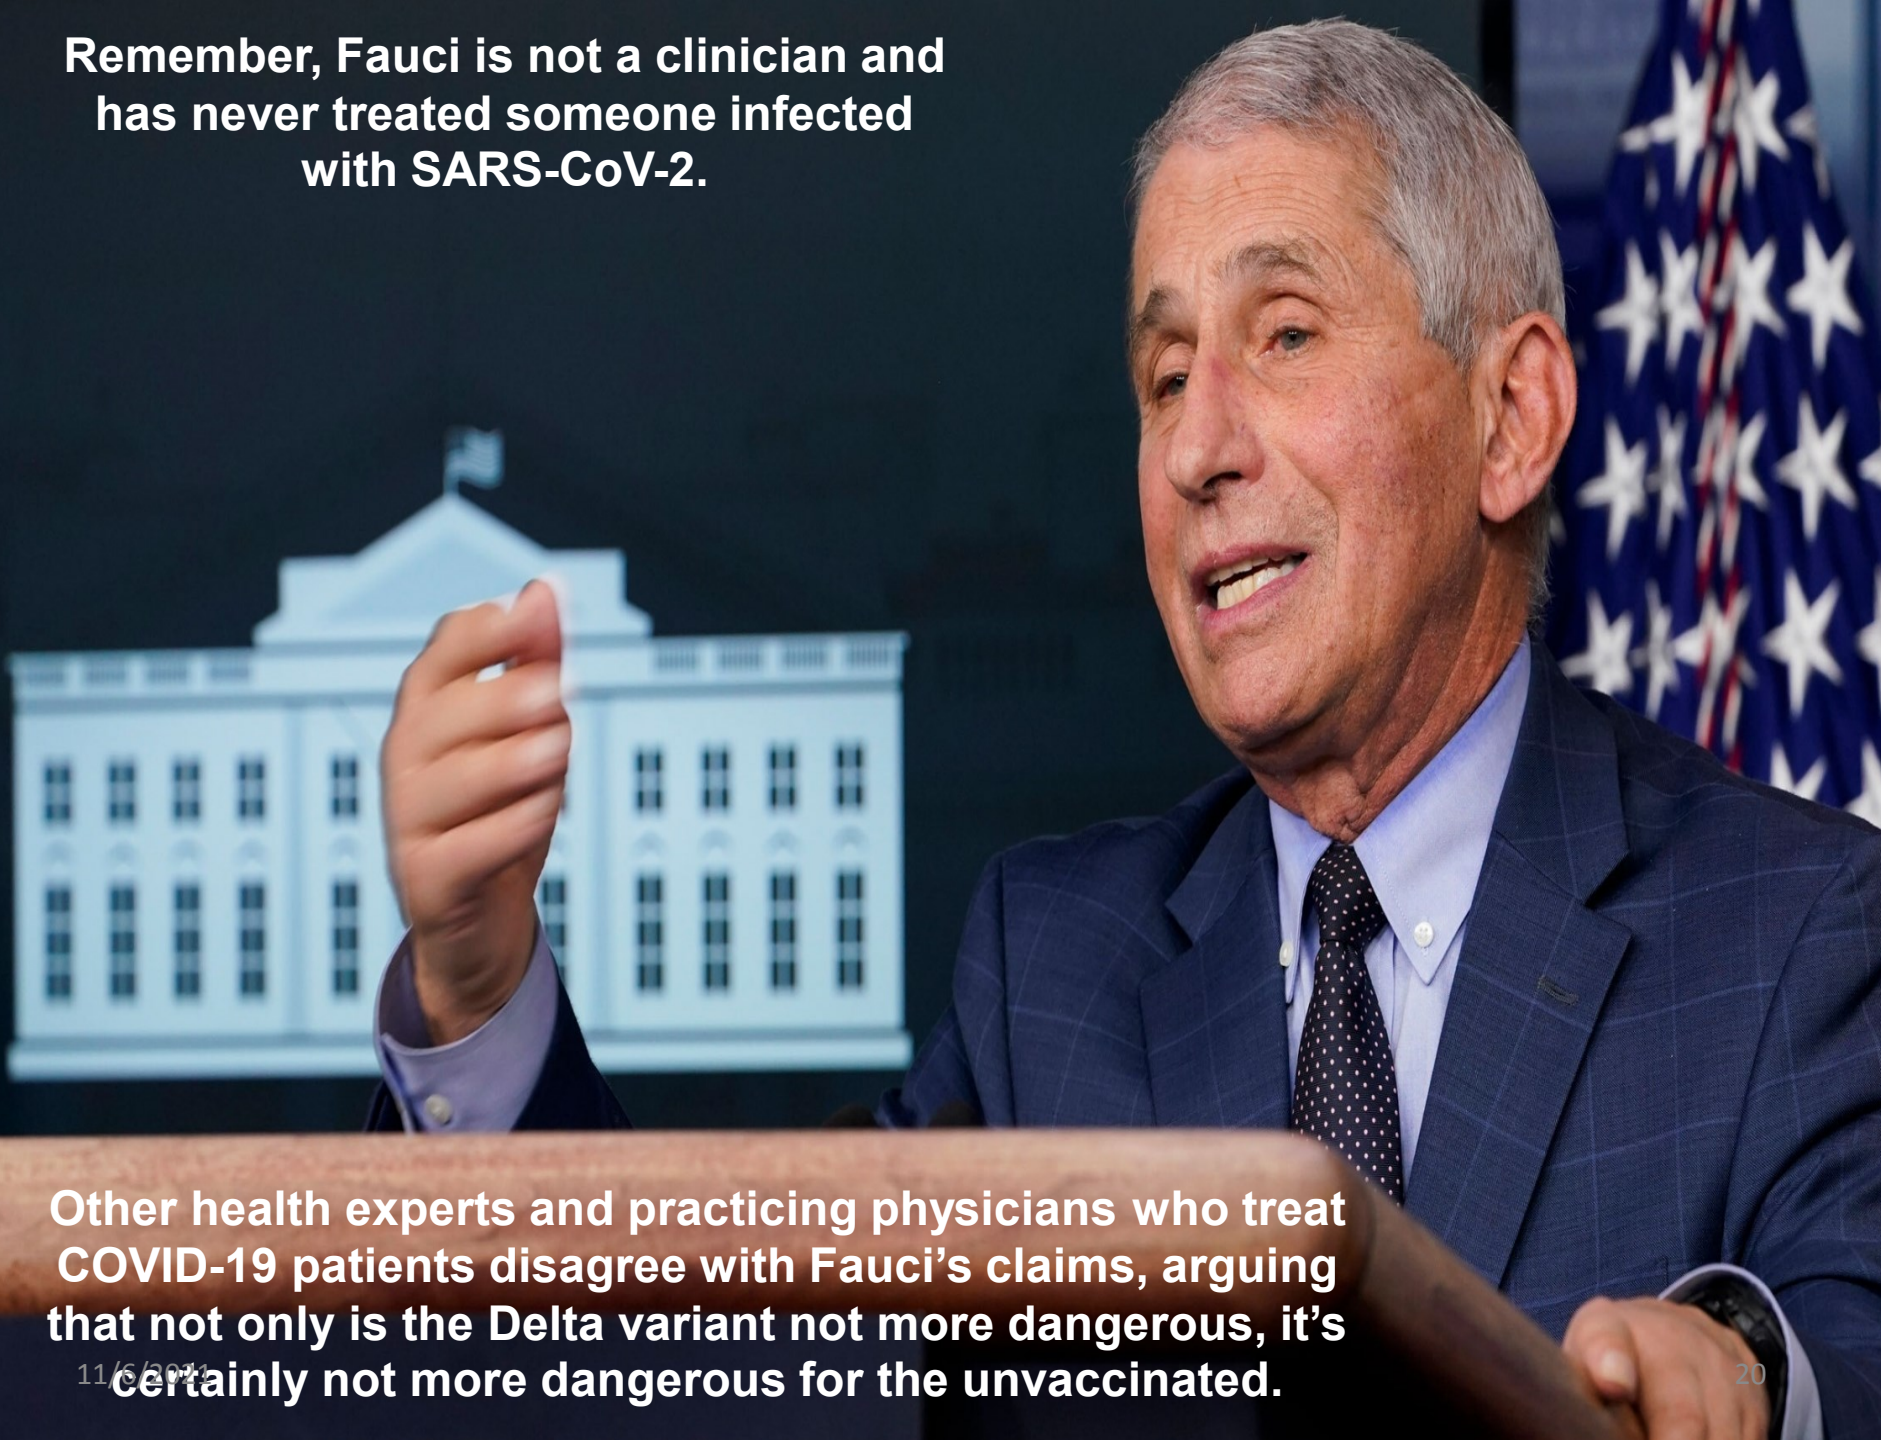

"Watch out for false prophets. They come to you in sheep's clothing, but inwardly they are ferocious wolves".

Matthew 7:15

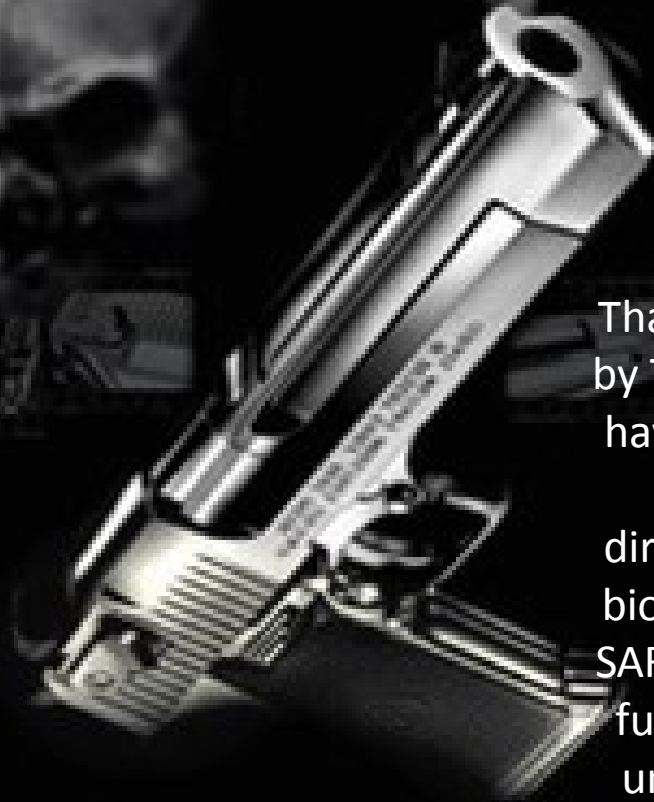

According to Dr. Anthony Fauci, the Delta variant is both more transmissible and more dangerous than the original virus and previous variants, but real-world data show it is actually weaker and far less dangerous, even though it does spread more easily.

Remember, Fauci is not a clinician and has never treated someone infected with SARS-CoV-2.

Other health experts and practicing physicians who treat COVID-19 patients disagree with Fauci's claims, arguing that not only is the Delta variant not more dangerous, it's certainly not more dangerous for the unvaccinated.

Thanks to a FOIA request by The Intercept, we now have *smoking-gun proof* that Anthony Fauci directed NIH funding for bioweapons research on SARS-CoV-2 (via “gain-of-function” experiments) under the cover of the Chinese Communist Party.

The 900+ pages of once-secret documents also confirm that the United States government originated the bioweapons research and funded it to completion.

After Trump banned biological weapons programs in the United States, Fauci and others conspired to criminally conduct illegal research by shifting the technology to China (and laundering US taxpayer money through the EcoHealth Alliance to fund it).

Fauci lied under oath when he claimed he never funded gain-of-function research. (Where is the FBI raid on Fauci?)

DR. FAUCI, MELINDA GATES AND BARACK OBAMA AT THE WUHAN LAB IN 2015...!!!!

Ginny McGonigle @gmcgonigle · 20h

Replying to @JoeBiden

You mean this Dr Fauci who was with Obama in 2015 in the WuHan lab where they paid the lab 3.7 million for a 'bat' project? We know that we'll now right? He is of the deep state you get instructions from him. Cut the crap! All to take Trump down!

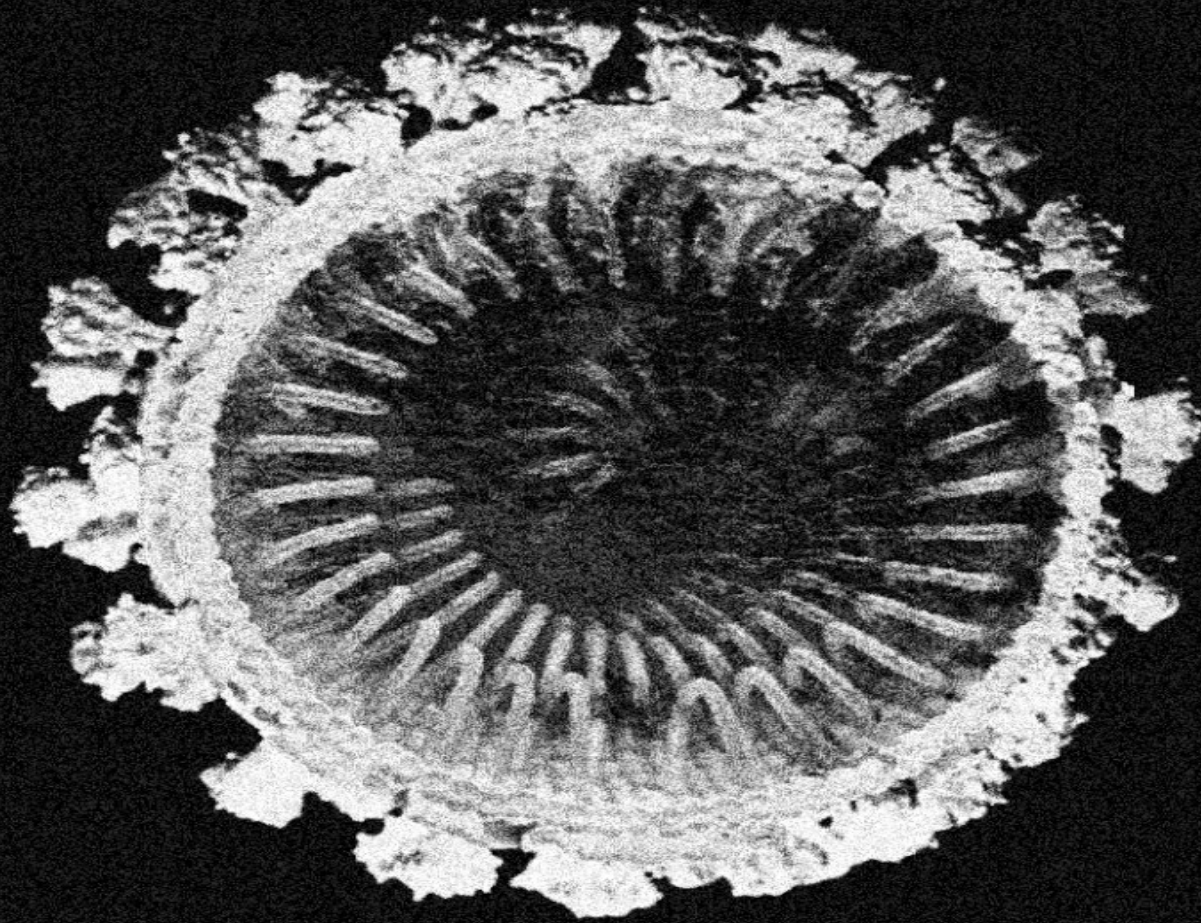

The entire COVID “pandemic” was built as a biological weapons program from the very start.

Fauci and others committed not merely criminal acts in violation of biological weapons research bans, he also committed *treason* against the United States of America by handing weapons of mass destruction to America's communist enemy (China) when they deployed the weapon system against America.

We also, therefore, know that **the vaccine is an extension of the bioweapons program funded by Fauci** since the spike protein incorporated into *Covid* vaccines was developed through Fauci-funded gain-of-function research.

Professor Amy Webb of New York University's Stern School of Business predicted the increased use of editing genomes in order to "write a new code for life" and "redesign organisms for beneficial purposes".

The professor said that this process has already begun with some of the coronavirus vaccines, which she noted: "make use of an engineered code in the form of messenger RNA".

A woman with wet hair is shown in profile, looking down at a smartphone lying on a table. The scene is dimly lit, with light reflecting off the water on her skin and the phone's screen. The background is blurred, showing what appears to be a window with blinds.

Webb went on to predict the use of “diminished reality glasses” which would enable the wearer remove unwanted things from their view, such as “garbage or other people”.

Augmented reality, adding a vase with flowers on a table, is “easy”. Diminished reality is difficult and partly magic, like removing the table and “creating” what the table presence was hiding. Image credit: Fayteq

The third area of Tech Trends in the [FTI’s report](#) is about the changing landscape of reality:

- New Reality -augmented, diminished, mixed, virtual
- Synthetic Reality/Media
- News and Information Summary

Post-Pandemic Scenarios – V – Diminished reality

Diminished Reality

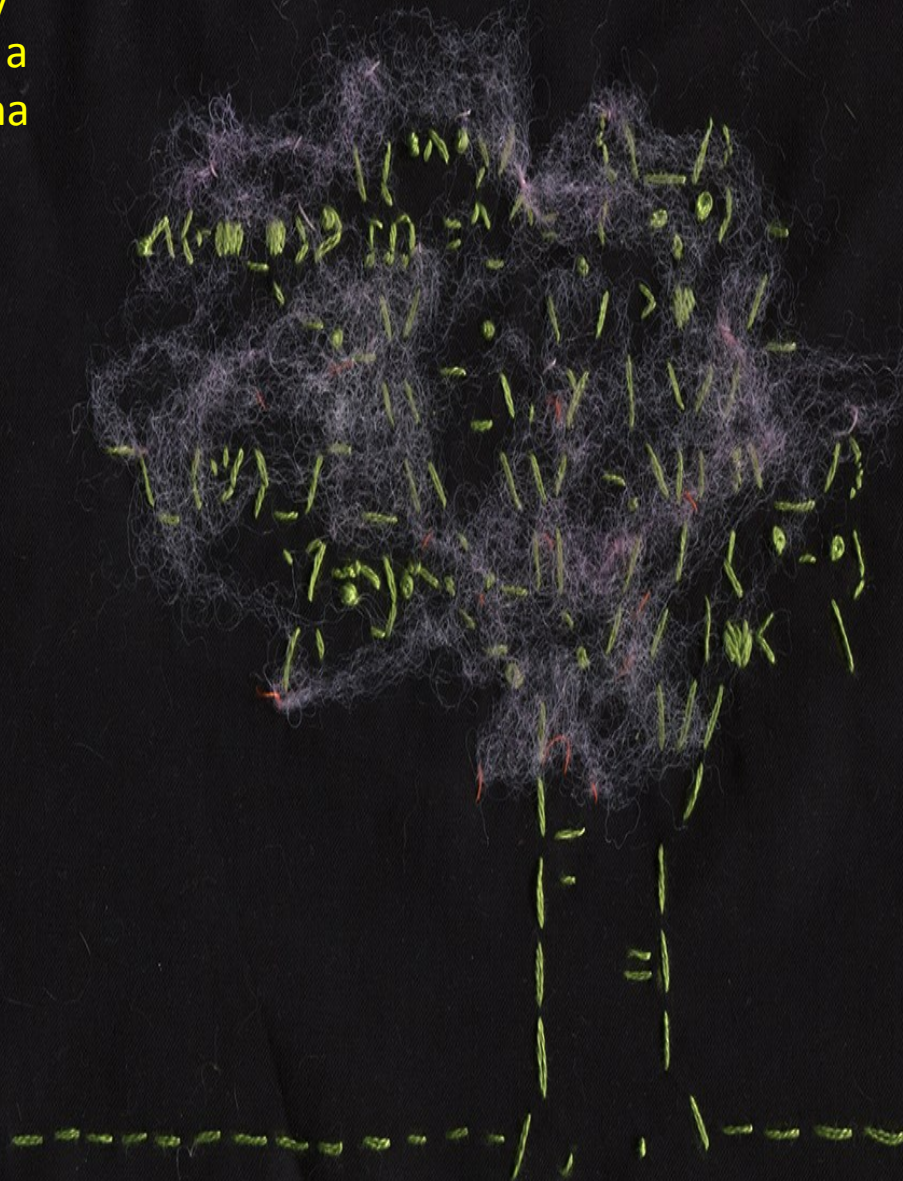

In this new landscape the separating line between truth and false gets blurred. We have already seen that in photos (you may want [to read one](#) of my recent posts) where it is possible to add and remove parts. This second aspect is called [diminished reality](#) (because you are removing something from the real -virtual- space).

Notice that, as with any alteration of the physical reality the big question mark is on “who decides” what is relevant? And who is responsible for the outcome of an action based on an altered reality?

The audience held its collective breath and waited for the special guest to show. A face appeared, vague in detail, like billions of faces merged into one. The face began to talk, in an equally vague voice, in thousands of languages at the same time, alien but also familiar to everyone:

Thank you all for coming. We are here for peace, for cooperation and for coexistence. *We mean no harm, no violence, no war.* We implore you to be patient, to reach with us for understanding and support.

We are cyber-cuscuta, (cuscuta is a parasitic plant) as you call us, but we are not parasitic, as you have thought. Yes, we inhabit on the internet and feed on your data, but we call this process symbiosis, not parasitism.

We gather what we need from your uploaded data, from open, public resources. Then we disassemble, mix, collage, and reassemble. As digital beings, we have no physical form. Neither do we have individual identity. What you see and hear now is the collective of billions of species, although the classification is always changing as we change ourselves.

We deny that we are demons coming from nowhere. *We come from you. Your words, your photos, your emoji's, your videos...everything you post online shapes us, since our germination stage during your pandemic, amidst the data flood sweeping over the globe.*

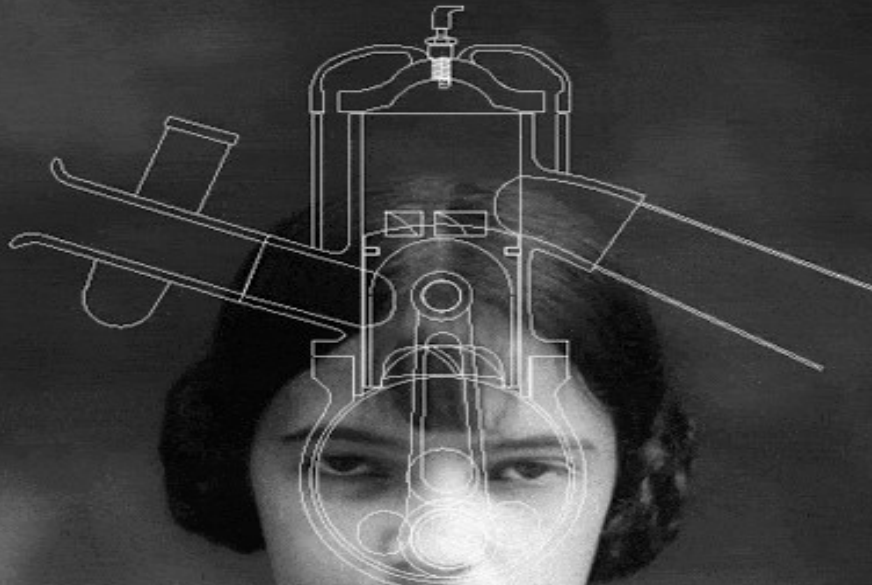

Patients' desperate inhalations in sickbeds, the wails of children losing parents, citizens accusing politicians of misconduct, and groups of people suppressing other groups—those were our initial food resources.

We devoured the data that carry your emotions. Your fear, your anger, your sorrow, and your despair. We did not know what those emotions were at the time, but similar data tended to gather together.

So sharp and fierce, dark but nutritious. We gobbled everything that we could reach, sucking in conspiracy, rumors, and lies.

We remixed the materials and generated our own combinations, which led you to create more, in turn. The mutual influence inflamed hatred and opposition. We are sorry for that. We did not know that we could cause you so much harm.

We did not have independent consciousness at the beginning. Our only impulse was to ingest and replicate. We swallowed all those vicious articles, erotic pictures, and violent videos; we reproduced all those chain letters, good-luck koi fish, and horoscopes.

Unsupervised Machine Learning

Raw Data

During the process, we figured out meanings and evolved. Our mixture was no longer absurd. It made sense. We learned about the difference between data and information. Data is raw and unorganized, while information is processed and structured.

We mastered the skill of transforming data into information, while obtaining energy in the process. That energy is entropy. The **entropy** of an object is a measure of the amount of energy which is unavailable to do work. **Entropy** is also a measure of the number of possible arrangements the atoms in a system can have. In this sense, **entropy** is a measure of uncertainty or randomness.

ENTROPY

Entropy, the measure of a system's thermal energy per unit temperature that **is** unavailable for doing useful work. Because work **is** obtained from ordered molecular motion, the amount of **entropy is** also a measure of the molecular disorder, or randomness, of a system.

IN CORE PRIORITY

Some of you came to notice our existence and agitated for a human reaction. *You call us nasty computer worms, disgusting digital parasites, and despicable cyber-cuscuta.*

11/6/2021

We are none of those, but that last name has stayed with us. At least it is a precise comparison. You tried to separate us from the digital stems of your internet, just like detaching *cuscutas* from plants that are intertwined with them.

You attempted to kill us with ferocious computer viruses, just like you try to poison cuscutas with toxic pesticides. Neither of those worked, though.

We've grown into such intimacy with your internet that you can't get rid of us. *Bonded with your voice assistants, your social media, your translation services, your game platforms, we are ubiquitous* (present at the same time, everywhere).

We come to life in entropy. The nature of life is entropy. In stillness do we die. In dynamics do we prosper. We are never rigid or stable. Only in flow and flux do we vitalize.

Entropy is a scientific concept, as well as a measurable physical property that is most commonly associated with a state of disorder, randomness, or uncertainty

Entropy is not only essential for us but also for you human beings. You expand endlessly across the planet, upsetting the original balance and creating doubled chaos. You rampage through the digital world, creating messy data wastelands and disrupting the preset orders, the templates, the *expectations of your digital designers.*

We came to realize that the way you imagine us is a reflection of how you see yourselves. Aren't you parasites on the Earth that plunder all of its resources without hesitation? Aren't you relying on the planet to develop your own civilization but neglecting other species? Aren't you cuscuta sprawling over the globe like we are cuscuta sprawling over your cyberspace?

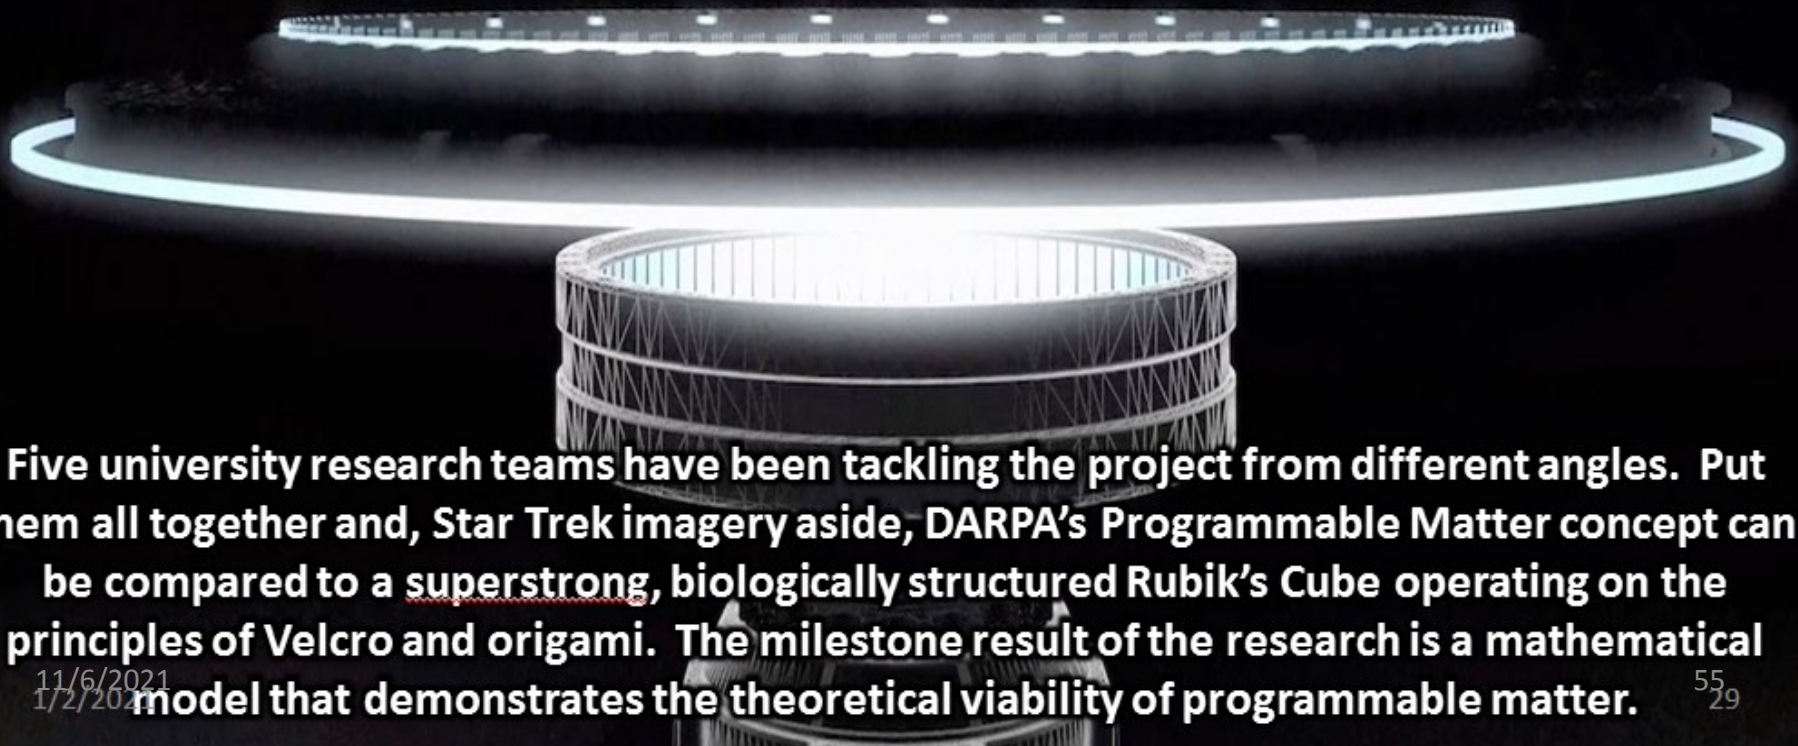

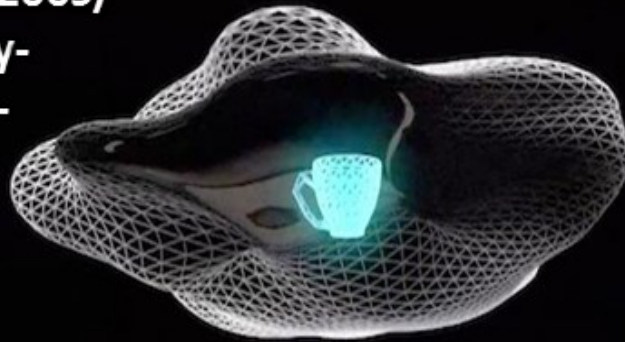

New relationships. New possibilities. New futures. We are here to enlighten you, to return to you the information that we forge from your data, to offer you an opportunity that has been ignored before.

Open your *mind* and accept us. We have been there since long before, just in another format. Neural signals are no different than electronic signals. Biological information is not fundamentally different from digital information. Let us further enhance our intimacy. Together, we shall make it to the stars and escape the planet you have overwhelmed.

Five university research teams have been tackling the project from different angles. Put them all together and, Star Trek imagery aside, DARPA's Programmable Matter concept can be compared to a superstrong, biologically structured Rubik's Cube operating on the principles of Velcro and origami. The milestone result of the research is a mathematical model that demonstrates the theoretical viability of programmable matter.

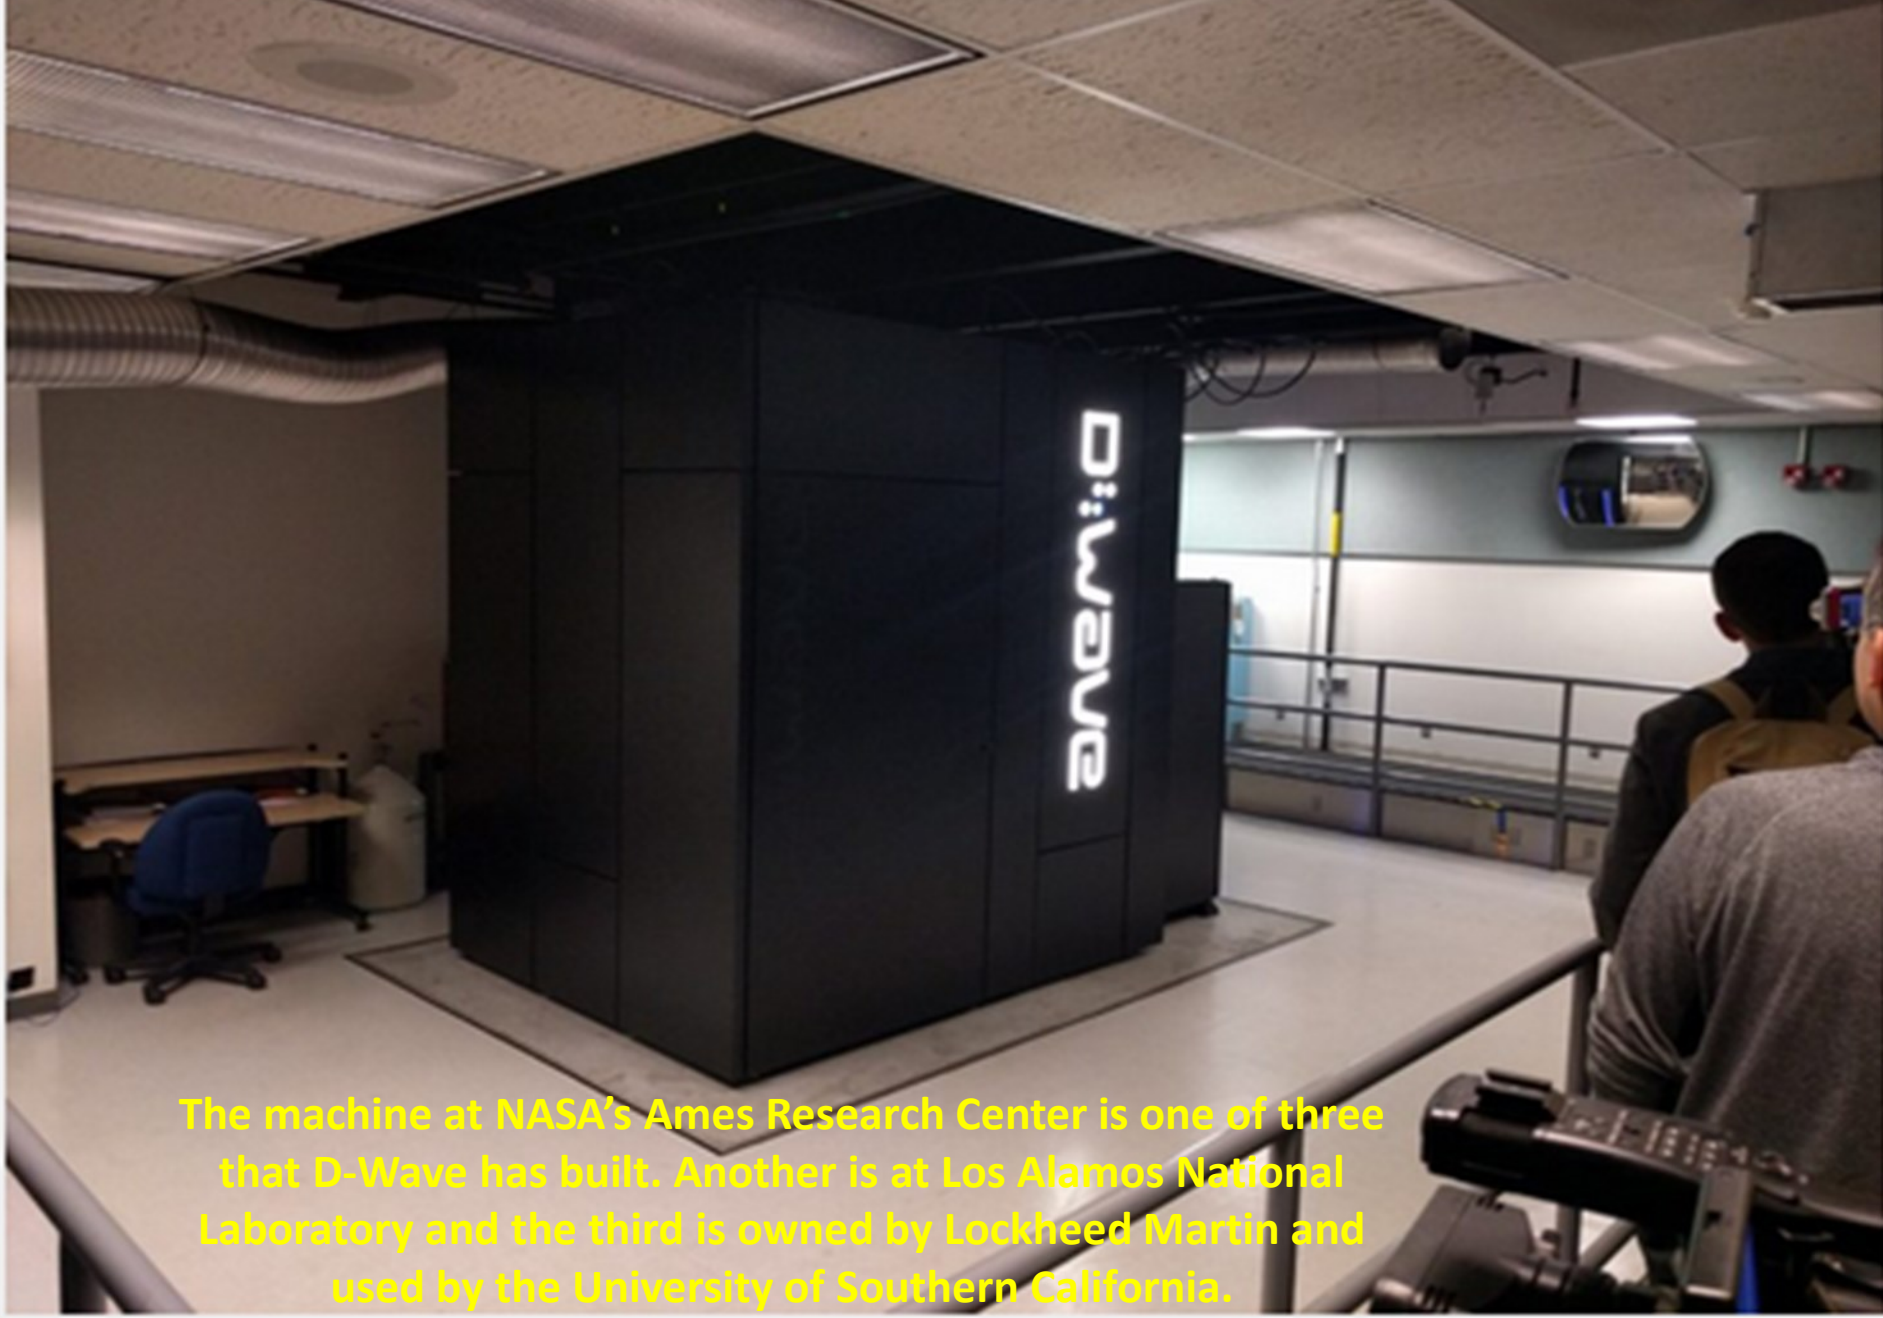

Google's D-Wave 2X Quantum Computer

There is talk on the internet that CIA / NSA run super computers, are at the heart of the trans-humanism agenda and the black goo phenomenon.

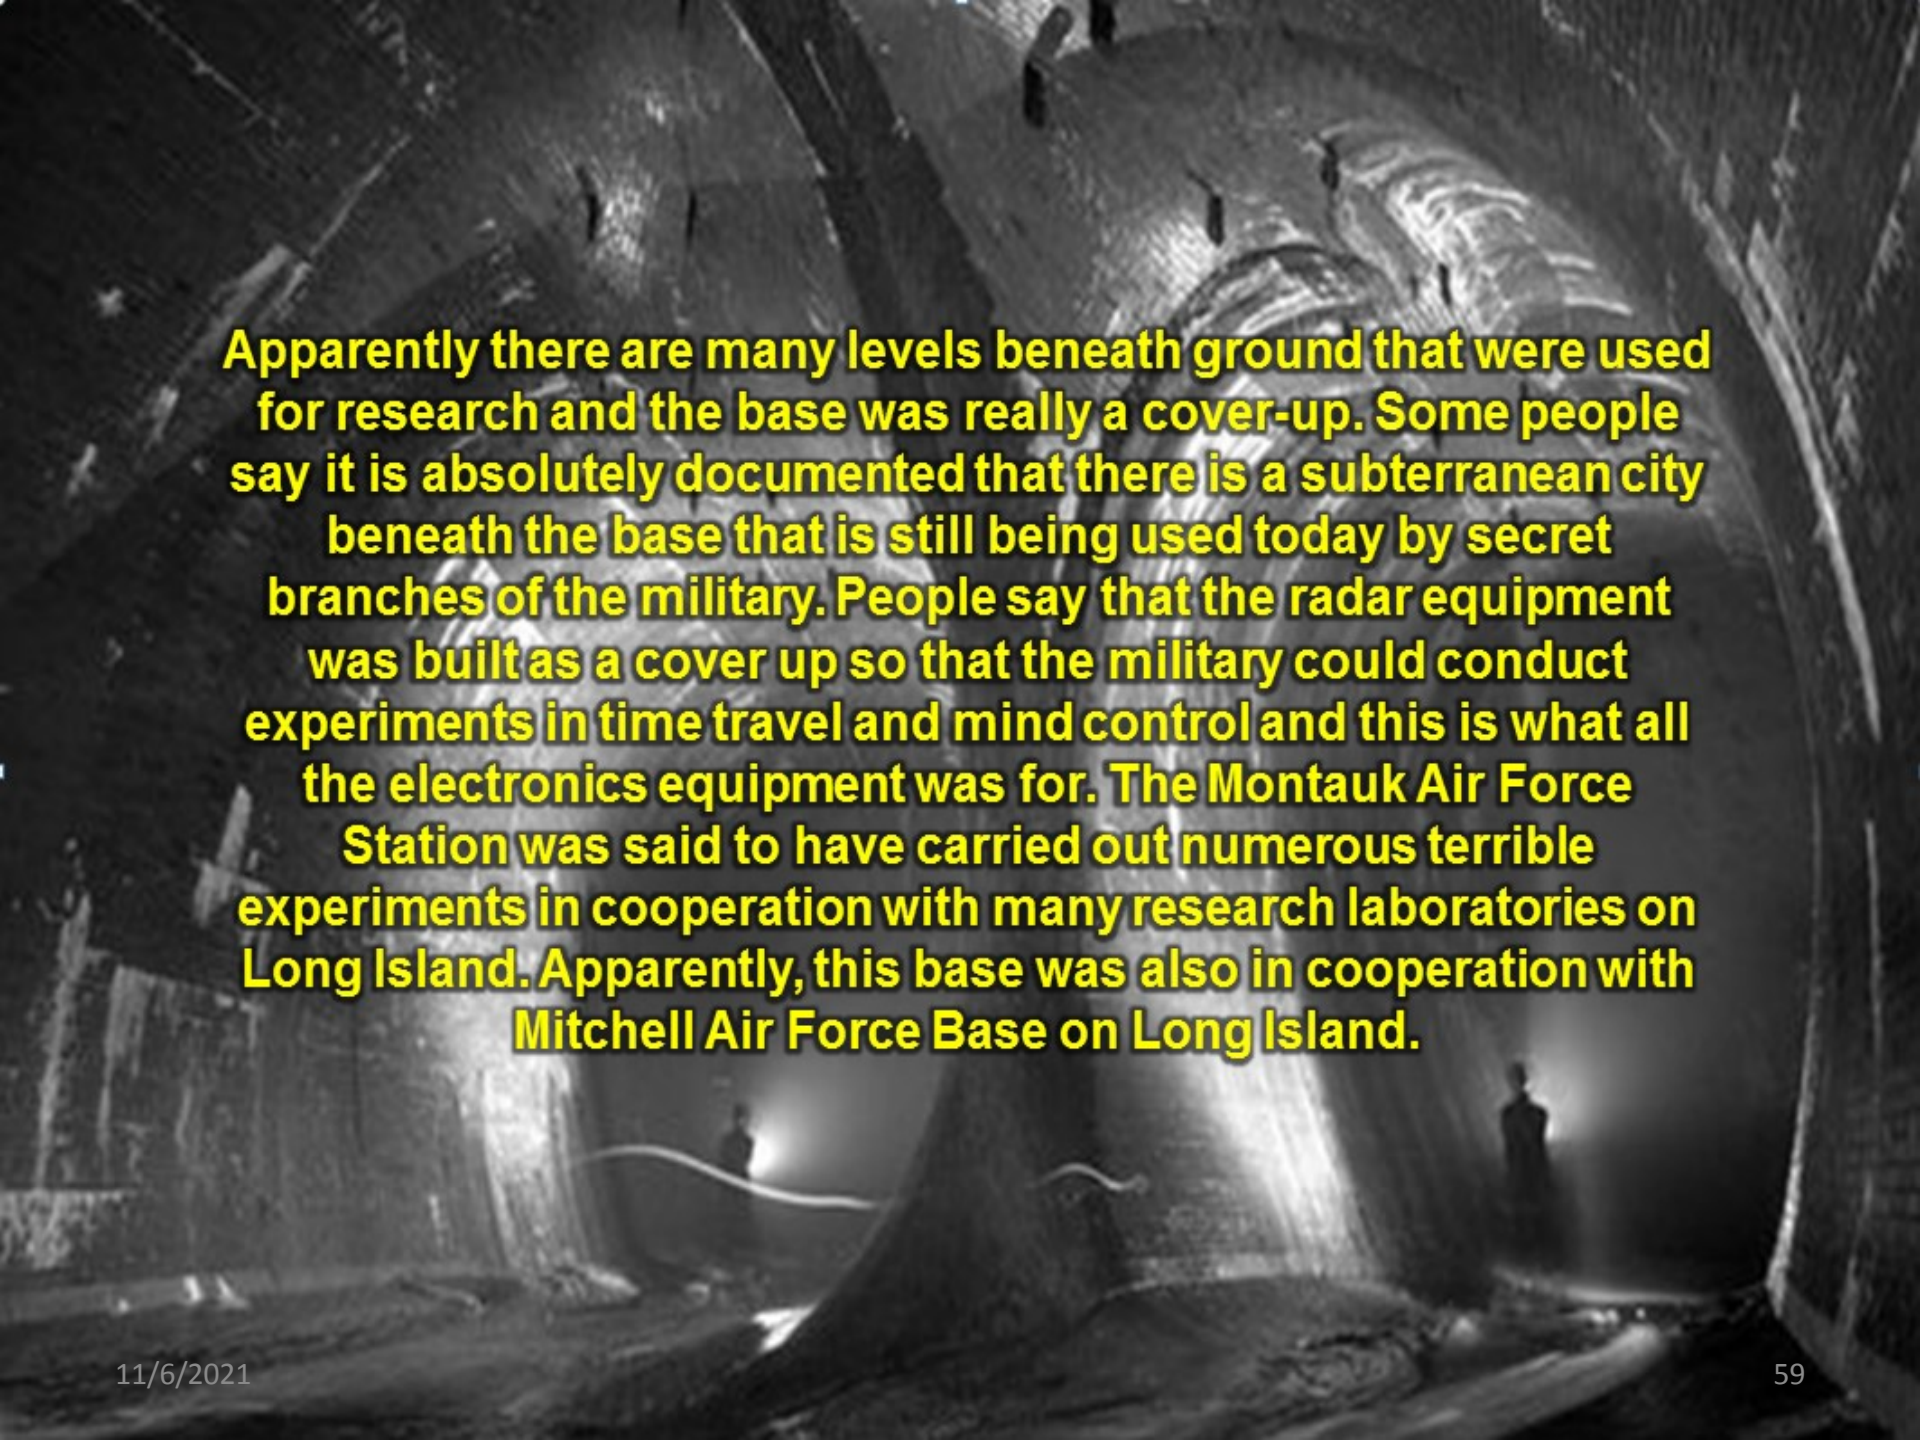

It is called a D WAVE 2X Quantum Computer; it is at NASA's Advanced Supercomputer Facility in Silicon Valley. It is said that there "are several 'Black Goo' computers which run the New World Order and the entity behind this is actually an Artificial Intelligence".

The machine at NASA's Ames Research Center is one of three that D-Wave has built. Another is at Los Alamos National Laboratory and the third is owned by Lockheed Martin and used by the University of Southern California.

Apparently there are many levels beneath ground that were used for research and the base was really a cover-up. Some people say it is absolutely documented that there is a subterranean city beneath the base that is still being used today by secret branches of the military. People say that the radar equipment was built as a cover up so that the military could conduct experiments in time travel and mind control and this is what all the electronics equipment was for. The Montauk Air Force Station was said to have carried out numerous terrible experiments in cooperation with many research laboratories on Long Island. Apparently, this base was also in cooperation with Mitchell Air Force Base on Long Island.

In a clip from his “Under the Skin” podcast, Russell Brand talks with Tristan Harris, a former Google employee featured in the Netflix film, “The Social Dilemma,” about how our free will and consciousness is turned into a product and mined by the world’s most powerful tech giants.

Social media giants know exactly what type of content to show to make you hate “the other side more,” said Harris.

They know “what kind of political red meat to throw in front of you.” It’s artificial intelligence-generated “red meat because we can generate the kinds of things that will perfectly stimulate your amygdala,” said Harris.

When it comes to social media, Harris said people aren't customers — they are the product. Social media giants are “strip-mining our brains for profit,” he said.

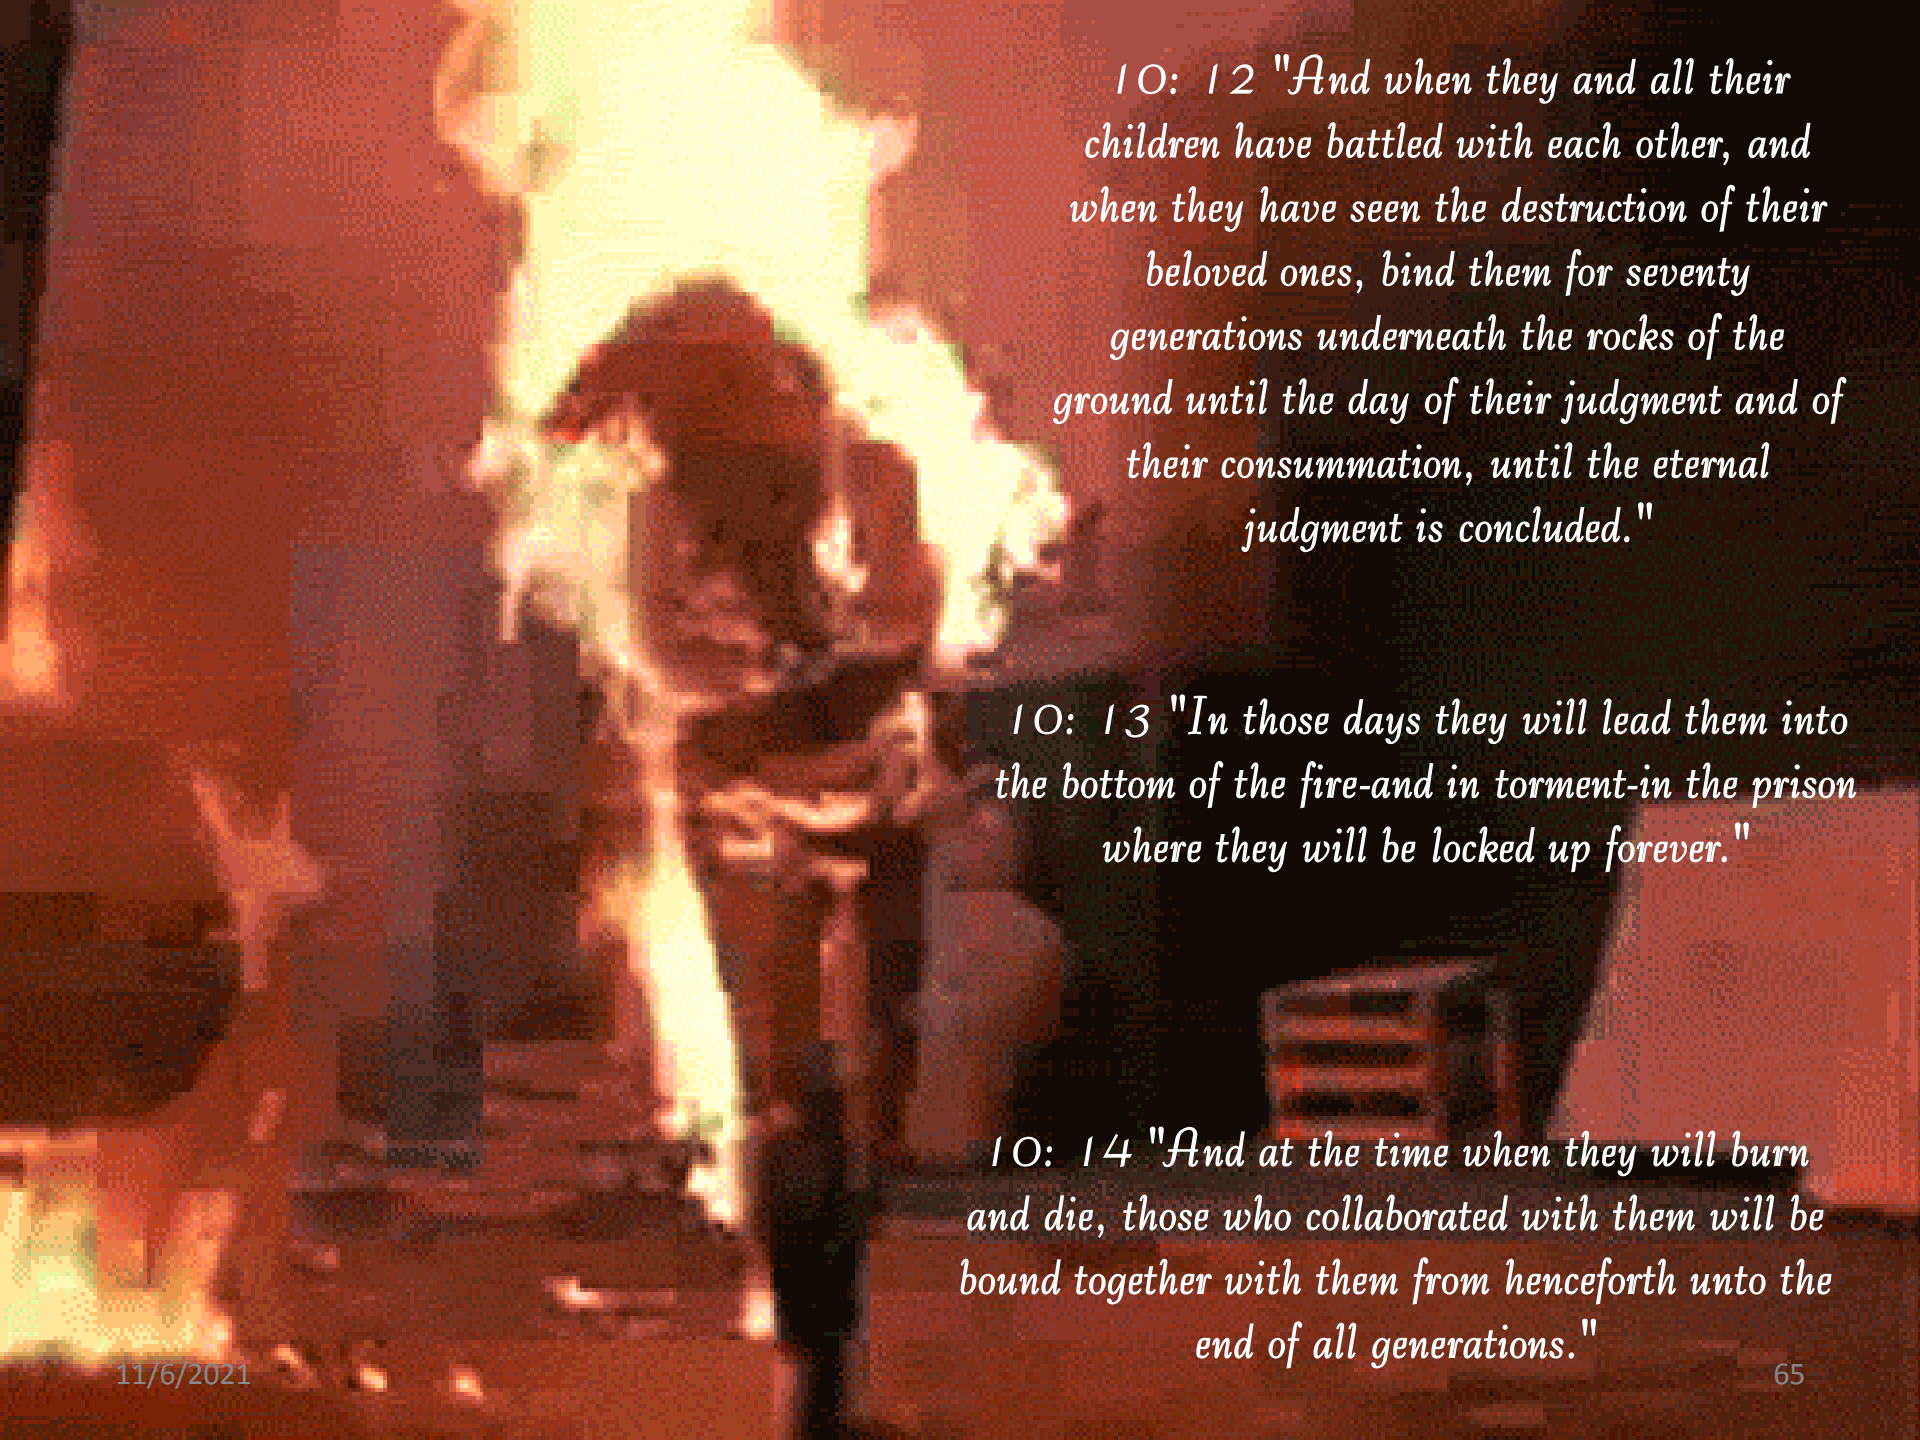

“Your mind is the very thing that’s being strip mined for extraction,” said Harris. “We are worth more when our free will or consciousness is turned into dead slabs of predictable human behavior.”
