

The background of the slide is a dark red color, densely populated with numerous 3D models of coronavirus particles. These particles are spherical with a textured surface and many small, protruding spikes, characteristic of coronaviruses. The particles vary in size and are scattered across the entire frame, creating a sense of a viral outbreak or a digital plague.

**Rev 16:1-2 Then I heard and paid attention to a loud voice from the temple saying to the seven messengers, “Go and pour out to cause the earth to fully experience the seven bowls of the wrath, fury and intense anger of Yahuah.” And the first went and poured, causing the earth to fully experience his bowl, and there was an evil, loathsome and painfully wicked sore and festering wound on the people who had the mark, brand, stamp and image of the beast and who worshiped and paid reverence and obeisance to his image.**

<https://www.breitbart.com/politics/2020/07/29/nolte-media-hysteria-convicted-americans-30-million-died-of-coronavirus/>

A survey shows that Americans believe some 30 million of us have died from the coronavirus, which means they are off by more than 2,000 percent.

**GET EVERYBODY INSIDE!**

A photograph of a cemetery at sunset. The sky is a mix of orange, red, and purple. In the foreground, there are several white, rounded headstones. In the background, there are several tall, thin, dark obelisks. The overall mood is somber and reflective.

**Although fewer than 150,000  
(as an update CDC only  
shows it was 10,000)  
Americans have died at the  
hands of the China Virus,  
when asked to pick a  
percentage of the American  
population who succumbed  
to the virus, Americans chose  
an average of nine percent.**

When asked how many Americans have caught the virus, the average number chosen was 20 percent, so 66 million.  
The real number is ... .. just four million.

Are people just stupid? Do they not know there are more than 300 million people in America, or not know that fewer than 150,000 have died, or are they just that bad at math? It's probably a mix of all three, but as journalist Alex Berenson pointed out when commenting on the survey, the "panic porners" have "won."

# REMAIN CALM!

Although the reality of the coronavirus is nothing close to the horrors the “experts” predicted while conning us into these incredibly destructive lockdowns four months ago; although we now know the coronavirus is no more lethal to those under 50 than the conventional flu, the 24/7 politically-driven hysteria from the corporate media, left-wing activists, and the Democrat party, still has people bamboozled into believing this thing is 2000 times worse than it actually is.

## Melinda Gates Calls Coronavirus “The Experiment”

# iece of Mindful

Regarding the idea of herd immunity, Mrs. Gates says the following:

That’s still very far-fetched today. You don’t get herd immunity until you have a huge percent of your population that has had the disease. We know that from all the diseases in the past that humans have had. So no, we’re still a long way from herd immunity. And you can’t count on that because **a lot of people are going to die in the meantime if you let the experiment run [ahem, I mean...]** and you just let the disease run its course in communities. Sure, we could get herd immunity and we will get so much death. That’s why it’s so important to remind people the only tools we have today are physical distancing, handwashing, and wearing masks in public. We have to go with what we know works.

You can almost feel her catch herself where she says “if you let the experiment run annnnd ah, you just let the disease run”. She realizes that she should not have said what she said, and repeats herself from the beginning by saying “disease” instead of “experiment”.

That quote does not make much sense without a very meaningful pause and restart exactly at that moment.

Subject: COVID Information

County Commissioners,

Just to let you know over the next week, the OSDH website will be reporting an increase in the COVID numbers in most counties due to the report will be including 'probable' COVID cases in addition to actual positive cases as confirmed by test results. This will increase local county Covid numbers overnight. However these cases may be cases which date as far as March. However, since the increase will appear overnight and may cause your community some concern and some questions for you, I just wanted you to be aware.

Secondly, within the next few weeks, the methodology for calculating the positivity rate (this is of the number of Covid tests being conducted, how many are positive for Covid) is being changed. Soon Oklahoma will follow the methodology supported by the majority of other states by the Johns Hopkins University of Medicine. This is so that equal comparisons can be made between the States. More information can be found at this website. 

<https://coronavirus.jhu.edu/region/us/oklahoma>

Additional information will be coming out on these changes and a press release should occur next week, but I wanted to give you an advanced notice.

Please let me know if you have any questions, or need additional information.

Maria A. Alexander, MHR, MEP

Regional Director

Craig, Delaware, Nowata, Mayes, Ottawa, Rogers, Washington and Wagoner County Health Departments

The email announced a planned spike in Covid numbers for next week for Oklahoma. ***The email was recalled almost immediately after it was sent.*** The email explained in detail how they planned to manipulate the spike and increase the numbers by using cases as far back as March of “probable” Covid cases. Not confirmed cases—estimated cases.

**The CDC is reporting 167,558 COVID-19 related deaths in the United State as of August 28, 2020. Out of the 167,558 COVID-19 related deaths, only 10,053 (6%) mentioned COVID-19 as the only cause according to the CDC’s new numbers.**

## DR. FAUCI, MELINDA GATES AND BARACK OBAMA AT THE WUHAN LAB IN 2015...!!!!

Ginny McGonigle @gmcgonigle · 20h

Replying to @JoeBiden

You mean this Dr Fauci who was with Obama in 2015 in the WuHan lab where they paid the lab 3.7 million for a 'bat' project? We know that we'll now right? He is of the deep state you get instructions from him. Cut the crap! All to take Trump down!

Under the direction of Dr. Anthony Fauci, the health agency gave \$3.7 million to the Wuhan Institute of Virology. That means, according to Rudy Giuliani, **“we paid for the damn virus that’s killing us.”** Giuliani wants to get to the bottom of how it happened, especially since funding for that particular branch of research was prohibited by Barack Obama in 2014, entirely because of the danger.

“Back in 2014,” Giuliani explains, “**the Obama administration prohibited the U.S. from giving any money to any laboratory, including in the U.S., that was fooling around with these viruses. Prohibited!**” It was not a suggestion. The State Department was loudly warning about “how suspicious they were in the way they were developing a virus that could be transmitted to humans.” Somebody didn’t get that memo. “Despite that, Dr. Fauci gave \$3.7 million to the Wuhan laboratory.”

Not only did we send them money in 2014, we kept sending more, all the way up to 2019.

Ever since 1984, Dr. Anthony Fauci has been the director of the National Institute of Allergy and Infectious Diseases. He refuses to recognize chemical allergies commonly known as Multiple Chemical Sensitivity, which currently affects more than 140 million Americans, but he didn't hesitate to allow NIAID to funnel \$3.7 million in grants to Eco-Health Alliance.

Wear a mask consistently and correctly

“We need, as a nation, to show a degree of consistency of everybody” following public-health recommendations on wearing masks or other face coverings, said Dr. Fauci.

“What we need is to get the message across that we are all in this together. And it’s important because one of the purposes of the masks is that if you may be inadvertently walking around not knowing you’re infected—to protect others from getting infected,” Dr. Fauci said. “We have to keep hammering home with that message.”

The TRUTH will ALWAYS set US ALL FREE.

Read the words of an honest Scientist/Virologist

Dr. Judy Mikovits PhD.

Wearing a mask is another part of the narrative that is being spewed. Dr. Judy explains why masking up is not recommended.

Dr. Judy Mikovits PhD is a virologist and a brilliant research scientist  
From Dr. Judy Mikovits:

"The masks on walks outside and while driving in your car is mind blowing to me. Do you not know how unhealthy it is to keep inhaling your carbon dioxide and restricting proper oxygen flow? I honestly cannot believe how non-logical we have become! We as a society seem to just listen to (perceived) authority without question. I don't see a whole lot of critical thought happening here, I'm sorry to say "Why I opt NOT to wear a mask. Well, let me break it down for you. The body requires AMPLE amounts of oxygen for optimal immune health. Especially during a so-called "pandemic". Proper oxygenation of your cells and blood is ESSENTIAL for the body to function as it needs to in order to fight off any illness.

Masks will hamper oxygen intake. Unless you are working in a hospital setting, it is NOT necessary. But go ahead and hold onto to your security blanket if it makes you feel better. I do not listen to the government when it tries to instruct me on how to maintain health, nor do I trust their 'stats" (which we know are based on unconfirmed numbers).

You want to be healthy, then make sure to apply it to all aspects of your life. Stop smoking, change your diet, stop consuming alcohol, turn off your wifi and cell phone, stop getting injected with neurotoxins, stop taking toxic medications, stop using so many chemicals in your everyday life, practice proper hygiene (WASH YOUR HANDS).

Most importantly, go outside and BREATHE DEEPLY, get some sun, drink plenty of (filtered) water, sleep well and learn to LISTEN to your body."

**In addition to Dr. Mikovits warning, there are additional problems with wearing a face mask that increase stress on the immune system.**  
**Stress Can Lower Your Immunity**  
**Cortisol is closely linked with stress**  
**A face-covering or mask that interferes with respiration can add to stress**

8/29/2020

**Cortisol is a hormone closely linked with stress. It works as a key player in the body's stress response and is often measured in research as an indicator of stress.**

**Cortisol plays a vital role in the body's functioning; it's secreted by the kidney's adrenal glands. But high and sustained blood levels of cortisone in individuals stressed by the fear of Covid-19 can trigger serious and emergent health issues.**

Higher and more prolonged levels of cortisol in the bloodstream (such as those associated with chronic stress) have been shown to have negative effects, such as:

• Impaired cognitive performance

• Suppressed thyroid function

• Blood sugar imbalances such as hyperglycemia

• Decreased bone density  
• Decrease in muscle tissue

- **Higher blood pressure**
- **Lowered immunity and inflammatory responses** in the body, slowed wound healing, and other health consequences

**Professor Dolores Cahill has a degree in molecular genetics and her PhD is in immunology where she was using antibodies and making libraries to try and improve the outcomes in cancer.**

She also spent eight years in the Max Planck Institute for Molecular Genetics in Berlin, where she led a group and developed technology that could look the specificity of antibodies and different diagnostic assays to diagnose autoimmune diseases. And, for example, with virus patients look at whether they were exposed to a virus or not.

The background of the slide is a dark, almost black, space filled with intricate, glowing patterns of red and yellow. These patterns resemble a complex network of fibers or particles, possibly representing a molecular structure or a biological process. The colors are vibrant and contrast sharply with the dark background, creating a sense of depth and movement. The overall effect is that of a microscopic or scientific visualization.

She was nominated to represent Ireland on the Scientific Committee for the Innovative Medicines Initiative in the European Union and since 2016 became vice chair. She was also involved in developing the meningitis B vaccine for Africa. She also worked in a class 4 bio lab. She has been working with a doctor who is advising the White House particularly on protocols for prevention and treatment such as hydroxychloroquine. *(and now she has been forced to resign from the university of Ireland – just because she told the truth)*

## Top immunologist, Prof. Dolores Cahill

Top immunologist, Prof. Dolores Cahill, who has studied coronaviruses for years explains: once you've had the novel Coronavirus, you are immune; masks & social distancing do not affect coronavirus transmission; and how this lockdown was a mistake.

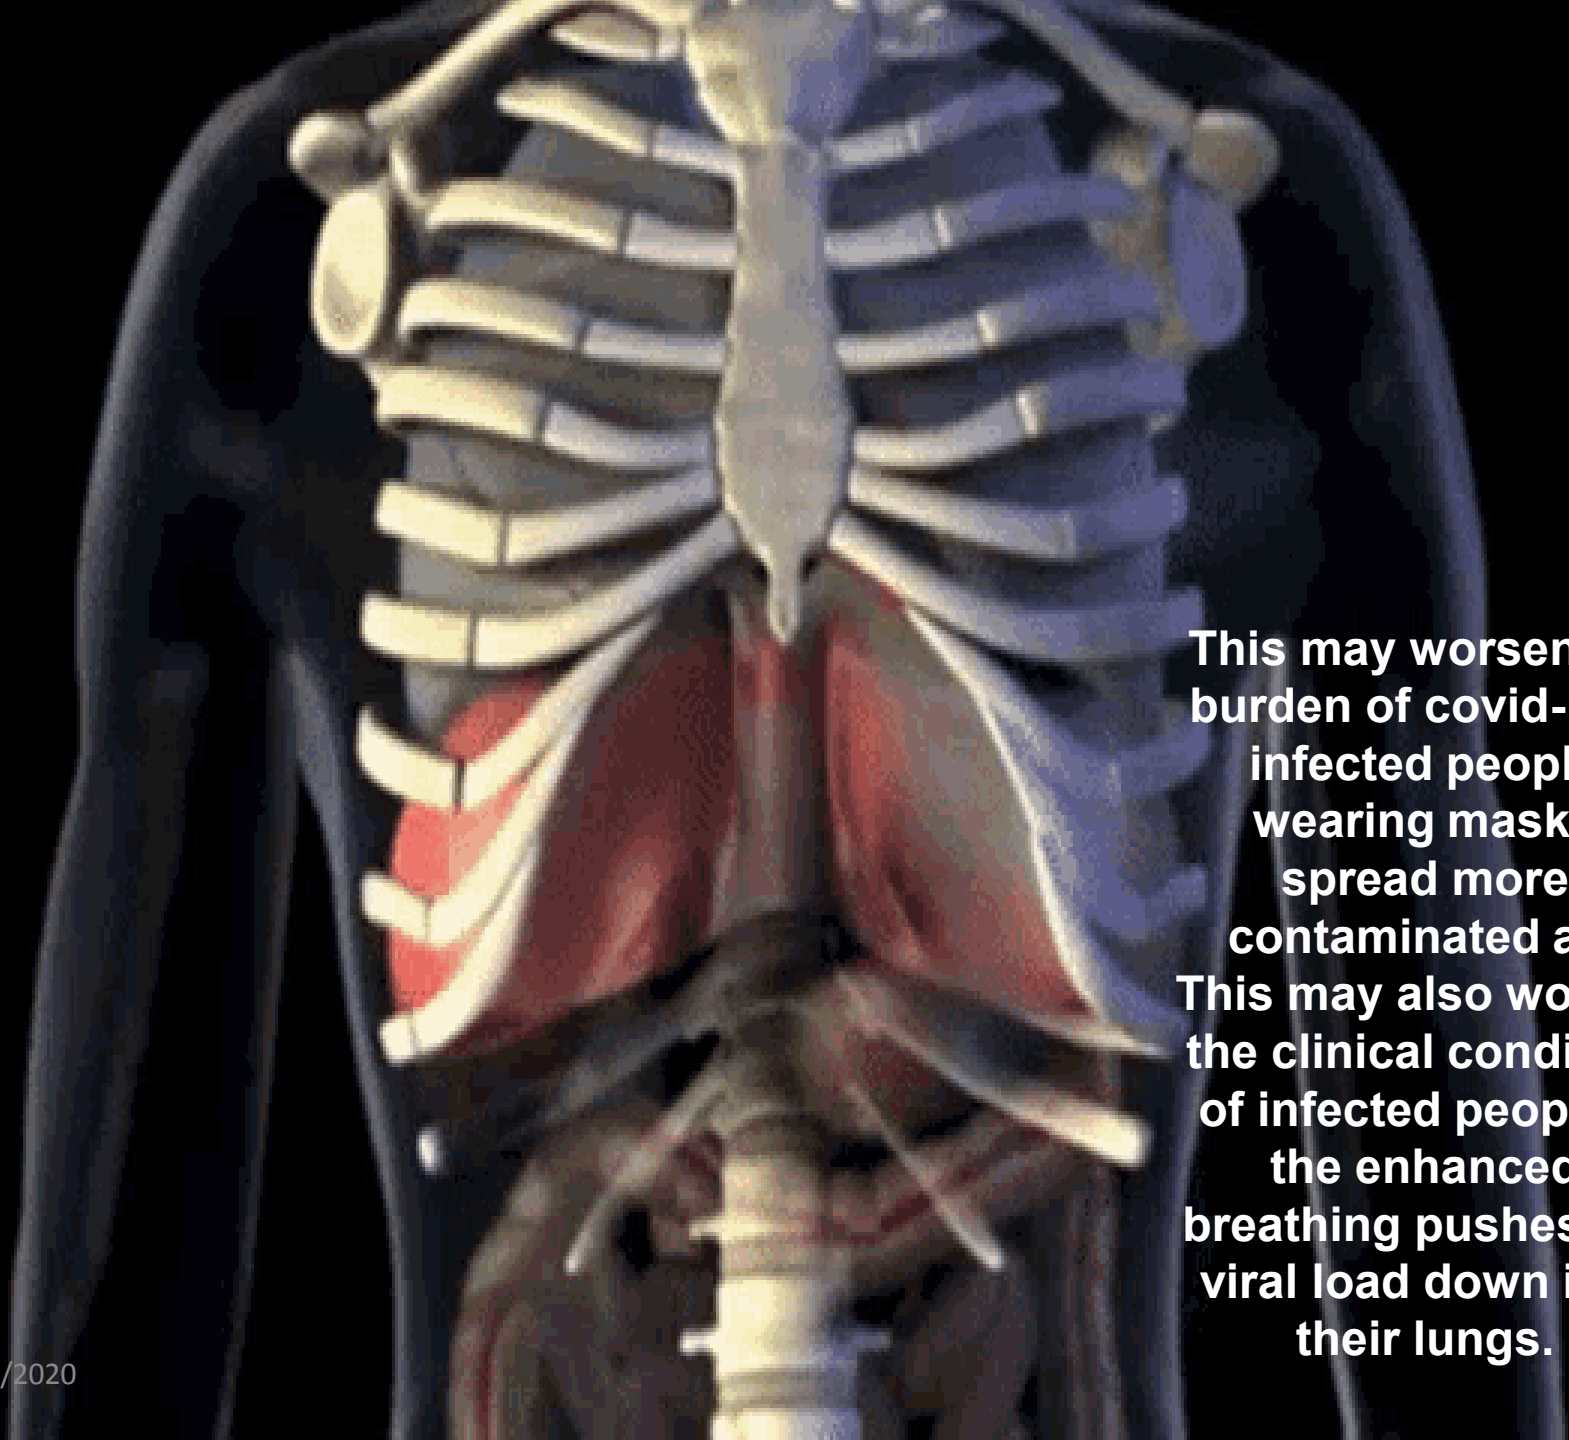

Wearing a face mask makes the exhaled air go into the eyes. This generates an uncomfortable feeling and an impulse to touch your eyes. If your hands are contaminated, you are infecting yourself.

**Face masks make breathing more difficult. For people with COPD or claustrophobia, face masks are in fact intolerable to wear as they worsen their breathlessness.**

Moreover, a fraction of carbon dioxide previously exhaled is inhaled at each respiratory cycle. Those two phenomena increase breathing frequency and deepness, and hence they increase the amount of inhaled and exhaled air.

**This may worsen the burden of covid-19 if infected people wearing masks spread more contaminated air. This may also worsen the clinical condition of infected people if the enhanced breathing pushes the viral load down into their lungs.**

Dr. Brosseau, a national expert on respiratory protection and infectious diseases  
In April, Dr. Brosseau, a national expert on respiratory protection and infectious diseases at the University of Illinois at Chicago published an article titled “Masks-for-all for COVID-19 not based on sound data”. She wrote:

“Sweeping mask recommendations—as many have proposed—will not reduce SARS-CoV-2 transmission, as evidenced by the widespread practice of wearing such masks in Hubei province, China, before and during its mass COVID-19 transmission experience earlier this year. Our review of relevant studies indicates that cloth masks will be ineffective at preventing SARS-CoV-2 transmission, whether worn as source control or as PPE.

Surgical masks likely have some utility as source control (meaning the wearer limits virus dispersal to another person) from a symptomatic patient in a healthcare setting to stop the spread of large cough particles and limit the lateral dispersion of cough particles. They may also have very limited utility as source control or PPE in households.

If masks had been the solution in Asia, shouldn't they have stopped the pandemic before it spread elsewhere?”

There are a lot of questions we need to be asking before we just conform to this madness.

When you destroy all germs that our bodies encounter, you weaken your body's defenses.

I cannot sit back and let our world get over-sanitized without saying something. I'm not saying there's not a place for sanitizers – like if you're a medical professional (Purell stations by the thousands in every office are quite the sight, though).

The constant use by the general public is out of control and creating a bigger problem.

# The Denver Broncos are misting their players to protect against COVID-19. Does it actually work?

**Lorenzo Reyes** USA TODAY

The product being misted onto the players is a non-toxic derivative of hand sanitizer called microSURE, manufactured by the company SKN BioPharma.

When the spray dries, it creates "these tiny spikes to basically puncture the wall of the membranes" of bacteria, viruses and microorganisms, Dr. Erwin Lo, neurosurgeon and co-founder of microSURE told USA TODAY Sports. He said that on pliable surfaces like skin, he recommends that it be applied "once every few days."

"It's the drying process that occurs within minutes that sets up this long-lasting, in some cases, permanent barrier," Lo added, before saying the company's studies have shown that the compound can survive multiple washes on clothes.

Lo claims to have data from Biosafety level 3 laboratories that show microSURE "unequivocally" kills the SARS-CoV-2 virus. Citing the need to protect proprietary information, Lo declined to reveal the compounds that make up the spray.

It's called a "Smart Helmet" and it can screen airport passengers for the COVID-19 virus as well as provide the scanning officer with other vital records.

**ROBOCOP IS HERE — NEW POLICE HELMET SCANS FOR COVID-19 AND USES FACIAL RECOGNITION**

8/29/2020

Public officials in Flint, Michigan *cannot provide clean drinking water* to their residents but travelers to Bishop International Airport can get a glimpse of the new robotic cop helmets where they're currently deployed.

*Under the guise of screening passengers for COVID-19, the Smart Helmet, produced by KeyBiz based in Italy, can scan travelers' body temperatures from over 20 feet away.*

**But the Smart Helmet is not limited to temperature body scans which any laser guided thermometer can do, not in the slightest.**

**Facial recognition software is installed which can provide the police officer with information related to outstanding warrants, if an individual is identified on a terror watch list or a no-fly list, and can read license plates for outstanding warrants, stolen vehicle information, criminal histories, etc. *Even if you are completely innocent, you will be subject to these scans.***

Temperature scans can be done at a distance of 21 feet or less. The helmets have already been deployed in Italy and elsewhere around the world. Michigan's ABC12 reports if someone's temperature is in excess of 100.4 degrees, more investigation into the traveler's health will be conducted to determine if the passenger is too sick to travel.

**Anyone who isn't a passenger who registers a temperature above 100.4 degrees will be asked to leave the terminal building after police conduct some limited coronavirus contact tracing to find out what areas of the building may have been exposed.**
