

# Exploring the New Towers of Babel Part 2

A statue of Shiva in front of the CERN facility

Con Cern or Dis Cern

## **Consider this a possible Tower of Babel**

Building upon the previous webinar regarding time travel/portals and magnetic energy from the past...

**Should we consider the Cern Particle collider a contender?**

**Could this be the cause of some of the destruction in the end times?**

# What is the next Tower of Babylon?

It has to be something that can be thought of as doing what Yahuah does.

Now the Higgs boson is what they call the g-d or Yah particle, for **them it's a confirmation that this is what caused the Big Bang.** It is with this machine-CERN LHC- that they are looking to create the big bang again, **to bring into existence a universe or finding parallel universes as well as extra dimensions.**

Like the Tower of Babylon, this is an attempt to become like a “god”, don't be fooled that they are doing this for the good of humanity. It's more of an attempt to bring more demons into the world.

# WHO OR WHAT IS CERN?

## The name CERN

The name CERN is derived from the acronym for the French "Conseil Européen pour la Recherche Nucléaire", or European Council for Nuclear Research, a provisional body **founded in 1952** with the mandate of establishing **a world-class fundamental physics research organization in Europe**. At that time, pure physics research concentrated on understanding the inside of the atom, hence the word "nuclear".

Today, our understanding of matter goes much deeper than the nucleus, and CERN's main area of research is particle physics – the study of the fundamental constituents of matter and the forces acting between them. Because of this, the laboratory operated by CERN is often referred to as the European Laboratory for Particle Physics.

At CERN, the European Organization for Nuclear Research, physicists and engineers **are probing the fundamental structure of the universe**. They use the world's largest and most complex scientific instruments to study the basic constituents of matter – the fundamental particles. **The particles are made to collide together at close to the speed of light**. The process gives the physicists clues about how the particles interact, and **provides insights into the fundamental laws of nature**.

The instruments used at CERN are purpose-built **particle accelerators and detectors**. Accelerators **boost beams of particles to high energies** before the beams are made to collide with each other or with stationary targets. Detectors observe and record the results of these collisions.

**Founded in 1954**, the CERN laboratory sits astride the Franco-Swiss border near Geneva. It was one of Europe's first joint ventures and now has **21 member states**.

There are people who will explain things simply and such is a person called "mike from around the world" who was or may still be an insider at CERN.

## ANCIENT CONNECTION TO WHO OR WHAT IS CERN

Mat 10:16 Behold, I send you forth as sheep in the midst of wolves: therefore be wise as serpents, and harmless as doves.

There is a character in ancient Wiccan mythology named **Cern!** What is also interesting about this particular myth is how (yet again) it also seems to have direct ties to Nimrod - and the many other myths associated with him. There is a character called Lupercus. In the myth, he is known as the Great Golden Wolf. He was born on the night of the Winter Solstice (December 25th) - imagine that!

In ancient Rome, his feast day was known as Lupercalia and it was celebrated on February 15th. This myth is where we get the imagery of Romulus and Remus nursing from a wolf. The Lupercalia festival is that it also seemed to be directly associated with Pan! like Pan, Lupercus was thought of as a god of shepherds\*\*. In fact, Lupercus and Pan are often thought to have been one and the same. Is Lupercus indeed another form of Nimrod?

\*\* the Canaanites who fled from Yahusha and went into Egypt were called shepherds by the Egyptians- per Isaac Newton.

Gen 49:27 Benjamin shall ravin as a wolf: in the morning he shall devour the prey, and at night he shall divide the spoil.

Mat 7:15 Beware of false prophets, which come to you in sheep's clothing, but inwardly they are ravening wolves.

## WHO OR WHAT IS CERN?

Lupercus was given "twelve labors" to perform in order to prove himself worthy (similar to Thor, Hercules, Gilgamesh and others). These labors are what sends this sun through the signs of the Zodiac in one year. Succeeding at these labors, **he was proclaimed a sun god**. So, once again we see that this god is exactly the same as so many of the other Nimrod-based gods! That the story of Lupercus is really another culture's version of essentially the myth of Osiris becomes even more obvious.

On Easter (the Spring Equinox) while out hunting, he gets struck by lightning and dies. And so he becomes the god of the Underworld - just like Osiris. The only thing that remained of Lupercus was his wolf skin which was found by "another hunter." Remember the battle between Esau and Nimrod ? Esau the hunter, rushed up (like lightning?) and killed a man named Nimrod (the 2<sup>nd</sup> Nimrod-not the one who made the tower) the mighty hunter. Then, he took "the valuable garments of Nimrod" after he killed him. The Lupercus myth even states that just like Nimrod's "valuable garments" this "pelt of Lupercus" turns out to have magical powers.

After Lupercus goes into the Underworld, his brother **Cern** decides to usurp Lupercus' earthly throne as the ruler of this world!

## WHO OR WHAT IS CERN?

In this myth, **Cern** is the brother of Lupercus. We see a similarity between Lupercus as Nimrod/Osiris and **Cern** as Tammuz/Horus! But to show just how connected **CERN** is with the occult, look at another mythological character - Saturn!

The occult is keenly aware of this as noted by Fritz Springmeier in his book, *"Bloodlines of the Illuminati"*:

*"Saturn is an important key to understanding the long heritage this conspiracy has back to antiquity. The city of Rome was originally known as Saturnia or City of Saturn. The Roman Catholic church retains much of the Saturn worship in its ritual. Saturn also relates to Lucifer. In various occult dictionaries Saturn is associated with evil. Saturn was important to the religion of Mithra, and also the Druids."* This absolutely connects **CERN** with the Illuminati!

Saturn and Lupercus seem to have a lot in common, especially when it comes to feasts! The Saturnalia feast of the Winter Solstice (which later became known as Christmas), seems to be closely related to the Lupercalia feast through the Carnival season. Likewise, there appears to be a real strong tie between **CERN** here on Earth, the planet **Saturn and the Hindu gods, which may put the statue of Shiva into greater perspective!**

*In the Ramayana, Hanuman (the monkey god) is said to have rescued Shani, the planet Saturn, from the clutches of Ravana. In gratitude, Shani (Saturn) promised Hanuman that those **who prayed to him (Hanuman) would be rescued from the painful effects of Saturn**, which in Hindu astrology, is said to produce malefic effects on one's life when one is afflicted "negatively" with Saturn.*

*Another version of the encounter between lord Hanuman and Shani Bhagavan is that the latter once climbed on to lord Hanuman's shoulder, implying that he (Hanuman) was coming under the effects of the influence of Shani. At this, Hanuman assumed a large size, and Shani was caught painfully between Hanuman's shoulders and the ceiling of the room they were in. As the pain was unbearable, Shani (Saturn) **requested Hanuman to release him, promising that he (Shani) would moderate the malefic effects of his influence on a person praying to Hanuman. Hanuman released Shani thereafter.***

*- Wikipedia*

**This may shed even more light on the reasons why President Obama carries this god around with him! The above text says that Hanuman rescued Saturn from the clutches of Ravana. **Could it be that Obama thinks he will be safe when CERN (Ravana) "releases" Saturn again?****

# Who is connected with CERN?

The CERN convention was signed in 1953 by the 12 founding states Belgium, Denmark, France, the Federal Republic of Germany, Greece, Italy, the Netherlands, Norway, Sweden, Switzerland, the United Kingdom and Yugoslavia, and entered into force on 29 September 1954. The organization was subsequently joined by Austria (1959), Spain (1961-1969, re-joined 1983), Portugal (1985), Finland (1991), Poland (1991), Czechoslovak Republic (1992), Hungary (1992), Bulgaria (1999) and Israel (2014). The Czech Republic and Slovak Republic re-joined CERN after their mutual independence in 1993. Yugoslavia left CERN in 1961. Today CERN has 21 member states, and Romania is a candidate to become a member state. Serbia is an associate member in the pre-stage to membership.

Member states have special duties and privileges. They make a contribution to the capital and operating costs of CERN's programmes, and are represented in the council, responsible for all important decisions about the organization and its activities.

# Who is connected with CERN?

Some states (or international organizations) for which membership is either not possible or not yet feasible are observers. "Observer" status allows non-member states to attend council meetings and to receive council documents, without taking part in the decision-making procedures of the organization.

Over 600 institutes and universities around the world use CERN's facilities. Funding agencies from both member and non-member states are responsible for the financing, construction and operation of the experiments on which they collaborate. CERN spends much of its budget on building machines such as the [Large Hadron Collider](#) and it only partially contributes to the cost of the experiments.

Observer states and organizations currently involved in CERN programmes include the European Commission, India, Japan, the Russian Federation, Turkey, UNESCO and the USA.

Non-member states with co-operation agreements with CERN include Algeria, Argentina, Armenia, Australia, Azerbaijan, Belarus, Bolivia, Brazil, Canada, Chile, China, Colombia, Croatia, Ecuador, Egypt, Estonia, Former Yugoslav Republic of Macedonia (FYROM), Georgia, Iceland, Iran, Jordan, Korea, Lithuania, Malta, Mexico, Montenegro, Morocco, New Zealand, Pakistan, Peru, Saudi Arabia, Slovenia, South Africa, Ukraine, United Arab Emirates and Vietnam.

CERN also has scientific contacts with China (Taipei), Cuba, Ghana, Ireland, Latvia, Lebanon, Madagascar, Malaysia, Mozambique, Palestinian Authority, Philippines, Qatar, Rwanda, Singapore, Sri Lanka, Thailand, Tunisia, Uzbekistan and Venezuela.

# More Troubling aspects of CERN

They made the “web” and inter “net” which is now being used to capture and track people who have become dependent on it. They named it this way to telegraph its purpose.

## The birth of the web

The World Wide Web, invented at CERN in 1989 by British scientist Tim Berners-Lee, has grown to revolutionize communications worldwide

MAKE NOTE OF THEIR LOGO:

666

## More Troubling Aspects of CERN

According to the [CERN web site](#):

*The basic idea of the WWW was to merge the technologies of personal computers, computer networking and hypertext into a powerful and easy to use global information system.*

Just think about the terminology we use on a daily basis: "**World Wide Web**," "**network**," "**on-line**" and "**Internet**." Apart from of the computer medium we use to browse for information, each of those words contain within them the connotation of a **trap or a snare** - usually specifically designed to capture **prey** in any other context. What about the terms "**hacking**" and "**virus**"? That should make us shama for a moment and truly think about what the "World Wide Web" really is.

*But thou, O Daniel, shut up the words, and seal the book, even to the time of the end: many shall run to and fro, and knowledge shall be increased. - Daniel 12:4 (KJV)*

## More Troubling Aspects of CERN

Previously, we brought up the possibility of Math being a language that was confused.

The creation of the Internet essentially duplicated that! The world is once again united as one, using the common language of HTML (a term that means, *Hyper Text Markup Language*).

As for human language, the Internet solves that problem as well with tools like BABELfish!

And I think anyone who is texting knows that communication is now reduced to letters standing in for words.

In *The Book of the Hopi's* by Frank Waters, there is even a prophecy amongst the Hopi Indians that seems to point to the WWW as a precursor to the End. "*This is the Fifth Sign: The land shall be criss-crossed by a giant spider's web.*"

THIS COULD ALSO BE CHEMTRAILS

# More Troubling aspects of CERN

They put a massive statue of *lord Shiva* dancing on the back of a demon-dwarf-man! ***Shiva is the god of destruction!*** He is the god who is known as the ***Destroyer.***

Take notice: This is the same name used to describe the entity that comes up out of the Abyss when the Fifth Trumpet of Revelation is sounded. The Hebrews called him, Abaddon. The Greeks called him Apollyon.

नित्याय त्रिगुणात्मने पुरजिते कात्यायनी-श्रेयसे  
सत्यायादिकुटुंबिने मुनिमनः प्रत्यक्ष-चिन्मूर्तये ।  
मायासृष्ट-जगत्त्रयाय सकलाप्नायान्त-संचारिणे  
सायं ताण्डव-संभ्रमाय जटिने सेयं नतिशंभवे ॥ ५६ ॥

“O Omnipresent, the embodiment of all virtues, the creator of this cosmic universe, the king of dancers, who dances the *Ananda Tandava* in the twilight, I salute thee.”

(Source: Verse No. 56, Sivanandalahari by Sri Adi Sankara)

Presented by: The Department of Atomic Energy, Government of India.

- *Shiva's long, matted tresses, usually piled up in a knot, loosen during the dance and crash into the heavenly bodies, knocking them off course or destroying them utterly.*

Particles colliding?

Remember the connection to him with the elephant and monkey deities? All were about removing obstacles and dancing. Fiddling while Rome burns?

## More Troubling aspects of CERN

Shiva is part of the Hindu version of their Divine Trinity known as the *Trimurti*:

*The Trimurti is a concept in Hinduism "in which the cosmic functions of creation, maintenance, and destruction are personified by the forms of Brahmā the creator, Vishnu the maintainer or preserver, and Śhiva the destroyer or transformer," These three deities have been called "the Hindu triad" or the "Great Trinity," often addressed as "Brahma-Vishnu-Maheshwara."*

- Wikipedia

## More Troubling aspects of CERN

**Nataraja or Nataraj (Hindustani: The Lord (or King) of Dance; Tamil: (Kooththan)) is a depiction of the Hindu god Shiva as the cosmic dancer who performs his divine dance to destroy a weary universe and make preparations for god Brahma to start the process of creation.**

**The sculpture is usually made in bronze, with Shiva dancing in an aureole of flames, lifting his left leg (and in rare cases, the right leg) and balancing over a demon or dwarf (Apasmara) who symbolizes ignorance.**

**The two most common forms of Shiva's dance are the Lasya (the gentle form of dance), associated with the creation of the world, and the Tandava (the violent and dangerous dance), associated with the destruction of weary worldviews - weary perspectives & lifestyles. In essence, the Lasya and the Tandava are just two aspects of Shiva's nature; for he destroys in order to create, tearing down to build again.**

At the beginning of this, we discussed why CERN appears to be another Tower of Babel; it's obvious from all the experiments that go on there, they are working to duplicate "CREATION", thereby confirming a "self-fulfilling" prophecy to enable the adversary to create life.

We all know that won't ever happen, the adversary is nothing more than a counterfeit and a destroyer.

Key word here is "**destroyer**" – this group of scientists who have gathered together and for the most part have no idea what part they play in this building of this evil tower, have entered into an agreement with the adversary to help him.

From the finding of the Higgs boson, **many scientists conceded that there had to be an intelligent designer.** That would be Yahuah, and once again it will be Him that will have to stop us from trying to get up into the shamayim, like Nimrod tried with his Tower, but this time, it won't be confounding the language and tearing down the Tower. This time it will be to bring on the earth's destruction.

# So what is the CERN Collider?

This is 16 miles long and it is part of CERN and 328 feet deep in the earth.

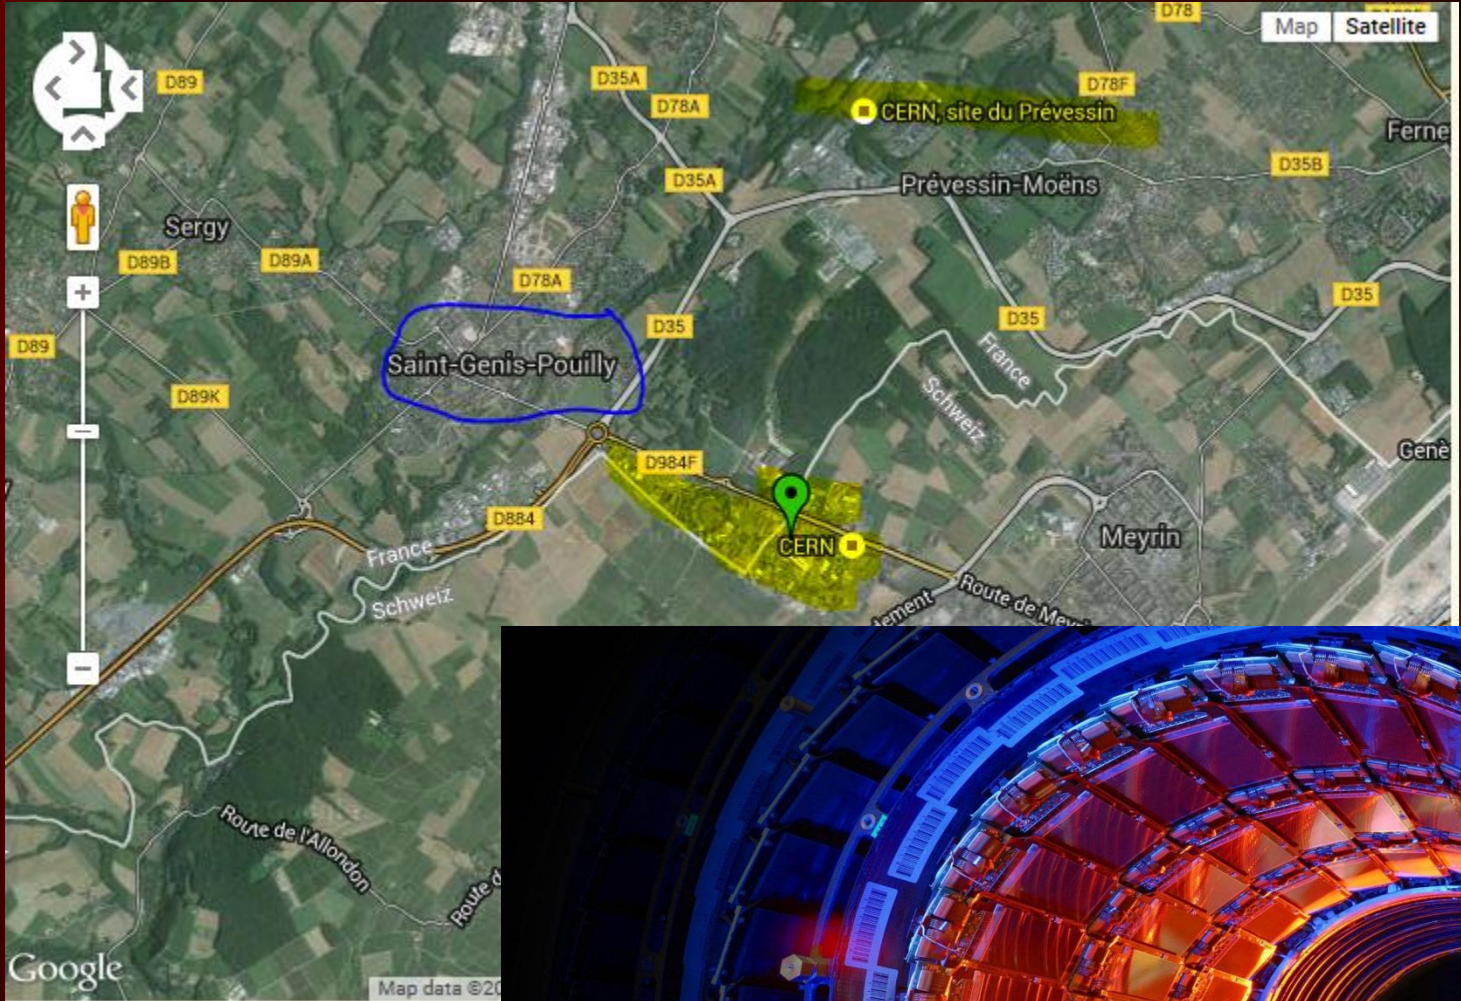

## The Large Hadron Collider

The 27-kilometre LHC is the world's largest particle accelerator. It collides protons or lead ions at energies approaching the speed of light

This is the machine that found the Higgs Boson particle or  $g_d$  particle. This is where the experiments are being done.

## Young's literal Translation

Rev 9:1 And the fifth messenger did sound, and I saw **a star out of the heaven having fallen to the earth, and there was given to it the key of the pit of the abyss,**

Rev 9:2 **and he did open the pit of the abyss,** and there came up a smoke out of the pit as smoke of a great furnace, and darkened was the sun and the air, from the smoke of the pit.

Rev 9:3 And out of the smoke came forth **locusts to the earth, and there was given to them authority, as scorpions of the earth have authority,**

Rev 9:4 and it was said to them that they may not injure the grass of the earth, nor any green thing, nor any tree, **but--the men only who have not the seal of YAHUAH upon their foreheads,**

Rev 9:5 **and it was given to them that they may not kill them, but that they may be tormented five months, and their torment is as the torment of a scorpion, when it may strike a man;**

Rev 9:6 **and in those days shall men seek the death, and they shall not find it, and they shall desire to die, and the death shall flee from them.**

Rev 9:7 And the **likenesses of the locusts are like to horses made ready to battle, and upon their heads as crowns like gold, and their faces as faces of men,**

Rev 9:8 **and they had hair as hair of women, and their teeth were as those of lions,**

Rev 9:9 **and they had breastplates as breastplates of iron, and the noise of their wings is as the noise of chariots of many horses running to battle;**

Rev 9:10 **and they have tails like to scorpions, and stings were in their tails; and their authority is to injure men five months;**

Rev 9:11 **and they have over them a king--the messenger of the abyss--a name is to him in Hebrew, Abaddon, and in the Greek he hath a name, Apollyon.**

Rev 9:12 The first woe did go forth, lo, **there come yet two woes after these things.**

**It's this scientific stuff that can become mind-boggling, but then I'm sure that is done to keep those of us not in the know about all the physics and equations that these people use to explain what they are doing.**

**Mike spoke about the “Darkest side of CERN – Destruction of souls” and isn't that what the adversary is trying to do, take our souls.**

**The powers that be involved with CERN don't really want to do anything to help mankind, they want to know how to destroy it, which of course has always been the adversary's agenda, beginning with the first time he swayed Hawa to disregard Yahuah's command.**

**The video is very interesting and can be used to confirm chapters in Chazon/Revelation:**

**Contrary to what we have heard, anti-matter was first made in 1955, so they have had a very long time to "play" with this. The old science fiction shows such as the Twilight Zone and Outer Limits, had episodes that dealt with the subject of anti-matter, but never with a good outcome. One could say that these shows were the bell-weatheres of the time to warn us off this stuff.**

**Anti-matter cannot be controlled; it has to be contained so that it won't burn. 1 gram of anti-matter equals 45 kilotons of TNT, which is the equivalent of 4 Hiroshima bombs. It takes very large and expensive facilities to contain just 1 gram of anti-matter.**

**Anti-matter reacts in ways that are “unfathomable”, it can cause a chain reaction and one gram of anti-matter has the potential of the sun if it begins to react with other components of anti-matter—if the containment devices fail, then it can cause mega-quakes.**

**CERN found the Higgs Boson field, which they call the YAH particle, but that is only half of what they were looking for, the other half has to do with anti-matter. The inference is that anti-matter exists in another dimension, which is very hostile and not under control, where there is chaos, but where I believe also is the gate that they are trying to open and bring in more demons.**

**In satanic rites, when they call or try to bring in demons, they are calling them from another dimension, but they also work to ensure that they can control these demons. Imagine opening the portal when there is no control; it is the goal to bring in chaos and mad destruction in order to bring in the anti-messiah who will bring order out of chaos.**

The human body is held together by the glue that bonds matter together, which means that we have both matter and anti-matter in us. Anti-matter has a specific type of energy, a signature and demonic entities are attracted to anti-matter. Anti-matter can be absorbed by any paranormal activity, so playing with that ouji board is really NOT a good thing.

Since the 1800's there have been scientific groups studying the paranormal activity and have learned that there is a dimensional slip, so it is always interacting with our world.

Anti-matter is intimately tied to every single life form on this planet, it is the same energy signature. We are connected to both energies matter and anti-matter. Our thoughts will determine which energy we draw on, as we are connected to both realms, good and evil. This is what free will is, so it's very important that we think about this carefully.

**If we live in the negative we are building a house that demons would love to live in and then we become victims of our own destruction if we don't "come" to the light as many say, but means finding the good thoughts, finding Yahuah and His words, which are the "shield" to keep us safe from this horror that the adversary is working so hard to bring about. We have to seal ourselves with Yahuah!**

**Enoch 21:1-3 Then I proceeded to where things were chaotic and void. And I saw there something horrible: I saw neither a heaven above nor a firmly founded earth, but a place chaotic and horrible.**

**Enoch 21:6-10 There are some stars of heaven, which have transgressed the commandment of Yahuah, and are bound here until ten thousand years, the time entailed by their sins, are consummated. And I went out from there to another place, which was still more horrible than the former, and I saw a terrible thing: a great fire there which burnt and blazed, and the place was cleft as far as the abyss, full of great falling columns of fire: neither its width or breadth could I see, nor could I see its source. Then I said: "I am afraid of this place and cannot stand to look at it!" The Uriel, one of the messengers who was with me, answered and said to me: "Enoch, why are you so afraid?" And I answered: "Because of this fearful place, and because of the spectacle of the pain." And he said to me: "This place is the prison of the messengers, and here they will be imprisoned for ever."**

**Interesting that CERN is deep under the ground and it's from there they do all their experiments as well as in space, but let's call the underground spot their command center.**

**Remember the tribulation is for 7 years, and as we saw earlier, it really seems that the start of that will be once the merging of the Israel and Rome to build the 3<sup>rd</sup> temple begins, which will be built in 3½ years, but during that time there will be chaos and wars. You have to have a reason to bring order out of chaos, a way to bring in the anti-messiah, who only gets to rule for three and a half years.**

**CERN is the tool of the adversary. Through this place, a portal will be open to a dimension allowing demons to come into the world in greater numbers than they already are, ready to possess those who at this time will be living in and participating in the chaos by being controlled through their own “anti-matter” signature. People will explode into evil.**

**Being able to control the anti-matter in people, one could make people have vivid dreams and nightmares and erupt into violence. How many times have you heard in the news when people talk about say the Colorado shooter, that he was the nicest person you'd ever meet. Serial killers talk about the voices in their heads telling them the evil things they want them to do.**

## **PSYCHOTRONIC WARFARE AND RADIONICS**

by Lawrence Wilson, MD

© January 2014, The Center For Development

Psychotronics or *psi warfare* is the use of electronic machines to send beams of energy or frequencies directly to people's brains and bodies through the air. This is the new stealth warfare. It is inexpensive and simple, and often hard to detect and defeat.

The same method is used, at times, to brainwash people to believe certain information and not other information by making subtle suggestions to them via electronic beams or frequencies. For much more about brainwashing and hypnosis, please read [Hypnosis And Brainwashing](#) on this website.

The science of psychotronics was developed over 100 years ago on earth, but has probably been used for much longer than that. The basic principles that are used are sometimes referred to as radionics.

**Radionics.** Radionics is a method of transmitting energy, messages and even material items using mainly very high frequency currents at very low voltages. It is quite an amazing science that seems to defy the laws of physics. It can act at a distance, it can act almost instantaneously, and it affects the human brain, in particular, in unusual ways.

It is, in fact, an **etheric science**, which means it uses laws of physics that have not been fully discovered and researched at this time. The ether is the substance that fills all space and all time. Etheric sciences are discussed in a number of articles on this website that are listed under the heading of spiritual development. This article, however, has to do with an abuse of etheric energy for negative purposes to harm others.

Radionics and psychotronics can be used for healing. This is quite important to know. The purpose of this article is not to say that radionics or even psychotronics are bad. However, the main uses of these sciences at this time are as weapons, often called ***psi weapons***.

For example, one can broadcast frequencies that kill germs, stop cancers, calm the nervous system, reduce fear and so on. However, the same principles can and are being used to make people angry, incite violence, discourage people, sicken people, to oppose freedom and justice, and for many other negative purposes on planet earth. They are used by governments, as well as by other rogue groups that seek to control us.

**RADIONIC METHODS ARE VERY POWERFUL AND CAN AFFECT AN ENTIRE NATION AT ONCE**

**Another interesting thing that has been discovered and CERN is aware of is “dark matter”. People can produce dark matter, which was discovered in 1950 and is measurable. They know how much energy they have to have to make someone go completely berserk as well how much a person must have before they can become possessed. In addition they do know that not everyone can be possessed.**

## Dark matter- from Cern's Website

Unlike normal matter, dark matter does not interact with the electromagnetic force. This means it does not absorb, reflect or emit light, making it extremely hard to spot. In fact, researchers have been able to infer the existence of dark matter only from the gravitational effect it seems to have on visible matter. Dark matter seems to outweigh visible matter roughly six to one, making up about 26% of the universe. Here's a sobering fact: The matter we know and that makes up all stars and galaxies only accounts for 4% of the content of the universe! But what is dark matter? One idea is that it could contain "supersymmetric particles" – hypothesized particles that are partners to those already known in the [Standard Model](#). Experiments at the [Large Hadron Collider](#) (LHC) may provide more direct clues about dark matter.

Many theories say the dark matter particles would be light enough to be produced at the LHC. If they were created at the LHC, they would escape through the detectors unnoticed. However, they would carry away energy and momentum, so physicists could infer their existence from the amount of energy and momentum "missing" after a collision. Dark matter candidates arise frequently in theories that suggest physics beyond the Standard Model, such as supersymmetry and extra dimensions. One theory suggests the existence of a "Hidden Valley", a parallel world made of dark matter having very little in common with matter we know. If one of these theories proved to be true, it could help scientists gain a better understanding of the composition of our universe and, in particular, how galaxies hold together.

**In order to be possessed a person must be prepared to be a portal, enter MK Ultra and mind control. I know that many think this has gone away, it has not, its just been perfected!!!**

**The interesting thing about dark matter will cause other pieces of dark matter to react and distance has nothing to do with it For example: A piece of dark matter is exposed in Pennsylvania, it will make dark matter in California react. It's interesting then to put this in the perspective of the Rodney King riots, Ferguson or any other thing you want to name, and one can now understand how easy it was to incite all these people into violence.**

**Dark matter has been weaponized and can be put anywhere and can be used to cause the dark energy in people to be activated and then it becomes difficult to stay in control. It is our dark emotions that enhance this weapon, which can come on in the snap of a finger, so it's very important for us to stay focused in Yahuah's words.**

**CERN has found the force that keeps the other dimension and dark energy from our realm, and they have named it the "wall". They are looking for what those pieces are that make up this wall, they also call it "the veil". Again another example of the counterfeiter using what Yahuah has talked about. The difference though is "His" veil was torn when His Son Yahusha died on the pole. They believe that once they find all the pieces they will be able to "undo" the wall or veil.**

Chazon18:1 After these things I saw another messenger coming down from heaven, having great authority, and the earth was illumined with his esteem.

Chazon18:2 And he cried out with a mighty voice, saying, Fallen, fallen is Babylon the great! **She has become a dwelling place of demons and a prison of every unclean spirit, [and a prison of every unclean beast], and a prison of every unclean and hateful bird.**

Chazon18:3 For all the nations have drunk of the wine of the passion of her fornication, and the kings of the earth have committed fornication with her, and the merchants of the earth have become rich by the wealth of her sensuality.

Chazon18:4 And I heard another voice from heaven, saying, Come out of her, my people, so that you shall not participate in her sins and that receive not of her plagues;

Chazon18:5 for her sins have reached unto heaven, and Yahuah has remembered her iniquities.

Seems Yahuah has plans for those that open the portal to the other dimension and allow all the demons in and why if you have listened to any of the news that is talking about the turning on at CERN of the collider, that they continue to have problems. All things will be in Yahuah's time, not in mans'.

There are 14 of these LHC accelerators in the world today. Three of them in the US and all of them are underground. One of the facilities here in the US had issues and should have been shut down, but they built it anyway and powered it up in one of the biggest states in the US. Texas or California?

These colliders have been responsible for earthquakes, where Texas used to not have any earthquakes that I was aware of in the past, now it's become normal, and why would that be? China is in the process of building an LHC accelerator.

**As the adversary and his minions work to push their agenda, it's becoming clear that perhaps they are really more aware of their shortness of time. They only have so long, 7 years to wreak havoc before this is all over. Maybe they aren't aware of that, or perhaps, since one of the other experiments at CERN is to be able to control time. There are those that are convinced that they will be able to become time travelers and go back in time and perhaps affect time or go into the future to fix things. There is only ONE master of time, Yahuah; He is past, present and future. The only outcome for those who think they can control time is to speed up their own end!!**

**In the meantime, we as Yahuah's children need to make Him our focus and His son, we cannot be distracted by fear of these things that are happening on the earth, but become fearless in the trust and the knowing of Yahuah who under His wings we will be shielded and protected.**

Chazon20:4 And I saw thrones, and they sat on them, and judgment was given to them. And I saw the souls of those **who had been beheaded** because of their testimony of Yahusha and because of the word of Yahuah, and those who had not worshiped the beast nor his image, and had not received the mark on their forehead and on their hand; and they lived and reigned with the Mashiyah for a thousand years.

**Instead of throwing ourselves in front of the “sword” for people, this is telling us that nothing is more important than giving up our life for Yahuah and Yahusha that we let nothing sway or take us away from them. We need to keep praying that we be found worthy to overcome these things with Yahuah.**

# CERN And Prophecy regarding Earth Pains

- Eze 38:18 And it shall come to pass at the same time when Gog shall come against the land of Israel, says Yahuah, [that] my fury shall come up in my face.
- Eze 38:19 For in my jealousy [and] in the fire of my wrath have I spoken, Surely in that day there shall **be a great shaking in the land of Israel;**
- Eze 38:20 So that the fishes of the sea, and the fowls of the heaven, and the beasts of the field, and all creeping things that creep upon the earth, and all the men that [are] upon the face of the earth, shall shake at my presence, and the mountains shall be thrown down, and the steep places shall fall, and every wall shall fall to the ground.
- Eze 38:21 And I will call for a sword against him throughout all my mountains, says Yahuah: every man's sword shall be against his brother.
- Eze 38:22 And I will plead against him with pestilence and with blood; and I will rain upon him, and upon his bands, and upon the many people that [are] with him, an overflowing rain, and great hailstones, fire, and brimstone.
- Eze 38:23 **Thus will I magnify myself, and sanctify myself; and I will be known in the eyes of many nations, and they shall know that I [am] YAHUAH.**

# CERN And Prophecy regarding Earth Pains

Zec 14:5 And you shall flee [to] the valley of the mountains; for the valley of the mountains shall reach unto Azal: yes, you shall flee, like as you fled from before **the earthquake** in the days of Uzziah king of Judah: and YAHUAH shall come, [and] all the saints with you.

Mat 24:6 And you shall hear of wars and rumors of wars: see that you be not troubled: **for all [these things] must come to pass, but the end is not yet.**

Mat 24:7 For nation shall rise against nation, and kingdom against kingdom: and there shall be famines, and pestilences, **and earthquakes**, in divers places.

Mar 13:8 For nation shall rise against nation, and kingdom against kingdom: and there shall be earthquakes in divers places, and there shall be famines and troubles: **these [are] the beginnings of sorrows.**

Luk 21:11 And great earthquakes shall be in divers places, and famines, and pestilences; **and fearful sights and great signs shall there be from heaven.**

# Current events linked to CERN

CERN recently charged up their particle collider and at the exact moment energy spikes occurred in Switzerland the earthquake in Nepal took place. There is a video documenting this event.

4-25-2015 Nepal

Below is the video that documents the energy spikes at the time of the earthquake.

### 1 Day, Magnitude 2.5+ Worldwide

# Current events linked to CERN

**40 Volcanoes Are Erupting Right Now, And 34 Of Them Are Along The Ring Of Fire**

Posted: 14 May 2015 05:28 PM PDT

# Current events linked to CERN

Posted: 14 May 2015 05:28 PM PDT

Volcano Erupting - Public Domain You may not have noticed, but our planet is becoming increasingly unstable. According to Volcano Discovery, 40 volcanoes around the globe are erupting right now, and only 6 of them are not along the Ring of Fire. If that sounds like a very high number to you, that is because it is a very high number. As I have written about previously, there were a total of 3,542 volcanic eruptions during the entire 20th century. When you divide that number by 100, that gives you an average of about 35 volcanic eruptions per year. So the number of volcanoes that are erupting right now is well above the 20th century's average for an entire calendar year. And of course we are witnessing a tremendous amount of earthquake activity as well. Nepal was just hit by the worst earthquake that it had seen in 80 years, and scientists are telling us that the Himalayas actually dropped by an astounding 3 feet as a result of that one earthquake.

Eze 38:20 So that the fishes of the sea, and the fowls of the heaven, and the beasts of the field, and all creeping things that creep upon the earth, and all the men that [are] upon the face of the earth, shall shake at my presence, and the mountains shall be thrown down, and the steep places shall fall, and every wall shall fall to the ground.

# Current events linked to CERN

If it seems like earthquakes and erupting volcanoes are happening more frequently, that's because they are. Looking at global magnitude six (M6) or greater from 1980 to 1989 there was an average of 108.5 earthquakes per year, from 2000 to 2009 the planet averaged 160.9 earthquakes per year: that is a 38.9% increase of M6+ earthquakes in recent years. Unrest also seems to be growing among the world's super-volcanoes. Iceland (which is home to some of the most dangerous volcanoes on the planet), Santorini in Greece, Uturuncu in Bolivia, the Yellowstone and Long Valley calderas in the U.S., Laguna del Maule in Chile, Italy's Campi Flegrei – almost all of the world's active super-volcanic systems are now exhibiting some signs of inflation, an early indication that pressure is building in these volcanic systems.

In recent weeks we have seen significant earthquakes in Michigan, Texas, Mississippi, California, Idaho And Washington. In addition, it is being reported that pressure is building in dormant volcanoes in Arizona and California. Just because we have not had a killer earthquake or a large volcanic eruption in the U.S. in recent years does not mean that it will always be that way. Right now the entire planet appears to be waking up, and this especially seems to be true of the Ring of Fire.

If you are not familiar with the Ring of Fire, just imagine a giant ring that runs around the outer perimeter of the Pacific Ocean. Approximately 90 percent of all earthquakes and approximately 75 percent of all volcanic eruptions occur within this area, and the entire west coast of North America is considered to be part of the Ring of Fire.

For so long, the west coast has been incredibly blessed not to have experienced a major seismic event. But scientists tell us that it is only a matter of time.

And right now, just about every other part of the Ring of Fire is shaking violently.

For example, a magnitude 6.8 earthquake just hit Japan on Wednesday...

# Current events linked to CERN

For example, a recent LiveScience article discussed the fact that scientists are deeply puzzled by the fact that the magnetic field of our planet is getting weaker 10 times faster than previously believed... (THIS IS WHAT CERN IS DOING).

Scientists already know that magnetic north shifts. Once every few hundred thousand years the magnetic poles flip so that a compass would point south instead of north. While changes in magnetic field strength are part of this normal flipping cycle, data from Swarm have shown the field is starting to weaken faster than in the past. Previously, researchers estimated the field was weakening about 5 percent per century, but the new data revealed the field is actually weakening at 5 percent per decade, or 10 times faster than thought. As such, rather than the full flip occurring in about 2,000 years, as was predicted, the new data suggest it could happen sooner.

## 4.2 magnitude earthquake strikes Michigan and shakes Midwest – strongest quake ever to hit the state

by [The Extinction Protocol](#)

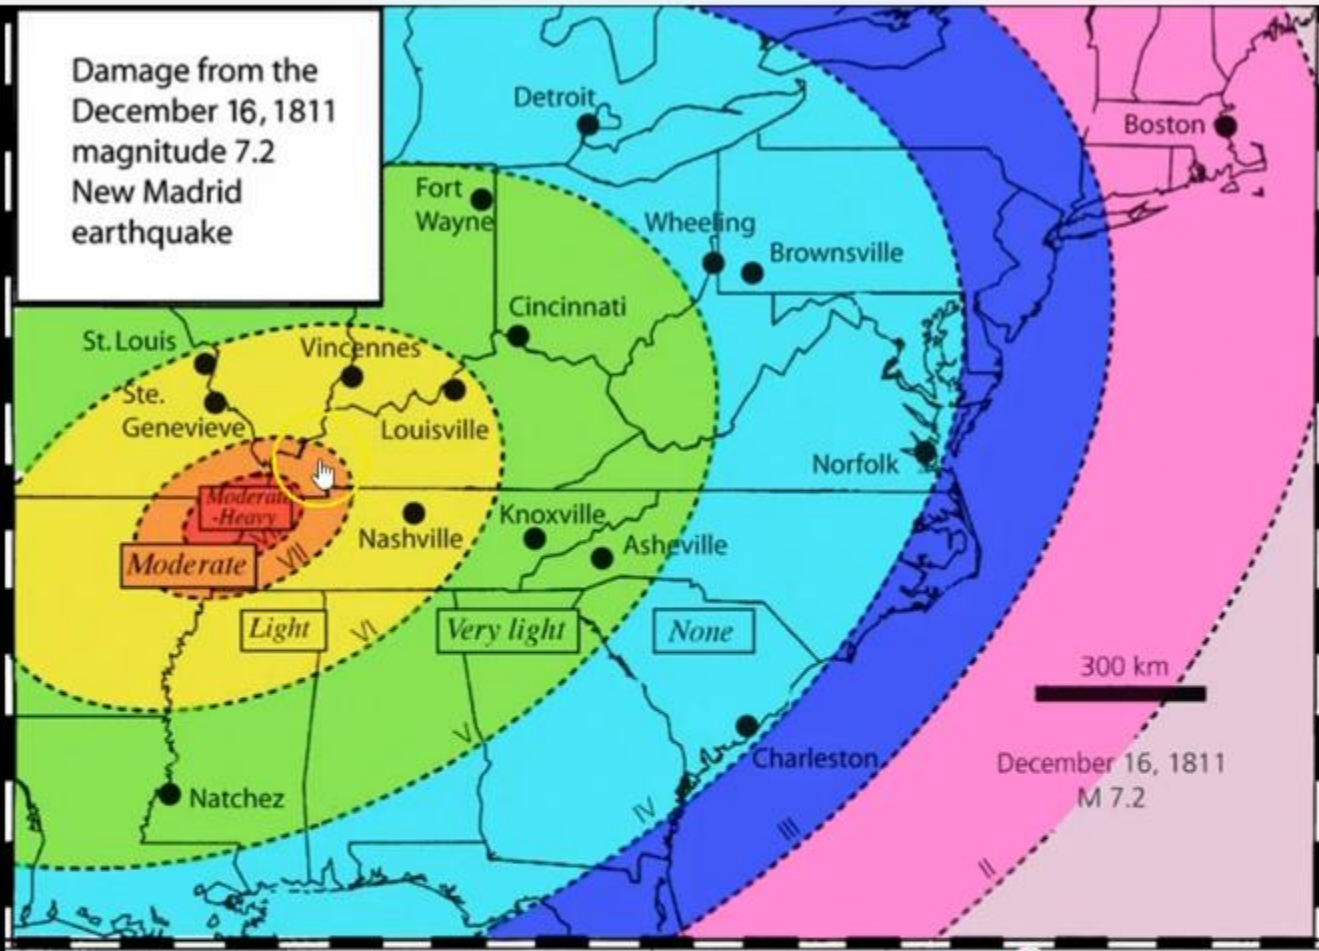

May 2015 – KALAMAZOO, Mich. – If you thought you felt an earthquake on Saturday 5-2 — you did. And it was one of the strongest quakes ever experienced in Michigan. Paul Caruso, a geophysicist with the United States Geological Survey, said an earthquake with a magnitude of 4.2 and a depth of focus of 5.9 km was measured around 12:23 p.m. about nine miles southeast of Kalamazoo, near Galesburg. Dozens of residents in several different regions beyond Kalamazoo — from Mount Pleasant and Sterling Heights to Lansing and even as far as Cleveland, Ohio — called the WWJ Newsroom and reported feeling a rumble and the ground shake for between five and 10 seconds.

“Earthquakes of this magnitude are very rare in Michigan,” Caruso told WWJ’s Russ McNamara. “We’ve had reports from Wisconsin, Illinois, Indiana and Ohio of people feeling this earthquake. It’s rare for Michigan to experience earthquakes, but as we were reminded today, it does happen,” Gov. Rick Snyder said in a statement. “There are no immediate reports of injuries or damage because of today’s earthquake, and that’s fortunate because we are acutely aware of the challenges posed by such natural disasters in other parts of the world recently. The Michigan State Police is ready to assist in any emergency that strikes our state.”

**MAY 20, 2015**

**A new record has been set by the Large Hadron Collider: its latest trials have smashed atoms with vastly more energy than ever before.**

On Wednesday night, two opposing beams of protons were steered into each other at the four collision points spaced around the LHC's tunnel.

The energy of the collisions was 13 trillion electronvolts - dwarfing the eight trillion reached during the LHC's first run, which ended in early 2013.

"Physics collisions" commence in June.

At that point, the beams will contain many more "bunches" of protons: up to 2,800 instead of the one or two currently circulating. And the various experiments will be in full swing, with every possible detector working to try and sniff out all the exotic, unprecedented particles of debris that fly

“

## Large Hadron Collider — Mysterious Object Detected In Tube

by 2Paragraphs in Daily Edition | April 29, 2015

Tunnel of the Large Hadron Collider (LHC) at CERN (photo: Julian Herzog)

The **Large Hadron Collider** will begin smashing protons again in June, according to Albert De Roeck, a physicist at CERN. The LHC, the largest machine ever constructed, completed a massive **\$149 million upgrade** in April. The upgrade--two years in the making--will allow the LHC to generate far higher energy, which scientists believe will help them unravel ever greater mysteries about the universe and its origins.

One concern De Roeck discussed is an "unidentified lying object" that could disrupt the accelerator's beam. **Phys.org** says physicists believe it's something to be "cautiously aware of." It hasn't caused a problem in the testing so far. "The unidentified lying object turns out not to be a problem for the operation, it's just something to keep an eye on," De Roeck said. "It's in the vacuum tube and it's not a problem if it doesn't move and remains stable." And if it moves?
