The word, iniquity, comes from in-equity and it refers to that which is unequal, unfair, or unjust. Perversity, that is, (moral) evil

It signifies not merely that which is wrong, but the tendency to do wrong. Iniquities are second nature sins, which drive us to repeatedly, continually commit sin. A perversion of the truth, which leads to error

2300 years ago, long before Islam, Arabs discovered that forcing people to cover their nose and mouths, broke their will and individuality, and depersonalized them. It made them submissive. That's why they imposed on every woman the mandatory use of a fabric over her face. Then Islam turned it into the woman's symbol of submission to Allah, the man owner of the Harem, and the King. Modern psychology explains it: without face we don't exist as independent beings. The child looks in the mirror between the ages of two and three and is discovered as an independent being. The mask is the beginning of deleting individuality. He who does not know his history is condemned to repeat it.

Iniquity is the bent condition of what we are. Iniquity revolves more about the underlying attitudes: Idolatry, Racism, Gluttony, Covetousness, Unrighteousness, wickedness, lawlessness

You will see the connection between the Scamdemic, Election Fraud and China's influence!

WHISTLEBLOWERS: Biden Implicated In Dominion Voting Scam Connected To Serbia

<https://counterglobalist.news/whistleblowers-biden-implicated-in-dominion-voting-scam-connected-to-serbia/>

Dana Jill Simpson and her husband Jim are election integrity and technology experts who have worked for Tides Foundation insiders (the Tides Canada Foundation shares office space in Toronto with Dominion Voting Systems' headquarters). They are both anti-war progressives in the Bernie Sanders wing of the Democrat Party. Dana Jill Simpson has been investigating Dominion for years, and she brought her concerns about voter fraud to the FBI in 2016 — including information about Dominion — but the FBI ignored her pleas for help. Simpson said the scanners for Dominion are made by a company called Flextronics in Plano, Texas, whose CEO does business with the Chinese company Huawei.

“I got a tip that Biden took a Trip on May 20th 2009 and that is when he cut a deal to help Serbian Hackers in Belgrade where he was visiting to get control of info about ES and S Machines so he and Obama would have a better chance in 2012. Well, not only did they get a better chance but Biden had Holder force ES and S in a divesture suit in the Antitrust department in the US DOJ to give over half of ES and S to Serbian programmers for Dominion Voting Systems. Such a disgusting situation,” Dana Jill Simpson said. The [date for Biden’s May 2009 Serbia trip checks out.](#)

Biden is good friends with the Serbian Crown Prince, who has [prematurely congratulated Biden](#) for supposedly getting elected president. They have visited each other at their respective houses.

“Anyone who stands up for this machinery is nuts and they are misleading the public about where the equipment is made. I know I have been to the Denver office and all it does is sell foreign programmed machines to US voters like they were made in Denver when they are not .

The New York Times and Washington Post are misleading the public with lies. I double dare those papers and any papers in the world or other Media to visit the Denver office and then say machines and programs are made there. It is a bald face lie. The Machines are made by Flex in China for the most part and the programming is done in Serbia and Canada and the International Corporation is Barbados. They have direct ties to Clinton Foundation in Delian Project," Dana Jill Simpson said.

What the Election really was before they stopped counting the votes!!!

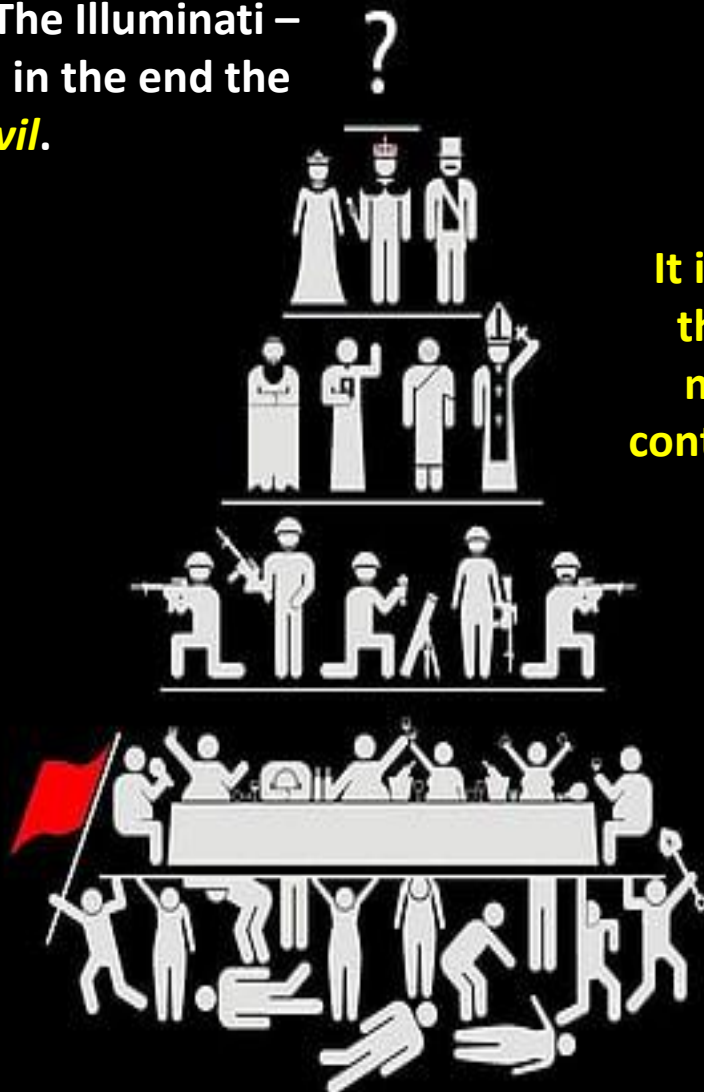

THE
EPOCH
TIMES

“Biden can only enter the White House as President if he can prove that his ridiculous ‘80,000,000 votes’ were not fraudulently or illegally obtained.”

— President Donald Trump

The Deep State, The Elite, The Illuminati – whatever name you go by, in the end the real name is **Evil**.

It is said that they are patient, that they have put into play many things for power and control for many if not hundreds of years.

Now it may seem they are good at waiting for their **presumed** outcome, but in reality, they are not patient, because at every turn **something stops them**.

A lion stands in profile, facing left, in a savanna landscape. The scene is bathed in the warm, orange and red light of a sunset or sunrise. In the background, there is a silhouette of an acacia tree on the left and a pyramid on the right. The sky is filled with soft, glowing clouds.

Ever wonder why they keep doing the same thing? They may have more things to use, but still use the same playbook expecting a different outcome.

Some would consider that insanity! *Consider that Miracle #1.*

The conspiracy is these groups think they have the power, they forget their real master is the one that pulls the strings and makes the promises.

This master *takes away freewill* and in its place, gives *promises* of everything you desire. If that weren't true, try getting out of it when your conscience tells you that what you are doing is wrong!

Then you will find out what your master holds over your head. It is then when you will be forced to choose if what he has on you will keep you from following that conscience. (Wonder who they think the all-seeing eye really is?) Consider this.....

JOHN ROBERTS

Research shows that Chief Justice John Roberts may have been compromised by serial child molester Jeffrey Epstein as an investigative report video on Twitter stated that one of the Justices of the Supreme Court of the United States was getting onboard Jeffrey Epstein's flights to likely be blackmailed as a pedophile with dark dirty skeletons in their closets. The flight logs filed in federal court of appeals records [which can be accessed on PACER.gov with the official digital federal court records] show Justice John Roberts name two times in the flight logs, assuming that it was for the Lolita Express. Sorry John Roberts, it appears that you are a blackmail-able puppet and this blog will have to expose this online. John Roberts has betrayed Donald Trump and [had voted not in favor of Trump](#) on some cases before the Supreme Court. Those decisions should be reversed via "petition for rehearing" or a "motion to reconsider" based upon the facts or evidence of blackmail of possible criminal activity of a Justice of the Supreme Court. Those decisions should be reviewed over once again in those past decisions. John Roberts even **publicly went against the [Second Amendment](#) which is stabbing his oath of office in the back politically and refusing to enforce the Constitution as it was written** for the American people. Another newspaper said he [voted with the liberals, again](#). If he, John Roberts was being blackmailed by Jeffrey Epstein then that means Supreme Court Justice John Roberts may be a PEDOPHILE, and the pedophilia of being associated with Jeffrey Epstein would make John Roberts betray Donald Trump and not act on his own sound mind but based upon being a "*puppet to a*" puppeteer or "puppet master" which Brian D. Hill of USWGO alternative news also eluded to in his letter to Justice Clarence Thomas.

Psalms 109:7-8

When he has been brought to trial and judged, let his unrighteousness and guilt of violating a standard come out, and let his prayer become as sin. Let his days be few; let another take his office and responsibility.

We have a President, who will be elected again because the PEOPLE voted for him, the EVIL – Yahuah will NOT allow it to “muzzle” our Vote!!

Donald J. Trump was shocked at winning the presidency in 2016 and so was Hillary Clinton who apparently had been promised the presidency.

However, her past was finally catching up with her and there was no way that the “swamp would let this creature from the black lagoon” become president.

But they had a plan they would implement – one that after Trump won, those that wanted to control the world would make it so miserable for him, he would quit! But they soon learned he was far stronger, would NOT play by their rules and that he had a base that would back him up and help him clean out the swamp.

A photograph of a swampy area. In the foreground, a large, dark, textured object, possibly a turtle's head or a log, is partially submerged in the water. In the background, a small, dark boat is visible on the water. The water is murky and greenish-brown. The sky is a pale, hazy blue.

HAMMER & SCORECARD

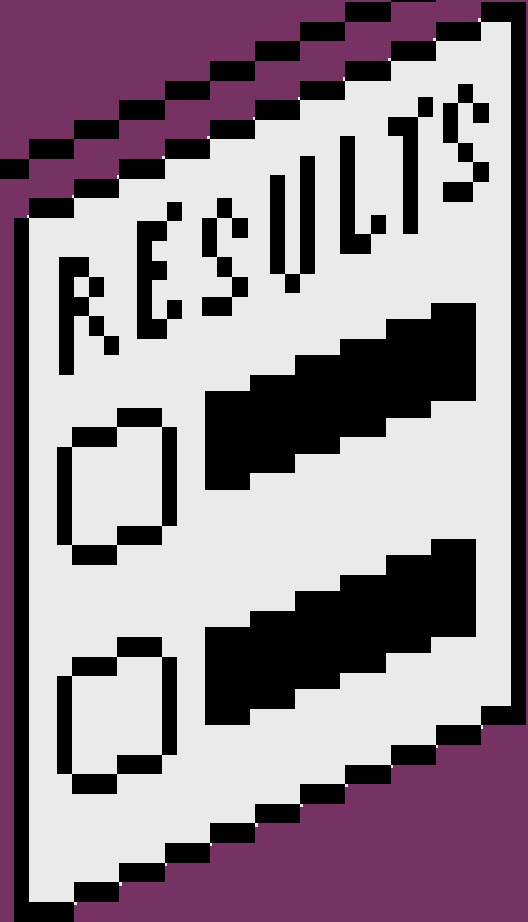

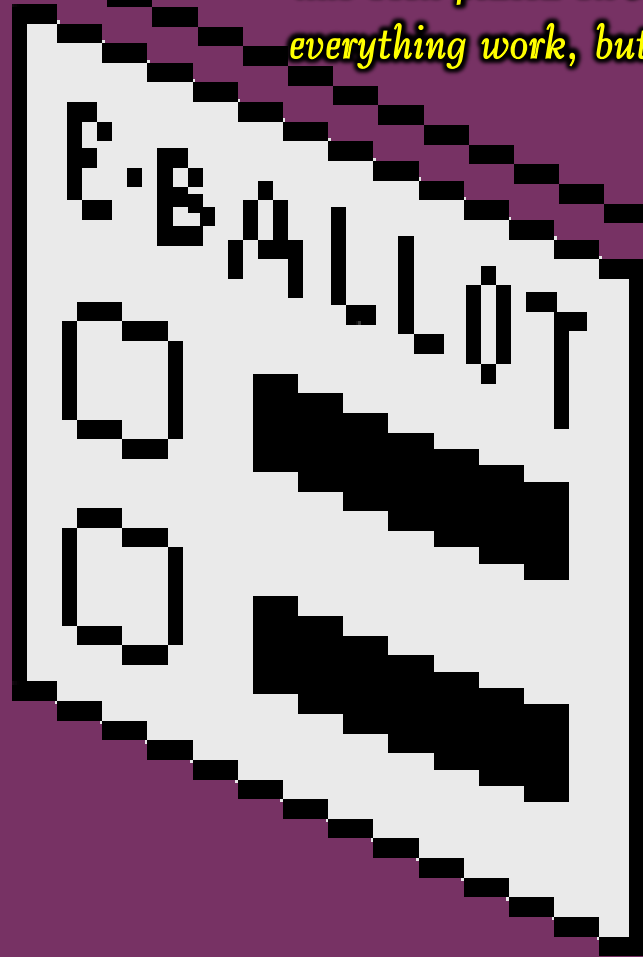

In order for anything to work, the people have to be involved – like voting. You actually have to have people vote to make anything work. Unless it's like the old days, when you scratched your vote on a piece of paper and then dropped it in the ballot box; with a machine could you possibly be sure that what you put down would be correct?

11/28/2020

*Of course the outcome is only
as good as who is counting
those votes. That has always
been the issue.*³⁵

Now modern technology enters the picture and it's a WHOLE new ballgame. But then again, you're only as good as the data being inputted. Too much has been placed on AI – somehow that will make everything work, but again, it's who is controlling that AI.

*Like the news, just because
you keep saying its true
doesn't mean it's true!!!
Just look at the headlines –
Joe Biden wins!! Just
because they say so,
apparently that makes it

THE HAMMER BACKSTORY

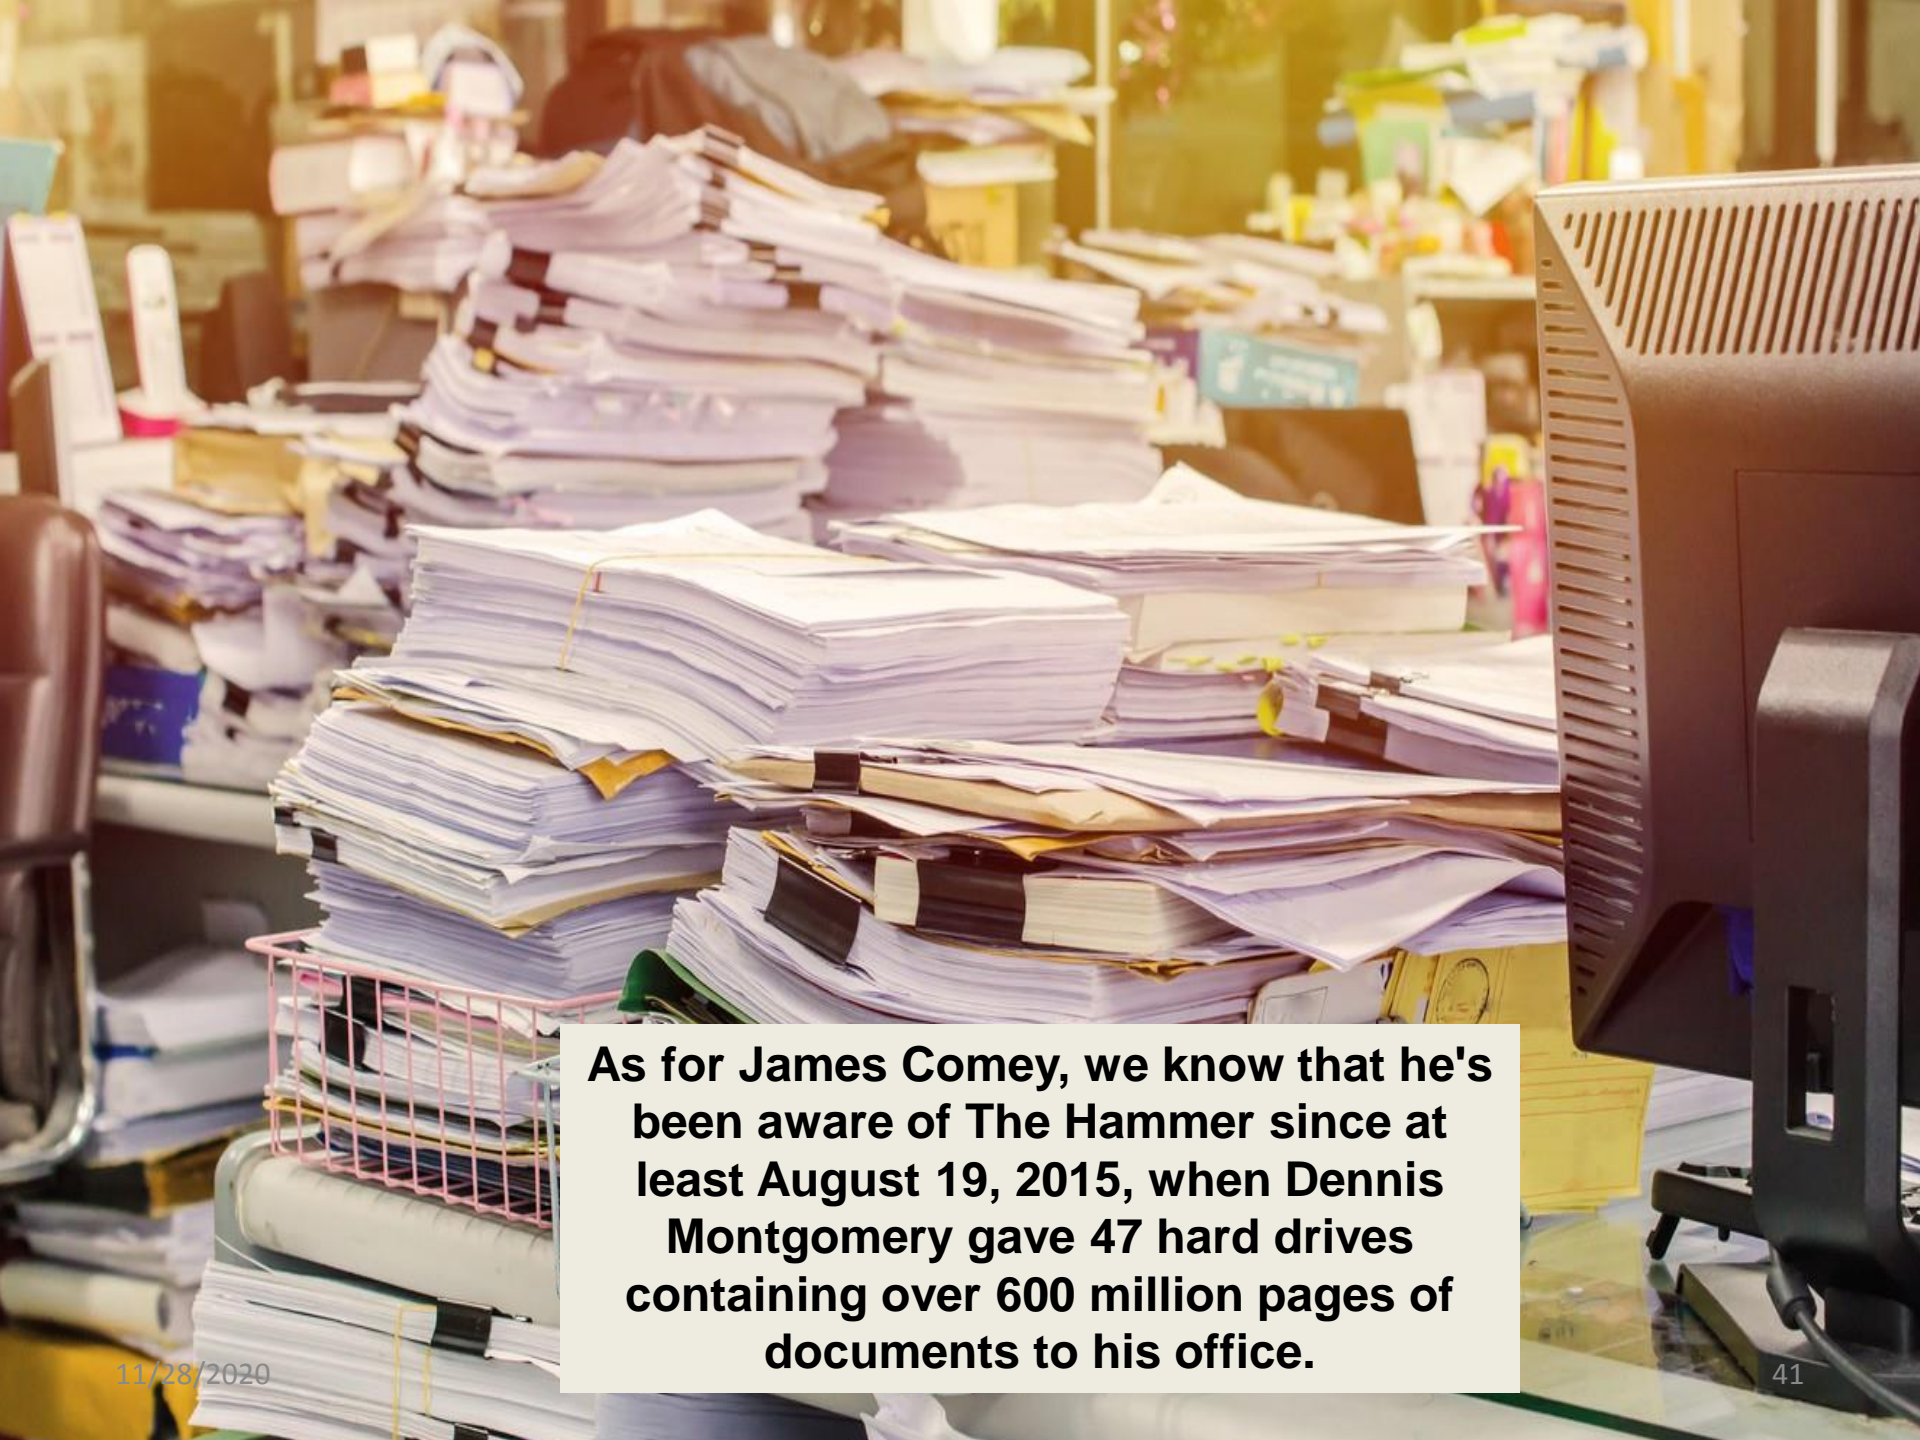

Gen McInerney first broke the story on March 19th, 2017 on Dr. Dave Janda's Operation Freedom podcast, including the fact that John Brennan, James Clapper, Robert Mueller and James Comey were directly involved with Barack Obama in operating The Hammer as a means of leverage and blackmail of their targets.

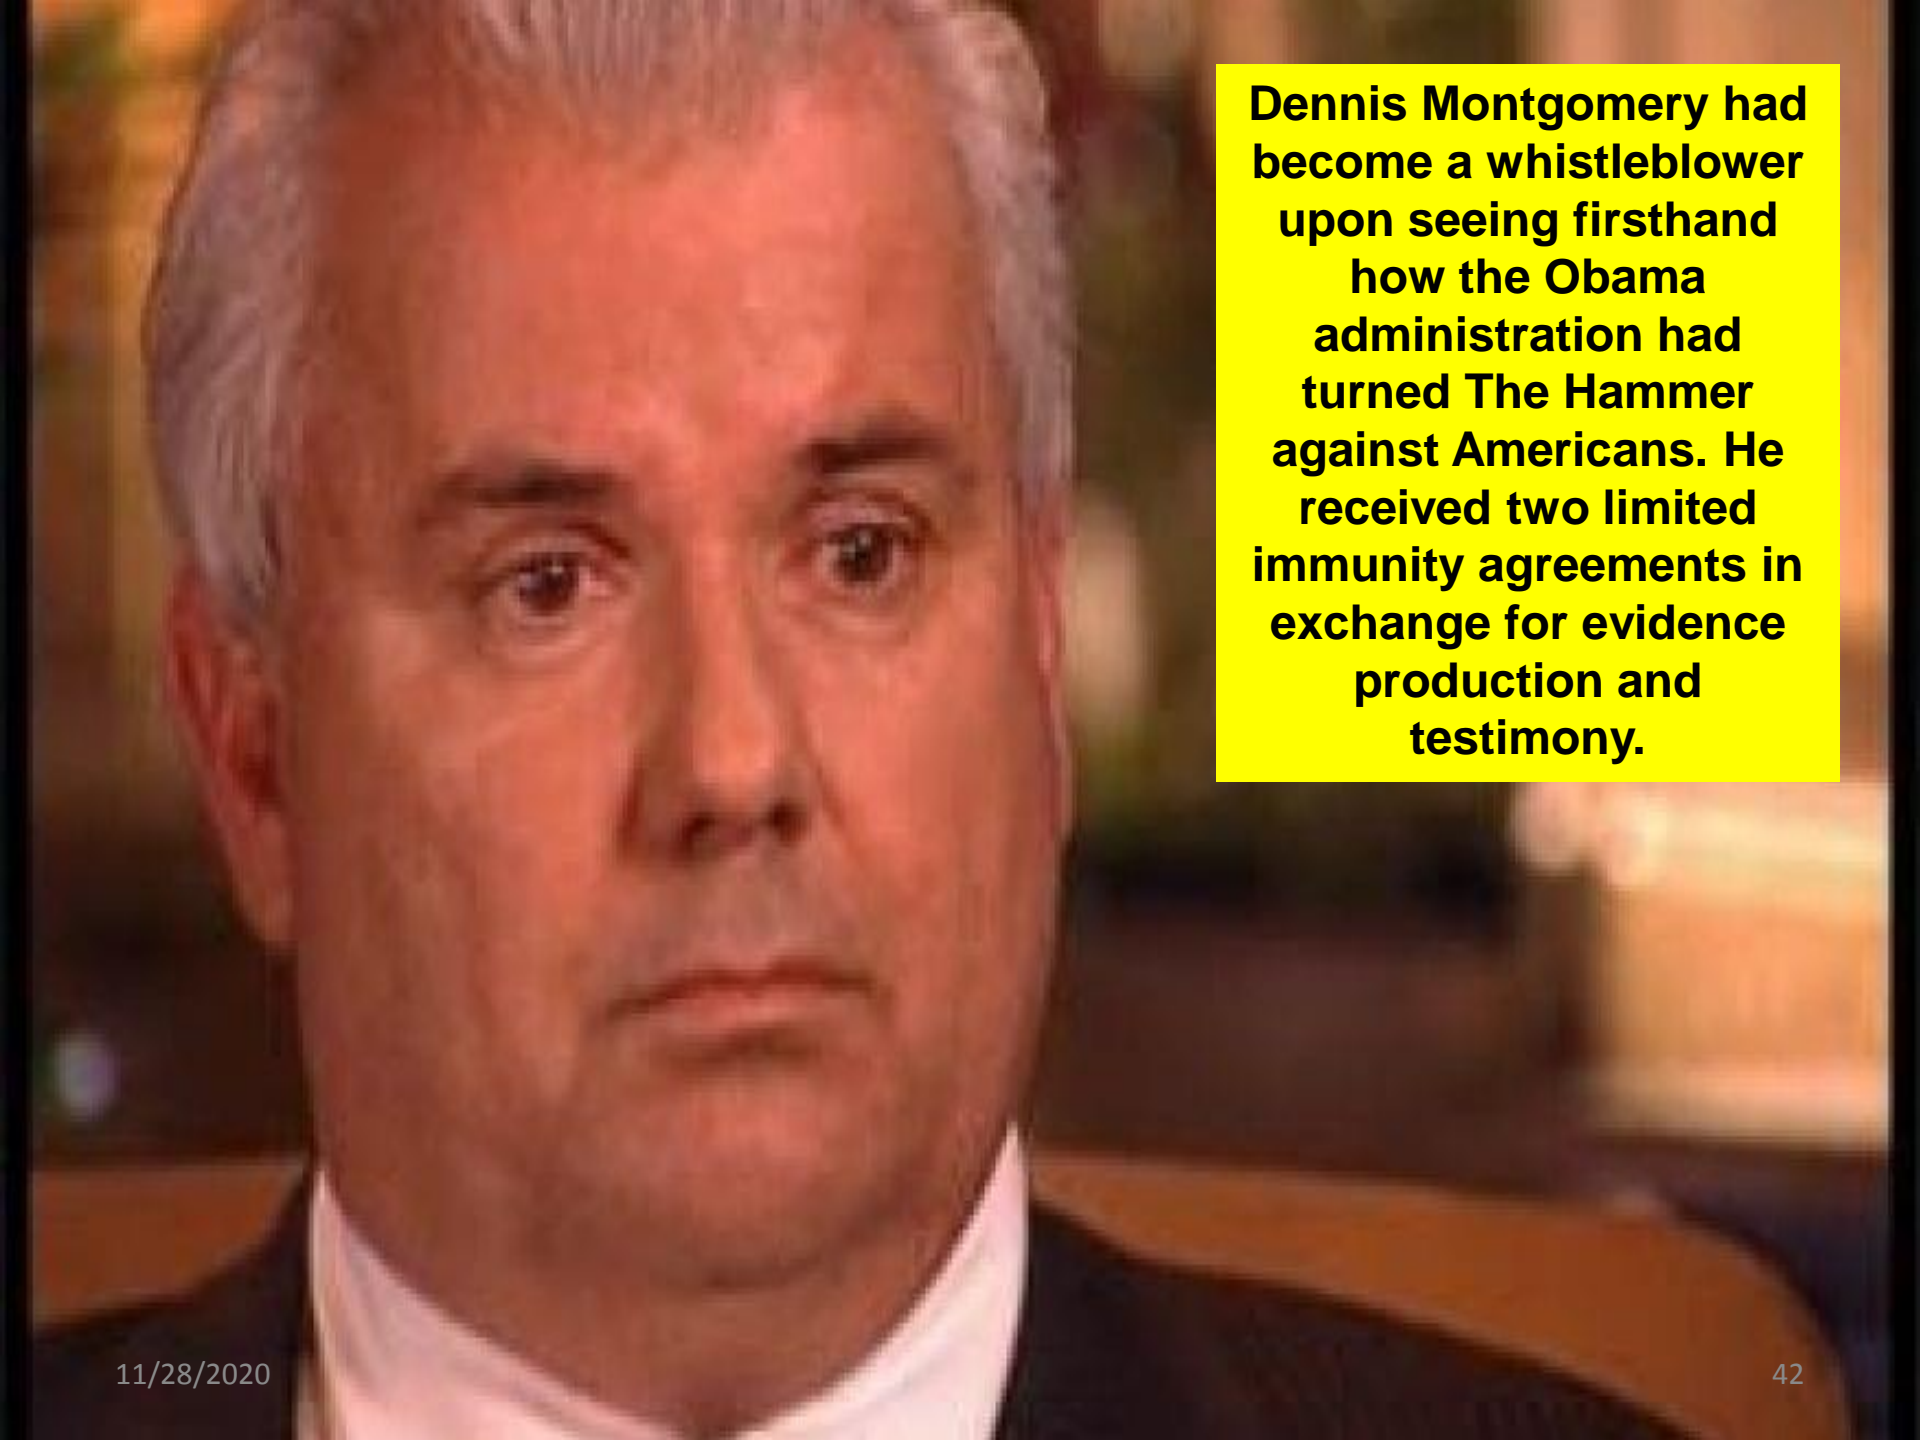

The USIC (United States Intelligence Community) has developed the Hammer and Scorecard tools, which were released by Wiki Leaks and independently confirmed by Lt. Gen Thomas McInerney (USAF, retired), Kirk Wiebe, former NSA official and Dennis Montgomery, former CIA analyst). The Hammer and Scorecard capabilities are tradecrafts used by US intelligence analysts to conduct MITM attacks on foreign voting systems, including the Dominion Voting System (DVS) Democracy Suite and Systems and Software(ES&S)voting machines without leaving an electronic fingerprint. As such, these tools are used by nefarious operators to influence voting systems by covertly accessing DVS and altering the results in real-time and without leaving an electronic fingerprint. The DVS Democracy Suite Election Management System (EMS) consists of a set of applications that perform pre-voting and post-voting activities.

Within moments of this broadcast, Peter Strzok and Lisa Page were texting each other about it, as seen in their declassified texts!

As for James Comey, we know that he's been aware of The Hammer since at least August 19, 2015, when Dennis Montgomery gave 47 hard drives containing over 600 million pages of documents to his office.

A close-up portrait of a middle-aged man with short, graying hair, wearing a dark suit jacket and a white collared shirt. He has a serious, somewhat somber expression and is looking directly at the camera. The background is blurred, showing what appears to be an indoor setting with warm lighting.

Dennis Montgomery had become a whistleblower upon seeing firsthand how the Obama administration had turned The Hammer against Americans. He received two limited immunity agreements in exchange for evidence production and testimony.

Montgomery says the Obama White House provided 1,200 preloaded BlackBerry devices to trusted Obama insiders, including to Hunter Biden and that the FBI and DOJ are in possession of this body of evidence.

This would indicate that they have long been aware of Hunter and Joe Biden's espionage activities, such as the sale of a US military technology manufacturer to the CCP via Hunter's private equity company, Bohai Harvest.

Montgomery says the 1,200 BlackBerry devices, similar to those used by Obama and Hillary communicated over a closed encrypted secure network, known as PIN-to-PIN messaging that did not traverse the Internet, operating directly off The Hammer network.

HAMMER

Each of those devices could access The Hammer Vault, a secret database of The Hammer's illegally-collected data, including corporate and military intellectual property and US Defense secrets, accessible only to Obama team insiders.

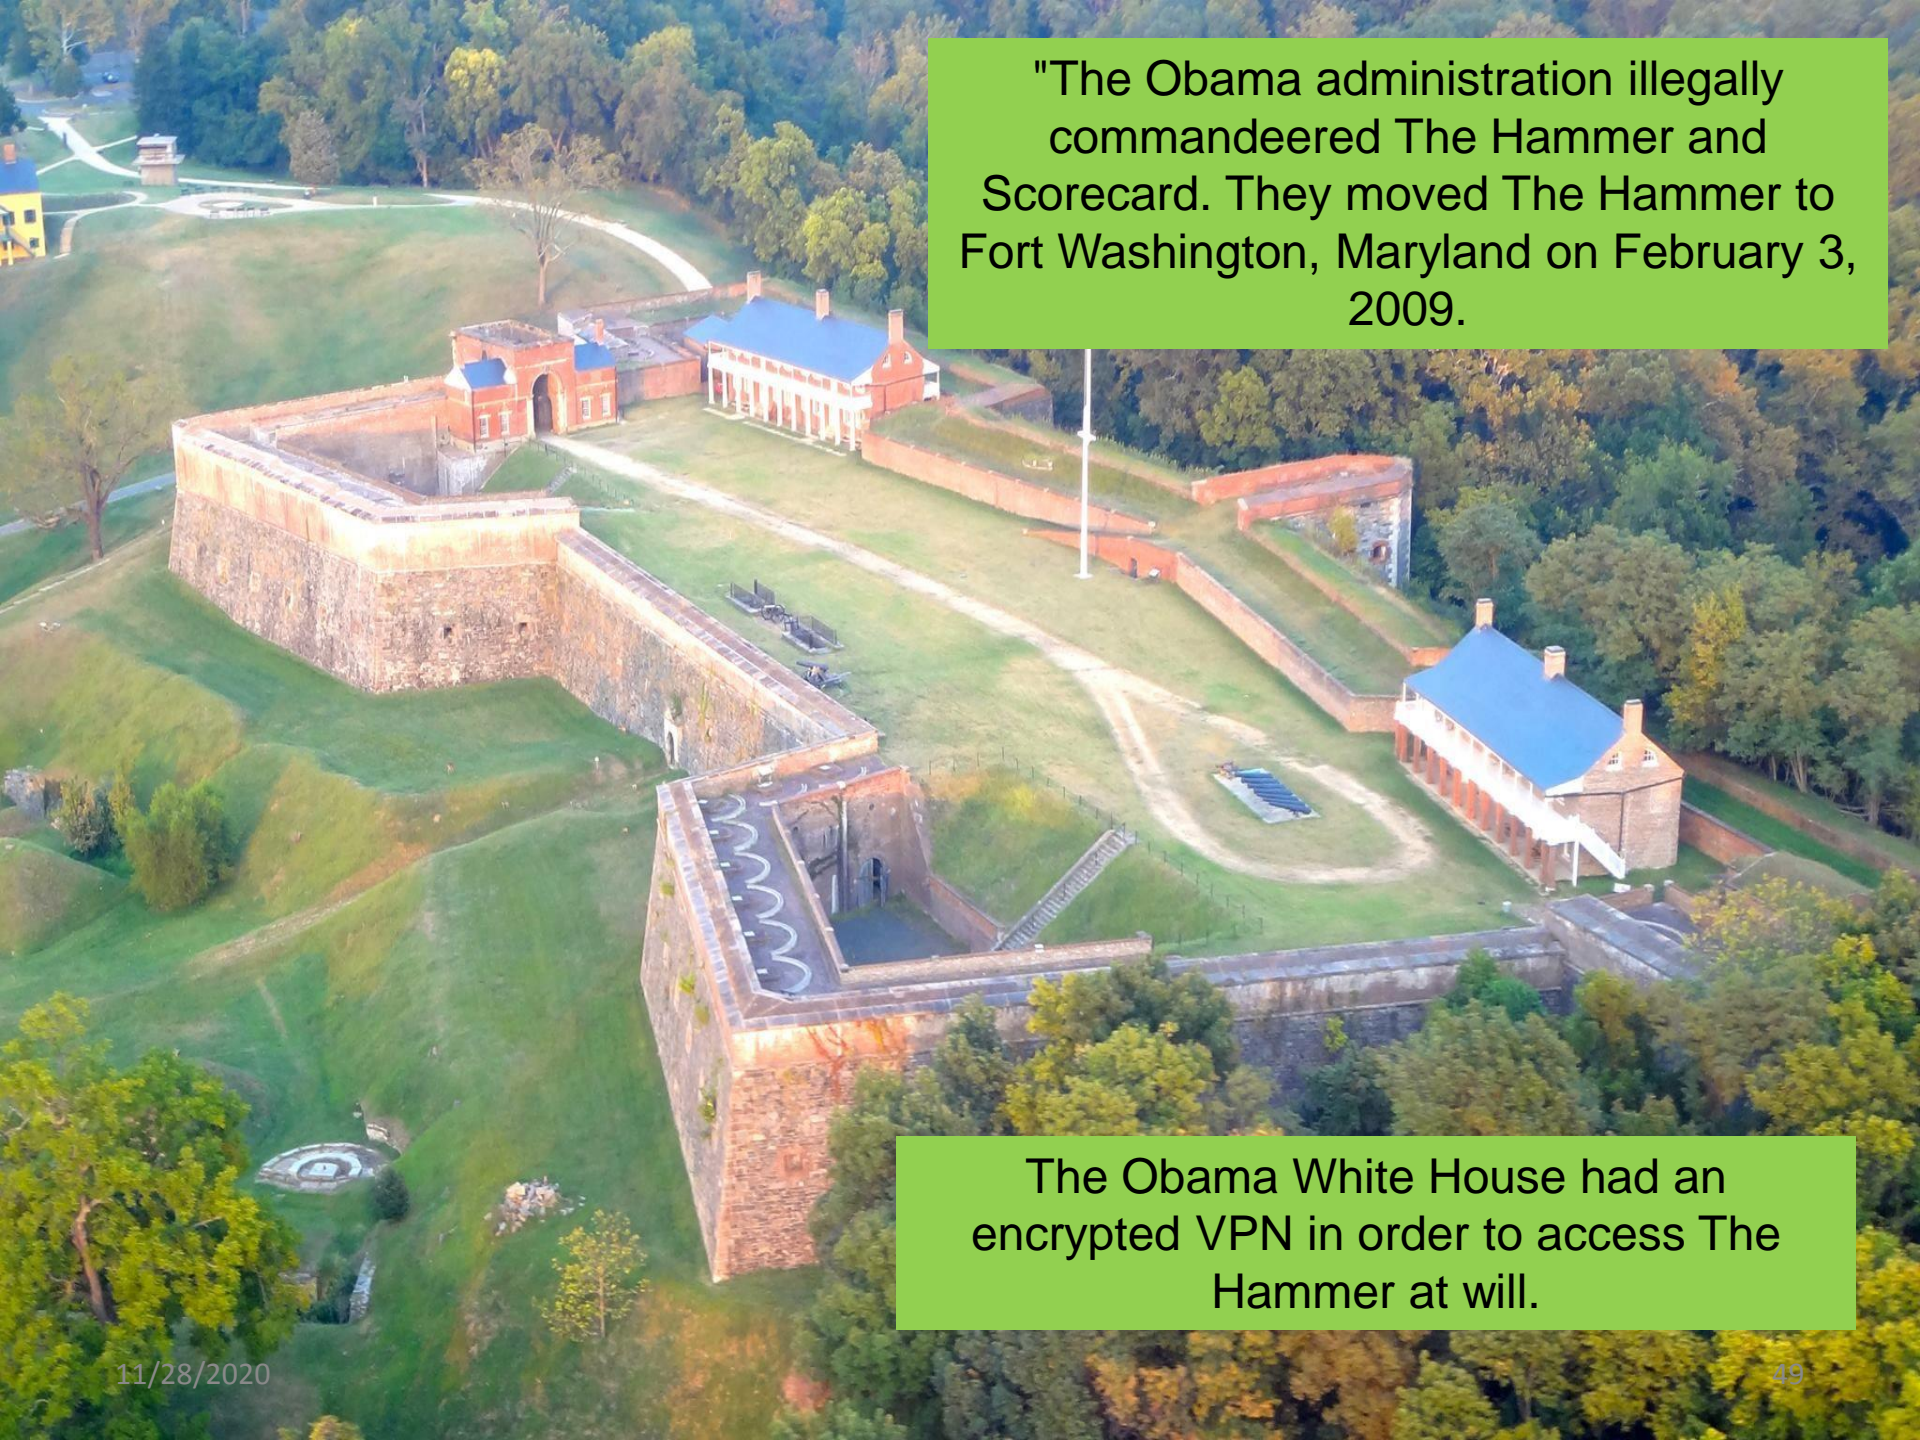

Montgomery's 600 million pages of documents show that for more than four years before the 2016 election, four contractors working for the Obama Administration's FBI illegally surveilled American citizens. Moreover, the FISA court was made aware of this and has communicated its findings to the Justice Department.

SCORECARD

Yesterday on the War Room, Gen McInerney revealed that the Obama administration added an application to The Hammer called Scorecard, which he says, "Changes votes at a certain point in the voting stream – and by the way, the Obama administration used it in the 2012 Elections in Florida and both Obama and Biden are very familiar with this."

"The Obama administration illegally commandeered The Hammer and Scorecard. They moved The Hammer to Fort Washington, Maryland on February 3, 2009.

The Obama White House had an encrypted VPN in order to access The Hammer at will.

"On December 20, 2015, as part of a summary of information disclosed in The Whistleblower Tapes, The American Report revealed the following on The American Report's official Facebook page:

**I think the whistleblower
did the right thing.**

READ THE WHISTLEBLOWER

"Florida voter registration disk removed and new disk inserted for redistricting via **"The Hammer"** computer system in Fort Washington Maryland via Navy Intel cover...(they stole the Florida election via re-districting in Florida? How many other states did Brennan and Clapper do this?)"

McInerney continues, "They used [**Scorecard**] in the Primaries and Bernie lost to Biden... So, it is ready to go. I just found out about this yesterday."

Sidney [Powell] played a very important role in assisting me and [journalists] Mary Fanning and Alan Jones in trying to get the word out, so the American people know all this enthusiasm you're talking about in Pennsylvania gets changed very quickly with this software program [Scorecard] that switches 3% of the votes."

Dominion Voting Systems shares an office floor with the George Soros-funded left-wing Tides Foundation in Toronto, NATIONAL FILE has learned. Our tipster makes clear that “Soros people” are very close with Dominion, which has partnered with a voting technology company chaired by one of left-wing billionaire George Soros’ best friends and associates. Dominion was caught flipping votes from President Donald Trump to Joe Biden in the 2020 election, and Trump has cited data to accuse Dominion of widespread vote-flipping and vote-losing in key states. Dominion is headquartered in Toronto and has a U.S. office in Denver.

11/28/2020

The Robertson Building's Directory of Tenants shows that Dominion Voting is listed at both Suite 200 (the suite Dominion lists publicly) and also Suite 370, which places it in neighborly range of the Tides Canada Foundation in suite 360. Tides Foundation in America, based in San Francisco, created and financially supports Tides Canada Foundation.

The Tides Foundation has reportedly received more than \$20 million in donations from George Soros' groups, and Tides shares Soros' vision for a radical left-wing makeover of Western civilization and the world. Tides has given out money to numerous left-wing groups including ACORN and Project Vote and recently created the Black Lives Matter Support Fund.

Dominion “got into trouble” with several subsidiaries it used over alleged cases of fraud. One subsidiary is Smartmatic, a company “that has played a significant role in the U.S. market over the last decade,” according to a [report](#) published by UK-based AccessWire.

Breaking News!: Kamala D. Harris failed to disclose her relationship to Sir Nigel G. Knowlton, her husband Douglas C. Emhoff's former boss at DLA Piper Plc (London, UK).

Sir Nigel is a fellow director of SGO Smartmatic with Lord George Mark Malloch-Brown that controls NV, WI, PA, GA, MI, WI voting machine from Dominion, Smartmatic, ES&S, Sequoia, Premier, Diebold and OpTech voting machines responsible for the massive 2020 voting fraud.

These undisclosed Harris-Emhoff relationships are prima facie ethics fraud and disqualify Kamala Harris from running for dog catcher

Scrap Corruption-ridden Electronic Voting – Now!

Finding: All prominent electronic voting systems in the U.S. (Smartmatic, Sequoia, Diebold, ES&S, Dominion and Hart InterCivic) are networked to the *same* software engine and controlled by the same financiers tied to George Soros and the Queen's Privy Council, thus making corrupt practices in U.S. elections a foregone conclusion. Lord Mark Malloch-Brown and Sir Geoffrey E. Pattie brag about their ability to "bend" elections, protected by the Queen.

Recommendation: In addition to the companies identified below, there are other companies trying to make voting secure with jpegs, separate validations, etc. on separate machines. However, no tech of any kind can maintain a "bipartisan chain of custody." The human eye cannot see silicon circuits, software induced voltages, and that which is hidden from empirical observation. We can only 'trust' the process and the people. Electronic voting offends the entire concept of our Republic -- which was formed on the concept that authority, being given from the "power of the people" who gain it directly from God, must be separated with jurisdictional boundaries so that the "tendency of men with too much authority to 'oppress'" can be muted by that separation. Centralizing the voting process so that the 'Fake News' can report a sensationalized and profitable result is pure idiocy. We the People should not trust government. We must insist at all times and under all circumstances that dual-Federalism is maintained. The job of the People is to ensure that the boundaries are maintained. We must all be mechanics of the Republic. The following voting machines must be scrapped immediately as the fruit of a poisoned tree called technocracy.

Richard Grenell ✓ @RichardGrenell · Nov 9

Why didn't @davidspunt say that the DOJ official who resigned over launch of voter fraud investigation was the same official accused of targeting conservatives with Lois Lerner at the IRS during Obama Administration?!

Seems relevant.

In February 2015, Tyler Harber, a Republican campaign manager and political consultant, pleaded guilty "to one count of coordinated federal election contributions and one count of making false statements to the FBI." This case, which was prosecuted by Pilger and Chief Mark D. Lytle of the Financial Crimes and Public Corruption Unit of the Eastern District of Virginia, was the first criminal prosecution for campaign finance coordination between political committees in the United States.^[4]

IRS targeting involvement

The House Oversight Committee learned about a database Lois Lerner, then head of the tax-exempt organizations division of the Internal Revenue Service (IRS), shared with the Federal Bureau of Investigation (FBI) after interviewing Pilger and reviewing emails between him and Lerner. The discovery of this database eventually launched a Congressional investigation into whether the IRS was improperly targeting conservative organizations applying for a tax-exempt status.^[5]

Pilger and Lerner discussed potentially prosecuting tax-exempt organizations, specifically 501(c)(4) groups, involved in political activity. Weeks before the 2010 midterm elections

We also have proof the way the elections went down was planned. Here's the union plans from Sept

- Trump's vote relative to Biden's will never be better than it will be at 10:59 when polls close on the West Coast.
- Results after that will favor Biden as the majority of the ballots remaining to be counted will be mail and provisional. This will fuel Trump's claims of fraud which will enrage his followers.
- Recent court rulings that allow ballots received after November 3rd if they are postmarked ahead of the election will be another target of fraud claims.
- Unless the election is extraordinarily close in the tipping point state, we should know the voters' choice by Saturday even though not all the ballots will have been counted.
- Arizona, Florida, Pennsylvania, Wisconsin and Michigan are most likely to be hot spots.
- PA, MI and WI have Democratic governors, aggressively anti-democratic legislatures and little or no experience with this much mail voting.
- Florida will likely be counted first.
- Trump will
 - Claim victory based on early leads and call for no votes to be counted after Election Day, and/or
 - Either claim widespread fraud or focus on urban Democratic strongholds if he is close enough in their states, especially Milwaukee, Detroit and Philadelphia.
 - Encourage his supporters to "watch" election administrators counting the ballots.
- What the Trump campaign and his supporters may do:
 - Intimidation at counting locations and elsewhere
 - Lawsuits
 - Exploiting legal rules to create frivolous delays to the counting process
- This will intensify as ballots counted after Election Day will favor Biden (mail + provisional).

Larry O'Connor, host of the Washington Examiner's Examining Politics, referenced articles from the New York Times and Huff Post that alleged a backdoor in Dominion Voting Systems used in several key battleground states that could have been exploited to create vote tallies "that did not exist."

Powell said those are part of the allegations being brought by the Trump campaign. “Their system even admits, their own training manual admits that people can go in and do that. That people can go in and put all kinds of votes in a “trash” folder and then ‘trash’ them,”

Powell said. "There are devices on the internet that can be used to see it and we have multiple people who actually saw it as it was happening. We essentially have some pictures of it and it is terrifying and it is a huge national security issue. Why the Department of Justice and the FBI have not done something on this immediately."...

“The information is coming in at a faster rate than our little team can even process it,” Powell said. “Americans are fed up with the corruption, they are starting to report it and come forward and give evidence.”

A Georgia election server contains evidence that it was possibly hacked before the 2016 presidential election and the 2018 vote that gave Georgia Gov. Brian Kemp a narrow victory over Stacey Abrams, according to an election security expert.

**SIDNEY POWELL HAS FILED
HER 104 PAGE COMPLAINT IN GEORGIA!
THE KRAKEN HAS BEEN RELEASED!**

**FAKE REPUBLICANS KEMP,
MITTENS, AND MORE WILL BE EXPOSED!**

Taken from the complaint Sidney Powell made in the state of Georgia

4.

The massive fraud begins with the election software and hardware from Dominion Voting Systems Corporation (“Dominion”) only recently purchased and rushed into use by Defendants Governor Brian Kemp, Secretary of State Brad Raffensperger, and the Georgia Board of Elections. Sequoia voting machines were used in 16 states and the District of Colombia in 2006. Smartmatic, which has revenue of about \$100 million, focuses on Venezuela and other markets outside the U.S. ³

An Affiant, who is a network & information cyber-security expert, under sworn testimony explains that after studying the user manual for Dominion Voting Systems Democracy software, he learned that the information about scanned **ballots can be tracked inside the software system for Dominion:**

(a) When bulk ballot scanning and tabulation begins, the "ImageCast Central" workstation operator will load a batch of ballots into the scanner feed tray and then start the scanning procedure within the software menu. The scanner then begins to scan the ballots which were loaded into the feed tray while the "ImageCast Central" software application tabulates votes in real-time. Information about scanned ballots can be tracked inside the "ImageCast Central" software application.

(See attached hereto Exh 22, Declaration of Ronald Watkins, at par. 11).

Affiant further explains that the central operator can remove or discard batches of votes. "After all of the ballots loaded into the scanner's feed tray have been through the scanner, the "ImageCast Central" operator will remove the ballots from the tray then have the option to either "Accept Batch" or "Discard Batch" on the scanning menu "(*Id.* at par. 8).

Affiant further testifies that the Dominion/ Smartmatic user manual itself makes clear that the system allows for threshold settings to be set to mark all ballots as “problem ballots” for *discretionary determinations* on where the vote goes. It states:

During the scanning process, the "ImageCast Central" software will detect how much of a percent coverage of the oval was filled in by the voter. The Dominion customer determines the thresholds of which the oval needs to be covered by a mark in order to qualify as a valid vote. If a ballot has a marginal mark which did not meet the specific thresholds set by the customer, then the ballot is considered a "problem ballot" and may be set aside into a folder named "NotCastImages". Through creatively tweaking the oval coverage threshold settings it should be possible to set thresholds in such a way that a non-trivial amount of ballots are marked "problem ballots" and sent to the "NotCastImages" folder. It is possible for an administrator of the ImageCast Central work station to view all images of scanned ballots which were deemed "problem ballots" by simply navigating via the standard "Windows File Explorer" to the folder named "NotCastImages" which holds ballot scans of "problem ballots". It is possible for an administrator of the "ImageCast Central" workstation to view and delete any individual ballot scans from the "NotCastImages" folder by simply using the standard Windows delete and recycle bin functions provided by the Windows 10 Pro operating system.

Defendants.

Dominion Voting Systems Fraud and Manipulation

4. The fraud begins with the election software and hardware from Dominion Voting Systems Corporation (“Dominion”) used by the Michigan Board of State Canvassers. The Dominion systems derive from the software designed by Smartmatic Corporation, which became Sequoia in the United States.

10. In deciding to award Dominion a \$25 million, ten-year contract (to a Dominion project team led by Kelly Garrett, former Deputy Director of the Michigan Democratic Party), and then certifying Dominion software, Michigan officials disregarded all the concerns that caused Dominion software to be rejected by the Texas Board of elections in 2018 because it was deemed vulnerable to undetected and non-auditable manipulation. An industry expert, Dr. Andrew Appel, Princeton Professor of Computer Science and Election Security Expert has recently observed, with reference to Dominion Voting machines: "I figured out how to make a slightly different computer program that just before the polls were closed, it switches some votes around from one candidate to another. I wrote that computer program into a memory chip and now to hack a voting machine you just need 7 minutes alone with it and a screwdriver."³

In July of this year, Natural News reported how California Gov. Gavin Newsom was caught wiring half a billion dollars to communist China as part of a “massive face mask money laundering scheme.” *Back in April, even the mainstream media was questioning what Newsom was up to when it was revealed that he had wired half a billion dollars to an electric car company in China to supposedly purchase “N-95 masks” for the Wuhan coronavirus (COVID-19).*

A close-up photograph showing a hand wearing a green nitrile glove reaching into a large, dense stack of white, circular face masks. The masks are piled high, filling most of the frame. The hand is positioned in the upper left quadrant, with fingers slightly curled as if selecting or moving a mask. The background is dark and out of focus, emphasizing the stacks of masks and the hand.

This decision was never voted on or approved by legislators, and when pressed about the details of the deal, Newsom refused to disclose them. Keep in mind that this half a billion dollars was just the first of two installments amounting to a full billion dollars being sent China to supposedly purchase face masks for Californians – face masks that never actually arrived, by the way. As of this writing, the Chinese electric car company in question, BYD, still has the money and has yet to send over a single face mask.

Now, bombshell information is emerging that indicates Georgia Gov. Kemp may be involved in exactly the same scheme. These state officials send huge amounts of money to China under the cover of buying “covid supplies,” then China launders the money into financial kickbacks for the Governor’s family members or business entities.

This is exactly what is now being alleged by attorney Lin Wood, and it describes a shocking pattern of communist Chinese infiltration and corruption of U.S. governors.

Adam Laxalt, former Nevada Attorney General, made an appearance on Fox News and blew the whole ballot fraud discussion wide open. He had a frank interview with Shannon Bream about the matter and it is a great watch. Finally, someone is willing to tell like it is about the election. We have been forced to watch so many people claim that these vote counts are the result of “glitches”.

mail-in ballots be like

“It’s important to understand first and foremost, how insecure this system is. We have over 600,000 mail-in ballots that have been counted—those are votes that are official in our system. We also know that we have unclean rolls—ballots that have been mailed to dead people, to people who have moved out of state, and people that got a dozen ballots in their homes, etc.”

Laxalt said.

“We’ve spoken to AI and Computer Vision experts on this, and they have told us that the registrar reduced the signature verification standard to 40%,” said Laxalt.

Shannon Bream was sure to explain this in layman’s terms for the viewers. For those who are unfamiliar with the process, it is simpler than you may have realized.

https://www.ntd.com/data-scientist-weird-spike-in-incomplete-nevada-voter-registrations-use-of-casinos-as-home-addresses_533602.html

The scientist, Dorothy Morgan, referenced in their affidavit, said she spotted a “historically strange” increase in voter registrations missing the sex and age of the voter, as well as registrations where casinos and RV parks are provided as “their home or mailing addresses” in the Third Congressional District, which covers much of Clark County and Las Vegas.

The people who are responsible for controlling these machines that read the voting signatures turned down the settings so that more ballot signatures could be accepted. It's a clear violation of protocol. From there, Bream asked him if he wanted to attach his name to these allegations. Laxalt said that this is not an accusation because it has already been discussed in an open court.

Pennsylvania State Senator Doug Mastriano, a Republican, said Friday that ***the GOP-controlled state legislature will make a bid to reclaim its power to appoint the state's electors to the Electoral College,*** saying they could start the process on Monday, Nov. 30.

Mastriano told War Room that he has been in communication with Republican Pennsylvania House and Senate members to reclaim their constitutional authority from the secretary of state's office. The reason why, he said, is due to a hearing in Gettysburg with GOP state senators that heard witness testimony from poll watchers and others who alleged there were significant irregularities and fraud during the presidential election.

He said that about half of the state GOP House and Senate leaders and legislators support the move to reclaim their constitutional authority. Both the State House and Senate are controlled by Republicans.

This week, Sebastian Friebel, parliamentary adviser to the Bundestag, resigned before writing a missive exposing how the globalists are exploiting Covid-19 to destroy democracy, freedom and justice. The Great Reset, and its corollary of the Fourth Industrial Revolution, is a plan for a sustainable economy that will 'save the planet'. The instigator is the World Economic Forum, whose annual conference at the alpine resort of Davos is where billionaires decide how lesser mortals shall live. Clearly they want to reduce us to digital slaves.

Covid-19 is enabling the dream to become reality: the pandemic justifies a global emergency response, with laws and lockdowns that prevent discussion, debate and demonstrations. Friebel lamented that 'after many decades of great freedom and economic prosperity, the world is apparently once again moving towards authoritarian forms of government with mass surveillance, censorship and extensive control of the population'.

The Great Reset entails smashing everything to pieces, using the cover of Covid-19, to radically change society and its structures, benignly sloganized as 'build back better'. The UK economy is set to contract by 11% this year, the worst on record. The globalists want countries to pile on the debt, because this increases their dependence and thus obedience to the New World Order. The IMF offered Belarus \$940 million in June, on condition that it imposed lockdown, compulsory masking and quarantine (the president refused, and revealed the bribe).

Digital surveillance is removing our rights to a private life. A digital passport had already been introduced by the WEF before Covid-19, with investment by the Rockefeller Foundation, Google, JP Morgan, BlackRock and UN agencies. Now it will feature vaccination records, denying 'anti-vaxxers' the right to travel. Eventually a subcutaneous microchip will disclose our biometric identity to anyone in authority. A cashless society has been forced upon us, giving governments and corporates control of our transactions. Communist China has shown the way. Ethical scrutiny, informed consent and privacy will be nothing but quaint romantic ideals.

So this is the New Normal, a cure much worse than the disease. A state of emergency that lasts forever: masks, social distancing rules and involuntary vaccines. 'Smart cities' where every movement is tracked, and you cannot leave without permission. Friebel's account shows how the German government has uncritically accepted that everything must change for the Great Reset, with no dissent allowed. The conspiracy is no longer a theory; the conspirators have laid out their plans. The ordinary people must wake up before it's too late.

US elections - Last night

There is no evidence of widespread voter fraud in the US election, fact-checkers confirm following Trump campaign press conference

Trump's personal lawyer Rudy Giuliani and other members of his campaign's legal team, including attorney Sidney Powell, held a press conference on Thursday to give updates on their team's efforts to legally contest the results of the 2020 presidential election. Journalists and fact-checkers, including some from Fox News, said that many of the claims made about voter fraud and technology were false. Fox News was the only major news network to air the press conference.

*Psalms 14:4 "All who do evil,
wickedness, iniquity – do they not
know, they who eat my people as
though they were eating and
destroying bread? They do not call
on Yahuah!*

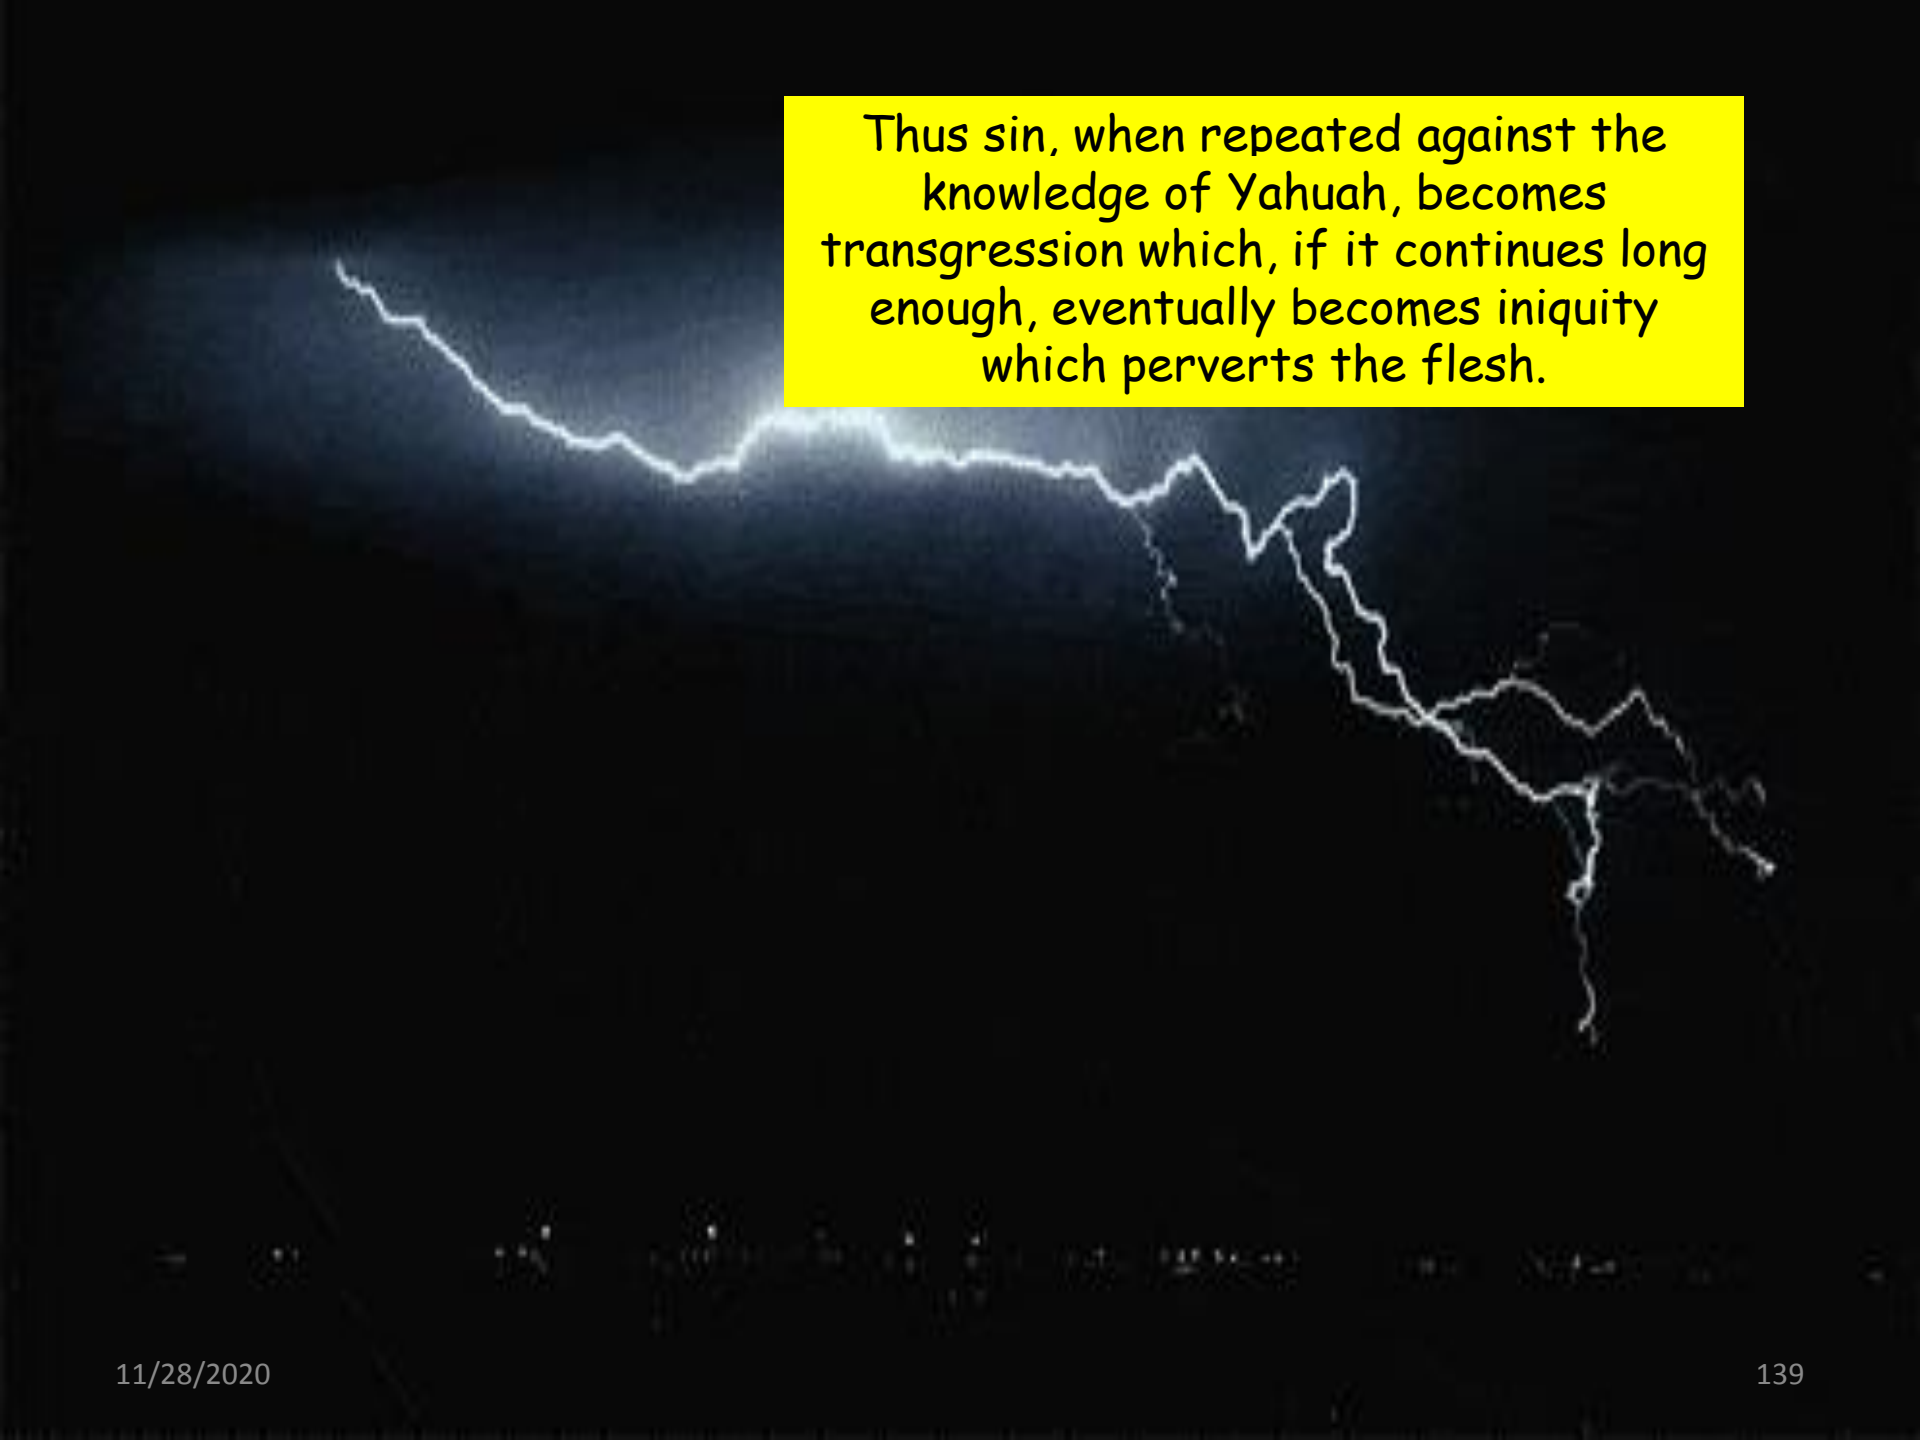

(Prov. 6:13-14)

“Winking in his eye with malicious intent, shuffling in his foot as a signal, pointing in his fingers as a kind of instruction, perversion and crookedness in his heart, he devises and plots evil continually; at all time he sows discord and contention.”

Psalms 28:3.

Do not drag or pull me away with the wicked and unrighteous or with the workers and plotters of evil, who speak of peace with their neighbors, while evil and wickedness is in their heart.

A bright, jagged lightning bolt strikes down from a dark, stormy sky. The lightning is white and yellow, contrasting sharply with the black background. The bolt starts in the upper left and branches out as it descends towards the right side of the frame.

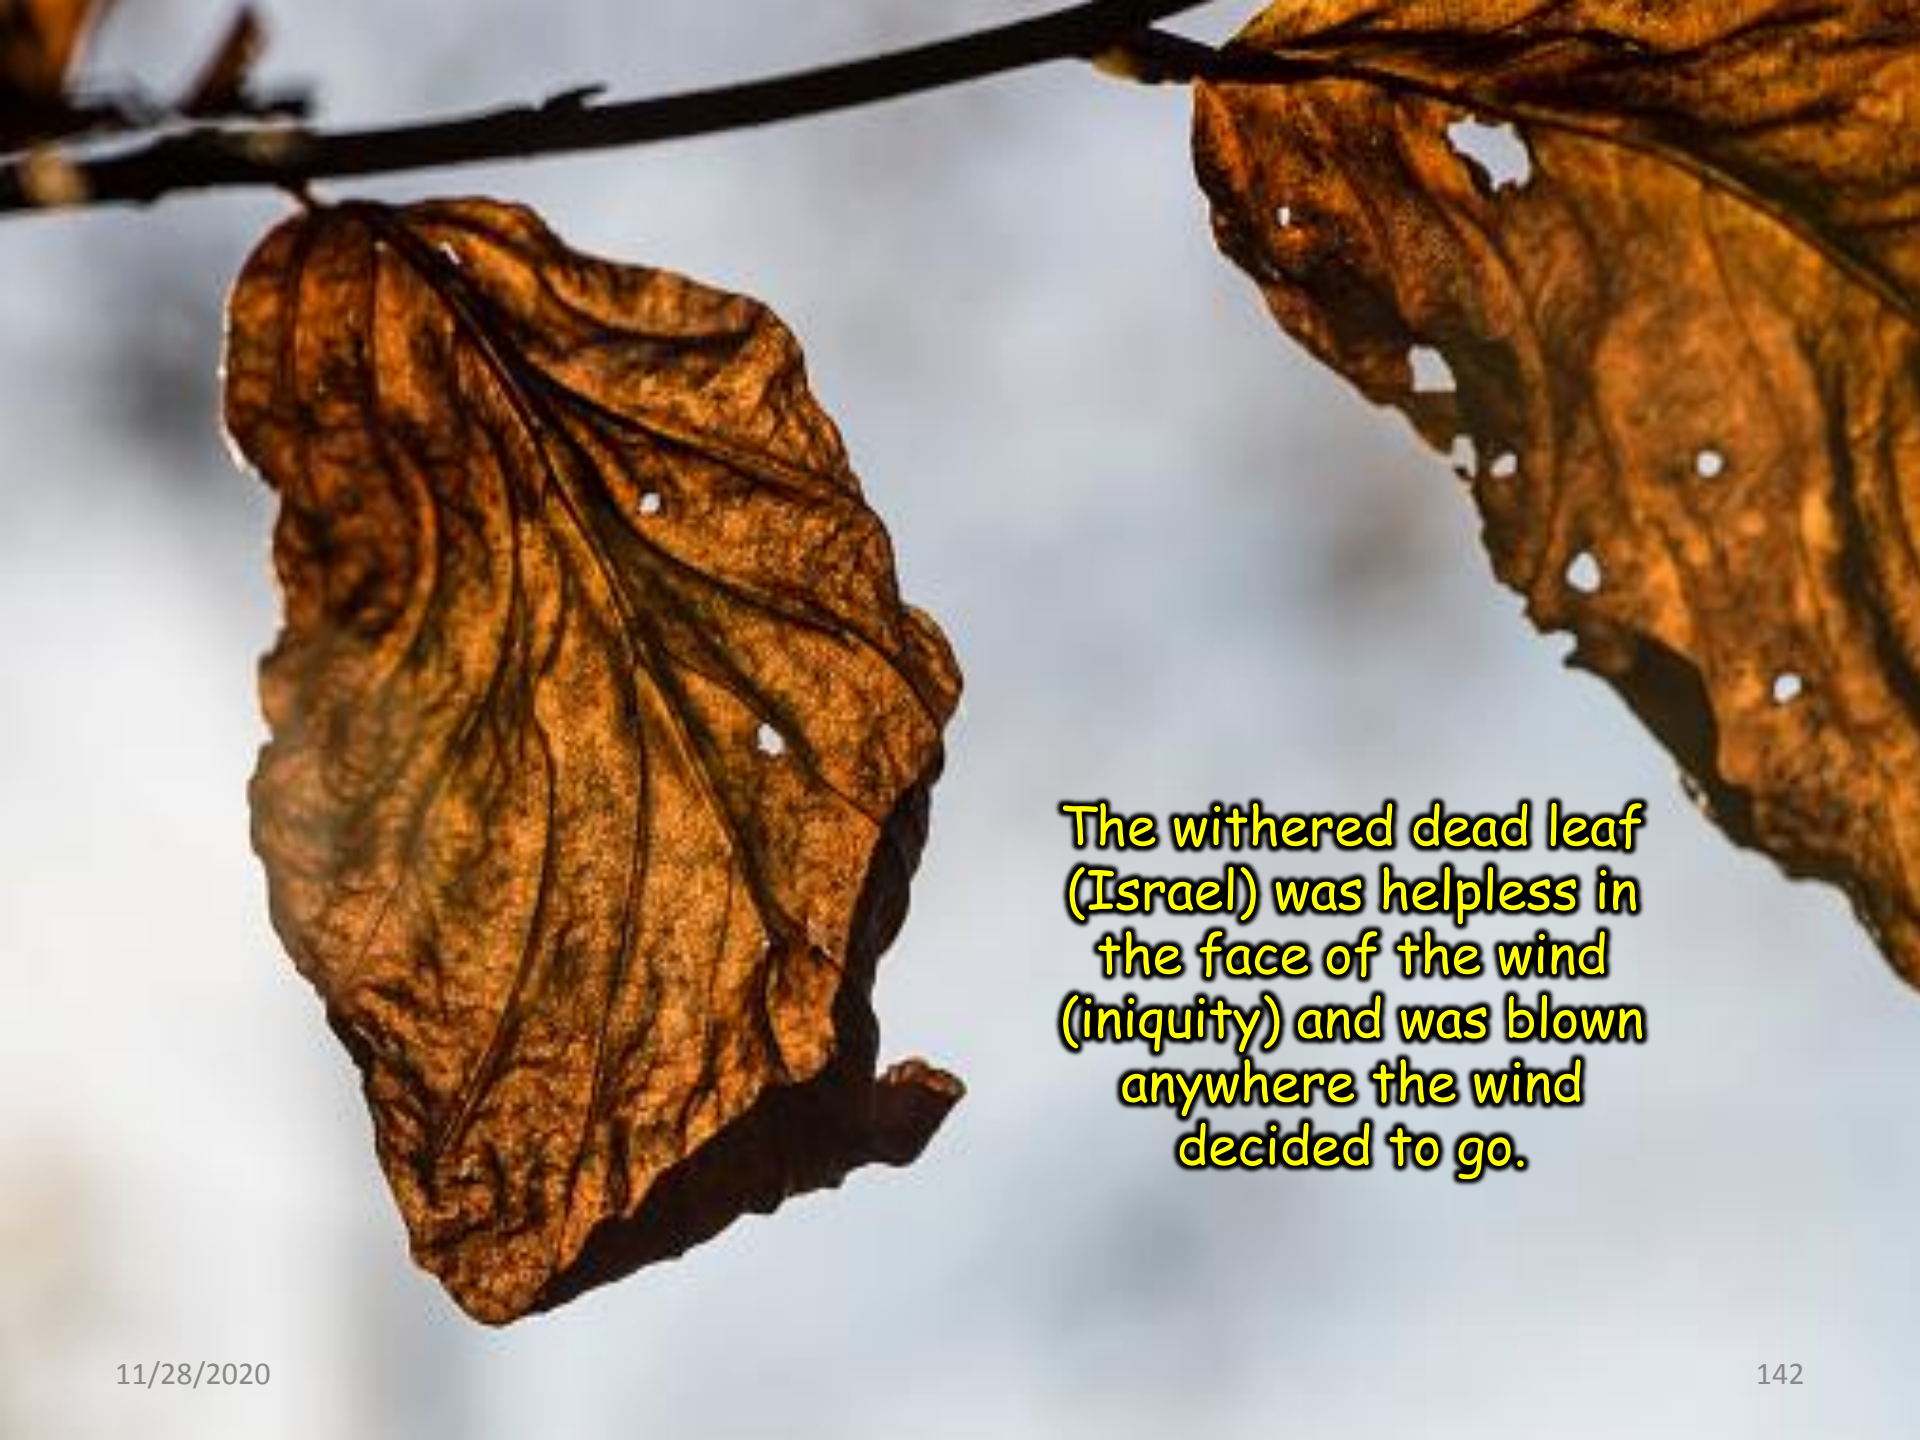

Thus sin, when repeated against the knowledge of Yahuah, becomes transgression which, if it continues long enough, eventually becomes iniquity which perverts the flesh.

This perversion changes the DNA/RNA structure of the "flesh" resulting in genetic changes that are passed on from generation to generation - just as the Scripture says in the Second Instruction, which has not been repealed by Yahuah! This is the way high blood pressure, alcoholism, sexual perversions, jealousy, anger, fear, etc. are passed down from generation to generation.

This characteristic of iniquity is seen in Isaiah 64:6,7 where Yahuah told Israel that they were delivered over to the 'power' of iniquity (v 7).

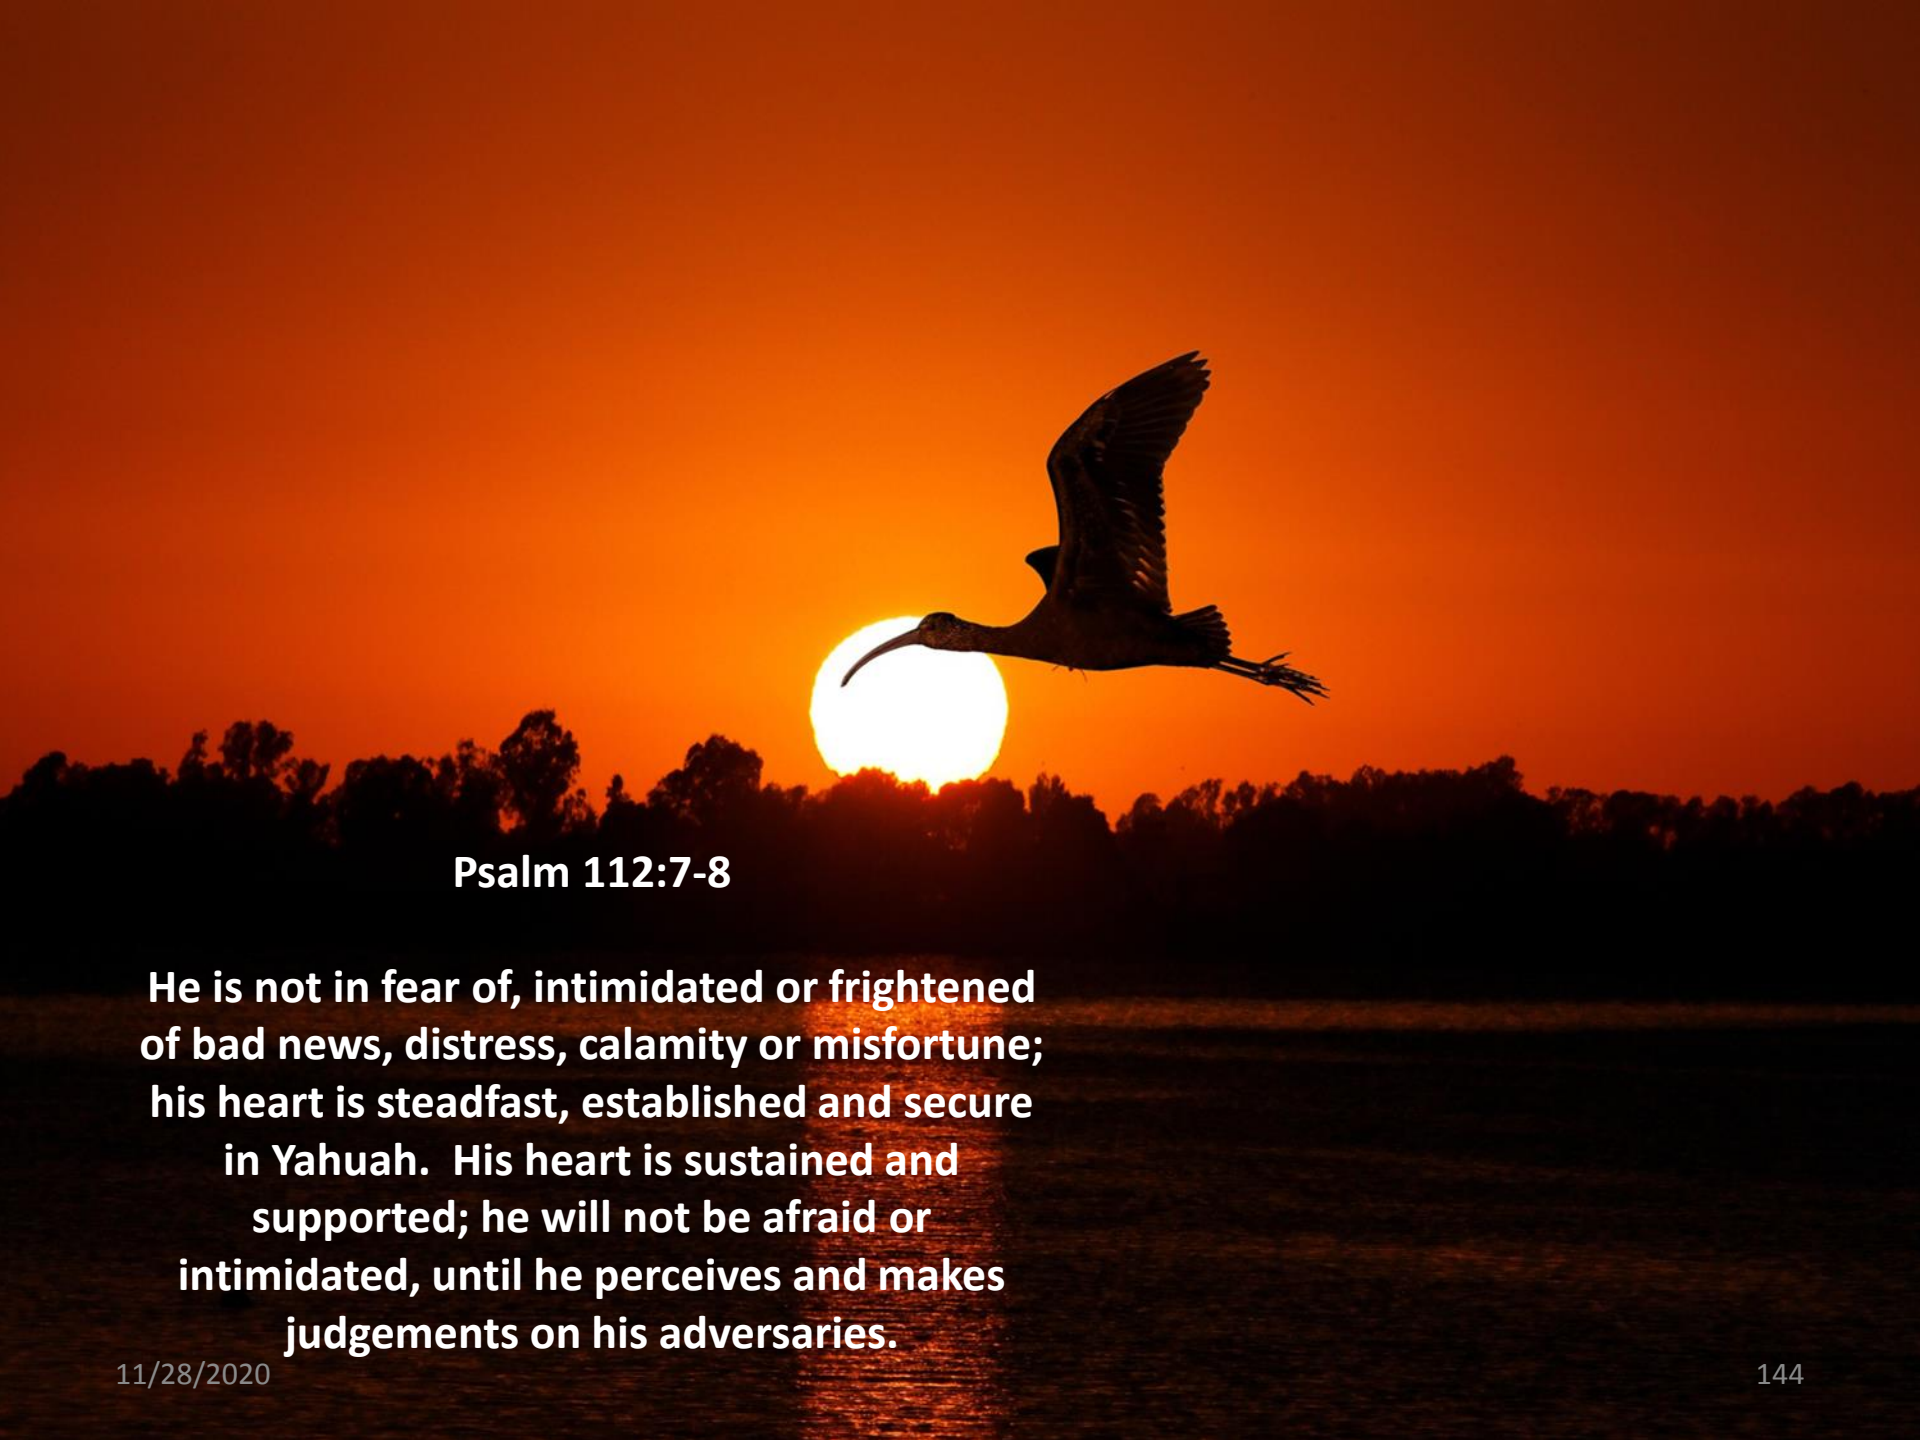

Yahshayahu then uses the analogy of leaves being carried away by the wind as a graphic illustration of iniquity's unusual capacity.

The withered dead leaf
(Israel) was helpless in
the face of the wind
(iniquity) and was blown
anywhere the wind
decided to go.

This means that when people have iniquity in their lives, they are no longer in control of their own destiny. Another force controls their life. Can you guess which force it is? *It's not one you want to be with you!*

Psalm 112:7-8

He is not in fear of, intimidated or frightened of bad news, distress, calamity or misfortune; his heart is steadfast, established and secure in Yahuah. His heart is sustained and supported; he will not be afraid or intimidated, until he perceives and makes judgements on his adversaries.
